BURLEY

The sleek, functional **D'Lite** is the top-of-the-line trailer for the avid user or occasional cruiser with great taste. Featuring a suspension system, UV protected windows and deluxe padded seating for two, it has a 100 pound capacity, a height-adjustable handlebar, and a stow-away sunshade. Choose from multiple color options.

A SAFER WAY TO SEE THE WORLD

You want to keep your children safe. So do we. For instance, an exclusive, adjustable handlebar doubles as a roll bar. Every Burley child trailer exceeds ASTM safety standards. Our in-house testing protocols are the toughest out there. And we think it's worth it.

BUILT TO LAST

Whether navigating city streets or cruising through the countryside, you'll enjoy design features like our enclosed cargo compartments, lightweight aluminum frames and 600D all-weather fabric covers and seats on all our child trailers.

The **Encore** is the perfect fit for active families who don't need all the bells and whistles of the D'Lite. Bike, stroll, and jog in comfort year-round with the all-weather zippered cover and adjustable sunshade.

Children enjoy the spacious interiors of every Burley trailer, while the rear cargo space is a convenient place to put all the things you'll need.

The **Bee**, lovable in its simplicity, is affordable and practical without sacrificing safety and durability.

The **Cub** features an ultra-durable plastic base that minimizes noise and increases insulation. It's perfect for all road and weather conditions, without adding excessive weight.

The **Solo**, the single-seat, lighter version of the D'Lite, has a 75 pound capacity and seating for one child.
