Funportation™

BURLEY®

Go play, every day.

What is funportation?

fun•por•ta•tion (n.) – The act of carrying people or cargo from one place to another in a way that provokes outbursts of joy and spontaneous smiling.

Whether it's taking kids to the store, commuting to work, or heading off on a 'round-the-world adventure, we believe the trip should be a whole lot more than just getting from one place to another.

That's why we invented funportation... 35 years ago.

And we've been leading the way ever since, because we never stop looking for ways to make our products more comfortable, more durable, more convenient and more safe.

All of which adds up to you having more fun.

Wanted: Director of Funportation

Qualifications:
The ideal candidate possesses a strong desire to go out and play, to move, to laugh, to do things a little bit differently than most, to encourage their children to be outdoors and active, to turn the daily routine into a daily adventure.

Responsibilities:
Acquire durable, quality equipment (yes, that's where we come in). Ensure that everyone in the family gets the recommended daily allowance of safe, active fun.

Get your recommended
daily allowance of fun.

Child Trailers

D'Lite also available in orange:

D'Lite™

The D'Lite is our most comfortable, stylish bike trailer. With our versatile add-on kits, it is easily adaptable for strolling, jogging, cross-country skiing and snowshoeing – so neither you nor your children ever have to miss out on the fun.

Distinguishing features:

- Seats two children
- Bowed-out sides for more elbow room
- Adjustable suspension

D'LITE

Solo™

The D'Lite's little sibling, the Solo, has all the same features but is designed to carry just one child, making it a few inches narrower and a bit lighter.

Distinguishing features:

- Seats one child
- Narrower and lighter than the D'Lite
- Bowed-out sides for more elbow room
- Adjustable suspension

SOLO

"It's such a great way to get outside and stay active when you have a small child. But what's funny is that I rode in my parents' Burley trailer when I was little. And they still have it!"-Jennifer, 27

Adjustable suspension provides a smoother ride (featured on D'Lite, Solo and Cub).

For more info, see the specs, features & accessory/kit compatibility chart.

Getting there should be
way more than half the fun.

Child Trailers

Cub®

While our other trailers have a tough fabric floor, the Cub has a super durable, molded plastic bottom. The Cub is for anyone whose idea of fun includes daily use in harsher weather or other rugged conditions.

Distinguishing features:

- Seats two children
- Molded plastic bottom
- Adjustable suspension
- Also available in a rental version

CUB

Encore®

The Encore is easily adaptable for jogging, strolling and cross-country skiing. It has many of our best features, such as reclining seats and tinted windows, but without bowed-out sides and suspension, it's more affordable than our top-of-the-line trailers.

Distinguishing features:

- Seats two children
- Removable, reclining seat
- Easy-to-use parking brake

ENCORE

Our ergonomic handlebar is easily adjustable to suit people of different heights (featured on: D'Lite, Solo, Cub, Encore and Honey Bee).

For more info, see the specs, features & accessory/kit compatibility chart.

At Burley, the safety of your child is our top priority. We led the campaign for ASTM bike trailer safety standards, and we continually push to improve and exceed them.

For more info, see the specs, features & accessory/kit compatibility chart.

Honey Bee™

The hardworking Honey Bee is a great balance of value and versatility. It comes with a single front stroller wheel – so you are immediately ready to go by bike or on foot.

Distinguishing features:

- Seats two children
- One-Wheel Stroller Kit included
- New for 2014, the Honey Bee features the hub-engaged brake and easy latching system used on the D'Lite, Solo, Cub and Encore.

HONEY BEE

Bee®

The Bee is the most affordable, ASTM-certified bike trailer on the market. This lightweight trailer fits two children comfortably. When it comes to quality, durability and safety we never cut corners.

Distinguishing features:

- Seats two children
- For use as bike trailer only
- New for 2014, we've added a second pocket in the child area and an improved cover.

BEE

Add-ons and Accessories

Our trailers are easily customized to suit your needs and your favorite activities (some older trailers may not be compatible with all accessories; see Burley.com for details).

One-Wheel Stroller Kit:
A fold-up/fold-down front wheel allows easy conversion from trailer to stroller and back while you are out and about. No tools needed.

2-Wheel Stroller Kit:
Convert your D'Lite, Solo, Cub, Encore or Tail Wagon into an agile four-wheeled stroller that is easily maneuverable in tight spaces.

Jogger Kit:
Convert a D'Lite, Solo, Cub or Encore into a three-wheeled jogger with a 16-inch front wheel. Newly designed for easy installation.

We! Ski Kit:
Remove the wheels, click in the skis and attach the tow bars. Off you go cross-country skiing or snowshoeing with your child in tow.

Baby Snuggler:
This specialized seat fits inside any Burley child trailer to keep babies 6 months to 2 years secure and cozy. Machine washable; phthalate-free.

Handlebar Console:
Attaches to the handlebar to add storage for snacks, water bottles, keys, cell phone and more.

Light Kit:
Increase your visibility and safety at night with a white front light and a red rear light.

Standard Forged Hitch:
One Standard Forged Hitch is included with every trailer. **The Alt Hitch Adapter** is available separately for bikes that are not initially compatible with the Standard Forged Hitch.

Classic Hitch:
The Classic Hitch allows Burley trailers to be used on bikes with hub styles that are not compatible with our Standard Forged Hitch.

Piccolo® & Kazoo™

Our patented double locking hitch attaches to the Moose Rack to keep your child stable and safely connected behind you.

Splash guard blocks water spray from the rear tire of the adult bike.

Height-adjustable seat and handlebars.

Growing up takes time

One day, your child will be ready to graduate from a bike trailer. When that day comes, the Piccolo and Kazoo trailercycles will be waiting. They give children the feeling of riding a bike while keeping them safely connected to an adult's bike.

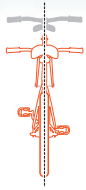

They will learn to pedal and feel what it's like to balance and turn. Their pedaling turns the trailercycle's back wheel too – so you get a little help while your child burns off some of that boundless energy.

Recommended for children 4 to 10 years old and up to 85 pounds. Recommended adult-to-child weight ratio is at least 2 to 1.

PICCOLO & KAZOO

Piccolo or Kazoo? The Piccolo has a rear derailleur, seven-speed freewheel, and comes in green. The Kazoo is a single-speed and comes in blue.

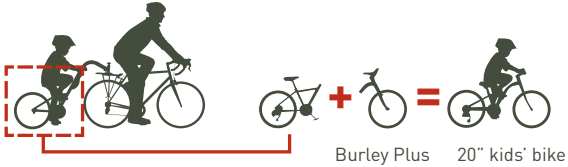

Our True Ride System™ keeps the trailercycle from leaning, a common problem with other trailercycles.

Powered by people.

Healthy. Active. Fun.
piccolo

Burley Plus™

"Such a great idea! We're getting a couple more years' use out of our Piccolo by reusing it with the Burley Plus" -Ryan, 37

The adventure continues ...

When your child is ready to take the next step and learn to ride independently, the innovative Burley Plus converts your Piccolo or Kazoo into a standard kids' bike.

The Burley Plus includes the front half of the frame, a front wheel and brakes. Just remove a Kazoo or Piccolo's tow bar and replace it with the Burley Plus. Transfer the trailercycle's handlebars and install the brakes. Presto, a real two-wheeler.

The Burley Plus is a great way to extend the life of a trailercycle and give your child his first real bike.

BURLEY PLUS

Durable, lightweight aluminum frame.

Front and rear hand brakes.

Styling is consistent with Piccolo and Kazoo.

MyKick®

The bicycle, simplified

Riding a bike requires mastery of several skills: balancing, pedaling, steering, braking.

The MyKick simplifies things by being pedal-free, and allowing a child to focus on balance and steering. With the MyKick, a toddler can power along with a natural running motion, quickly learning to coast and balance on two wheels.

When his coordination and strength develops to the point that he is ready to pedal, he'll already know what it feels like to balance and turn.

It's a safe, fun way to get a head start on riding a bike.

Quality bearings in wheel hubs and headset.

Adjustable seat and handlebars allow it to grow with your child.

Durable steel frame available in Cotton Candy Pink, Fire Truck Red, and Summer Green.

Honeycomb rubber tires offer slip-proof traction – and you'll never have to fix a flat.

MYKICK

We all need to play.

Adventures, big and small.
BURLEY

Grown-up fun

Funportation isn't just for kids. It's a way of life.

Whether you're embarking on your daily commute to the office, or a once-in-a-lifetime cycling adventure in Siberia, our cargo and commuter trailers make it easy for you to carry what you need: groceries, laptop, camping gear – even your dog.

Experience the exhilaration of human-powered travel.

Nomad™

"I used a Nomad to carry my gear during an unforgettable tour across the U.S. It did the job flawlessly, in really tough conditions sometimes." -Ed, 57

The two-wheel design and carefully positioned balance point provide superior stability and riding ease.

Interior pockets keep small items handy, and a removable interior divider helps you organize your gear.

Optional cargo rack adds additional space.

Empty trailer weighs just 15 pounds.

Time for another adventure

Designed especially for bicycle touring, the Nomad reliably carries your gear while you embark on a grand adventure.

The Nomad has a generous 100-pound, 105-liter capacity.

Newly improved for 2014, the Nomad now folds more easily, features convenient push-button wheels and has a redesigned cover that offers better protection from the elements.

For more info, see the specs, features & accessory/kit compatibility chart.

NOMAD

Taking you to your
happy place.

Transportation set free.

Flatbed™

"I'm not exaggerating to say the Flatbed changed the way I live day-to-day. I used to hop in the car to go pick up a bag of charcoal. This is so much more fun. And better for me." -Bob, 48

Rethink what's possible

With all the versatility of a pickup truck, but none of the gas, the Flatbed will change the way you approach routine errands.

Need to buy a few 2x4s? Pick up a pony keg of beer? Purchase a new TV? Carry a cooler, picnic basket and some lawn chairs for lunch in the park? The Flatbed can handle up to 100 pounds. With its open front, back and top, it's easy to haul almost anything.

For more info, see the specs, features & accessory/kit compatibility chart.

Openings in skin along top rails make it **easy to strap down cargo**.

Uses the same hitch as our child trailers, so it's easy to swap from trailer to trailer.

PVC skin is tough enough for big loads, but adds very little weight.

Strong **steel axle tube** and **push-button release wheels**.

FLATBED

Leave no one behind.
BURLEY

Tail Wagon®

"I can't tell you how glad I am that you understand dog-owners like me. I hate leaving Toby home alone. When I go out, he goes out – even when I'm on my bike. And he loves it!" -Heather, 34

Roll-up cover on the front window keeps the rain out.

Features mesh windows so pup gets plenty of fresh air.

Our optional kickstand helps stabilize the Tail Wagon during loading and unloading.

The other member of your family

Your canine pal can join in the fun, too. The Tail Wagon is smartly designed with a flip-down tailgate for quick loading and a removable floor for easy cleaning.

The Tail Wagon is also compatible with our stroller kits, for easy versatility.

For 2014, the Tail Wagon features a new steel handlebar for use as a stroller and new black rims and hubs.

TAIL WAGON

For more info, see the specs, features & accessory/kit compatibility chart.

Can carry dogs as large as 75 pounds.

Travoy®

"You guys are brilliant! The Travoy has made bike commuting – and all those on-the-way-home errands – so much easier. Clothes, groceries, my computer – it's got room for everything." -Nichole, 38

At your service

Meet the Travoy. It's like a valet for commuting, errands, even camping. It'll carry a change of clothes, lunch, your laptop and a couple bags of groceries – up to 60 pounds of cargo.

The Travoy hitches to a bike's seatpost in seconds, and it can be unhitched just as quickly. Off the bike, it's a cart that you can roll into a store. When you're not using it, you can fold it up and carry it like a briefcase.

For more info, see the specs, features & accessory/kit compatibility chart.

Clip for attaching light.

Also available in gray:

The Travoy comes with a tote bag (which also stores the folded Travoy) and tie-down straps for bulkier cargo.

EUROBIKE **Gold Award** winner.

TRAVOY

toy store
open
Take the fun lane.

Create a
new routine.

Depending on your needs, you can customize your Travoy with these accessories.

Outfitting your Travoy®

Upper and Lower Market Bags: Perfect for light shopping or daily errands. The Upper Market Bag has internal pockets to organize your phone, wallet and other belongings. The Lower Market Bag can easily handle a large bag of groceries.

Upper and Lower Transit Bags: For the office commuter. The Upper Transit Bag has a removable padded sleeve for a laptop computer and pockets for other office items. The Lower Transit Bag has room for a change of clothes, a pair of shoes, lunch and more.

Tote Bag: This carries the folded-up Travoy and serves as an all-purpose lower bag. This bag is included with every new Travoy.

Duffel Bag: This full-length 65-liter duffel has handles and backpack straps for carrying and clips for quickly attaching to the Travoy frame. Made of tough water-resistant polyester with reflective stripes.

Dry Bag: We're from western Oregon, so we know all about rain. This fully waterproof bag, which fits in the lower Travoy position, will keep your possessions dry in the most severe conditions. The roll down top forms a nice handle, too.

Rain Cover: A full, one-piece waterproof cover that secures to the Travoy frame and covers the entire cargo area. It stuffs into a handy storage sack that attaches to the frame, so it's always there if you get caught in the rain. Comes in bright yellow with reflective striping.

Travoy Hitch: Each new Travoy comes with one hitch that mounts on your seatpost. If you want to easily share a Travoy among more than one bike, simply get additional hitches.

Shoulder Strap: A padded strap that clips onto any Travoy bag.

Tie-down straps: Every Travoy includes one set of straps. But it never hurts to have extras, for oddly shaped or bulky loads.
