
Pashley
HAND CRAFTED CYCLES MANUFACTURED
IN STRATFORD-UPON-AVON ENGLAND

From the moment William 'Rath' Pashley founded the company over 70 years ago, Pashley has embraced the needs and aspirations of its customers and translated these into what has become a unique range of cycles.

RETROSPECTIVE

Today, our designers continue to create cycles that have a style and function unlike any others. New designs are placed in the capable hands of our time-served manufacturing team, who painstakingly hand build all Pashley cycles here in Stratford-upon-Avon.

It is this commitment, attention to detail and hand built quality that has earned Pashley its enviable position as Britain's most exclusive cycle manufacturer, with sales to discerning customers in over 50 countries.

So whatever your need ... be it fun or performance, modern or traditional style, Pashley cycles offer an originality and individuality that sets them apart from all others. Cycles designed to suit your way of life, to perform beyond expectation ... and simply to give pleasure.

At Pashley we say our cycles are 'different by design ... distinctive by nature'. We hope you agree and enjoy the experience.

CLASSIC COLLECTION

Timeless, quintessentially British bicycles.

PRINCESS SOVEREIGN

The quintessential English town and country bicycle with timeless traditional looks and impeccable build quality. Combine these features with reliable modern componentry and you have an unrivalled two wheeled experience that will stand the test of time.

The Princess Sovereign features a traditionally lugged and brazed hand built frame, 5 speed hub gears and fully enclosed hub brakes.

FEATURES

The fully fitted rear skirt guard integrates with the enamelled mudguards to provide all season practicality and comfort. The fitted rear lock secures the bike with the push of a lever giving security and peace of mind without the need to carry a separate bike lock.

The front wicker basket sits on its own headset mounted carrier and offers both versitile load carrying capability and traditional style. The fully fitted lighting set offers added safety with a dynamo operated headlamp and a high visibility rear LED lamp.

PRINCESS CLASSIC

A design that has stood the test of time and continues to impress with its classic virtues of traditional quality and style.

Whether shopping or simply taking in the air, the handbuilt quality and reliable componentry enhances the pleasure of riding and owning this cycle.

The Princess Classic features a traditionally lugged and brazed hand built frame, 3 speed hub gears and fully enclosed hub brakes.

FEATURES

The Princess Classic features a fully enclosed chaincase to protect you and your bike from unwanted grease and grime. This helps reduce wear and tear on the chain and decreases the amount of maintenance that your bike will require.

A bike of such quality can only be fitted with a Brooks saddle. Crafted from the finest materials using traditional hand made techniques the Brooks saddle continues to be the Rolls-Royce of saddles. The leather upper allows the saddle to breathe and over time forms to your shape giving a supremely comfortable ride.

CLASSIC

ROADSTER

A whale amongst minnows this imposing bicycle provides an unsurpassed ride due to it's 28 inch wheels and regal riding position.

This beautiful machine transports the rider to a more relaxed age using the finest handbuilt quality.

The Roadster features a traditionally lugged and brazed hand built frame, 28 inch wheels with 3 speed hub gears and fully enclosed hub brakes. Sovereign upgrade available please contact for details.

FEATURES

The Roadster features an integrated stand that quickly folds down to provide a sturdy base for such a fine machine.
A fully enclosed chaincase is also fitted to provide clean ease of use and reduce wear and tear on the chain and gears.

The Roadster also comes in a double top tube version for the taller gent. With a frame size of 24·5 inches this superbly crafted machine will suit an inside leg of 35 inches upwards and give the rider the stability and control only a double top tube can provide.

ROADSTER

PARAMOUNT

Take our timeless double loop frame handbuilt to the finest quality, add modern componentry and you have the last word in practicality and style.

Equally at home on the open road as on city streets, this modern classic provides a refreshing alternative to the ubiquitous mountain bike.

The Paramount features a multi-tubed design frame, 5 speed hub gears and fully enclosed hub brakes.

FEATURES

The Paramount features the latest in hub gear technology from the SRAM corporation. We use their Spectro five speed hub with twistgrip control to give a smooth easy shifting wide range of practical gears. The hub also features a drum brake giving you maintenance free, all weather stopping power.

Whilst others may cut corners on small detail we insist on quality items throughout the range. Take for example the all alloy pedals with inset non-slip rubber which provide a perfect platform for all types of shoe.

PROVENCE

This elegant open frame version of the popular Paramount provides the perfect excuse to experience the open road on a supremely comfortable and practical machine.

Revel in its handbuilt quality and you will quickly wonder how you ever lived without such a fine machine.

The Provence features a multi-tubed design frame, 5 speed hub gears and fully enclosed hub brakes.

FEATURES

Modern hub gears provide the perfect match for a classic bike like the Provence. Light shifting and easy to use the five speed gears allow you to enjoy the terrain at your leisure. The fully enclosed gears and brakes are protected from the elements so that they are virtually maintenance free.

To allow you to get a perfect fit on the Provence it comes equipped with an easily adjusted alloy stem. Combined with the naturally curved alloy bar the controls fall perfectly to hand leaving you in full control and ready to enjoy the open road.

PICKLE

A childrens tricycle like no other, this hand made gem captures the spirit of childhood in a timeless and durable package.

What better way for children to enjoy their first wheeled adventures than on a machine that is reassuringly stable and great fun to ride. Made from the finest materials and components this classic tricycle will take everything in it's stride giving you and your family many years of happy memories.

The Pickle features a traditionally lugged and brazed steel tricycle frame, single speed freewheel and front alloy caliper brake.

FEATURES

To protect inquisitive little hands from the chain and gears the Pickle is fitted with a fully enclosed chain case. The chain case also seals out dirt and water reducing wear on the components and time spent maintaining the tricycle.

The Pickle is fitted with a childrens specific saddle on a hand crafted L shaped seat post. The posts unique shape allows the bike to be adjusted to fit as your child grows. Combined with an adjustable reach brake lever the Pickle is perfect for those early cycling experiences.

PICKLE

PICADOR

Enjoy the delights of cycling with the safety and stability that only a tricycle can provide.

Our unique adults tricycle provides all these things and more; whether shopping in town or enjoying the countryside the Picador provides unsurpassed ease of use and security.

Powerful brakes and easy to use hub gears complement the tricycles' easy manners and hand built quality.

The Picador features a hand made tubular steel tricycle frame, 3 speed hub gears and 20 inch alloy wheels.

FEATURES

The Picador features a double front braking system to provide both power and security. This system uses both an easily adjusted caliper side pull brake and a fully enclosed all weather hub brake which act together to give the power that a tricycle needs.

The three speed hub gear system provides both easy shifting low range gears and ease of maintenance. The gears can be changed whilst stationary which allows for the perfect getaway from junctions.

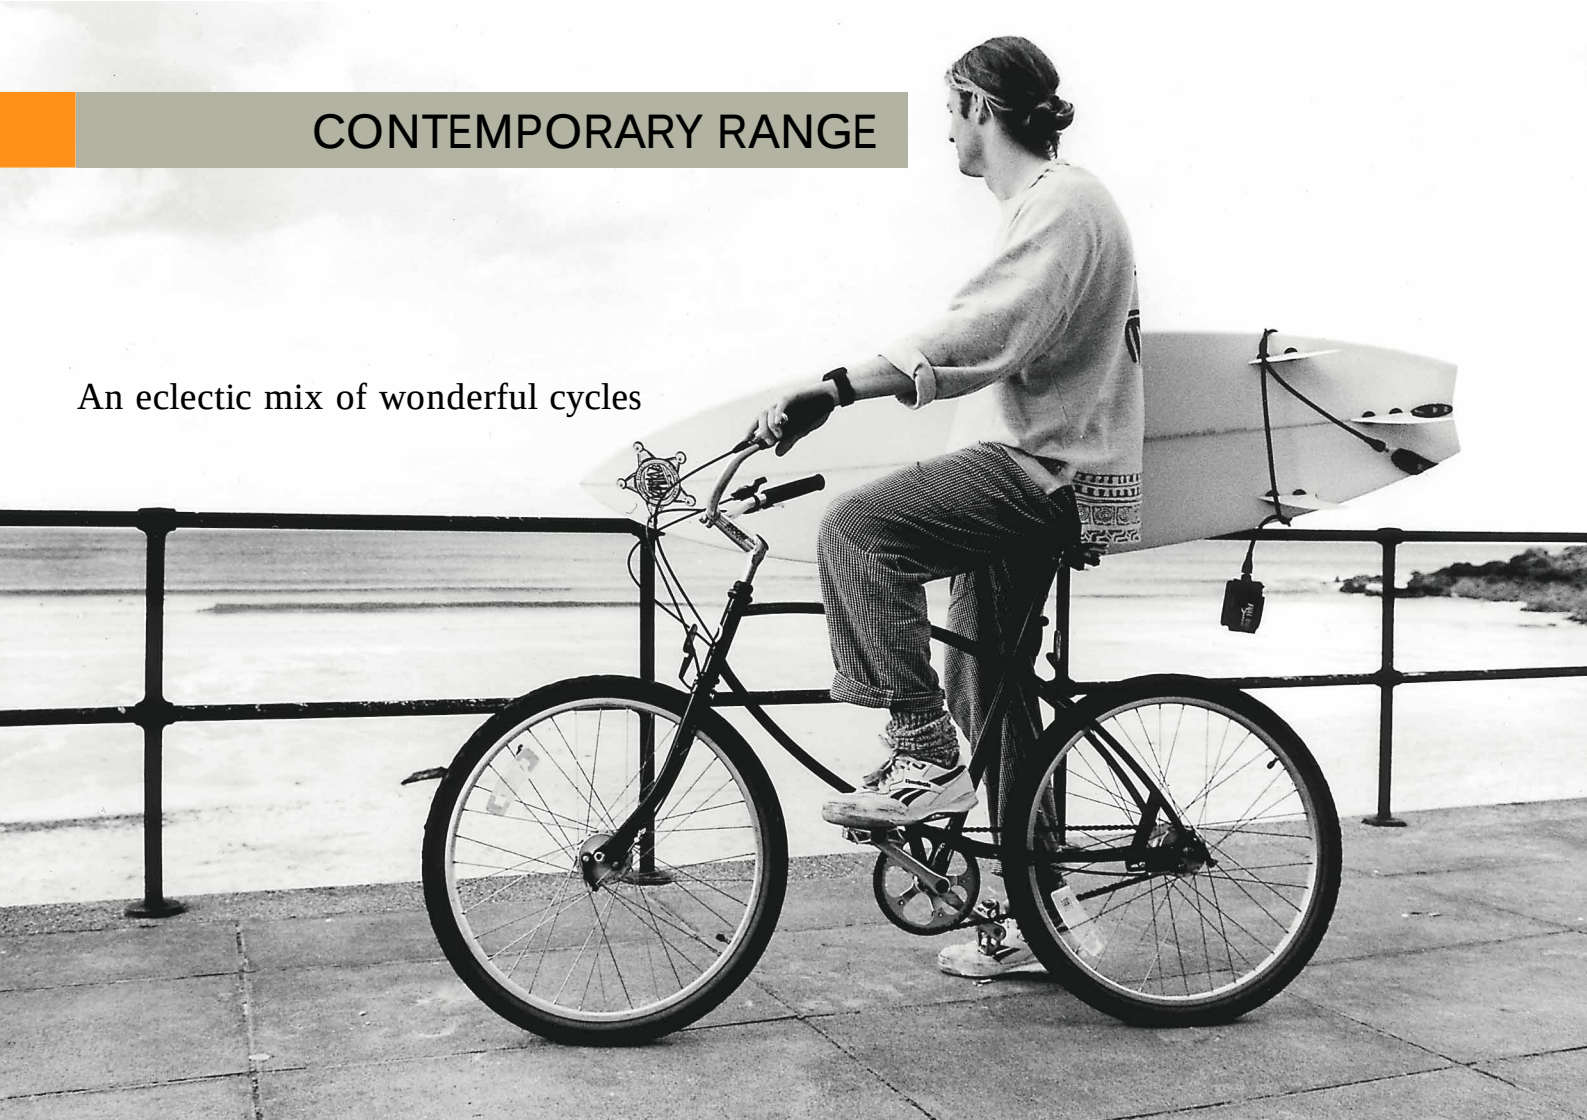

PICADOR

CONTEMPORARY RANGE

An eclectic mix of wonderful cycles

TUBE RIDER

Not a care in the world, not a raindrop in sight, hanging out, cruisin'.

The Tube Rider helps you kick back and go with the flow, life need not be a rush anymore.

Choice components, a relaxed style and the best in hand built quality are what this bicycle is all about ... drift along, ride the tube.

The Tube Rider features a multi-tubed steel frame, 5 speed hub gears, alloy hub brakes and 26 inch alloy wheels.

FEATURES

The Tube Rider features all alloy brake hubs to give you the stopping power you need come rain or shine.
Built on to high quality alloy rims with stainless spokes this wheel combination is built to last.

To get you in the right position for some relaxed cruising, the Tube Rider comes equiped with wide sweeping alloy bars and an all alloy riser stem. Twist grip gear controls and alloy brake levers add to your cycling comfort and enjoyment.

MUNI

A one wheeled challenge for all terrain fun, the exciting Mountian unicycle will keep you coming back for more.

Master the technique and then take on the off road and go places normal unicyclists can only dream about.

The Muni features a steel frame with either a 20 inch or 26 inch wheel, heavy duty hub and alloy pedals.

FEATURES

The Muni features a heavy duty steel hub that will take punishment in its stride. Combine this with steel cranks and you have the reliable strength that a unicycle rider needs. Alloy pedals round off this quality set up.

Need to take a bottle on those long rides? No problem, the Muni comes equiped with double bottle cage bosses with stainless fittings so you can easily ready your Muni for any adventure.

MUNI

MICRO

Need a bicycle that can fold and be easily stored?
Need a bicycle that rides well and has a quality hand crafted finish?

The answer is the Micro, a go anywhere, do anything compact marvel that opens up a world of possibilities that you had previously never imagined.

The Micro features a hand brazed folding Y frame, single speed freewheel (3 speed Micro Luxe) and 16 inch alloy wheels.

FEATURES

The Micro is designed to fold into an easily carried package. Folding pedals provide a sturdy platform for normal riding and the centre hinge quickly unlocks allowing the bike to fold and lock upon itself.

When folded the bike clips together so it can be easily carried or stored. The Micro folds down to approx five cubic feet making it the ideal commuting tool.

MICRO

FOLD-IT

A bike for all seasons and applications our versatile unisex Fold-it provides full size bike comfort with the practicality of a folding bike.

Limited storage room or the need to transport your bicycle need no longer restrict your choice, with this fine hand crafted machine you can fit your cycling around your lifestyle without the need to compromise.

The Fold-it features a hand built folding Y frame, 5 speed hub gears, alloy hub brakes and 20 inch alloy wheels.

FEATURES

The Fold-it features the best in quality drum brakes for all weather stopping power. The all alloy units are fully sealed against the elements and require the minimum amount of maintenance to keep them in perfect condition.

The Fold-it features folding pedals that provide a sturdy platform yet quickly fold without tools when not in use.

FOLD-IT & ADD 1

TRI-1

Combining the security of a tricycle with the fun and features of a modern machine this versatile adult tricycle opens up a world of adventure for you and your family.

Powerful brakes and slick shifting gears add to its versatility whilst a folding frame option means a restriction on space need not mean a restriction on your fun.

The Tri-1 features a hand brazed low step through frame, 7 speed derailleur gears and 20 inch alloy wheels.

FEATURES

An adult tricycle like the Tri-1 needs a powerful braking system that provides dependable stopping power time after time. That's why we fit a system that combines the all weather dependability of a hub brake with the bite and power of a V-type rim brake. We believe this is the perfect combination to keep you safe and secure.

The Tri-1 has the option of a folding frame that allows the bike to be quickly hinged to allow easy storage or transportation.

ADD-1

Your cycling need no longer be restricted to your solo steed with our innovative Add-1. Simply hitch the trailer bike to the tow hitch, lock it in place and off you go.

Whether adult or child everyone will enjoy the ride. Cycle together and double the fun.

The Add-1 features a fully brazed steel frame, 7 speed gears and 20 inch alloy wheels.

FEATURES

The Add-1 hitches to the towing bike with a hitch that is secured with a locking device. With this in place you can be assured that you and your companion can enjoy the ride without any fear of separation. The hitch also pivots to allow easy manoeuvering.

Want to hitch the Add-1 to more than one bike? Easy, we can supply spare tow hitches to make a useful addition to all your bicycles.
