PASHLEY CARRIER CYCLES

NOTE. VENDAIRE on Page 11

is Number CT12 and not CT20.

THIS list illustrates and describes a comprehensive range of Tricycles, Push Cars, Hand Trucks, and Double Purpose Conservator-cars for the Ice Cream, Dairy, Confectionery and Allied Trades. They are all manufactured completely in our Works (which cover over 30,000 feet on one floor). Frame Building, Polishing and Enamelling, Body Building, Coach Painting and Sign Writing, Sheet Metal Work and Insulating all have their separate departments for the production at competitive prices of vehicles attractively designed, strongly constructed, and superbly finished. We shall be happy to submit special designs and quotations if, amongst the range of vehicles illustrated, there is nothing to suit your particular purpose.

Carrier Cycles are illustrated on separate list.

THE FAMOUS PASHLEY SEPARATE UNIT CHASSIS.

Reg. Design No. 770644.

Supplied entirely complete with springs ready for the attachment of any box. This chassis is absolutely the finest on the road and being complete in itself, with Handlebars, Front Brake Levers and Controls, and Mudguards **all built on to the chassis itself,** there is no driving, steering or braking strain on the box at all. Bodies are very simply attached by the use of 4 bolts only.

SPECIFICATION.

FRAME, registered design No. 770644, 20in. built throughout with special heavy gauge tubing with dropped front axle, the forward portion forming a special, independent triangulated frame, steering from the extra long head shown in the illustration. The mudguard stays are part of this forward frame, giving an exceedingly strong attachment for the guards. The **MOTOR CAR TYPE BRAKES** are internal expanding, the rear being operated by a ratchet lever, with locking device, which allows the brake to remain in operation when the machine is unattended. The WHEELS are built on very heavy sidecar hubs, with 10 gauge spokes, heavy gauge rims and fitted with 26 × 2in. SPECIAL CARRIER TYRE on rear wheel, and **Dunlop 25 × 2.75in. MOTOR CYCLE wheels and tyres on front to give great resiliency, long life and no trouble.** Heavy transport chain wheels and cranks, heavy transport chain and Spring Seat Saddle, made to our own specification are fitted as standard. Finished in Black enamel.

Any type of Box can be supplied to order at very competitive prices.

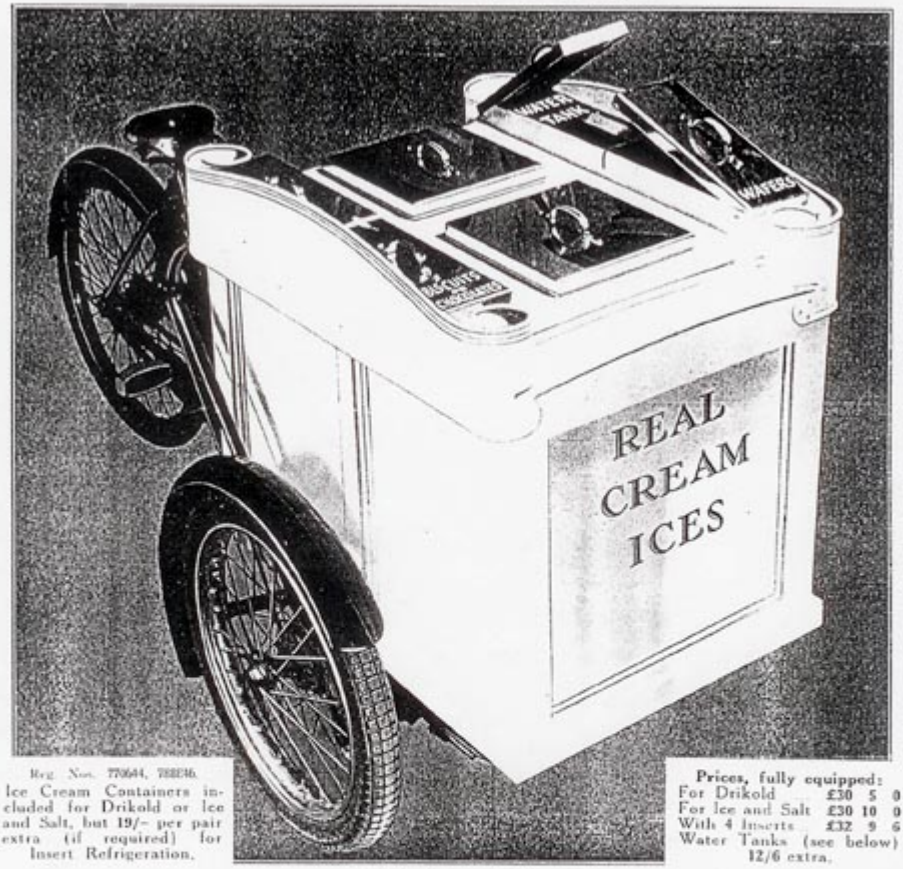

Equipment: Pump, Toolbag and Tools, Reflector, and Grease Gun.

TOTAL OVERALL WIDTH OF STANDARD MODEL 39in., or we can supply to special dimensions to order.

Size of Box which can be fitted to Standard Model, 25in. wide × 33in. long.

No. 1. Price, complete with Motor Cycle Front Tyres and Brakes on all Wheels	£13	19 6
No. 2. If with 26 × 2in. Tyres on all Wheels	£12	18 6
No. 3. If with 26in. × 2in. Tyres on all Wheels and Rear Brake only ...	£12	2 6

PASHLEY SUPERIOR ICE CREAM TRICYCLE for Drikold, Ice and Salt, or Inserts.
MODEL CT 4. Completely Equipped.

Reg. Nos. 770644, 788836.
Ice Cream Containers included for Drikold or Ice and Salt, but 19/- per pair extra (if required) for Insert Refrigeration.

Prices, fully equipped:

For Drikold	£30 5 0
For Ice and Salt	£30 10 0
With 4 Inserts	£32 9 6

Water Tanks (see below) 12/6 extra.

This machine is by far the most attractive of all Ice Cream Delivery Tricycles on the market. It is built on our **No. 1** Chassis, with motor cycle tyres, etc., and a chrome plated spring steel bumper, as illustrated on Model CT 20, is now fitted. The body is coach painted in white enamel with gold lines and its equipment is unique. A special patented system of insulation to a thickness of 4in. all round is provided. NPL tests showing this to be one of the most efficient methods of insulating now available.

Provision is made to keep the top and lids both air tight and water tight, and to keep out driving rain.

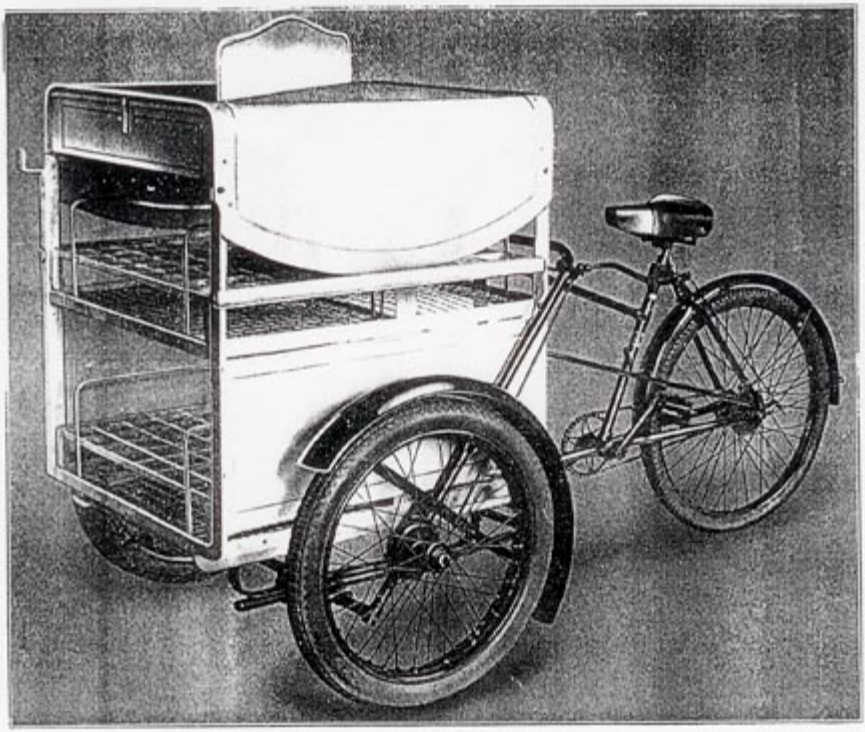

Accommodation for biscuits, wafers, chocolates, etc., is provided by the fitting of four metal containers, measuring 12 x 5 x 6in. deep, the covers to these and to the insulated serving lids being of polished aluminium with chrome plated handles.

Interior equipment is provided for either Drikold (CO2), Ice and Salt, or Eutectic inserts, and these tricycles have been most thoroughly tested under all possible working conditions to ensure absolute satisfaction in use. Capacity when equipped for Drikold or Inserts is 8 gallons and when supplied for Ice and Salt 6 gallons of Ice Cream can be maintained in perfect saleable condition. Two Ice Cream Containers are included when equipped for Drikold or Ice and Salt and where ordered for Inserts we supply 4 Inserts each measuring 15 x 10 x 1½, held in position by a detachable galvanised frame, which leaves the whole of the remaining space free for Ice Bricks, Cartons, etc., and also enables the main tank to be easily cleaned. Two Zinc Ice Cream Containers can be supplied instead of galvanised Insert Frame if required at an extra price of 19/- per pair.

Copper Hot Water Tanks, making this machine suitable for carrying hot pies during winter months are available at an extra price of **£5 5s. per set.**

A separate white enamelled water tank with polished hinged lid fixed to the back of the body for the cleansing of wafer or cornet filling equipment when Ice Cream is carried in bulk can be supplied at an extra charge of **12/6.**

BOTTLED MILK TRICYCLE. MODEL CT 3.

An improved design of body on this popular Dairymen's Tricycle is fitted for 1936, a provision box 25in. x 32in. x 6in. deep being fitted beneath the main cover.

Built on our No. 1 chassis (see page 2), this machine provides a well built exceedingly attractive vehicle for the economical delivery of bottled milk.

Main body frame is of heavily galvanised steel with top, diagonal name board, and side plates of steel, **stove enamelled in cream** or to any colour to your choice.

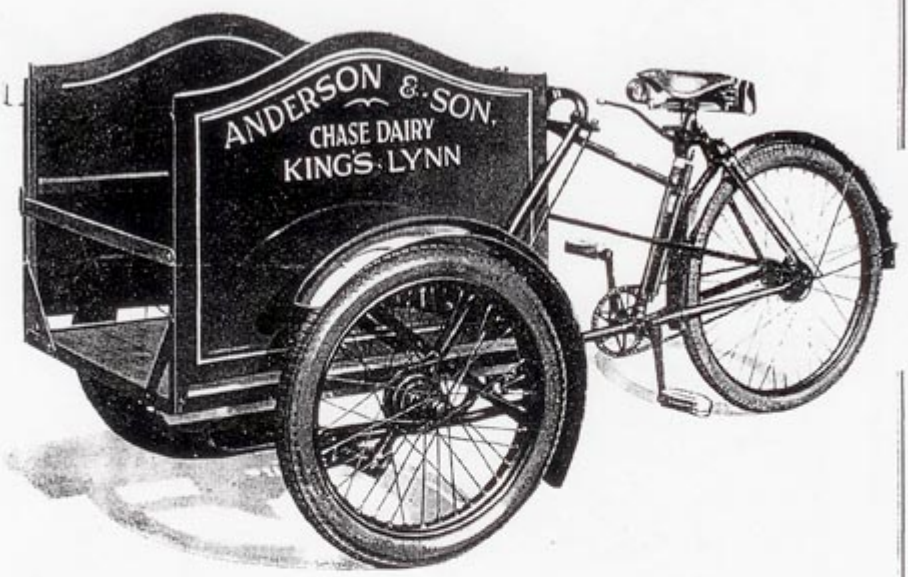

Four detachable crates, having a combined capacity of **126 pints,** are fitted; or these crates can be assorted to carry pints, quarts, and half-pints. Rails are provided to carry extra outside hanging crates.

Inside body measurements, 25in. x 32in. x 28½in. to underside of provision box.

Price, complete with Provision Box and Inside Crates - **£22 5 0**

Outside Hanging Crates (10 pint capacity), **8/6** each extra.

OPEN TOP DAIRY TRICYCLE. MODEL CT 6.

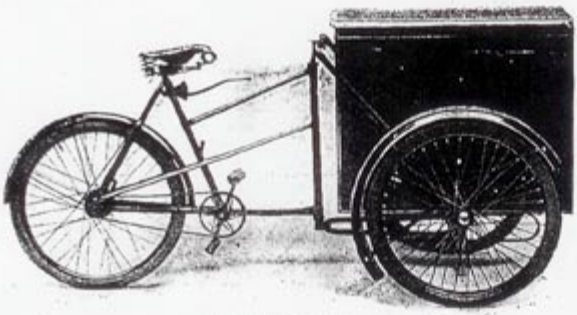

This tricycle is built on our No. 1 chassis (see page 2), exactly as Model CT 3, but is designed chiefly for the carrying of churns. The Body frame is of heavily galvanised steel, with a swinging arm in the front to allow churn to be easily lifted in and out.

Sides are totally enclosed with stove enamelled steel plates, tastefully shaped, and the whole vehicle is attractive and exceedingly well built.

Body measurements, 25in. × 32in., with sides 20in. high.

Price - **£17 8 6**

MODEL CT 1.

Price, on No. 2 Chassis - £16 14 0
" " " 3 " - £15 17 6

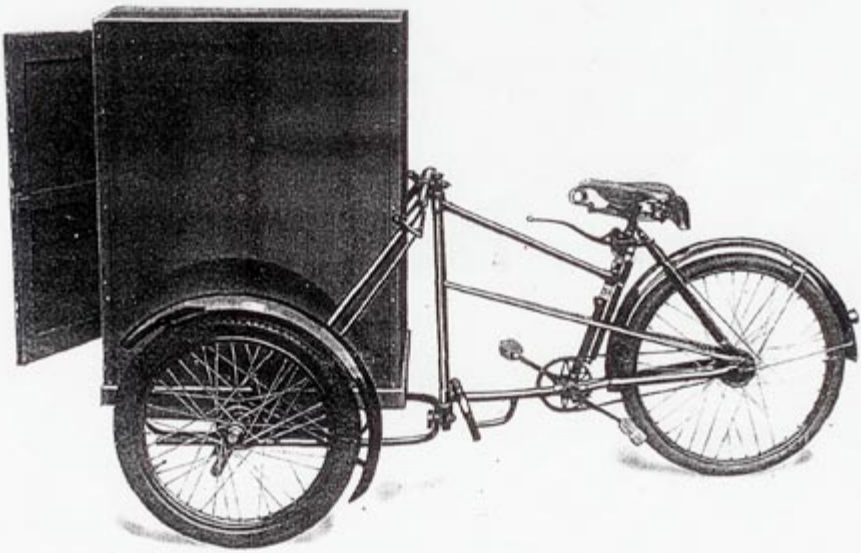

Chassis details, see page 2.

MODEL CT 1.

An attractive well built machine on our No. 2 or No. 3 chassis; box (opening at top), measuring 24in. wide, 30in. long, and 26in. high.

Coach painted as standard in green, with black mouldings, or can be supplied in any colour to choice without extra cost.

Writing extra.

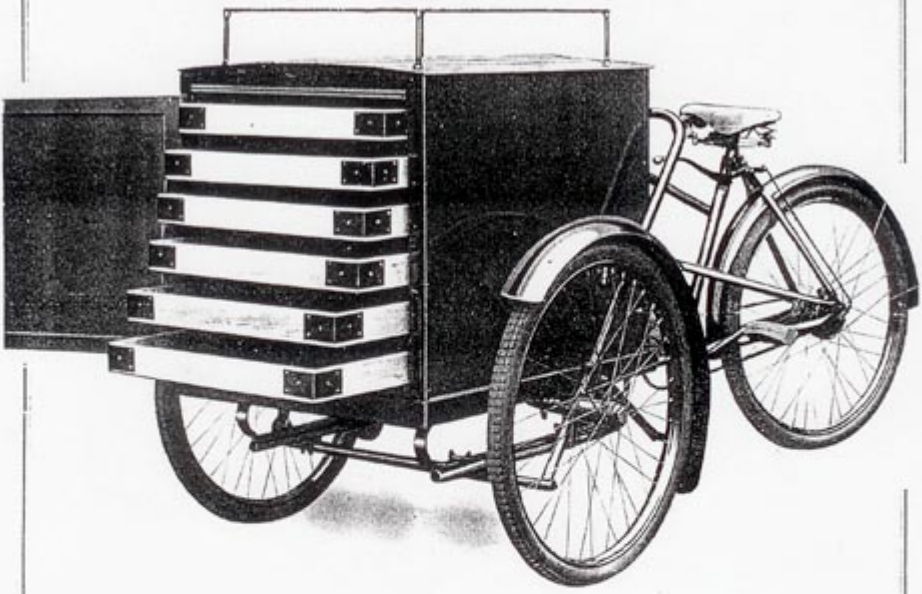

MODEL CT 5.

A vehicle specially built for Dyers and Cleaners, with body 24in. wide x 30in. long x 40in. high. This body is of sheet metal, plywood lined, fitted with Yale lock, and is equipped with chromium plated rail for coat hangers in the top and three pairs of straps across the centre of the body to prevent hanging garments from swinging about.

Coach painted in any colour to your choice. Built on our No. 2 chassis (see page 2).

Price - £20 9 6

MODEL CT 2.

A really handsome, well built and strong Light Delivery Vehicle for Confectioners, Egg Deliveries, Grocers, Accumulator Charging Stations, etc.

Built on our standard chassis (for chassis details, see page 2), with coach built body, metal corners and top, finished in Green with Black mouldings, or in any colour to your choice.

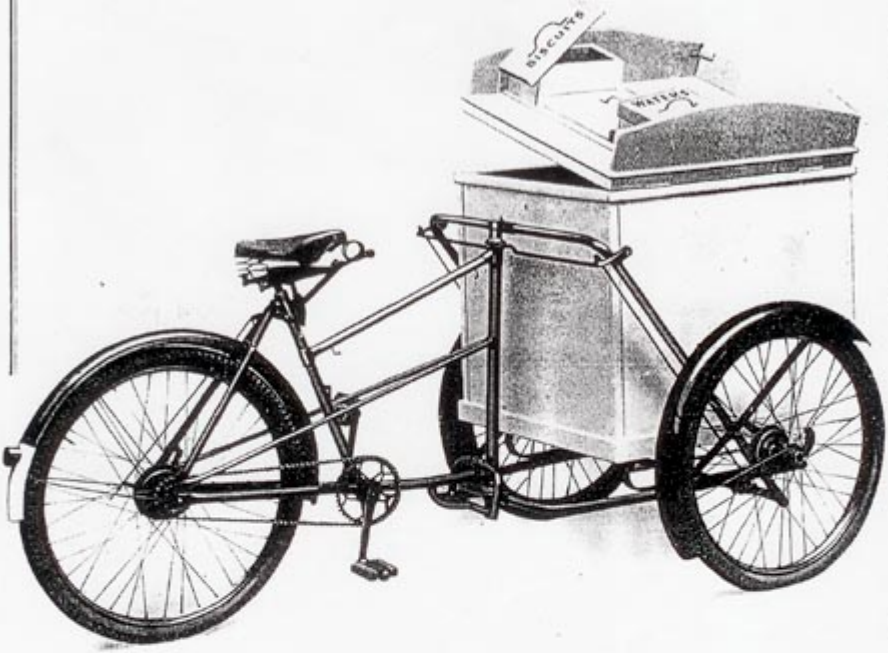

Price, including one Tray, on No. 3 Chassis - - £15 17 6

Price, if fitted with Internal Expanding Brakes on all wheels (No. 2 Chassis) - £16 14 0

EXTRAS: 10/- for sail round top, including aluminium protecting strips along the top.
6/- per tray for each tray in excess of one (which is free), maximum number of trays, 6.
Writing extra.

Box measurements outside, 24in. wide x 30in. long x 26in. high.

PASHLEY POPULAR.

MODEL CT 7.

SPECIFICATION.

This model is built on our Famous Separate-Unit No. 2 Chassis. The Body, finished in Finest White Enamel, opens at both Top and Front and provides necessary space in the rear compartment for a 2, 3, or 4 gallon Non Waste type container. A sliding partition separates this from a front compartment, in which 4 biscuit tins can be carried. Body size, inside measurements, 30in. x 22in. x 25in. deep.

On the top a square aluminium serving hole gives access to the ice cream container and on each side of this cover is an aluminium covered box for handy supply of wafers, cornets, chocolates, etc., or wafer and cornet filling equipment.

Price - £19 19 6

Complete with pumps, toolbag and tools, reflector, and grease gun.
Chassis details, see page 2.

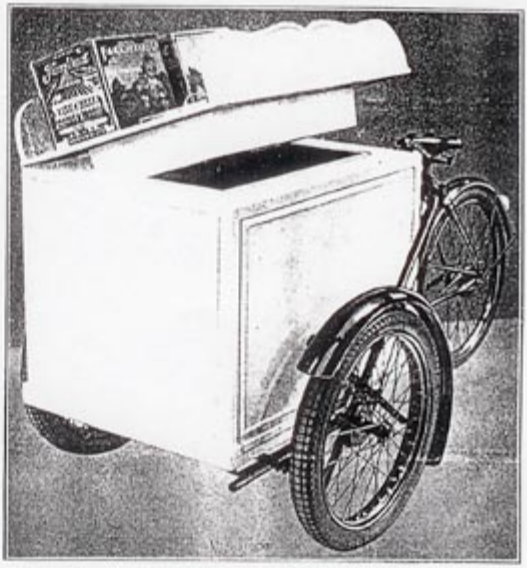

Extra for 2 gallon Non Waste Container, with Stainless Steel Can	72/-
" 3 " " " " " "	102/-
" 4 " " " " " "	116/-

MODEL CT 8.

This model has been introduced to provide an attractive, well built, fully insulated and equipped tricycle, which, without the elaborate top fitments of our famous "Superior" Model, can be offered at a lower price. Insulation and interior equipment, whether for Drikold, Ice & Salt or Eutectic Inserts, is exactly the same however, and the chassis, with all details of equipment, is our Famous No. 1 Separate Unit chassis, with Dunlop motor cycle tyres on front wheels and motor car type brakes on all wheels. Serving holes are offset to near side to leave ample space for the carrying of 2 standard size biscuit tins.

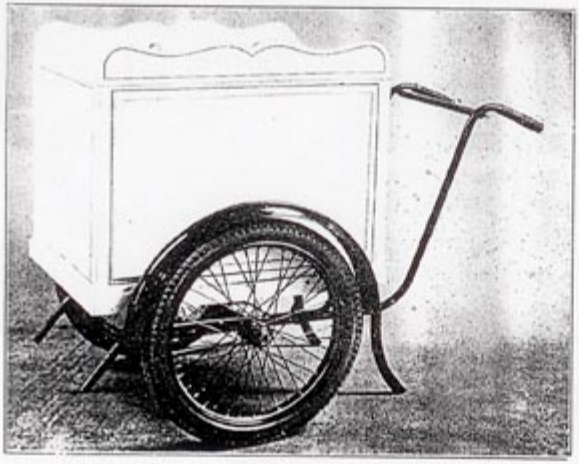

For full specification of interior equipment see page 3.

The lid is hinged on refrigerator practice, ensuring practically an air tight joint. Coach painted in white enamel.

MODEL CT 8.

Price, equipped for Drikold	£25 19 6
,, ,, ,, Ice and Salt	£26 4 6
,, ,, ,, Eutectic Inserts (including Inserts)	£28 3 6
Extra for Utensil Water Tank (see page 3)	12 6
,, Hot Pie Hot Water Tanks (see page 3)	£5 5 0
,, Ice Cream Containers, with Inserts (see page 3)	19/- pair.

MODEL CT 19.

MODEL CT 19.

The body of this hand truck is exactly the same as above in every detail, but is mounted on our CT13/C chassis, equipped with Dunlop motor cycle tyres, and complete with guards, as illustrated.

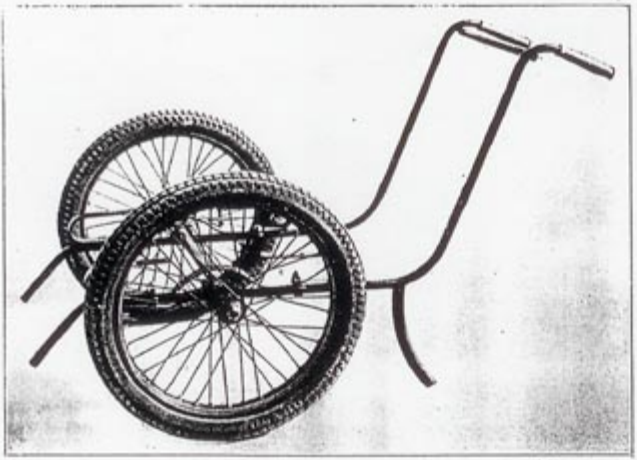

PRICES.

Equipped for Drikold.
£18 10 0

Equipped for Ice and Salt.
£18 15 0

Equipped for Eutectic Inserts (including Inserts).
£20 14 0

Extras as for Model CT 8, above.

MODEL CT 13.

This hand truck chassis is exceedingly robust, with legs at the rear which hold the chassis level when stationary. **Main frame tubes** are 1in. × 12 gauge, the nickel chrome solid steel axle being attached (without drilling) to frame tubes by special cast split lugs, the lower portion of which is brazed to the frame tubes.

Wheels are built on heavy sidecar hubs, with 12 gauge spokes and heavy carrier rims.

Springs attached to frame tubes by clips, and cross plates are ready for the attachment of any type of body by four bolts only. Rubber handle grips are supplied.

Finished in best black enamel.

MODEL CT 13. Reg. Design No.

Extra for rail round top, 10/-.

MODEL CT 14.

MODEL CT 20.

The Famous PASHLEY SUPERIOR body, exactly as fitted to CT 4 tricycle, illustrated on page 5, fitted to CT 13/C chassis, and exactly as illustrated here, provides a really high-class attractive sales vehicle for use where the selling area is too restricted for the use of a tricycle.

Body specification, including chrome plated spring steel bumper, as here illustrated, is exactly the same as CT 4 tricycle. A shelf at the rear to carry 2 large biscuit tins can be fitted if desired at no extra cost.

Body finished in white enamel or in any colour to choice.

MODEL CT 20.

SOMETHING NEW IN VENDAIRES.

For sales of Ice Cream on crowded beaches, theatres, river banks, etc., the Vendaire is indispensable, and when provided with a small 2-wheeled chassis, as here illustrated, can be taken the intervening distance between selling areas without fatigue.

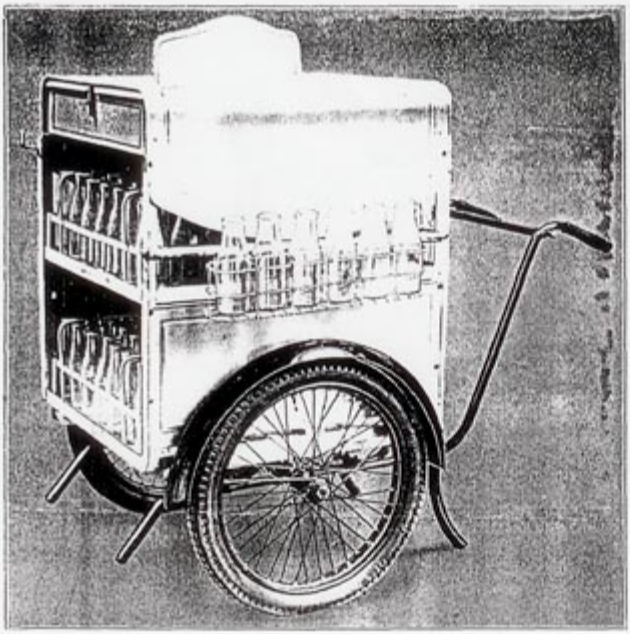

Box, insulated with 1½in. cork all round measures 18in. x 9in. x 14in. deep outside, and is arranged for refrigeration by Drikold placed amongst contents in paper bags. Lid opens at both sides, and is removable.

Finished in white enamel.

Price - £1 17 6
(without chassis.)
Chassis extra, 17/6.

MODEL CT 12.

MODEL CT 18.

MODEL CT 18.

Bottle type of delivery body, with provision box exactly as fitted to Model CT 3 tricycle (described on page 4), but fitted to CT 13/C hand truck chassis.

For description of CT 13/C chassis, see page 10.

Price - **£13 6 0**

Without outside holder, but **complete with** inside crates. Outside hanging crates extra **8/6** each.

This model can also be supplied with 6 sliding crates, in three tiers, with a capacity of 23½ gallons, with heavier axle and hubs, and provision box at the back instead of beneath canopy.

Price - **£17 0 0**

MODEL CT 10.
AN ENTIRELY NEW DESIGN, INTRODUCED BY PASHLEY, FOR 1936.

This attractive low priced wheeled truck is designed for easy conveyance of ice cream container, biscuits, and serving appliances from shop to stand on promenade, park, or market place.

Dimensions are 34in. x 26in. x 27in. deep, and container space will accommodate a 2, 3, or 4 gallon non waste type of container. 4 tins of biscuits can be carried, these being sufficient space for wafers, etc., to be obtained without removing the tins from the positions shown in the illustration. The top deck, therefore, provides a good, clear serving space.

Finished in white enamel, with black enamelled bars and legs.

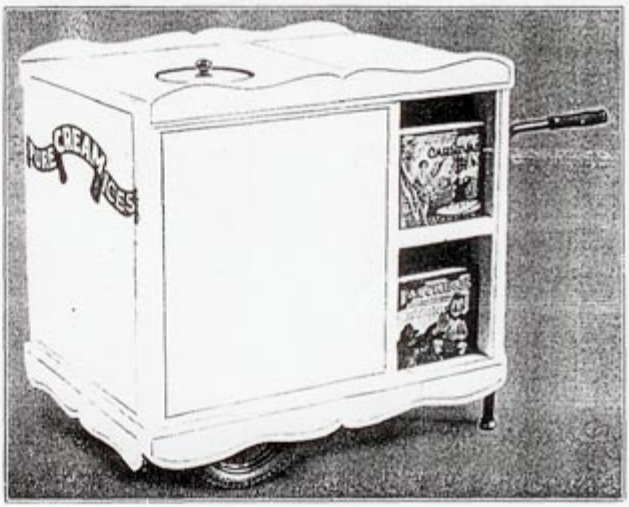

Price (without non waste container) not written
£6 7 6

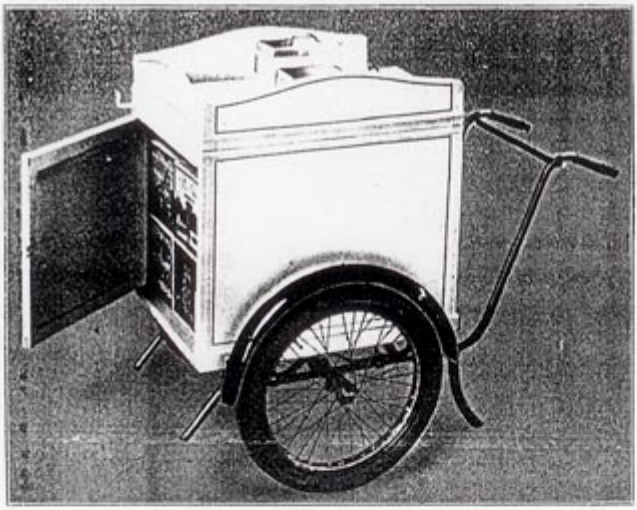

Extra 2 gallon non waste container, with stainless steel can, **72/-**.

Extra for 3 gallon container, **102/-**.

Extra for 4 gallon container, **116/-**.

Water tank for cleansing of utensils, **12/6** extra.

MODEL CT 16.

Pashley Popular Ice Cream body, exactly as illustrated and described on page 8 (shown fitted to Model CT 7 tricycle), but fitted here to CT 13/C hand car chassis equipped with motor cycle tyres and guards. (For description of chassis, see page 10.)

An attractive easy running vehicle.

Price - £13 9 6

MODEL CT 16.

Extra for	2	gallon	Non Waste	Container,	with	Stainless	Steel	Can 72/-
"	3	"	"	"	"	"	"	102/-
"	4	"	"	"	"	"	"	116/-

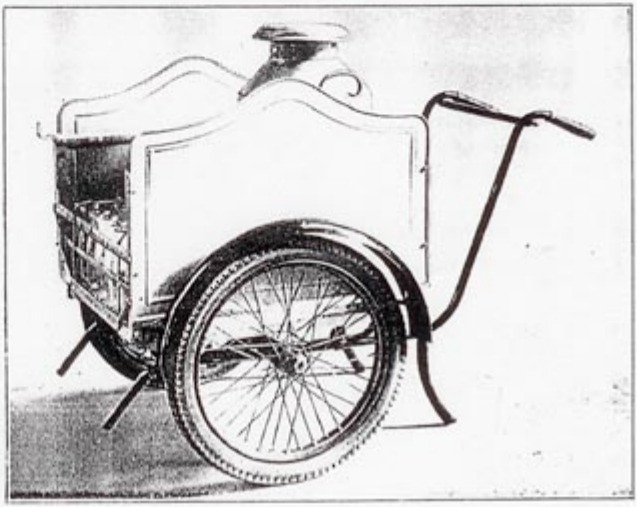

MODEL CT 17.

LIGHT CHURN TYPE PUSH CAR FOR DAIRYMEN.

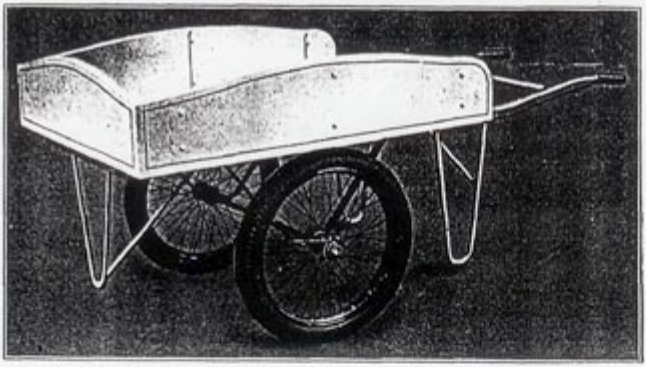

This body is exactly the same as described and illustrated on page 5 (shown fitted to Model CT 6 tricycle), but fitted to Model CT 13/C chassis. (For description of chassis, see page 10).

Price - £9 15 0
Without churn or crate.

Side panels can be stove enamelled in any colour to choice.

MODEL CT 22.

An exceedingly strong hand-cart, built on an entirely new principle, and practically unbreakable. Main frame is of rolled steel angle heavily galvanised, handle ends being fitted with rubber grips. Wheels equipped with Dunlop 25 x 2.75 motor cycle tyres, are constructed with 12 gauge spokes on heavy ball bearing hubs, running on a solid nickel chrome steel axle.

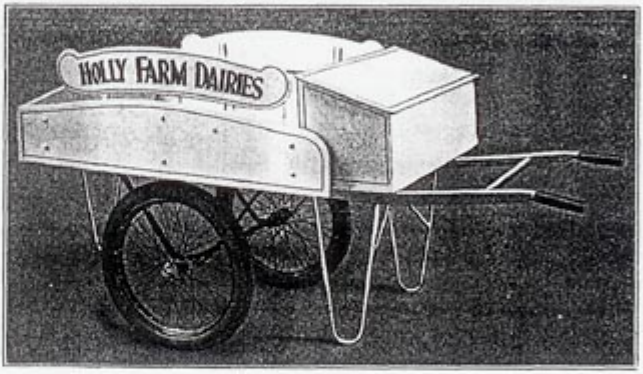

Body measures 4ft. x 2ft. 6in. and sides (1in. thick) are 9½in. high.

Galvanised round steel legs, back and front, are made from bright drawn steel.

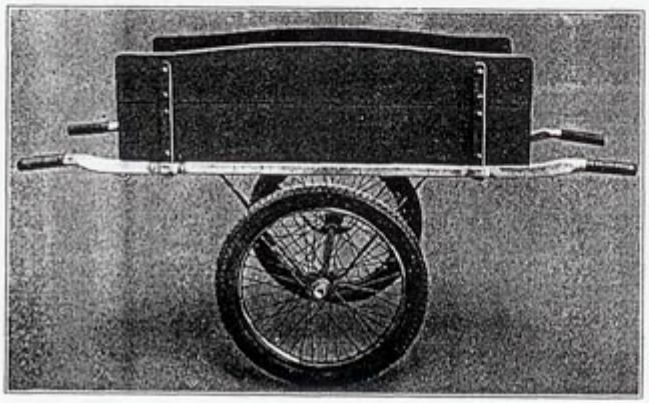

Price - **£9 13 6.** In Grey finish.

This dairy vehicle, for carrying bottled milk, is built on the same principle as Model CT 22.

It is, however, fitted with heavier axle and hubs and 6 leaf fullyshackled springs. Body is supplied with additional name boards, as shown, and also a large provision box, measuring 28in. x 12in. x 12in., leaving a clear space for bottles measuring 28in. x 40in.

MODEL CT 23.
Price, coach painted to choice (not written), **£13 10 0**

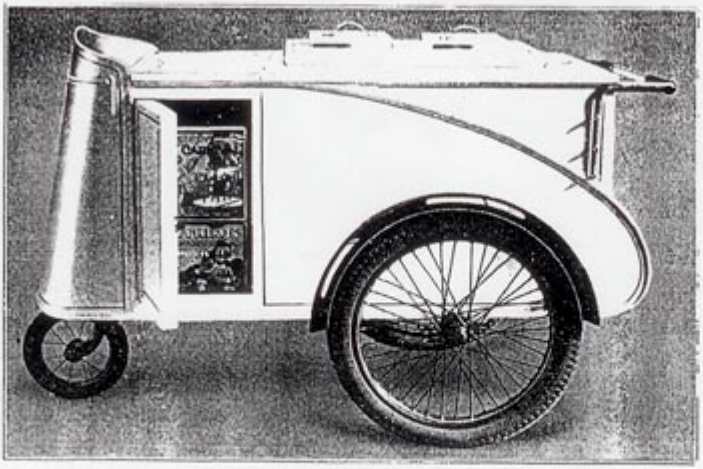

MODEL CT 21.

Strongly constructed window cleaners' hand truck.

Main frame of galvanised rolled steel angle, handles fitted with rubber grips. Oak sides are detachable. Three hooks fitted beneath frame for carrying buckets. Axle, wheels, and tyres exactly as CT 22 above.

Measurements—
48in. x 21in. wide.
Sides, 14in. high.
Finished in grey.

Price - **£8 8 0**

MODEL CT 11.

This Ice Cream Car, with domed front, streamlined panels and bulbous tail, is right up to date and is an exceedingly attractive easy running vehicle.

The ice cream compartment is insulated to a thickness of 4in. all round by a patented system and fully equipped for refrigeration by Drikold, Ice and Salt, or Inserts.

Interior Specifications exactly the same as our "Superior" tricycle, shown on page 3.

Wheels, equipped with Dunlop 25 x 2.75 motor cycle tyres and wheel base rims are very strongly built on heavy side car hubs, a solid nickel chrome steel axle being attached without springs to the base of the vehicle. The front swivelling self-steering wheel is fitted with solid tyre, 11in. x 1¾in. A capacious cupboard provides easy accommodation for 4 biscuit tins or other goods, and the serving deck above this cupboard is fitted with black and white marble rubber. Body finished in white enamel (or any colour to choice), with gold lining, the side guards being black, and handlebar chrome, with rubber grips.

Prices for Drikold	£22 10 0
" " Ice & Salt	£22 15 0
" " Inserts (including 4 Inserts)	£24 14 0

Extra for Utensil Water Tank (see page 3)	12 6
" Hot Pie Hot Water Tanks (see page 3)	£5 5 0
" Ice Cream Containers, with Inserts (see page 3)	19/- pair.

MODEL CT 9.

This new Pashley Conservator is definitely a **double purpose vehicle. The body is detachable from the chassis,** and can be used as a conservator for shop use or, when dropped into the rolled steel angle frame of the chassis, used as a push car for outside sales.

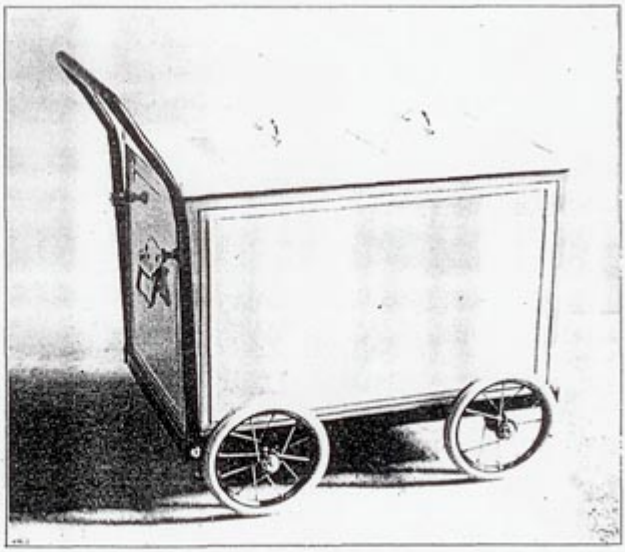

The two serving holes have polished aluminium covers and the body finished in white enamel (or to choice), is strongly built and well insulated all round.

Prices, Conservator only.
3 gallon, for Drikold, with ice cream containers and central bunker, as Superior Tricycle (page 3) **£7 10 0**

5 gallon, for Drikold, **£8 10 0**

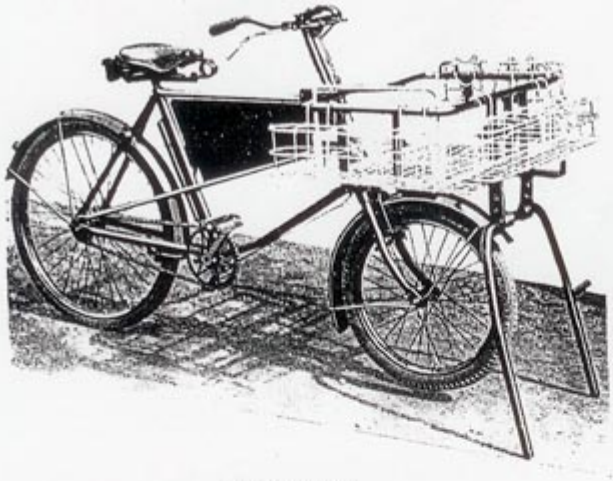

If with 2 inserts and insert frame, but without containers, 3 gallon, **£8**; 5 gallon, **£9.**

Chassis only, complete for either size, **£1 15 0.**

MODEL CT 9, for Drikold or Inserts.
Sizes: 3 gallons, 1 cu. foot approx. (20in. x 9in. x 12in. inside), or 5 gallons, 2 cu. feet approx. (21in. x 12in. x 15in. inside).

SEE SEPARATE LIST FOR COMPLETE RANGE OF CARRIER CYCLES.

MODEL SW 3.

MODEL SW 3.

This Dairyman's cycle is specially built for the carrying of bottled milk, and is by far the strongest and best designed machine for the purpose.

The frame is doubly trussed by diagonal tubes extending from the rear fork ends to the centre of the head tube, and by double bottom tubes, which extend forward through a special bottom head lug, and support the weight of the carrier.

The Carrier is of heavy tubular construction and supplied complete with crates to carry 50 pint bottles.

A two-leg spring-up stand effectively supports the machine on any surface.

Wheels equipped with John Bull or Palmer or Dunlop tyres, size 26in. × 1¾in. rear and 20in. × 2in. front, are built with 13 g spokes throughout. Finished in finest black enamel.

Price, complete with name plate, pump, toolbag and tools, and reflector, **£9 0 0**

MODEL SW 24.

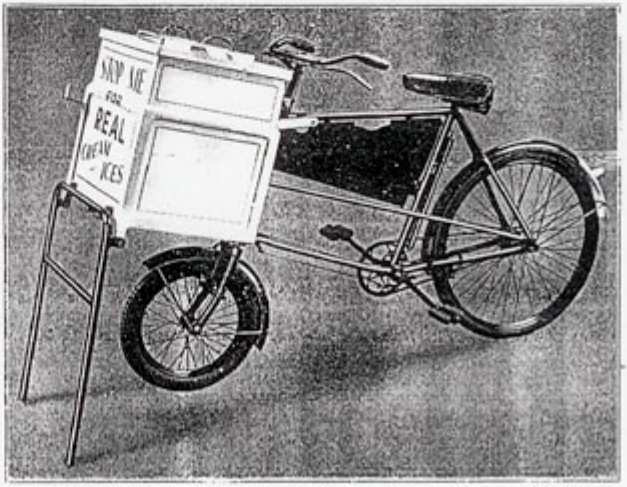

A large capacity Ice Cream Cycle for long distance selling.

This machine is built on our famous double truss frame, as above. This particular "Pashley" small wheel cycle has been in regular use by the largest food and general commodity distributors for over 9 years, and has been proved to be the finest carrier cycle on the market. Construction of the cycle is exactly the same as Model SW 3, except that a 14in. × 2in. front wheel and a slightly different type of swinging stand are fitted. The ice cream box, measuring 18in. × 14in. × 18in. deep, is insulated with 2in. slab cork all round, fitted with a strong zinc container measuring 13¾in. × 9¾in. × 14¾in. deep, and 2 hinged serving holes, with polished aluminium covers.

Box finished in white enamel.

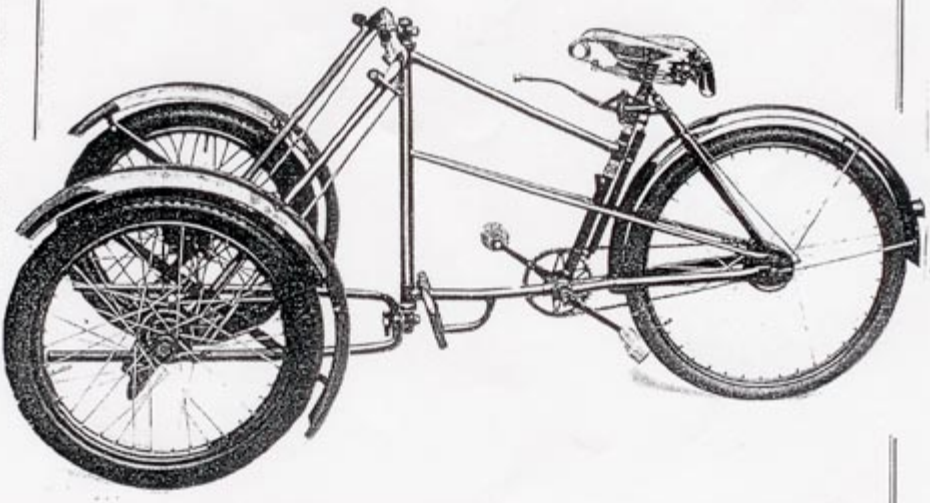

Price (not written) **£10 10 0**

For refrigeration by Drikold placed amongst cartons.

THE FAMOUS PASHLEY SEPARATE UNIT CHASSIS.

Reg. Design No. 770644.

Supplied entirely complete with springs ready for the attachment of any box. This chassis is absolutely the finest on the road and being complete in itself, with Handlebars, Front Brake Levers and Controls, and Mudguards **all built on to the chassis itself,** there is no driving, steering or braking strain on the box at all. Bodies are very simply attached by the use of 4 bolts only.

SPECIFICATION.

FRAME, registered design No. 770644, 20in. built throughout with special heavy gauge tubing with dropped front axle, the forward portion forming a special, independent triangulated frame, steering from the extra long head shown in the illustration. The mudguard stays are part of this forward frame, giving an exceedingly strong attachment for the guards. The **MOTOR CAR TYPE BRAKES** are internal expanding, the rear being operated by a ratchet lever, with locking device, which allows the brake to remain in operation when the machine is unattended. The WHEELS are built on very heavy sidecar hubs, with 10 gauge spokes, heavy gauge rims and fitted with 26 x 2in. SPECIAL CARRIER TYRE on rear wheel, and Dunlop 25 x 2.75in. **MOTOR CYCLE wheels and tyres on front to give great resiliency, long life and no trouble.** Heavy transport chain wheels and cranks, heavy transport chain and Spring Seat Saddle, made to our own specification are fitted as standard. Finished in Black enamel.

Any type of Box can be supplied to order at very competitive prices.

Equipment: Pump, Toolbag and Tools, Reflectors, and Grease Gun.

TOTAL OVERALL WIDTH OF STANDARD MODEL 39in., or we can supply to special dimensions to order.

Size of Box which can be fitted to Standard Model, 25in. wide x 39in. long.
