

Each Rodriguez tandem is unique . . . designed and crafted to meet your needs

Oval Top Tube

Round Top Tube

RODRIGUEZ
R·E Cycles
Seattle USA

The symbol of the Rodriguez
is the trillium —
that most delightful flower
of spring.

Like the trillium,
the Rodriguez is spirited and light.
It's a tandem built for soaring . . .
for descending the ultimate downhill.

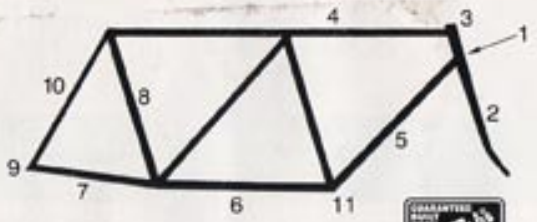

It's also a tandem built for work.
Designed for touring with loads,
it will stand up to your most rigorous
demands . . . challenge the toughest hill.

Look over the specifications.
Then order your custom Rodriguez tandem.

For the beauty . . . for the ride.

Since Rodriguez tandems are built with over-sized tubing, all braze-ons for brake and gear cabling are included as standard features, as are 2 water bottle mounts and a pump peg. You may specify any number of other braze-ons.

Rodriguez tandems can be made to any acceptable tandem design.

In the complete Rodriguez tandem, only the most reliable components are used. Each tandem is entirely assembled and carefully tested prior to packaging for shipment. When you order a Rodriguez tandem, you are ordering the finest.

Order yours today. For the beauty . . . for the ride.
