2003

5" REAR TRAVEL!

EXPERT

Possibly the best pedalling 5"-travel XC suspension design ever! New, redesigned frame with an optimized rear axle path and pivot placements helps eliminate pedal-induced feedback, is perfectly smooth through any terrain. Fox Float R rear shock features new Air Volume Adjustment that allows you to tune the progressiveness of the rear shock, matched to the ultra-adjustable 5" travel Fox Float RL suspension fork.

Component features include Hayes hydraulic disc brakes, tubeless tires, Easton components, and a full XT drivetrain - all light enough to race, and tough enough to handle any epic ride! XT front and rear derailleurs, shifters, crankset. Sram 7.0 cassette,Hayes HFX9 XC Disc, 6" disc brakes. Cane Creek ZS2 headset, Easton EA50 seatpost, stem & riser handlebar. Selle Italia Fokus saddle w/kevlar edges. Formula Disc hubs, Mavic X3.1 UST rims with Maxxix Larsen TT tires. Shimano SPD-M515 pedals. Black. S, M, L

#7980-246 ***MSRP $2100 $1599***

TEAM

Top of the line Hollowpoint model with all of the best features of the Expert plus ultra light weight! Fast, light, and race-worthy with a component package that includes Fox Float RL rear shock with external damping adjustments and a handlebar-mounted remote lockout lever and the new Fox Talas suspension fork with 3" to 5" of adjustable travel.

Hayes HFX MAG hydraulic discs, Mavic Crossmax XL wheels with Maxxis Larsen TT tubeless tires, Shimano's new XTR 960 Crankset, XTR 952 rear derailleur and shifters, XT front derailleur, cassette. Thomson Elite seatpost & stem, Easton EA70 handlebar, Flite Ti saddle and more! Yellow. S, M, L

#7980-24

MSRP $3800 $2799

In-Store Prices for professionally assembled bikes are *$100* dollars higher. Includes - Full assembly, 30 day tune-up, free labor with all warranty parts. Mail/Web-Order bikes are shipped in "dealer-ready" condition, requiring minor assembly by a qualified bicycle mechanic.

SPORT

Identical frame design as the Expert and Team with an optimized rear axle path and pivot placements that help to eliminate pedal-induced feedback. Adjustable Cane Creek AD-5 rear shock to match any rider or terrain, Manitou Black Sport fork with 100-120mm (4/5") of adjustable travel and stiff Reverse Arch casting.

Component highlights include Hayes HMX1 mechanical disc brakes, TruVativ Firex ISIS cranks, Sram 7.0 cassette and a Deore/XT drivetrain!

Formula Disc hubs laced to Mavic X139N rims and Maxxis Larsen TT tires. Koski Stronghold XC Riser bar, stem & seatpost with WTB Rocket V Race saddle. ZeroStack Sealed headset, Shimano SPD-M505-L clipless pedals. Red. S, M, L

SUPERGO®

UNBEATABLE JERSEY VALUES!

A.

Only $29

Only $35

B.

A. CLASSIC JERSEY

Subtle styling, quality materials and construction makes it a favorite for road and mountain riders. Polyester fabric wicks sweat to help keep you dry & comfortable, and the generous, roomy cut offers mobility without sacrificing aerodynamics or comfort. 3 rear pockets and a long front zipper. M-XXL. Red, Neon Yel, Blu.

#5649-90 **$29**

B. VENTILATOR ROAD JERSEY

Our fastest, lightest and most comfortable racing jersey! Narrow cut fits close for perfect aerodynamics, but still retains enough casual style to be enjoyable to wear year round. Mesh side panels aid airflow and the long front zipper allows additional ventilation when needed, making this an ideal choice for hotter days, but still great as an everyday jersey. 3 rear pockets. M-XXL. Blu, Whi.

#5649-92 **$35**

C. WOMEN'S SLEEVELESS JERSEY

Great rides don't have to be hindered by heat and shoulders don't always need to be covered! Slimming, current and crafted of advanced wicking fabrics to keep you dry and comfortable! 3 rear pockets with angled openings on the side pockets for easier access to your riding essentials. XS-XL.

Yellow, Purple #5649-90,
Columbia Blue #5649-899 **$25**

D. WOMEN'S CAP SLEEVE JERSEY

A stylish update on the traditional basic cycling jersey. Slim-fit and entirely modern, crafted of advanced wicking fabrics to keep you dry and comfortable. The front zipper and brief cap sleeves ensure a streamlined fit, and the trio of rear pockets feature angled openings on the side pockets for easier access to your riding essentials. XS-XL. Yel, Coral, Sky Blu.

#5649-90 **$29**

E. CLASSIC WOMEN'S BAGGY SHORTS

Feature-loaded, top-quality, low-price version of the classic, in a women's specific cut. Supplex nylon shell with tough bar-tack stitching at all stress points! Light-weight and very comfortable inner cycling short with a seamless chamois and top-quality rubber leg grippers. Velcro rear pocket. Made in CA. S-XL. Black

#5752-933 **$35**

F. CANYON JERSEY

Incredibly comfortable loose fit MTB jersey, comparable to top brands, but more grassroots styling. 100% polyester material wicks sweat and stays dry. Zippered rear pocket securely holds essentials.. M-XXL, Blu. Tan, Gry,

#5649-90 **$35**

G. CARGO SHORT

Tough & lightweight ripstop nylon cargo shorts, with integrated internal top quality mesh short & 3-piece antibacterial chamois. External pockets securely hold gear and easy-access pull-tabs keep the gear accessible! S-XXL. Black.

#5752-575 ***Compare at $75*** **$45**

H. CLASSIC MEN'S BAGGY SHORTS

Similar to the Women's version with a men's specific cut. Feature-loaded, top-quality, low-price version of the classic baggy cycling short! Supplex nylon shell with tough bar-tack stitching at all stress points -- like at the pockets! Light-weight and very comfortable inner cycling short features a seamless chamois and top-quality rubber leg grippers. Velcro rear pocket. Made in CA. S-XXL. Gry, Tan, Blk.

SUPERGO BIKE SHOPS
JERSEYS • SHORTS

1-800-326-BIKE (2453)

CYCLING APPAREL

THE BEST SHORT VALUE IN AMERICA!

Our new 2003 models are designed and made in California by a top bike wear contractor. You have probably already owned their garments under some famous (and top priced) brand names. As Supergo brand, they make a statement about our commitment to give you the best at the lowest price.

Every model is loaded with quality upgrades in chamois, fabric, thread, elastic, drawstring, and more... The 8 panels have genuine Swiss Eschler chamois, considered the world's finest. They're assembled in Italy and then shipped to California for installation. Even the Supergo logos are superior quality from Switzerland. And if you'll help us advertise by wearing the large logo on some models, we'll "pay" you in the form of a special lower price.

A. Fieldsensor Women's

Anatomic cut panels with black colored seams are upgraded flat-stitching that fit like skin.

B.

A. FIELDSENSOR 8 PANEL SHORT

Miracle Japanese fabric, considered the state-of-art for cycling. Light, breathable and super hydraphobic. Panels are cut in a new anatomic configuration. Seams are upgraded flat-stitching that fit like skin, move with the body better than conventional over-lock stitching. Superior "fluff thread" that feels soft and doesn't tangle hair.

Our highest level Eschler chamois has an outer structure of moisture wicking polyester micro-fiber. Its differential thickness foam places padding only where it's beneficial and eliminates it where extra bulk would cause unwanted bunching and pressure. This chamois also features one of the best long-term anti-microbial treatments

$110 Retail Value.

Men's: S, M, L, XL, 2XL, **Women's:** XS, S, M, L, XL #5751-92 ***$75***

B. FIELDSENSOR 8 PANEL BIB

All of the technical features and quality of our Fieldsensor short. Mesh uppers. ***$130 Value.***

Men's: S, M, L, XL #5751-92 ***$85***

C. DRYLINE 8 PANEL SHORT

Dryline fabric made in USA, is light weight, breathable and ultra hydra-phobic fabric. You just can't get wet in Dryline! Classic 8 panels with black flat stitching with comfortable "Fluff thread." Same Best level Eschler chamois. ***$80 Value.***

Men's: S, M, L, XL, 2XL, **Women's:** XS, S, M, L, XL #5751-92 ***$55***

D. NYLON-LYCRA 8 PANEL SHORT

Nylon/lycra is made all over the world. But we didn't settle for anything less than premium Italian, glossy black 8.2 oz fabric for our classic and rugged 8 panel. Contoured panels with overlock stitching… powerful long distance riding in total comfort. Better grade, Eschler 3 piece chamois is "Y" shaped for a superb fit and is typically found in $70+ brands.

LARGE LOGO: Men's: S, M, L, XL, XXL #5751-92
Women's: XS, S, M, L, XL #5751-92 ***$40***

SMALL LOGO: Men's: S, M, L, XL, XXL #5751-92 ***$45***

S, M, L, X, 2XL
#5751-923

Only $25

SUPERGO® APPAREL

Cool weather is still the order of the day but it doesn't mean you have to sacrifice comfort. These latest additions to our best selling Supergo technical garments feature a revolutionary new fabric. It's 6.75oz weight nylon-lycra style material called EuroJersey. The difference is it's brushed inner surface that adds insulation without adding weight or bulk. A true micro-fiber made from Meryl nylon yarn with hydro-phobic (wicking) action to keep you dry as well as warm. It's also far softer than traditional nylon and seams have flat stitching for a smooth, comfortable, profile.

A.

B.

A. WOMEN'S LONG SLEEVE JERSEY

Subtle styling, quality materials and construction in a wome's specific cut makes it a favorite for road and mountain riders. Polyester fabric wicks sweat to help keep you dry & comfortable, and the generous, roomy cut offers mobility without sacrificing aerodynamics or comfort. 3 rear pockets and a long front zipper. S - L. Dusk/Black

#5650-751 **$45**

B. MEN'S LONG SLEEVE JERSEY

Similar materials and construction to women's long sleeve in a men's specific cut. 3 rear pockets and a long front zipper. Yellow, Grey. M -XL

#5650-750 **$45**

C.

C. KNICKERS (LIMITED QTY.)

Cut to just past the knee, these are a great choice for those in-between days when a short isn't enough, and a tight is too much. Popular for night rides, they feature 6-panel construction and the same 10mm-thick Eschler seamless chamois that we chose for our best racing shorts, as well as an elastic waist and secure leg grippers. Men's model also features a waist drawstring.

Men's M-XL #5853-903 **$49** **Women's** XS-M #5853-904 **$49**

D. TIGHTS

These full-length tights are an ideal way to meet the chill of an early morning ride. Inside you'll find the same 10mm-thick Eschler seamless chamois that we chose for our best racing short, and they feature 6-panel construction for a smooth fit from the elastic waistband all the way to the zippered ankle cuffs with elastic gripper. Men's model also features a waist drawstring, and is available without a chamois.

Men's S-XL #5853-900 **$65**

Men's (no chamois) S-L #5853-902 **$55**

Genuine Swiss Eschler Seamless, 10mm thick

bollé® TECHNICAL EYEWEAR

MANUFACTURER CLOSEOUT!

Sport-inspired designs with removable lenses and full coverage, wrapped profiles. Hydralon nylon frames are virtually indestructible and exceptionally lightweight, with Thermo-Grip rubber temple tips and nose pads that don't slip, even when you sweat. Air Management frame designs resists fogging, and Absorber Hinges act like springs to provide the tension required for a snug, comfortable fit. Shatterproof polycarbonate lenses offer 100% UVA/UVB protection and are treated to be scratch resistant. Back surfaces are further treated with an Anti-Reflective coating and all exceed ANSI requirements for UV protection, impact resistance, and optical clarity.

LENS COLORS:
TNS Gun: Neutral gray metallic silver mirror that,s ideal for everyday, all-purpose use.
Vermillion: High contrast non-reflective rose lens. Ideal for low to medium light conditions.
Cinnamon: Non-reflective high contrast lens with medium light blocking, ideal for mid-intensity light conditions.
Clear: Functional eye protection for night conditions.

A. **VIGILANTE**
Wrap-around design for maximum coverage against the sun and elements, Nylon frames with protective case included. Two sets of lenses: TNS Gun and Vermillion. SPECIFY: Red(Shown) or Blue frame.
#5344-6500 ***MSRP $99.99 $59.98***
3-LENS SET TNS Gun, Clear & Vermillion #5344-6503 ***MSRP $109.99 $69.98***

B. **ROGUE**
All the technical specs and aggressive protection you'll ever need, plus cool looks! Unbreakable Hydralon frame, thermal temples and nose pads won't slip in any condition. Absorber hinge for a custom fit, wire core temples. 100% UV protection. Includes protective case and two sets of lenses: TNS Gun and Vermillion. Red frame.
#5344-6505 ***MSRP $99.99 $49.98***

C. **PAROLE-TT GOLD S+4**
Wrap-around design. Nylon frame accepts interchangeable lenses (gun flash gray, vermillion, clear and dark cinnamon) for varied light conditions. Includes protective case. **Parole fits narrower faces.** Includes case and four sets of lenses: TNS Gun, Vermillion, Clear, Cinnamon. Gold frame.
#5344-6506 ***MSRP $119.99 $69.98***

ORDER BY TELEPHONE
Please complete the order form even if you're ordering by telephone. It helps you remember everything and it synchronizes you with us for the info you'll be asked. Please have your credit card in hand.

ABOUT SHIPPING
We use fast, reliable UPS Surface. Delivery is 1 - 7 business days depending upon your distance from Los Angeles. NEXT DAY and 2ND DAY are available as shown. Note that UPS delivers to street addresses only—NOT P.O. BOX.

DAMAGED CARTON
Everything leaves in new, rugged cartons. But if you receive a crushed or opened carton, you must PROTEST to the delivery person. The UPS delivery person will handle the paperwork and instruct you. UPS will handle any claim fairly and immediately. You are never "stuck."

DEFECTIVE GOODS
All merchandise is guaranteed new and free of visible defects. However, if your closer inspection or usage reveals a defect, please call us or e-mail Line 3 below at once to explain the situation. DO NOT RETURN GOODS WITHOUT CONTACTING US FIRST.

CUSTOMER ORDERING ERRORS
Due to the technical nature of our merchandise, customer ordering errors sometimes occur. The most common areas are front derailleur, stem, seat post, and headset measurements. If we ship as you specified but the problem is that you specified wrong, we'll replace the item provided you 1) pay return shipping fees, and; 2) pay a restocking fee of 10% of the item's price, or $3.00, whichever is higher. All returns must be in "new condition" and within 30 days of your receipt. Since we are selling famous name brand items at discount prices, we cannot accept returns for frivolous or other reasons beyond our control such as, "just changed my mind," "can't afford it," "my spouse went ballistic after finding out how much I spent," etc.

REFUNDS You'll get a prompt, cheerful refund whenever you:
• Overpay • Cancel an outstanding backorder which was prepaid • Prepay order by check, specifying, "no backorders" • Return merchandise for credit Remember, there is no way you can overpay with a credit card because we don't charge you until we ship the merchandise...it's the law. Not all Mail Order abide by this LAW. Buyer Beware.

SUPERGO PRICING POLICY
All prices are subject to change. Since prices, especially of imports, fluctuate you should verify the price you expect to pay with our telephone sales agent or by checking our web site. Our web prices are the current price and supercede those in our catalog and magazine ads. Most prices are the same in our catalog and bike shops.

PROBLEM/QUESTIONS AFTER ORDERING (orderstatus@supergo.com)
Try to have your invoice available. Most problems can be adjusted easily, while you are on the line. Emails are answered within 24 hrs.

CATALOG ACCURACY–We strive for catalog accuracy. However, errors may occur. In other cases, a manufacturer may make a specification change without notifying us. If your purchase is affected, we will attempt to satisfy your reasonable expectations. We will not fullfill unreasonable requests, such as selling a $100 item for $1.00 due to a typo. Supergo reserves the right to resolve these and other issues at our discretion.

BACKORDERS (orderstatus@supergo.com)
We will advise you of the stock status of each item while you're on the line. If you order online, or if an item goes out of stock before we process your order, you will receive an immediate backorder status report on it by mail or e-mail. Or, you can instruct, "NO BACKORDERS."

RECEIVING MULTIPLE COPIES OF CATALOG? (catalog@supergo.com)
Help us keep our prices low is by eliminating mailing waste. Please send us the address label on all of the catalogs coming to your residence, noting which one is correct. Use fax, e-mail or regular mail. Latest catalog included with every order.

GIFT CERTIFICATES
Any amount over $25.

INSTALLATION INSTRUCTIONS
There's another advantage to buying from one of "USA's TOP 100 BIKE SHOPS" and a real store, as opposed to a pure mailorder operation. We work with these components in our stores, learning many special installation and maintenance tricks that we pass along when we deliver.

HOW TO E-MAIL US

1. To order, if you know exactly what you want, price, etc. Be sure to state whether you are ordering from ad, catalog, web, other:
   orders@supergo.com
   (Note: Ordering from the web is best. Use encrypted, secure order form.)
2. To discuss an order after it was placed but before it is delivered (top priority):
   orderstatus@supergo.com
3. For customer service after order delivery or about backorders, billing/shipping errors (top priority):
   customerservice@supergo.com
4. If you need more information to place an order (next day):
   salesinfo@supergo.com
5. Suggestions on how we can improve our catalog, operations, etc (normally no reply):
   suggestions@supergo.com
6. To request a free catalog (no reply):
   catalog@supergo.com
   (Note: Customers will receive all new catalog editions for one year after ordering. All catalog requests get you one year of new editions. Allow 3-4 weeks delivery.)
7. To receive our Weekly e-mail Newsletter & Hot Deas, sign up on line at:
   www.supergo.com

SUPERGO COMPUTERS AND HRM

- 2 YEAR WARRANTY
- FITS ROAD & MTB
- PRECISION CHIPS

$14.95

BIG DISPLAY 8-FUNCTION

Easy-to-read oversized dual-line display

FUNCTIONS

- Speedometer • Trip distance
- Total distance • Auto trip timer
- Max speed • Average speed
- 12 hour clock
- Average speed comparator

FEATURES

- OS, 14mm character display
- Auto Scan • Dual Line Display
- Auto start/stop
- Auto power on/off
- Low Power consumption
- Fits any bike • Heavy-Duty wire

#5021-2080 $14.95

$29.95

WL-9 WIRELESS

Wireless 9-Function

FUNCTIONS

- Current Speed
- Average Speed
- Max Speed • Odometer
- Odometer Save Function
- Trip Timer • 12/24 Hr Clock
- Speed Comparator
- Auto Power Off

FEATURES

- Km/Mi Selection
- Auto Start/Stop
- UNIVERSAL FIT (road & mtn)
- Low Power Consumption
- Extra Lrg LCD Display

#5021-2086 $29.95

$34.95

COMPARE AT $100+

HRM-1000

11 Function Computer & Wireless Heartrate Monitor

Top quality, 19-function Cycle Computer and HRM, for less than most of the "name brand" basic non-HRM models from the same factory!

CYCLING FUNCTIONS

- Current, Average, Max Speeds
- 24-Hr Clock • Trip Distance
- Odometer • Stopwatch

WIRELESS HRM FUNCTIONS

- Constant Pulse Rate Display
- Upper/Lower Limit Programming
- Training Zone Memory
- Training Zone Alert
- Includes all mounting hardware & chest strap

#5021-0300 $34.95

$39.95

NEW

F18 HEART RATE MONITOR

Easy to use and packed with the functions that matter most!

An incredible value that includes HRM watch, wireless chest strap, and a handlebar mount!

FUNCTIONS

- Current Heart Rate • % of Max Heart Rate
- Max Heart Rate Auto Settings
- 12/24Hr Clock • Auto Exercise Timer
- Programmable Hi/Low Target Zones
- Customizable Zone Alarm Settings
- Target Zone Recall/Alarms
- Max Heart Rate Alarm • Calorie Calculator

FEATURES

- Auto & Manual timer resets
- Alarm Sound on/off Toggle
- Backlit Display • Audible Key Tones

#5021-2083 $39.95

POLAR® HRM/CYCLE COMPUTERS

A. **S120**–Designed with the recreational runner in mind. Program your favorite workout and start at the push of 1 button.

MAIN FUNCTIONS:

- Exercise Set™ - program your favorite workout
- 60 lap, Full function stopwatch displays exercise time, lap time, HR and average HR
- Three target zone settings with out of zone alarm
- Recovery function • Independent Count Down/Up timers
- Age based HRmax • Watch functions

Single recall file includes:

- Total exercise time • Average and max HR • 3 target zones
- Time in, above, below target zone, recovery and average HR

#5021-0443 ***MSRP $120 $99***

$99

AIREON® PUMPS

COMPARE AT $40

Unique clever valve head attaches instantly to Schrader or Presta valves without the need to change internal parts.

Top mounted pressure gauge is extremely easy to read, and accurate up to 160psi.

FLOOR

All steel means rugged durability plus no leaks. An amazing feature is the exclusive, new Clever Valve. A single aperture attaches snugly to both presta and Schrader valves without changing internal parts. Simply twist the locking lever and pump. The valve knows whether it's filling a presta or Schrader.

Easy to read high gauge position. Extra long hose really comes in handy, too. The black dots in the steel foot pedal are rubber to prevent slippage. Anti-slip and comfortable Kraton rubber insert in handle. Bright yellow epoxy paint stands out amidst garage clutter. Pumps up to 160psi. Price slightly higher in our stores.

#4720-0420 **$24.95**

Best Buy

SHOCK

Remarkable little 3rd generation pump with lots of features. Cast aluminum head and seamless aluminum tube are rugged, precise, and light weight (only 206gm/7.25oz.) Big, easy to read solid brass gauge mechanism. Molded plastic handle for comfort and power. 360° swivelling hose to fit a wide variety of hard-to-reach shock valves. Instant pressure release button. Shock makers' brand pumps retail for $30-40 yet offer no better performance.

HI-PRESSURE ROAD PUMP

Hi-pressure road pump. 6063 T6 aluminium barrel and handle, slim and lightweight high-tech design. 160 psi. Patch kit and Schrader adapter in handle end. Mounting bracket included. 13.25″ length, .75″ diameter. 110gm.

#4720-0445 **Sale $19.95** NEW!

HI-LO DUAL PRESSURE MINI

This is the trend in frame pumps. Works for both Hi Volume fat tires and Hi Pressure road tires. Easily switch modes between the V or P notch. Durable 6063-T6 precision aluminum barrel. Clever Valve fits both presta and Schrader without any parts changing. Non-slip Kraton rubber rotating handle provides traction and comfort. Bottle cage mounting clip included. 199gm/7oz. 12.75″ length

#4720-0440 **Sale $19.95**

Clever Valve fits Presta & Schrader

Switch between hi-volume or hi-pressure mode

DUAL ACTION HI PRESSURE MINI W/GAUGE

Throw away your old road pump and go modern. Produces very high pressure by pumping in both directions. 6063-T6 Aluminum barrel and ergo plastic head and handle with Kraton grip. Brass gauge with plastic display covered by magnifying bezel. 169gm/6oz, 7″ length.

#4720-0430 **$19.95**

Clever Valve fits Presta & Schrader

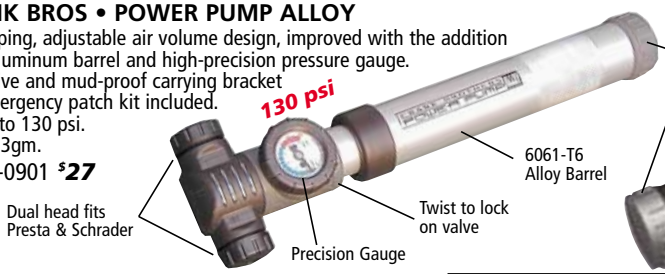

Built-in gauge with magnifying bezel

CRANK BROS • POWER PUMP ALLOY

Telescoping, adjustable air volume design, improved with the addition of an aluminum barrel and high-precision pressure gauge. Protective and mud-proof carrying bracket and emergency patch kit included. Pumps to 130 psi. 9.2″ 173gm.

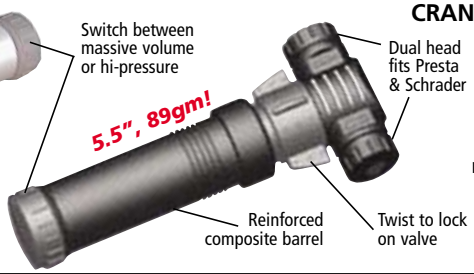

#4720-0901 **$27**

CRANK BROS • POWER PUMP

Dual head for Schrader or Presta. Twist knob on handle puts pump into a hi-output, low pressure mode for quick filling following by switching to the hi-power mode when resistance requires muscle power.

#4720-0900 **$19.95**

XMO 300PSI SHOCK PUMP

All aluminum construction. easy to read dial and quality brass mechanism. Pressure release valve. Screw on schrader valve, flexible hose.

SHIMANO® R-540

NEW

Improved 2003 version of the R-535 design. 145 gm. per pair lighter! Improved 28mm deep aero rim with braking surface that's bead-blasted for compacting and hardening. Bladed, paired, crossover 16X16 spokes angled to attach to the side of rim permits the use of a lighter rim, since extra material doesn't have to be added to the center section where a spoke would normally be attached. A radially compliant ride and great lateral stiffness… characteristics of an ideal wheel! Crossover lacing with a radial drive and one cross non-drive sides increases lateral rigidity by 30% – same as DuraAce – for increased power transfer. Low friction labyrinth and contact sealed bearing.

Fr: 815gm, Rr: 1030gm.

#1604-0494 ***$299 set***

Improved 28mm aero rim with bladed, paired, crossover spokes.

Hubs feature labyrinth and contact sealed bearings.

#1604-0782 ***$199 set***

Ultegra 6500, 32-hole hubset for smooth, efficient and dependable performance!

Mavic Open Pro SUP rims in black anodized.

WTB 2003 TIRE BLOWOUT!

TREAD PATTERNS
A. RACERAPTOR - semi-slick XC tread, extremely light, ideal for hardpack and race conditions
B. MUTANORAPTOR - aggressive freeride tread with many small knobs and a fairly roundprofile, excellent in all terrain conditions.
C. MOTORAPTOR - extremely aggressive blocky tread and more squared-off profile for added traction and braking power, excellent for the most extreme conditions.

CASING CALLOUTS:
DH CASING: A tough casing designed for extreme environments, with extra abrasion resistance and strength
INNER PEACE: A lightweight, teardrop-shaped reinforcemnt to DH sidewalls that enhance shock absorption and help prevent pinch flats.

RUBBER COMPOUNDS
STANDARD RUBBER - harder rubber that rolls fast and wears well for durability.
SLOW REBOUND RUBBER - a softer rubber with slower rebound characteristics, excels in wet and slippery conditions by conforming to the trail better than standard rubber.
DUAL COMPOUND - a combination of a standard rubber center strip, and Slow Rebound Rubber on the sides of tread.

KONCEPT
Kenda's recent assault on the tire market has spawned a long list of excellent new treads, and Koncept was one of the first that helped to validate Kenda tires as a serious option for both enthusiasts and pro riders. Priced affordably, the Koncept still delivers excellent ride characteristics, with high-traction, fast rolling natural rubber, and lightweight Aramid fiber bead. Supple 60-tpi blackwall casing corners well and offers puncture resistance, and the wide color selection lets you match the tires to nearly any bike! (note: colors have no affect on performance.)

#3905-541 $25

SHIMS TO FIT 27.2 POST
Very high quality machined aluminum. 30.4, 30.9, 31.6
#3905-140 $7.95 ea.

HFX COMP DISC BRAKE SYSTEM

$229 Per Pair!
MSRP $390

Flip-Flop lever design with integrated reservoir mounts to either side of the bar

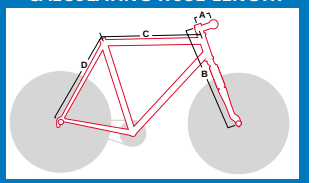

Bike Factory Surplus Buyout! 40% SAVINGS!

The proven HFX-COMP is the most popular hydraulic disc system on the market, used by pro racers and found as original equipment on $3,500+ bikes!

- Light enough for Pro XC racing, yet ultra powerful for controlled descents
- Composite master cylinder body, alloy lever blade for light weight and strength
- Flip-Flop lever design mounts to either side of the bar
- Race-proven sintered metal friction material in pads (used in all Hayes brakes)
- Protective kevlar™ hose can be cut to any length and will not scratch paint
- Open system eliminates thermal expansion-induced drag
- No free-running drag, rim wear or brake fade
- Easy installation and set up with self adjusting pads
- Word Cup performance... wet or dry
- Hose Length - Front 800mm, Rear 1600mm

MSRP $390
Supergo $229 per pair (Front & Rear)

CALCULATING HOSE LENGTH

Rear Hose Length A+C+D+140mm
Front Hose Length A+B-70mm

XT HYDRAULIC HOSES

Please order carefully, as hoses cannot be cut or altered. Use with XT-755 Disc Brakes only.

HOUSING: 500-600mm $20

WEYLESS®

THE TRUTH ABOUT MANY CARBON FORK BRANDS...

Except for bikes that come with expensive famous brand forks like Time, Look, Easton or Reynolds, most have "OEM" forks bearing the same "brand" as the bike. But few bike makers market forks separately. So, up till now, you had to pay $300+ for one of those famous brand top quality carbon forks.

Weyless forks are made by the world's most respected maker of "OEM" forks... the same maker that supplies many of the best selling USA and Euro bike brands. It's designing and quality control have earned it the prestigious ISO-9002 certification and approval by the German product testing institute.

Our factory-direct buying and low overhead operation strips about $200 off the true retail value.* ***5 Year Limited Warranty.

Intergrated w/Carbon Steerer

Lo As $79.98

As Light as 355 grams!

ISO-9002 CERTIFIED

Ahead w/Alum Steerer

Ahead with Carbon Steerer and aluminium headset interface

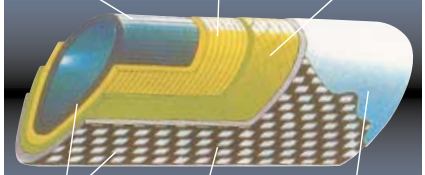

1" Ahead Full Carbon Monocoque

FABRIC DESIGN AND FUNCTION

0° Plies: Longitudinal stiffness (flex) and strength.

90° Plies: strength to resist splitting, crushing and impact damage.

45° Plies: Torsional strength and stiffness.

Dimensional Stability: to +/- 002" inside and outside.

Woven cosmetic exterior layer.

Hi Impact, Hi Temperature resistant resin system for durability.

FORK DESIGN & MANUFACTURE

Forks are designed by CAD-CAM to meet very high requirements of lightweight, durability, rigidity, performance, and safety. These objectives control all aspects of carbon fiber lay-up, internal voids, and joint design.

The carbon fiber technology used is hand lay-up of prepreg material made in Japan. Inner pressure during the hot molding process is created by an air filled bladder. High strength Aero grade resin is used.

100% of production gets QC testing for rigidity, alignment, weight, and paint. Strength, energy absorption, and fatigue testing is part of the quality assurance in every fork.

ULTIMATE BRS-70 CONSUMER FOLDING WORKSTAND

The most popular home workstand is now completely portable! Strong tripod-style base is stable and secure, even on uneven surfaces. Sturdy metal frame construction, with a telescoping design that offers height settings from 40" to 67". A secure spinner-adjustable clamp securely holds your bike, while the rotating clutch allows you to spin your bike for easy access to whatever you're working on. The lever-less design fits into hard-to-reach areas, and the comfortable dials are easy to use.

#5116-3009 ***$149***

Professional Quality!

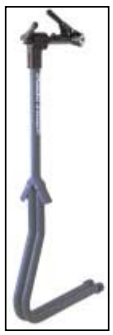

ULTIMATE BRS-80RT PRO WORKSTAND

Top pro quality, and complete portability! Strong tripod-style base is stable and secure, even on uneven surfaces. Heat-treated 6000-series aluminum frame construction, with a telescoping design that offers height settings from 42" to 72". The most unique feature, however, is the patented clutch-driven clamping mechanism, that easily accepts any diameter tube and clamps securely and easily. The lever-less design fits into hard-to-reach areas, and the comfortable dials are easy to use.

D.

Completely foldable. Includes carrying bag

A. PCS-1 CONSUMER

Many riders now use a repair stand to perform simple repair jobs on their own bikes. A good repair stand for home use should have: Quick-adjust clamp to fit all tubing sizes, fold for storage, 360-degree rotation for infinite placement, competitively priced, quality construction for long life, strong, sturdy, and attractive, tapered rotational locking system and powder-coating for long lasting finish

Our PCS-1 meets all of the above criteria and is backed by the Park Tool commitment to quality and integrity. Constructed of heavy steel tubing and powder coated for durability. Rubber feet are adjustable for uneven floors. For easy storage, simply lift the stand and the legs fold together. Uses 100-1C clamp.

#5116-0390 ***MSRP $139.95*** ***Sale $119.95***

B. PCS-4

The newest Park Tool repair stand! Jaw mechanism is the same cast, heavy-duty clamp that can be found on Park's shop-issue stands! Adjustable to fit almost any diamter, with rotational adjustments to make working on your bike easy! Also features 3 adjustable height settings, tip-resistant design, and adjustable feet for use on uneven floors. Folds flat for easy storage.

#5116-0397 ***MSRP $199.95*** ***Sale $179.95***

C. PRS-5 PRO

A true shop-quality stand with race-capable portability, thanks to the folding design! Adjustable jaw size, jaw angle, and height.Includes carry bag.

UPGRADE ANY BIKE...

...to handle like a pro model. Hi tech, new light weight design and factory direct buying create a custom experience at price you can afford!

access® XCL

"I wish I had known about this frame years ago. I have ridden frames worth thousands of dollars over the past 12 years...this one is every bit as good if not better. For the money you save on the frame, you can buy some mighty fine light parts and build a very sweet fast and light X-Country ride."

– Gerard, AU

$139
Frame, Post, Seat Clamp

"Access is a good pick for any mountain bike buyer who wants the custom bike experience but can't come up with the bucks."

– Mountain Bike Action Magazine

3.7Lb-18"
–Average of 8 oz. (230gm) lighter than last year's model!

Big 51mm diameter multi-shaped, triple butted downtube with external gusset.

Forged dropouts with replaceable derailleur hanger & disc mount.

2003 ACCESS XCL FRAME

Designed to meet the frame needs of serious enthusiasts who understand the benefits of a frame upgrade. The XCL frame is an upgrade to any bike except those with exotic tubing such as titanium, scandium and Easton. But XCL is aimed primarily at bikes in the $500-$1000 range, and to cyclists who are building a bike from scratch.

"S" bend stiffens seat stays and positions brake bosses in more central location.

Besides extolling its money value, Mountain Bike Action Magazine described the original Access model as a "classic NORBA race ready design." Other magazines and actual owner reviews **(see: www.mtbr.com & www.supergo.com/ access)** have given Access frames a loyal following among all types of riders.

The new 2003 Access continues that tradition with several important improvements.

Computer Aided Design has opened new possibilities in aluminum tube butting and manipulation. The result is an XCL model that is *8 ounces* lighter than last year's ALU model. Yet, the XCL is a stiff and rugged frame with excellent handling characteristics. Beautifully sculptured forged dropouts, a lightweight externally machined head tube, reinforced downtube gusset, and a lighter thin-walled seat tube. The big 51mm diameter triple butted downtube serves as the backbone. 71/73 degree geometry ensures a balanced, predictable, ride even with a 100mm travel fork. Sturdy disc brake mounts are part of the dropout forging. The black anodized derailleur hanger is replaceable ($9.95).

Access didn't compromise on the finish either. **Five classic popular colors** allows you to stylize to the fork and other components. The epoxy powder coat paint finish is flawless, even, orange-peel free, and scratch-resistant. Powder coating is far more environmentally friendly, too. Includes a lightweight 3-D forged, 2014 series aluminum seat post with bead blast-black anodized finish and a very clean black alloy seat tube clamp. Even the bottle screws are special. Black ano aluminum.

WEYLESS®

EASTON Ultra

NEW & IMPROVED 2003 MODEL!

Improving upon the 2002 Ultra was no easy task, since the geometry and handling was already flawless!

But Weyless made several key changes to the construction of its flagship super light XC frame. Top and down tubes now feature larger diameters and thicker butting for increased stability and durability.

This allowed the elimination of gussets—something that is possible only with Easton's superior engineering. The new, forged & CNC finished dropouts are substantially stronger than previous models, rendering the add-on disc brake reinforcement bar unnecessary. They also add unusual beauty to the frame. The extended portion of the seat tube has also been beefed up.

EASTON ULTRA LITE

Fork, Headset, Stem, Bar Not Included, sold seperately in this catalog. See index page 3

Weyless 2014-T6, 350mm seat post included

$299

3.4Lb-18"

10% Off Any Fork & Headset purchased with this frame!

"Good looks, strength, lateral stiffness, lightweight and price. Flawless welds and craftsmanship. This bike works the same if not better than my Schwinn Homegrown!"
-Mark, MTBR.com 12/02

"It's springy, not really stiff like those other alum. frames out there. It makes climbs really easier since it's so light and offers excellent power transfer and also because of the long top tube ...tough, light, fast and great looking..."
-Kam, MTBR.com 6/02

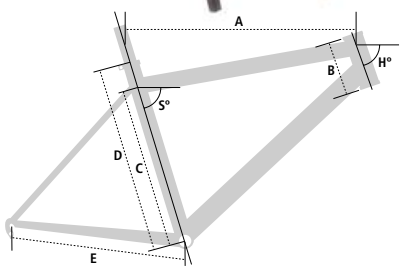

Beautiful and stiff custom forged and CNC'd dropouts with disc mount. Replaceable derailleur hanger.

"S" bend stiffens seat stays, positions brake bosses in more central location. Custom made ultra light-stiff mono-stay is a work of art.

44.5mm Easton Ultralite Oversized downtube, meticuluous welds and finish for a durable yet light frame

ULTRA

Top of the line Easton Ultra Lite 3 main tubes and Weyless custom butted rear triangle. Super glossy black metallic paint and tough clear topcoat assure beauty and durability. Every detail—head tube, BB shell—is machined for minimal weight. 3.4Lb (1.54Kg) - 18" New forged and CNC'd dropouts are not only works of art, but also exceptionally strong. With disc brake mount Custom CNC'd monostay is stiff and unique without adding weight penalty. New, oversized Easton Ultralite down tube for stiffness during climbs and sprints while the S-bend seat and tuned chain stays provide a comfortable ride. Black.

WEYLESS®

SP

LIGHTWEIGHT, SINGLE PIVOT SUSPENSION... BREAKTHRU PRICE!

As featured in the October 2002 Issue of **Mountain Bike Magazine!**

"The Weyless SP...boasts an impressive list of specs for the money - a 7000 series aluminum frame with nice gusseting details"

Disc Equipped bike shown

Single-pivot...consistent winner of bike magazine rave reviews.

One of the most proven and trusted XC suspension designs ever! The single-pivot revolution started with custom high-end companies developing lightweight XC-friendly suspension bikes that were more reliable than the complicated linkage designs, but they were often just as expensive!

A truly high-performance single-pivot XC suspension frame at a break-through price! Butted 7000-series aluminum tubing and oversized single cartridge bearing pivot ensure lightweight performance and total reliability. Your choice of the proven **Fox Float RL** or brand new **Manitou QL** air shock which delivers world-class suspension performance, complete with a static lockout lever for bob-free climbs and sprints. The QL rear shock uses an air spring and hydraulic internal damper for excellent control at an extremely light weight.

A RockShox Duke SL U-Turn offers adjustable travel and adjustable damping, making it easy to match to your riding style and terrain.

A combination of Shimano XT and LX drivetrain components ensure reliability and the WTB Laser Disc Lite wheelset is disc-brake ready. The Weyless bar, stem and seatpost are all proven performers and the WTB Laser saddle is one of the most comfortable.

Silver/Blue, Silver/Red.

FRAME & REAR SHOCK:

w/Manitou QL
$495

w/Fox Float RL
$595

New gusset on 18", 20" frame is not only stronger, but also lighter!

Oversized, sealed cartridge pivot bearings for ultimate lateral stiffness & durability!

67

GO BIG!
...without going broke

In a world where free-riders defy nature, gravity and general sanity, the Weyless 67 defies the last challenge... Value!

Up till now, freeriders had been forced to accept frame prices of up to $2500!

$695 Frame, Shock, Seatpost

FREERIDE

Easton RAD main tubeset

On The Cover of MBA (March/03)!

"Very impressive. The non-gusseted frame built from Easton RAD 7005 aluminum tubing remained rigid under severe poundings. We never dropped a chain and there was no excessive wheel, drivetrain, or component chatter... the Weyless 67 delivers the downhill and big-hit goods."

Mountain Bike Action, March/03

SPECIAL PACKAGE!

- ROCK SHOX PRO DELUX SHOCK
- WTB HEADSET
- WEYLESS DH STEM
- WEYLESS SEATPOST

ONLY **$1095**

"V" or Disc brake compatible

6" or 7" settings for rear shock

Weyless FreeRide 67 is the first 6" to 7" of adjustable rear travel frame under $700!

Most bike shops buy from distributors. But our large volume allows us to buy Weyless factory-direct, eliminating the layer of overhead that's included in the price of other frames. Also, no expensive team, trade shows, sales reps to be subsidized by our Weyless owners. Everything in the FreeRide 67's price is design, quality materials, and superb manufacturing. The Easton RAD main tubeset is the strongest and best option for hardcore, tapering radically from round at the seat tube to square at the head tube for incredible front-end strength. The swingarm pivots on massive sealed cartridge bearings, and it's compatible with both Disc and V-Brakes! The uninterrupted seat tube allows dropping the saddle for technical descents and like all respectable freeride frames, it's perfectly compatible with triple front chainrings.

The RockShox Pro Delux rear shock features adjustable compression and rebound damping, allows tuning out pedal-induced feedback without sacrificing small-bump performance. The long stroke & oversized shaft decreases pressure on the seals to ensure durability in all conditions. A single Allen key quickly converts the rear mount between 6" or 7" of travel, and the nitrogen-charged reservoir adds extra insurance against bottoming on big hits!

Freeride-Optimized Geometry. Developed through extensive field testing, with a head tube angle that varies from 69° with a single crown 5" fork to an extra-slack 66° with a 7" dual crown fork. These relaxed angles inspire confidence on even the steepest drops! BB height varies from 14" to 15.5" for excellent clearance on rocky terrain and the slightly stretched top tubes are perfect when combined with a shorter freeride-length stem. Includes Weyless 2014-T6 3D forged alloy seatpost.

Frame, Shock, Seatpost ***$695***

2002 OVERSTOCK CLEARANCE!

California-based Turner Bikes doesn't have much warehouse space - their bikes are so popular they rarely need it! However, this past autumn they built too many late-season XCE frames, we helped them clear space by buying all their `02 XCE frames! The result: an unprecedented sale price that's below the original dealer cost! Hurry, size and color selections are limited!

TURNER
SUSPENSION BICYCLES, INC.

XCE-All Terrain

BELOW DEALER COST!

$1198

Reg. $1995

From the speeds of world championships to the ladder bridges of the North Shore, Turner Suspension Bikes are renowned for craftsmanship and quality, from materials, to tolerances, to ride! You value fun over speed... but not by much! The 4" of rear travel on the XCE is stout enough to tackle some of the toughest terrain in the world, but the optimized geometry chassis doesn't completely relinquish climbing or sprinting talents.

Equipped with a Fox Vanilla RC coil-over rear shock, it's the ultimate adventure bike for true trail riders! Specialized FSR pivots, replaceable derailleur hanger, and grease fittings on all pivots for easy maintenance.

Hurry, size and color selections are limited!

"Riding the XCE is like floating in space. You don't sense that the suspension is moving, although the rear end is hooking harder up climbs and efficiently absorbs irregularities while hammering the flats. There will be no creaking or clanking as you literally glide across arduous singletrack. With a somewhat slack head angle -- 70 degrees -- the Turner behaves predictably...Turner designed the XCE to give new meaning to the phrase: Ride fast-take chances. It's stable steering and second-generation suspension can handle any scenario a hardcore trail rider might face. MBA's Bottom line: Trailbikes don't come much better than the Turner XCE. If you are all about trail riding -- if you are searching for a do-anything, go-anywhere mountain bike -- your quest stops at Turner Suspension Bicycles."
Mountain Bike Action Magazine, Feb/02

In Memorium

Susan Goldsmith
Founder, Supergo Bike Shops
1947-2002

Susan Goldsmith, the attractive, creative and athletic bike enthusiast who founded Supergo Bike Shops in 1971, died in December, at the age of 55 from pancreatic cancer. In spite of an eight week survival prognosis, Susy's tenacity and spirit kept her battling during 14 months of chemotherapy and surgery. After high school, Susy worked to save enough money for college. Susy and Alan married in 1970. She graduated Summa Cum Laude from Cal State Univ-Long Beach in 1971, at age twenty-four with a major in textiles. Despite lack of business experience, Susy opened a small boutique in Santa Monica, California, dedicated to European 10 speeds. It didn't take long for Susy's charm, high standards and expert product knowledge to develop the little store into one of So California's best pro shops. She expanded to larger quarters on Wilshire in 1972 and again in 1976. In addition to being one of the few women founding bike shops in America, Susy pioneered her own BMX team. During the first two years, Susy's husband, Alan Goldsmith, a lawyer, only helped out in the bike shop on weekends.

One of the funniest Supergo stories concerns how Mail Order came about. In 1973, Susy and Alan took a European vacation. It ended prematurely after they overspent buying Campy and other hard-to-find components from the Italian and French bike dealers along the way. When Susy put the items on sale, she realized there was too much for the local clientele. To unload the excess, she placed a small ad in the one bike magazine of that era. The large response from around the Nation resulted in Supergo becoming the very first mail order bike dealer specializing in high performance components. Susy co-wrote and photographed the first Supergo catalog. In 1974, Alan took over management so that Susy could devote more time to their family. However, she remained active behind the scenes in accounting and store design until 1986 when the Goldsmiths divorced. Susy moved to Santa Barbara but she maintained interested in Supergo right up to the end. In spite of her cancer, Susy advised Alan on the Laguna Hills store design and visited the Chandler Arizona store.

The Santa Monica store still gets inquiries about Susy from some of the original 1970's customers and their kids who now shop for the grandchildren. People familiar with Supergo's long history credit Susy Goldsmith's originality, hard work and consumer friendly policies as important building blocks for Supergo's success. Susy's next career was redeveloping classic craftsman style homes in Santa Barbara. Her final development, on Islay Street, was featured in an architectural magazine as an award-winning example of restoration, interior decorating and landscaping. She is survived by her two sons, Aren Goldsmith 28, an international attorney; and Jed Alan Goldsmith, a recent Univ of Calif honors graduate. Both sons took off work for one year to care for Susy during her long illness. Donations in Susy's honor should be made to USC-Norris Cancer Center, L.A.
