

THE 1995
MOUNTAINBIKE ACCESSORY
CATALOGUE

ANSWER

THIS CATALOG
ISN'T JUST ABOUT
MOUNTAINBIKE STUFF
OR ABOUT THE METAL,
MACHINING OR WELDS
WHICH MAKE THEM.

IT IS
ABOUT GOING FASTER AT TIMES
THAN YOUR HEART
WOULD LIKE YOU TO.

ABOUT GOALS.
AND WINNING.
AND FEELING WHAT IT'S LIKE TO MAKE IT
TO THE TOP
OF A TRAIL, OR A MOUNTAIN
OR A LEADER BOARD.

IT'S ABOUT BECOMING
SO IMMERSED IN SOMETHING
YOU MAY FORGET TO EAT.
OR SLEEP.

IT'S ABOUT EMOTIONS
AND BEING SO FULFILLED
YOU FIND IT HARD TO BREATHE.

AND ABOUT PLACES YOU'LL FIND IT HARD
NOT TO FIND YOURSELF.

ANSWER

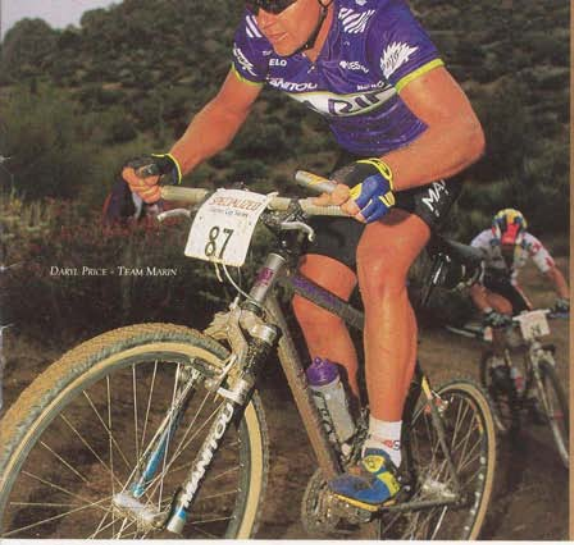

The Manitou 4 Suspension Fork

WE BEGIN BY PROUDLY PRESENTING THE MANITOU4. THE FOURTH GENERATION OF WHAT HAS BECOME THE MOST CELEBRATED SUSPENSION FORK--EVER.

MOUNTAIN BIKE ACTION SAID IT BEST WHEN THEY WROTE, "WHEW, THESE GUYS ARE SERIOUS! ANSWER AND BRADBURY HAVE DONE THEIR HOMEWORK." BICYCLE DEALER SHOWCASE WENT ON RECORD AS SAYING, "IT'S LIGHTER, STRONGER, TURNS BETTER, WORKS ON SMALL AND MEDIUM BUMPS AND HANDLES THE BIG HITS ALONG WITH THE BEST".

BUT PERHAPS JURGEN BENEKE GAVE US OUR MOST GLOWING CRITIQUE WHEN, AFTER WINNING THE 1993 GRUNDIG WORLD DOWNHILL CHAMPIONSHIP HE STATED, "MANITOU FORKS TOOK THE POUNDING SO I COULD TAKE THE VICTORIES!"

DARYL PRICE • TEAM MARIN

THE MANITOU4 FEATURES A NEW FORGED AND CNC'D CROWN WITH HIGH STRENGTH 2024-ALLOY AS WELL AS A NEW HIGH-SECURITY FLARED STEERER TUBE DESIGN PRESSED INTO CROWN.

MANITOU4 FEATURES:

- NEW IMPROVED THREE STAGE PROGRESSIVE ELASTOMER SYSTEM. A SYSTEM WHICH NOT ONLY IMPROVES SPRING RATE PERFORMANCE BUT ALSO CONTROLS REBOUND, AND PROTECTS AGAINST BOTTOMING OUT.
- FORGED AND CNC'D ALUMINUM BRAKE ARCH INTERLOCKS TO FLANGES.
- NEW EASTON® ALLOY STEERER IN 1.25" AND NOW 1.125" THREADLESS.
- EASTON TAPERWALL 7075 ALUMINUM INNER LEGS. NEW GOLD-TYPE III HARD ANODIZED FINISH FOR INCREASED DURABILITY. TEFLON COATED.
- TOP LOADING, EASY ACCESS LONG STACK ELASTOMER SYSTEM.
- ALL NEW INDEXED EXTERNAL ADJUSTER, WITH IMPROVED MARKINGS, AND POSITIVE "CLICK-STOPS"
- MANITOU LEADING AXLE DESIGN.
- IMPROVED ELASTOMER COMPOUND.
- 2.25" OF TRAVEL. 16.375" RIDE HEIGHT.

The Manitou EFC Suspension Fork

By combining the unparalleled suppleness of elastomer design with the precision control of fluid damping in 3 full inches of travel the Manitou EFC provides the ultimate performance for the needs of high speed downhill racing.

The top-of-the-line Manitou EFC (Elastomer Fluid Control) is the absolute state-of-the-art in suspension forks.

EFC FORK PART NUMBERS:

85-6127 LEG ARCH ASSEMBLY, NO CROWN

85-6130 EFC-DH LEG ARCH ASSEMBLY WITH HUB, NO CROWN WITH DH-DROPOUT, HUB AND AXLE

The Manitou EFC Downhill Option (Shown Left):

In pursuit of unmatched stability, and front end control, Doug Bradbury has designed a version of the EFC with double-wide dropouts for unparalled clamping area and a custom oversized downhill suspension hub with 84mm spoke flange – spacing. In addition, an oversize axle and pinch clamping bolts eliminates the flex experienced in other designs. This combination is available in one option only, without crown/steerer.

INDEPENDENTLY ADJUSTABLE INDEXED PRELOAD AND 9-POSITION ADJUSTABLE FLUID DAMPING CONTROL CARTRIDGE.

The Manitou Magnum features an easily adjustable "E-Clip" style Pre-Load adjuster.

Doug Bradbury (left) and Dr. Al Farrell discusssing the Manitou FS Crested Butte, Colorado

The Manitou Magnum™ Suspension Fork

Manitou Magnum™ Features:

- Our easily accessible pre-load adjuster (E-clip style) requires no tools.
- CNC'd crown, with stronger alloy (2024), lighter, stiffer, and stronger than M-3 design.
- Increasing engagement leg design for max stability.
- Oversized 1 1/8 Taperwall Easton® inner legs, Teflon® coated to reduce stiction. New Gold type III hard anodized for durability.
- 16 1/8" ride height

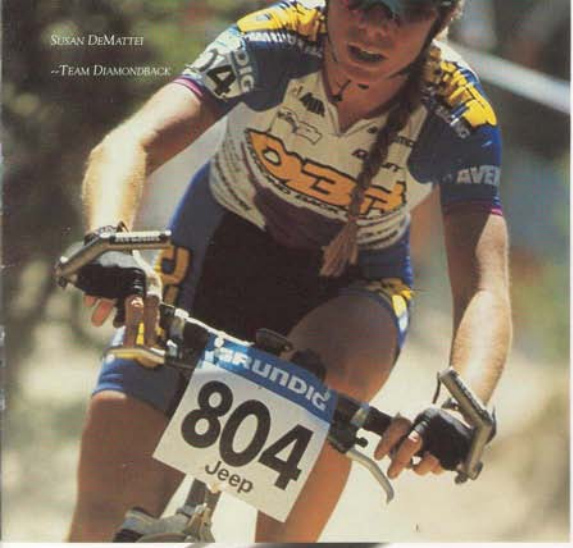

The Manitou Magnum Suspension fork continues the tradition of our Manitou Sport model for 1995.

Designed for high performance in a lower price point system, the Manitou Magnum features two inches of travel in a top loading 6" long elastomer stack controlled by our patented connecting sleeves.

The Manitou Comp Suspension fork

The New value priced Manitou Comp has all of the external design elements and quality of our Manitou4. Specifically designed for the International and OEM customer, the Comp features 1.8" of travel utilizing a top-loading 5" elastomer stack and a simple pre-load adjustable C-clip.

Manitou Comp Features:

- Elastomer stack combined with outer washer constraints
- New crown using 2021 aluminum alloy. Exclusive single pinch bolt design. Stiffer and lighter.
- Oversize 1 1/8" aluminum inner legs, hard anodized.
- CNC machined leading axle style dropouts and flanges from aluminum billet (not cast).
- CNC machined brake arch.
- 1.8" travel.

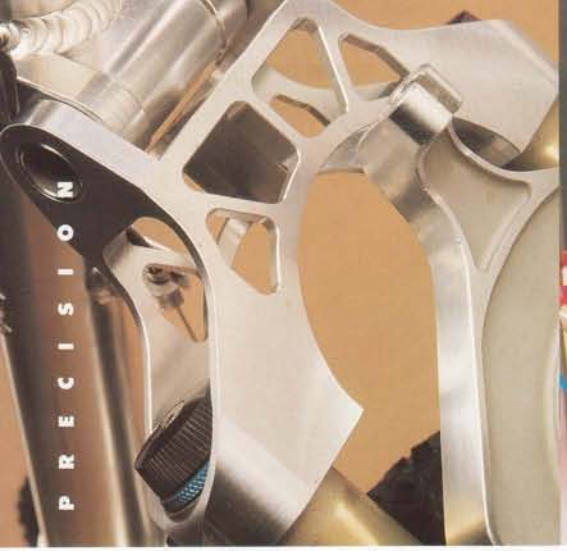

16 1/8" ride height.

MANITOU DH

IN 1993 WHEN JÜRGEN BENEKE RODE TO THE GRUNDIG WORLD CUP DOWNHILL CHAMPIONSHIP, WE MADE A COMMITMENT TO INSURE ITS ONGOING FUTURE IN OUR TROPHYCASE. TO THAT END, AND WITH DEDICATION TO THIS GOAL, WE PROUDLY INTRODUCE THE 1995 MANITOU DH --TRULY THE GREATEST "PURE PERFORMANCE" MOUNTAINBIKE FRAMESET.

Extended Wheelbase

WE EXTENDED THE WHEELBASE OF THE DH FOR STABILITY WITHOUT COMPROMISING THE INTEGRITY OF FRAME ANGLES --A RELATIONSHIP CRUCIAL TO OPTIMIZED CONTROL.

BRADBURY ALSO DESIGNED AN INTEGRATED CHAIN TENSIONER FOR KEEPING THE CHAIN DRIVING AT HIGH SPEED OVER THE ROUGHEST TERRAIN.

The Manitou DH frameset package includes:

THE MANITOU FS FRAME, MANITOU EFC-DH FORK AND HUB WITH STEEL THREADLESS STEER TUBE, MANITOU SEAT POST AND COLLAR, BRAZE ON STYLE DERAILLUER CLAMP.

MANITOU

▶ MANITOU DH

MANITOU FS

THIS YEAR, THE MANITOU FS CONTINUES TO DEFINE THE STATE-OF-THE-ART IN FULLY SUSPENDED FRAMESETS.

BEGINNING WITH TWO OF THE MOST ANIMATED SUSPENSION FORKS EVER CREATED, EVERY ASPECT OF THE MANITOU FS HAS BEEN METICULOUSLY ENGINEERED. THE RESULT: AN ABSOLUTELY UNCOMPROMISING RIDE OVER THE MOST DEMANDING OF TERRAIN.

FROM OUR ONE-PIECE BOTTOM BRACKET/SWINGARM PIVOT FOR REDUCED FLEX, TO OUR CNC MACHINED REAR DROPOUTS FOR INCREASED STRENGTH, EACH SCULPTURED TUBE TO EACH AWE-INSPIRING WELD, THIS IS THE FIRST OF A LINE OF INCREDIBLY PRODUCED MOUNTAINBIKE FRAMESETS.

INCLUDED IN THE MANITOU FS FRAMESET PACKAGE ARE: THE MANITOU FS FRAME WITH ALLOY THREADLESS STEER TUBE, MANITOU4 FRONT AND REAR SUSPENSION, SEAT POST COLLAR (SEAT POST REQUIRED, 31.6), BRAZE ON STYLE DERAILLUER CLAMP.

Mountain Bike Action Selected the Manitou as "One of the Ten Best Bikes of All Time."

REVIEW AFTER REVIEW TOUTS THE BRILLIANCE OF THE MANITOU FS, OUR FULLY SUSPENDED MASTERPIECE.

▼ MANITOU FS

PERFECTION

▼

MANITOU HT

Our dedication to excellence is exhibited in the finest hardtailed frameset available --The 1995 Manitou HT mountainbike frameset.

The Manitou HT is engineered to appeal to the hardcore rider who believes in sound traditional design.

Included in the Manitou HT frameset package are.
The Manitou HT Frame, Manitou4 Suspension fork with alloy threadless steer tube, Seat Post Collar (Seat Post required, 31.6), Braze on style Derailluer clamp

The HT proudly displays the Manitou4 suspension fork. A system about which Mountain Bike Action described best when they wrote, "Never has the MBA staff seen a more animated suspension fork."

The Manitou HT weighs in at under three pounds while maintaining integral strength characteristics found in it's traditional rigid construction.

Doug Bradbury designed the HT with aggressive race-proven geometry adorned with his meticulous attention to detail.

▲ MANITOU HT

MANITOU HT COMP ▶

▲

MANITOU HT COMP

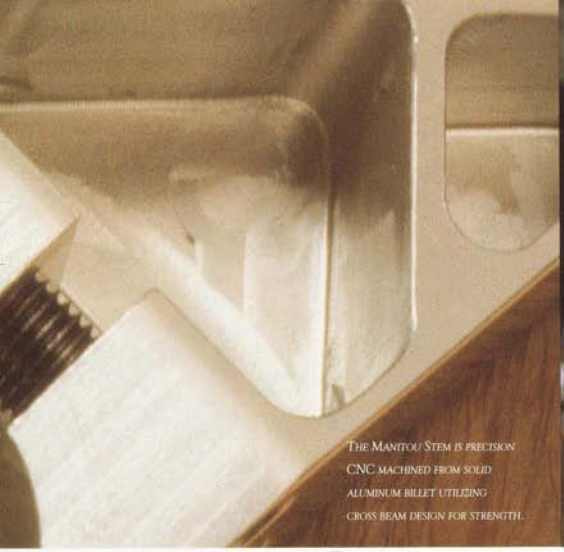

The Manitou HT Comp exhibits all the craftsmanship of the Manitou HT in a more price effective package.

Beginning with the same Easton®VariLite™ tubing, the same exceptional welds, race-proven geometry, and exceedingly fine metal finishing as the Manitou HT, we distinguishingly paint the HT Comp in a dynamic midnight black.

The Manitou HT Comp Frameset Package includes: HT Comp Frame Seatpost Collar (Seatpost required, 31.6), Braze on style Derailluer Clamp.

MANITOU

The Manitou Stem is precision CNC machined from solid aluminum billet utilizing cross beam design for strength.
