BRODIE RESEARCH + TECHNOLOGY

Paul Brodie's hand built frame production has exceeded 4,000 frames over the last decade.

For those who have ridden them, Brodie bikes define the entire mountain biking experience. It is reported that people paint their walls with our logos. Brodie frames have been mounted as *objets d'art*. We even hear reports that some children have been named Brodie. To some this may seem like taking things a bit too far. To those who have experienced a Brodie, it just seems like the right thing to do.

BRODIE RACE TEAM

For the past year, the all new BRODIE RACING TEAM has been tearing up the Canadian racing circuit. They've been riding the newest state-of-the-art Brodie designs. If you want to catch a glimpse of the future, check out Team Brodie at a race near you, and cheer them on to victory!

WHAT's NEW FOR 1997 For 1997 we've taken all the research and technology that goes into the hand crafted frame -its heart and its soul - and infused it into a new breed of complete Brodie bikes. The '97 Brodie lineup is spec'd with the best parts available (like Shimano, Rock Shox, & Mavic), and unites the legendary Brodie geometry, with unsurpassed handling, and performance. We think we've created an outstanding lineup of bikes - they're light, strong, and responsive. Giving you the ride of your life.

R&D To Production It's a fact. The brodie bike is the result of years of thought, research, and riding. No Brodie product is introduced without first having gone through a rigorous testing process. For something to receive Paul Brodie's personal stamp of approval, it has to achieve that perfect balance of function, strength, and weight. Only then will it carry the Brodie name and find its way into the lineup.

Check out the new features for Brodie this year. **BRODIE ARROWHEAD CABLE STOPS**: these will maximize your cable efficiency quotient... Ok so there's no such thing - but they look way cool. And we all know that cool things go faster. Sexy **S-BEND SEAT STAYS** hand shaped to perfection – designed to maximize mud clearance while minimizing frame flex due to braking. **UNIVERSAL BRAKE CABLE ROUTING.** 1997 Brodie's come ready with the option to accept the new v-brake or standard cantilever brakes. Brodie **CNC SEAT COLLAR** specifically designed to be the lightest and strongest way to clamp your post.

Hand Built Frames

The roots of the Brodie legend. The Brodie hand built frame is where it all started. Each frame is lovingly crafted from the finest quality Tange tubing. Welds are second to none, geometry is precise. All hand built frames use the cutting edge technology that Brodie is famous for. Things like, integrated anti chain-suck devices, universal front derailleur cable routing, universal brake cable routing, CNC milled drop-outs, the list goes on forever. These frames are the thoroughbreds of the bike world.

Do you want to ride something very special? Choose a Brodie. Do you want to experience untamed exhilaration? Then try out a Brodie hand built bike.

ps. We also offer a range of bike build kits. Take your pick to custom build the bike of your dreams!

Libido

Put your mind into overdrive with Brodie's full suspension design. A Fox Alps 4 Airshock puts out 2.95 inches of rear travel to smooth out the bumps. The flawless design lets you ride forever.

sovereign

A healthy dose of Tange's Prestige Ultimate Ultra-Light and Prestige tubing make this hardtail a regal choice of champions. The beautiful lines of this frame make it almost as much fun to look at as it is to ride... Almost!

eXpresso

This frame begs to be abused! Featuring Tange Prestige, Prestige Oversized and Prestige Ultimate Ultra-Light tubing, the eXpresso will give you a jolt of adrenaline and an ear to ear grin that never fades.

rodie

To answer the call of the road, the Brodie Rodie is the frame of choice. Satisfy your need for speed with a blend of Tange's Prestige Ultimate Super-Light, Prestige Ovalized tubing and a Tange Silhouette Fork.

Libido

Tweak your mind and satisfy your urge to ride. We offer 4 different bike "kit" options (Shimano's LX & XT parts, Syncros hardware – all the newest innovations!).

sovereign

Make your sovereign frame the king of bikes with a bike kit created with Shimano's newest components. All kits feature Rapid Fire+ shifters, "V"-Brakes, 4 Arm cranks and much much more.

eXpresso

So you want to get on the fast track? Express yourself into the bike of your dreams with one of our custom build kits. High octane. No decaf allowed.

Always wear a helmet. Ride a cooler bike than your friends. Treat your environment with care and respect. Explore new territory. Ride only on marked trails. Respect others on the road and trails - unless you are racing them. Be the best at everything you do. Be not afraid of small dogs but be very afraid of the hungry bear. Be nice to horses and hikers. Always ride with buddies (so you can beat them!!). Most of all... HAVE CONSTANT FUN!!!
