MARZOCCHI

RISING TO NEW HEIGHTS

New XC400

1992 WORLD DOWNHILL CHAMPION
1992 NATIONAL DOWNHILL CHAMPION
1992 REEBOK ELIMINATOR CHAMPION

No piece is left unchanged!

2 lb. 15 oz. total weight

Redesigned — machined down forklegs & crown, now lighter, stronger & so beautiful!

New flat brake arch: stronger, lighter & eliminates torsional & lateral flex.

Progressive & plush compression damping increases small bump sensitivity.

Faster rebound improves control over any terrain.

Raised easy-access air valves: no need for special pumps and adapters.

Maximum fork seal reliability. As always.

Available in polished anodized: silver, purple & electric blue.

2 Year Warranty.

Ti-kits available.

MOUNTAIN BIKE ACTION

"The new XC400 is a radical departure from last year's Zokes."

"The Marzocchi XC400 is a vastly improved fork that features competitive weight and high tech valving."

MOUNTAIN BIKING MAGAZINE

"The new crown and brace do a good job of minimizing what little flex might be left."

"What was almost more impressive than the fork's ability to take the big hits was the ability of the XC400 to soak up the small mid-sized bumps much better than before."

"Front-end braking was excellent."
