RIDLEY

Art for Competition.

ART FOR COMPETITION

Enjoy the Ride, Mr. Ridley

Welcome to the world of Ridley, a much refined place where the most revered and passionate bikers come together. Our appreciators know that true competition consists not only of extreme technics but also of strong desire and prestige, iron will and reason. Our competition models talk about real values. Their design has always been our 'battlefield'. And all the Ridleys possess that elite, progressive spirit that springs from a project thought-out in the form of the future...These bikes are really conceived as avant-garde works...A resolutely 'futurist' work, unreservedly creative, inspired by speed, energy, technology and, above all, the desire to compete. For this reason we are proud to put our work in the hands of fantastic teams and fantastic champions. They are the ones who carry across the finishing line the dreams of so many enthusiasts: to race Ridley again and again, the art of competition.

MOVING THE TIME

A Never-ending Fusion of Sophisticated Technology

Already half-way through the nineties in the Belgian head office lots of languages are being spoken: relations between technicians, engineers and the most respected specialist constructors in the new materials production become closer; the 'tubes' and frames become more and more the technological heart of the Ridley universe. Refined projects are born...a fusion of materials and design is always evident. It is always capable of being ahead of the trends. In 2000 there's another step ahead: the first bike conceived in carbon fibre appears. Just one year later Ridley transforms the carbon experimentation into reality: it is to be an exceptional line of racing bikes and it will rise to the higher levels.

THE RIDLEY ERA. YEAR FIFTEEN

The bike of the future? We're creating it now.

In order to confirm a constructive 'master of the future' philosophy, in 2002 the company heavily invests in human resources, research, innovation and equipment. In other words it undergoes a complete overhaul, enlarging both the engineering and production departments. The 'made in Ridley' result doesn't take long to appear: not even a year later the Damocles line is launched on the market. This is the biggest commercial success of the first fifteen years of the company's history. Today the Ridley mission is continuing. You're probably curious to know where Ridley will take the art for competition. We're proud to present you a preview in the pages to come.

***Jochim Aerts** - General Manager Ridley*

THE NEW RIDLEY ROAD COLLECTION

No lack in innovation

Let Ridley introduce you to the new Road 2006 series.
There's no lack of innovation. Let's take the Damocles, as an example. The evolution of its frame has given a new lease of life to the new Noah which has achieved an even stronger and more competitive frame due to titanium parts and reduced tubing thickness. In addition to this, the quality/price ratio has improved for the new product range: Excalibur, the true monocoque body carbon fibre frame, is reasonable enough for an increasingly larger number of enthusiasts.
Ridley: bicycles of top quality specialist materials, technologically evolved, unique in design. That's innovation for you.

RIDLEY'S GUESTS 2005. DAVITAMON-LOTTO AND MR. BOOKMAKER-SPORTSTECH

The most important collaboration is the quadriennial one, with the new Davitamon-Lotto team, one of the strongest teams in the Pro Tour. Twenty-seven top level riders belong to this team: the National Australian Champion and winner of two green jerseys in the Tour de France, Robbie McEwen, the 2004/2005 National American Champion Freddie Rodriguez, the 2005/2006 Belgian National Champion Serge Baguet, the 2005/2006 Dutch National Champion Leon Van Bon, Tom Steels, Peter Van Petegem, Cadel Evans, Nico Mattan, Bert Roesems, amongst others.
Davitamon-Lotto is considered one of the best teams amongst the 20 whose participation in the Pro Tour has been guaranteed by the International Cycling Union.
The team races our carbon bikes, the Damocles model. Collaboration is also continuing with the Mr. Bookmaker-Sportstech Team. In 2003 and 2004, two of its riders were granted the National road title: Geert Omloop (B) in 2003 and Roger Hammond (GB) in 2003 and 2004. Both raced on the Ridley Damocles. In 2005 Frank Vandenbroucke of Mr. Bookmaker Sportstech will certainly be in the limelight.

Stock Color: 601A
Weight of the Frame: 1.29 KG
Weight of the Bike as pictured: 6.9 KG

Frame: High modulus carbon fibre
Fork: 4ZA Damocles Gold
Headset: Exclusive FSA Carbon 1,5", integrated
Bottom Bracket: FSA Platinum
Crankset: FSA Superlight
Stem: 4ZA Integrated Cyclope Gold
Handlebar: 4ZA Integrated Cyclope Gold
Groupset: Campagnolo Record
Derailleur: Campagnolo Record
Shifters: Campagnolo Record
Brakes: Campagnolo Record
Brake Levers: Campagnolo Record
Saddle: 4ZA Cirrus Gold
Seat post: "Integrated"
Wheels: 4ZA carbon T50 Gold
Tyres: Vredestein Fortezza Tubular
Cassette: Campagnolo Chorus
Handlebar tape: 4ZA
Chain: Campagnolo Record
Bottle Cage Holder: 4ZA carbon Wing Gold

Pedals NOT included

A totally new frame compared to the 2004-2005 model, showing a natural development. The main technical features are its wheel-shaped seat tube at the rear which also acts as an integrated seat post for maximum rigidity. Furthermore the horizontal tube is linked to the head tube, an aesthetically pleasing solution. The CNC worked rear dropouts follow the idea already seen on the previous model.

The Ridley Road Collection 2006

NOAH

Stock Color: 602B
Weight of the Frame: 1.2 KG
Weight of the Bike as pictured: 7.5 KG

Frame: High modulus carbon fibre - monococque
Fork: 4ZA Damocles monococque
Headset: Exclusive FSA Carbon 1,5", integrated
Bottom Bracket: Two-piece FSA SLK
Crankset: Two-piece FSA SLK 50-36

Derailleur: Campagnolo Record
Shifters: Campagnolo Record
Brakes: Campagnolo Record
Brake Levers: Campagnolo Record
Saddle: 4ZA Cirrus
Seat post: 4ZA carbon C-Post 31,6 mm.
Wheels: 4ZA carbon C38A
Tyres: Vredestein Fortezza
Cassette: Campagnolo Chorus
Handlebar tape: 4ZA
Chain: Campagnolo Record
Bottle Cage Holder: 4ZA carbon Wing

Pedals NOT included

There were few modifications made to the most famous Ridley frameset, its levele of refinement being hard to improve. However the seat tube now has an increased 31,6 mm seat post and new cable guides have been placed on the down tube, just below the head tube. Other minor modifications include: lowering the weight of the frame by 20-30 grams (compared to the previous model). This has been done without reducing its stiffness. Now you can expect new great wins for your Ridley Damocles, with Robbie McEwen, Nico Mattan & Co., after the incredible ones during 2005 Pro Tour.

The Ridley Road Collection 2006

EXCALIBUR

Few modifications have been made to the 2005 model, though the wall thickness of the chain stais has been increased, making the Excalibur stiffer and more reactive.

The main frame has not been changed even slightly due to its popularity and general efficacy.

2006 Cross

THE NEW RIDLEY CROSS COLLECTION

No lack in passion

Ridley is the brand leader in the world of Cyclo-cross.
A leadership achieved due to continuous research in material innovation and technology and close collaboration with the world's best athletes. In fact, model development takes place directly on the track, in the most important competitions of this sector. It's entirely due to our collaboration with World Champions, Bart Wellens, Erwin Vervecken and Mario De Clercq, that X-night was born: the first Cyclo-cross frame made entirely from carbon fibre, which won the 2004 World Championship, in Pont Chateau. Amongst the other models of the new series, the Supercross stands out.

RIDLEY'S GUESTS 2005

The Mr. Bookmaker Sportstech Team also participates with impressive results in the cyclo-cross competitions, with riders such as Davy Commeyne, Tom Vanoppen and Niels Albert. In cyclo-cross Ridley supplies its bikes even to Fidea Team. Always fighting for victory in every competition, the ex World Champions Bart Wellens and Erwin Vervecken, will compete in this team. "Our" cyclo-cross teams Fidea and Mr. Bookmaker-Sportstech are amongst the top three in the world in this discipline.

Stock Color: 609A
Weight of the Frame: 1.32 KG

Seat post: 4ZA carbon C-Post 31,6 mm.
Wheels: 4ZA carbon T50
Tyres: Challenge Grifo Tubular
Cassette: Campagnolo Chorus
Handlebar tape: 4ZA
Chain: Wipperman
Bottle Cage Holder: upon request

Pedals NOT included

The masterpiece of the Ridley cross range has been improved even more, developed thanks to the contributions of the Fidea team champions and other athletes, among the best specialists in the world. The rear stays, both seat and chain, have been strengthened, making the frame incredibly strong and stiff. A true "war machine" for the most demanding riders and the most difficult tracks. Earth, mud and sand cannot stop it.

2006 MTB

THE NEW RIDLEY MTB COLLECTION

No limit in performance

Today Ridley is proud to offer all enthusiasts of this discipline a complete Mountain Bike series with the usual Ridley excellence.
The introduction of an ultra-light full-suspended Cross Country bike, the Mamba, and the Cobra, a brand new and exclusive monocoque body in carbon fibre have perfectly completed our series.

Immerse yourself in nature, disappear amongst the vegetation, leap over streams, find yourself in previously unreachable parts.
On the Ridley Mountain Bike you are always in safe hands.

Wheels: 4ZA M25D
Tyres: Panaracer Fire UST tubeless
Cassette: Sram P970
Chain: Sram PC 971
Bottle Cage Holder: 4ZA carbon Wing

Pedals NOT included

The great success of 2005 for the MTB range. It has been enthusiastically approved by the lucky owners and testers of the various magazines that have ridden it. Keeping this monocoque MTB under control is not easy, especially if assembled with the rigid carbon fork. Those who succeed in doing so are given great satisfaction. Outstanding results for reliability, too. XL has now been added to the existing S, M and L sizes.
