The development of frames, forks and components is a continuous running process. Therefore we strongly advise before reading this information sheet check our website for new updates.

1. BOLT TORQUE

The given values are target bolt torque values that should be approximated as close as possible. **The Lowest component torque value should be applied to assemblies of component with different advised maximum torque settings.**

	TYPE	ADDITIONAL INFO	PART CODE*	TORQUE (N*M)
FORK PLUG	4ZA STARNUT CNC	ALLOY FORK	FPLALL4ZA002	16.8
