Save Weight

MOBY Post™

We've combined our new ultralight one bolt adjustment clamp with Easton E9 tubing that is drawn to our specification. The Moby Post will be introduced in 26.8mm and 27.2mm sizes. Extra long 350mm length (180 grams). In stores April 1992

More Control

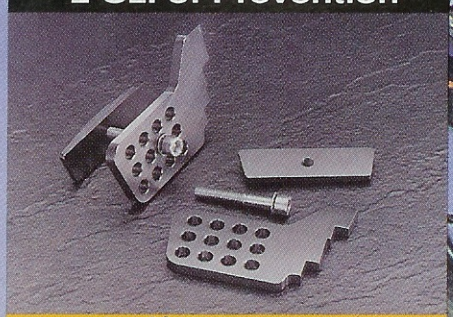

BUBBA hubz™

The one piece oversize hubshell and oversize axle design reduce lateral flex associated with suspension. Seven and eight speed models for mountain and road available in 28/28, 28/32 or 32/32 drillings.

- Lightweight - front 32 hole (115 grams)
  - rear 32 hole (165 grams)
- Seven anodized colors

2 Oz. of Prevention

SUCK Anti Chain Suck Thing™

We've seen races lost and frames ruined – don't let it happen to you.
Two models:
24-34 (also works for 26-36)
24-36 (also works for 20-32 micro)
Available in black and 3D Violet (68 grams)

Of course Greg also uses Ti Stix wheel skewers (83 grams) and the new beefed up H2O XC bottleholders (49 grams)
