SCIENTIFICALLY DESIGNED FOR MAGICAL RESULTS

Driven by a single bolt, the radial action wedges generate incredible grip.

How does Tioga's most technologically advanced Alchemy DL stem for threadless steering systems work?

By simply tightening one bolt, two internal wedges are driven radially towards the threadless steerer tube, binding the Alchemy stem with miraculous power. How tight? Just ask John Tomac who rigorously tested it throughout the '92 race season. He'll rave about the DL stem's lightness and rigidity, and its super sleek look with no protruding parts.

The Alchemy DL stem... By the magic of Tioga.
