CROSS COMPATIBILITY BETWEEN RIGHT-HAND ERGOPOWERS AND REAR DERAILLEURS (old and new generation)

COMPATIBILITÀ INCROCIATA TRA ERGOPOWER DX E CAMBI (nuova e vecchia generazione)

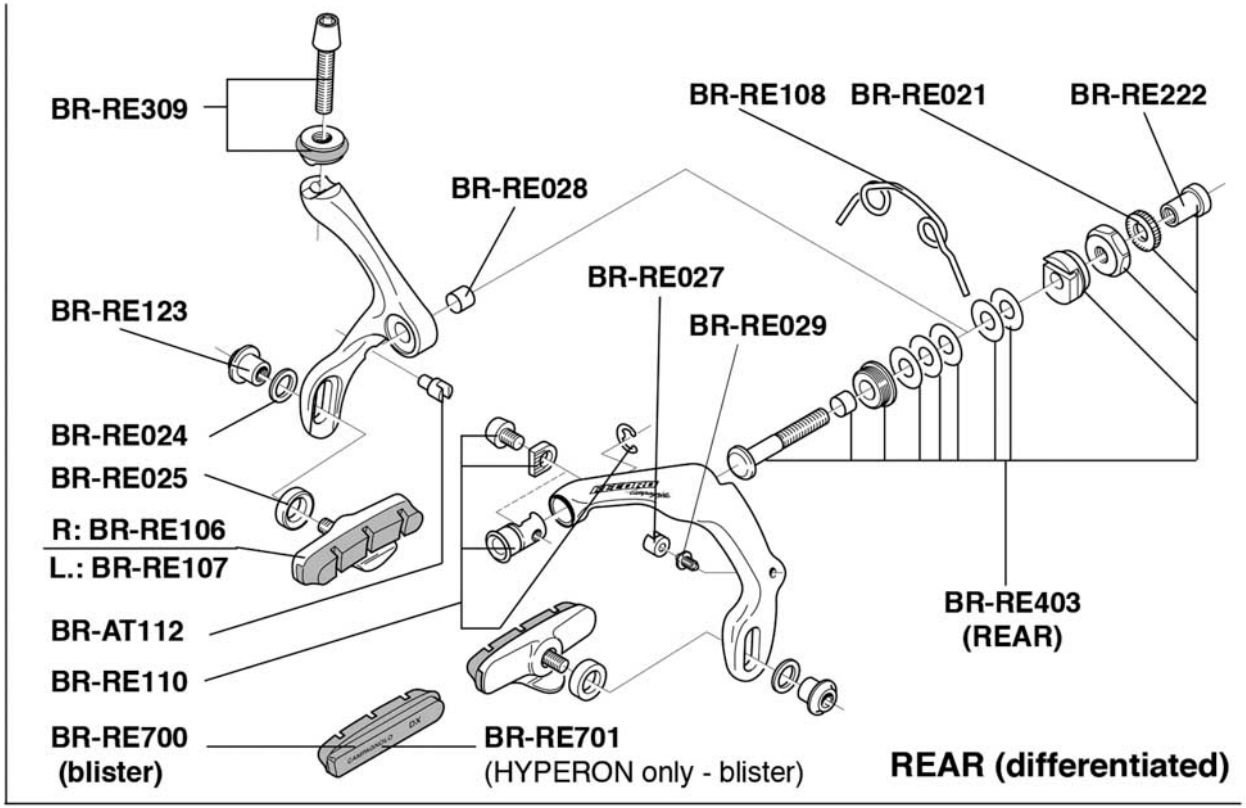

The codes in the table are referring to the indexing ratchet of the right-hand Ergopower (see the figure). To ensure the compatibility between right-hand Ergopower and rear derailleur, you have to eventually replace the indexing ratchet with the one indicated in the table (referring to the rear derailleur/Ergopower combination).

I codici in tabella si riferiscono alla bussola dentata (evidenziata in figura) del comando destro Ergopower: per assicurare la compatibilità tra cambio ed Ergopower destro, va eventualmente sostituita la bussola dentata esistente con quella indicata in tabella (a seconda della combinazione cambio/Ergopower).
