gary fisher bicycle company 1993

HYBRID

farallon.

the best of both worlds riding the new Farallon. With the combination of the new Shimano Altus C10 componentry and the quick hybrid geometry, this bike is ready to eat up the city streets.

THE FARALLON IS NAMED FOR A GROUP OF ISLANDS OFF THE COAST OF NORTHERN CALIFORNIA, RENOWN FOR IT'S HEAVY POPULATION OF GREAT WHITE SHARKS. "EAT UP THE STREETS", GET IT? GRAB A FIN DUDE.

Shimano Cartridge Bottom Bracket. Keeps the dirt and elements out, and stays adjusted. Incredibly low maintenance.

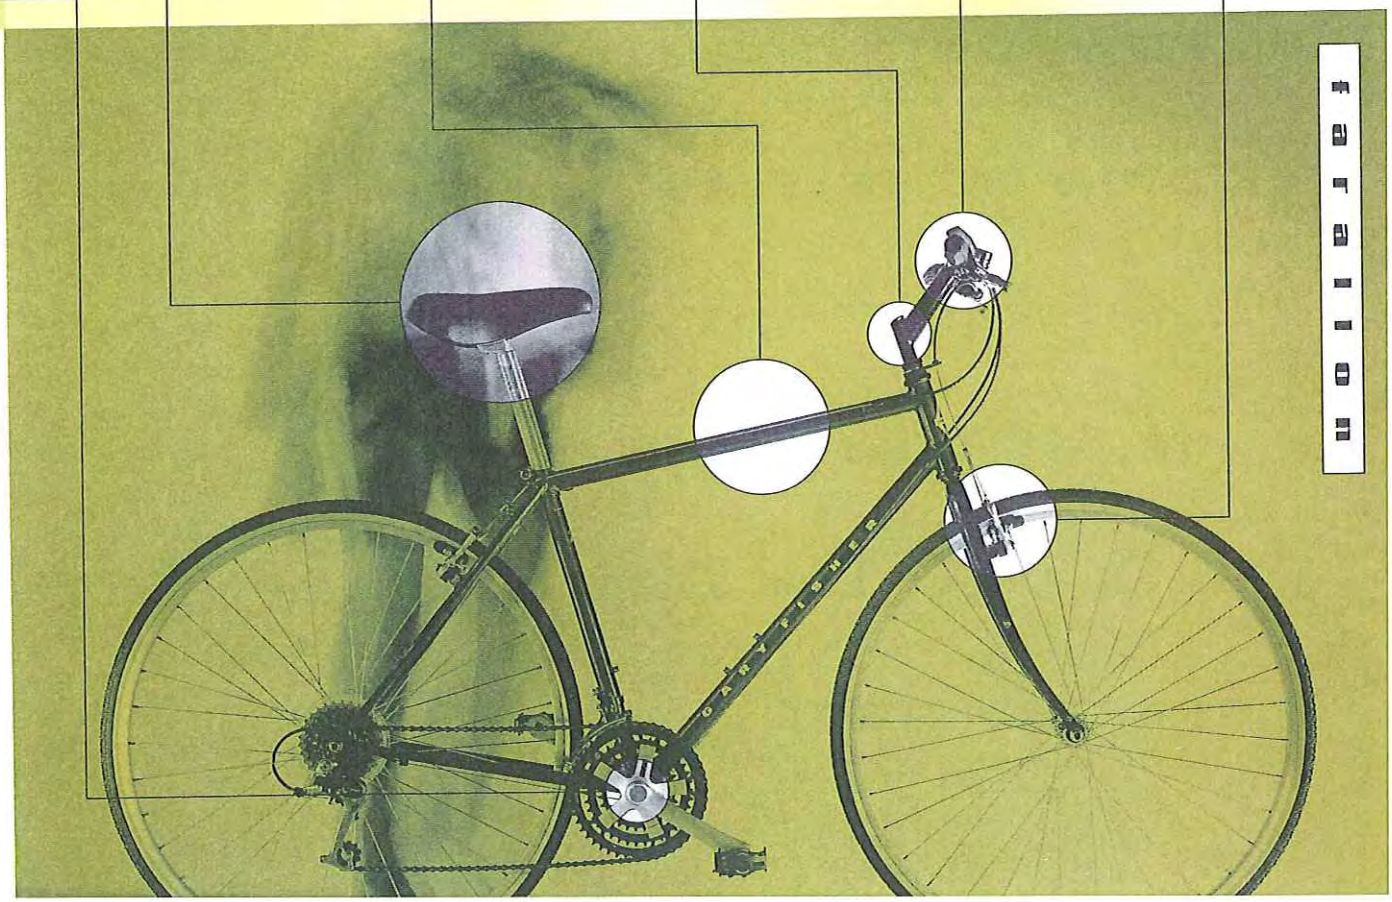

Viscount Gel Saddle. All the comfort that a gel saddle can deliver with the performance that a Fisher demands.

Cro-moly Main Frame and Fork. Lighter and stronger than our competitors frames.

Cro-moly 30° rise stem puts you in the most comfortable riding position.

Shimano Altus C10 Drivetrain combined with Top mount thumbshifters give simple and time proven shifting.

Shimano "multi-condition" brakes provide the best stopping performance in all kinds of weather.

HYBRID BIKE

Sphinx

Sphinx is a timeless, all-around bike for both trail and pavement riding. A durable cro-moly frame, fork, and rear triangle, smooth shifting Shimano 400CX components, and nimble Avocet Cross tires make it right for any serious expedition.

From Jackknife Pass in the Yukon to Madison Avenue in Manhattan, the Sphinx can be counted on to handle whatever comes its way, including the "riddle of the Sphinx": what animal walks on four legs in the morning, two legs at noon, and three legs in the evening? The human animal.

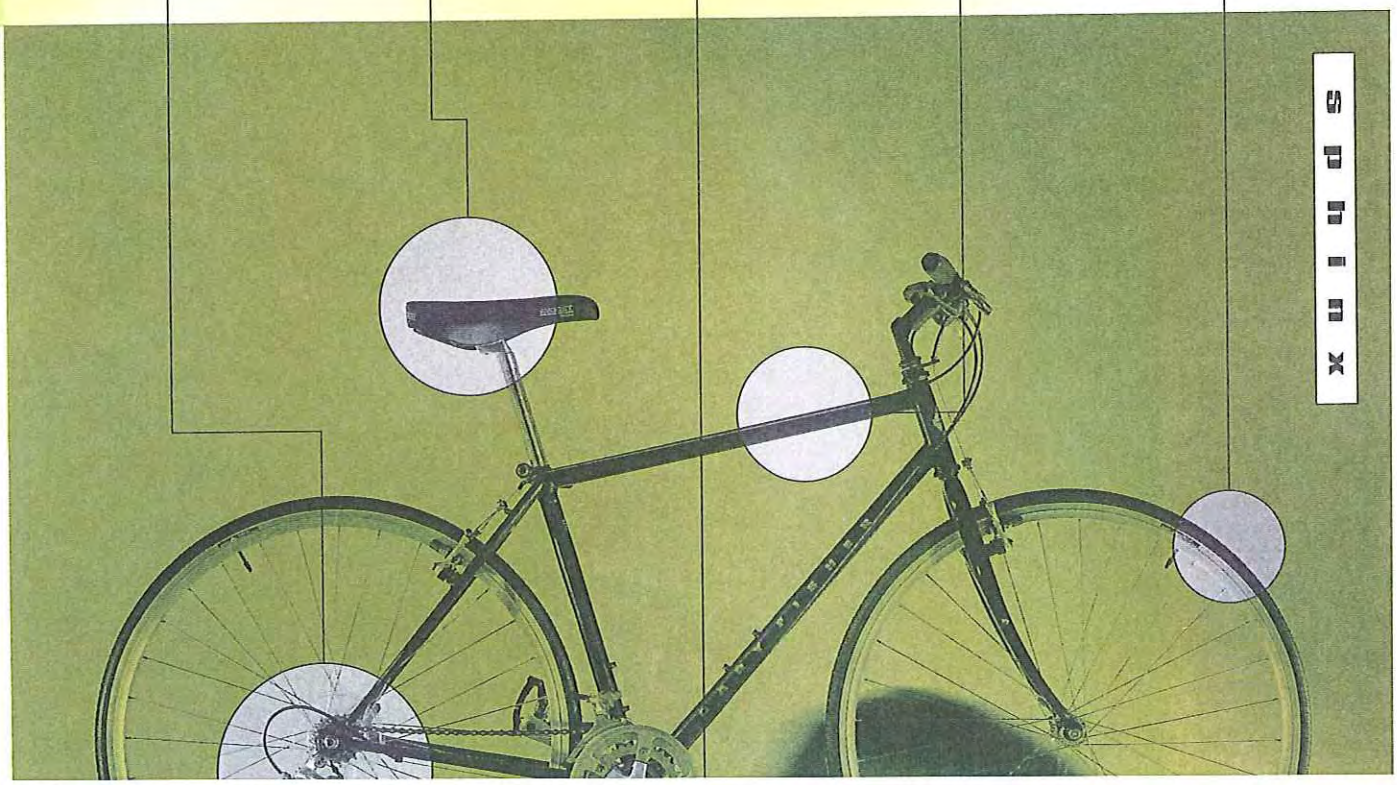

Shimano 400CX Drivetrain. Specifically designed for the hybrid city bike. This is lighter and sleeker than any other drive train available.

Avocet Racing Saddle. Performance, comfort, and style.

Shimano Cartridge Bottom Bracket. Keeps the dirt and elements out, and stays adjusted. Incredibly low maintenance.

Cro-moly Main Frame, Fork, and Rear Triangle. Lighter and stronger than our competitors frames.

Avocet Cross Tire. Smooth tread on the side gives greater cornering stability and the middle tread gives a minimum rolling resistance.

MOUNTAIN BIKE

advance

At Gary Fisher Bicycle, we don't make "bargain" bikes. Sure, the Advance is our least expensive mountain bike, but it's still constructed to the same rigid specifications and tested out the wazoo just like our high-end bikes.

How do you say affordable, but not cheap? The word cheap isn't in Gary's vocabulary. He designs every bike to meet his exacting standards. Hey, it's his company, that's what he's supposed to do.

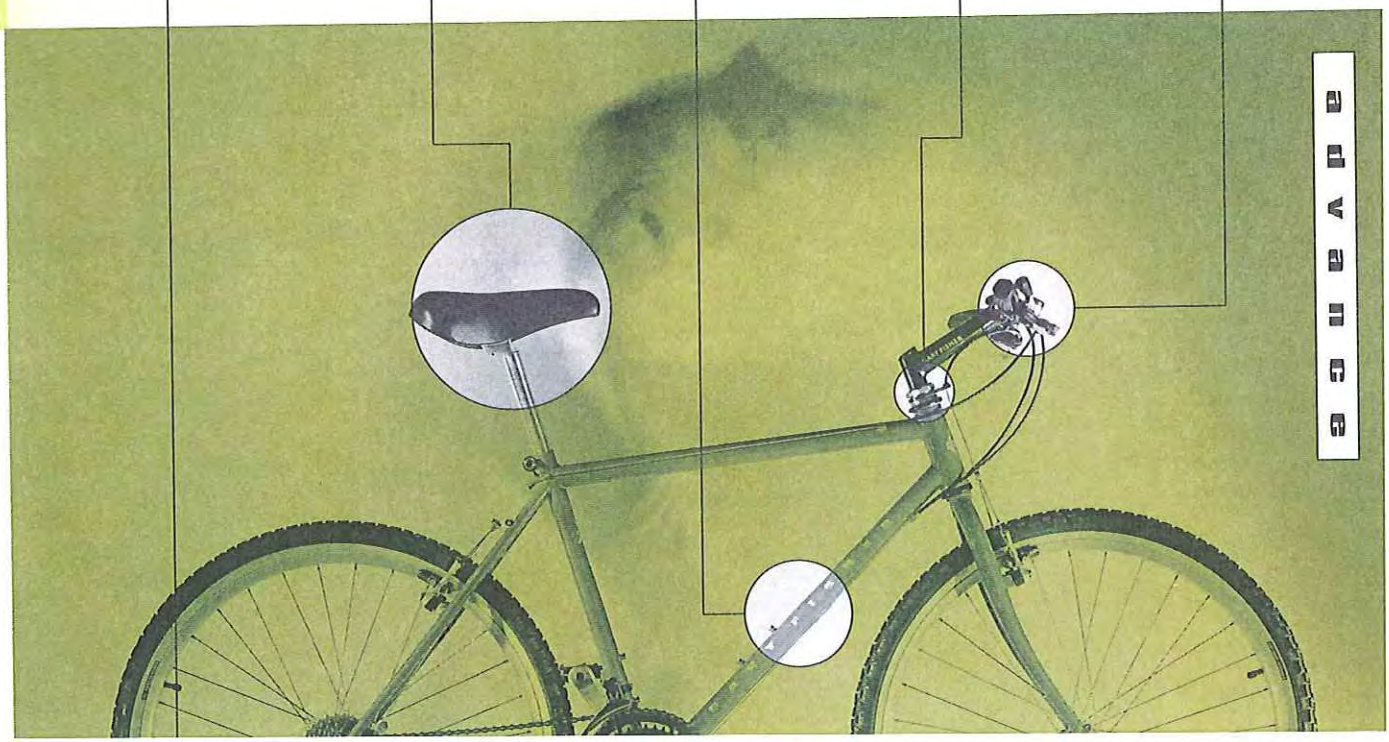

Shimano Cartridge Bottom Bracket. Keeps the dirt and elements out, and stays adjusted. Incredibly low maintenance!

Viscount Gel Saddle. All the comfort that a gel saddle can deliver with the performance that a Fisher demands.

Cro-moly Evolution Frame, Fork, and Rear Triangle. This frame is lighter and stronger than our competitors frames at this price point.

Tange-Seiki Headset. Precision ground and heat treated to give the smoothest steering imaginable.

Shimano Altus C10 Drivetrain. Top mount thumbshifters give simple and time proven shifting and Shimano "multi-condition" brakes provide the best stopping performance in all kinds of weather.

BIZ-ATTZ JOM

tassajara.

Best Buy by Bicycling Magazine.

The Tassajara represents many years of refinement towards developing an all-around mountain bike.

Dependability and value are the key

THIS BIKE ALSO HAS ALL THE GRACE AND BEAUTY OF IT'S NAMESAKE. THE TASSAJARA WAS NAMED AFTER EITHER A VALLEY IN NORTHERN CALIFORNIA THAT HOSTED ONE OF GARY'S FAVORITE RACES, A ZEN MONASTERY, OR A WHEAT BREAD. HEY, THIS IS CALIFORNIA, TAKE YOUR PICK.

Voted 1992

tassajara
GARY FISHER
GARY FISHER

MOUNTAIN BIKE

aquila.

An aggressive, reliable, affordable Gary Fisher racer.

The Aquila has the race proven geometry of the ProCaliber and a full complement of the new Shimano Exage components. This is the bike for those who are ready to race. Right now.

We're almost positive Aquila is the Latin word for eagle, and we're pretty sure it's a constellation in the northern or southern hemisphere, or somewhere, but we're definitely sure that even if it's your first time racing, you couldn't find a better bike to begin with.

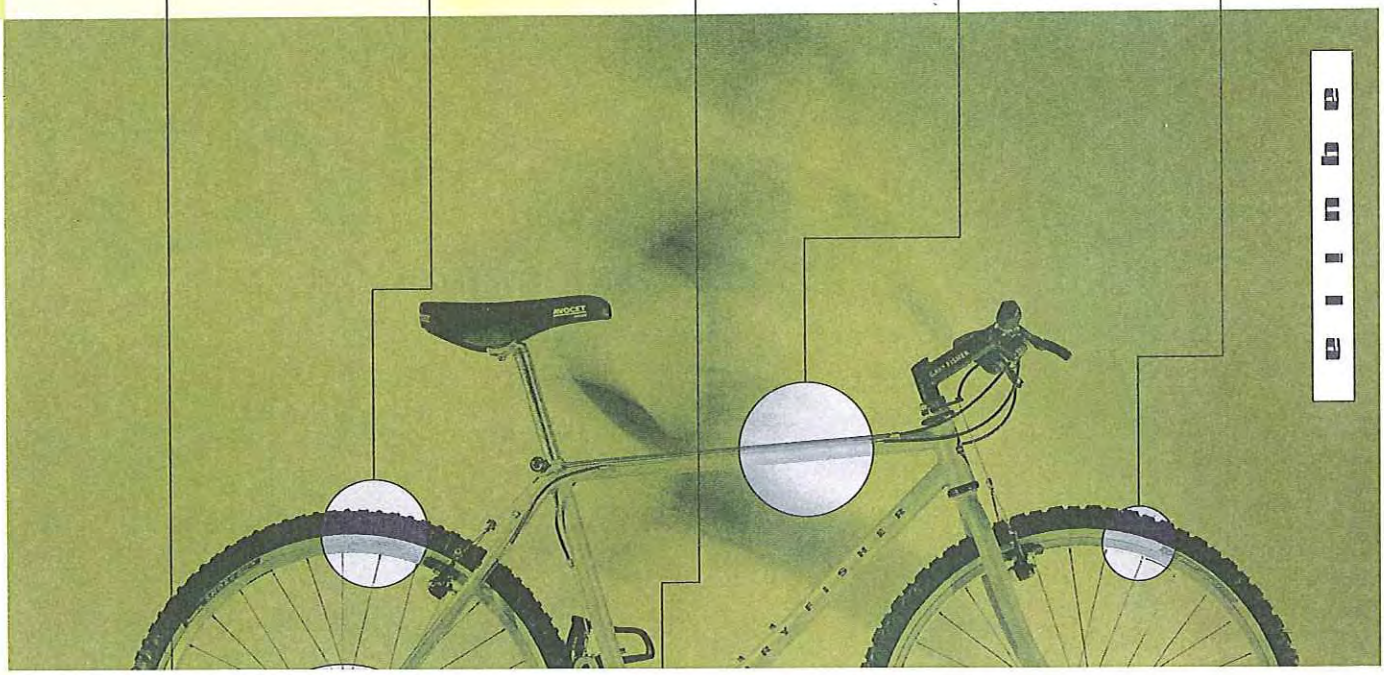

Shimano Exage ES/LT Drivetrain. Shimano Dual SIS allows you to shift under difficult conditions. The new Low Profile crankset offers a greater strength to weight ratio.

Panaracer Smoke/Dart. The first true front tire/rear tire combination. Cornering will be greatly improved with this winning combination.

Shimano Cartridge Bottom Bracket. Keeps the dirt and elements out, and stays adjusted. Incredibly low maintenance!

Tange Double Butted "Evolution Light" Tubing. Rides great, less weight! The Evolution continues on!

Araya AP-21 Rim. Box and pin construction makes for silky smooth braking.
