1999

Take it from me.
This man is
THE FIRST AND LAST NAME IN MOUNTAIN BIKES

1999

ALUMINUM | **PROFESSIONAL** | FULL SUSPENSION

joshua f1

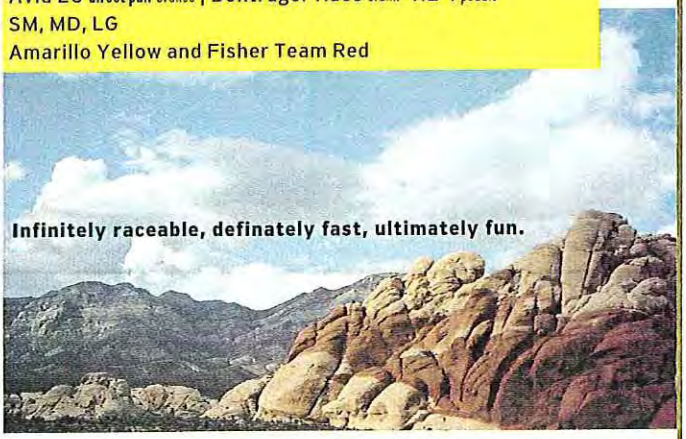

ride profile	Fast, light, nimble cross country race performance
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Race Lite wheelsystem | WTB Racing Raptor tires
suspension	Rock Shox SID SLTi fork (63mm travel) | Rock Shox SID rear shock
componentry	Shimano XTR SGS rear derailleur | XT front derailleur + Rapidfire 9-speed shifters
	Shimano XT V brakes | Bontrager Race crank | Time ATAC pedals
sizes	SM, MD, LG
color	Donner Blue and Video Blue

ALUMINUM | **PROFESSIONAL** | FULL SUSPENSION

joshua f2

ride profile	Fast, light, nimble cross country race performance
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Race wheelsystem | WTB Racing Raptor tires
suspension	Rock Shox Judy SL fork (63mm travel) | Rock Shox SID rear shock
componentry	Shimano XTR SGS rear derailleur | LX front derailleur + Rapidfire 9-speed shifters
	Avid 20 direct pull brakes | Bontrager Race crank + RE-1 pedals
sizes	SM, MD, LG
color	Amarillo Yellow and Fisher Team Red

Joshua f1 and f2 → full suspension bikes dialed in to be true cross country race machines. Light enough to be mistaken at the scales for a hardtail, yet just enough front and rear travel to keep a fast rider riding fast and comfortable over the rough stuff.

Infinitely raceable, definately fast, ultimately fun.

ALUMINUM | PROFESSIONAL | FULL SUSPENSION

joshua f1

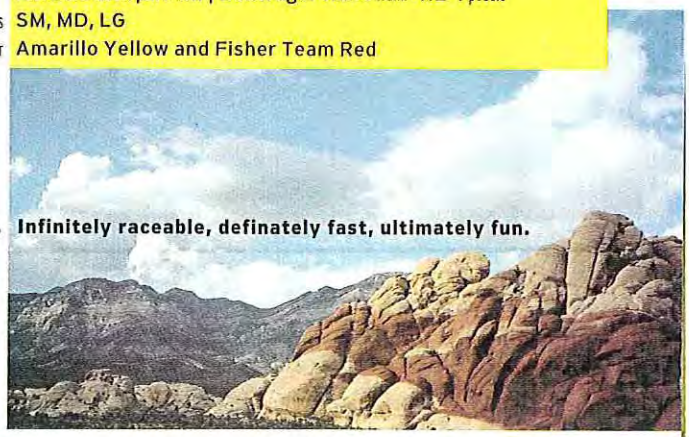

ride profile	Fast, light, nimble cross country race performance
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Race Lite wheelsystem | WTB Racing Raptor tires

Infinitely raceable, definately fast, ultimately fun.

ALUMINUM | COMPETITION | FULL SUSPENSION

joshua f3

ride profile	Ride, climb, and descend with confidence
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Maverick rims | Comp 2 hubs | WTB Enduroraptor tires
suspension	Manitou SX E fork (80mm travel) | Rock Shox Deluxe rear shock
componentry	Shimano XT SGS rear derailleur | LX front derailleur + Rapidfire 9-speed shifters
	Avid 20 direct pull brakes | STX-RC crank | Bontrager RE-1 pedals
sizes	SM, MD, LG
color	XXX Orange

ALUMINUM | COMPETITION | FULL SUSPENSION

joshua f4

ride profile	Ride, climb, and descend with confidence
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Corvair rims | Comp 1+2 hubs | WTB Enduroraptor tires
suspension	Rock Shox Judy C fork (80mm travel) | Rock Shox Deluxe rear shock
componentry	Shimano LX SGS rear derailleur | STX-RC Rapidfire 8-speed shifters
	Alivio front derailleur + crank | Linear pull brakes
sizes	SM, MD, LG
color	Midnight

Joshua f3 and f4 → cross country full suspension race bikes with more travel than the Joshua f1 and f2, providing more big hit control. Intended to make riding long and hard more fun, less taxing.

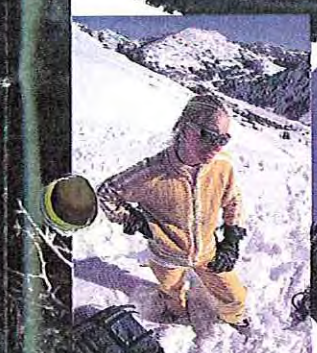

ALUMINUM | LONG TRAVEL | FULL SUSPENSION

level betty se

ride profile	Maximum comfort, big fun, hungry for bumps
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Race Disc wheelsystem | WTB Enduroraptor tires

componentry	Shimano XTR SGS rear derailleur | LX front derailleur + Rapidfire 9-speed shifters
	Hayes hydraulic disc brakes | Bontrager Race crank | Shimano 545 pedals
sizes	SM, MD, LG
color	Acid Green

When the snow falls, April is a professional snowboarder, riding for Arnell. How cool is that?

ALUMINUM | LONG TRAVEL | FULL SUSPENSION

level betty

ride profile	Maximum comfort, big fun, hungry for bumps
the frame	6061 T6 aluminum with Genesis geometry
the wheels	Bontrager Maverick rims | Hayes-compatible hubs | WTB Enduroraptor tires
suspension	Manitou Xvert T fork (100mm travel) | Rock Shox Coupe Deluxe rear shock
componentry	Shimano XT SGS rear derailleur | LX front derailleur + Rapidfire 9-speed shifters
	Hayes cable-activated front disc brake | Avid 10 direct pull rear brake | STX-RC crank + 545 pedals
sizes	SM, MD, LG
color	Fisher Team Red

THERE ARE BLESSED LOCATIONS ON EARTH

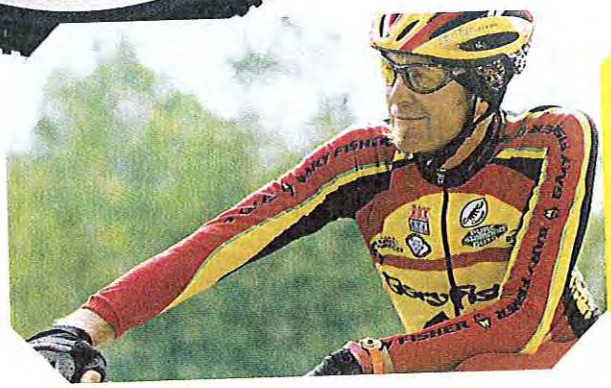

where tectonic plates have smashed up against each other,

pushing the landscape up into great big mountains.

THIS IS WHERE LEVEL BETTY THRIVES.

COMFORTABLE LONG TRAVEL **FUN**

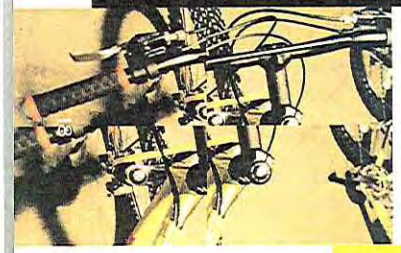

GARY SAYS: RIDING A BETTY IMPROVES MY DESCENDING CHOPS.

More Speed + More Control

Level Betty

The X-Caliber is neither Level Betty nor Procaliber. Nor is it trying to be either. It is a hardtail Fun Hog: a bike for the way people actually ride. The X-Cal has Genesis geometry, with all of the rider benefits that entails. It's spec'd with a long travel fork, a riser bar, bomb-proof wheels, a big fat saddle, and disc brakes. All of which blur the distinctions dividing hardtail and soft, racers and Fun Hogs. The X-Cal is not either/or but both/and. Call it 'The Future of Mountain Biking'.

The future is now.

ALUMINUM | LONG TRAVEL | HARDTAIL

X-caliber

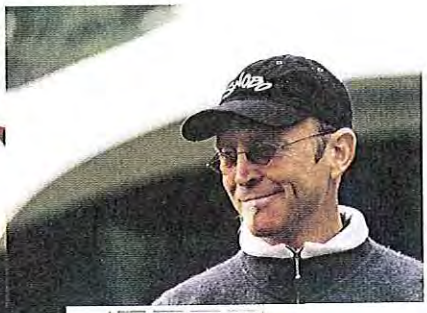

ride profile	Infinitely rideable: The leading cause of the Fisher Effect*
the frame	Genesis Easton ProGram 6061 T6 aluminum
the wheels	Bontrager Race Disc wheelsystem | WTB Enduroraptor tires
suspension	Manitou Xvert E fork (100mm travel)
componentry	Shimano XT SGS rear derailleur | LX front derailleur + Rapidfire 9-speed shifters Hayes hydraulic disc brakes | Bontrager Race crank | Shimano 545 pedals
sizes	XS, SM, MD, LG, XL
color	Lubbock Yellow

*See next door.

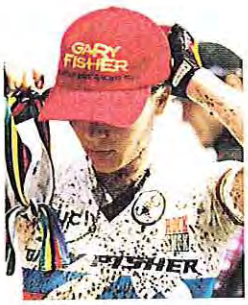

ALUMINUM | PROFESSIONAL | HARDTAIL

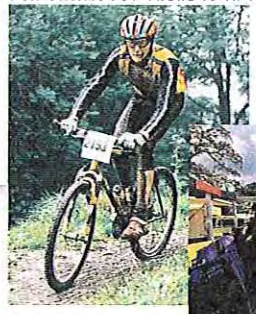

procaliber

ride profile	No-compromise cross country race performance
the frame	Genesis Easton ProGram 6061 T6 aluminum
the wheels	Bontrager Race Lite wheelsystem | WTB Racing Raptor tires
suspension	Rock Shox SID SLTi fork (63mm travel)
componentry	Shimano XTR SGS rear derailleur | XTR front derailleur + Rapidfire 9-speed shifers XTR V brakes + crank | Time ATAC Carbon pedals
sizes	XS, SM, MD, LG, XL
color	Amarillo Yellow and Fisher Team Red

THERE IS NO I IN TEAM. BUT THERE IS IN FISHER.

ALUMINUM | PROFESSIONAL | HARDTAIL

supercaliber

ride profile	No-compromise cross country race performance
the frame	Genesis Easton ProGram 6061 T6 aluminum
the wheels	Bontrager Race Lite wheelsystem | WTB Racing Raptor tires
suspension	Manitou SXTi fork (80mm travel) with MRD lockout
componentry	Shimano XTR SGS rear derailleur | XT front derailleur + Rapidfire 9-speed shifters
	XT V brakes | Bontrager Race Lite crank | Time ATAC pedals
sizes	XS, SM, MD, LG, XL
color	Donner Blue and Video Blue

Strategic Alliance...

We've got two of those going on, with bike folks who understand the Fisher approach to bikes right here in our neck of the woods. Wilderness Trail Bikes (or WTB) is just over the hill in Mill Valley. Bontrager is on the other side of San Francisco, in Santa Cruz.

How 'bout a Strategic Alliance?

The WTB guys make great tires, saddles, grips, headsets, etc; that have gained a pretty big group of fans, including most everyone here at Fisher. At the top of our list is the WTB tire collection, which runs the gamut from great big fat Tyranoraptors to sleek, low-profile Racing Raptors, and everything in between. Tires that work great in a variety of conditions and last for a long time. You'll also find WTB grips, headsets and saddles in the spec chart of 1999 Fisher bikes without reservation, for **great frames deserve comparable parts.**

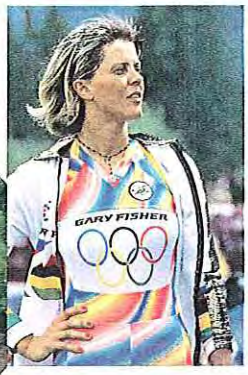

ALUMINUM | **PROFESSIONAL** | HARDTAIL

mt tam

ride profile	No-compromise cross country race performance
the frame	Genesis Easton ProGram 6061 T6 aluminum
the wheels	Bontrager Race wheelsystem | WTB Racing Raptor tires
suspension	Rock Shox SID XC fork (80mm travel)
componentry	Shimano XTR SGS rear derailleur | XT front derailleur + Rapidfire 9-speed shifters
	Avid 40 arch rival brakes | Bontrager Race crank + RE-1 pedals
sizes	XS, SM, MD, LG, XL
color	Donner Blue and Video Blue

Just down the coast from WTB and Marin County, Keith Bontrager and his people have been busy. This year sees the introduction of their wheelsystems, clipless pedals, and cranks. Bontrager has long been synonymous with bomb-proof, and that holds true for these new Bontrager components. You'll find the wheelsystems as light as anything else out there, and true to Keith Bontrager's mantra ↓, they'll be bloody durable and inexpensive to repair, just in case. Same goes for the new cranks and the pedals. **"Strong and functional first, light a close second, and cost a distant third."**

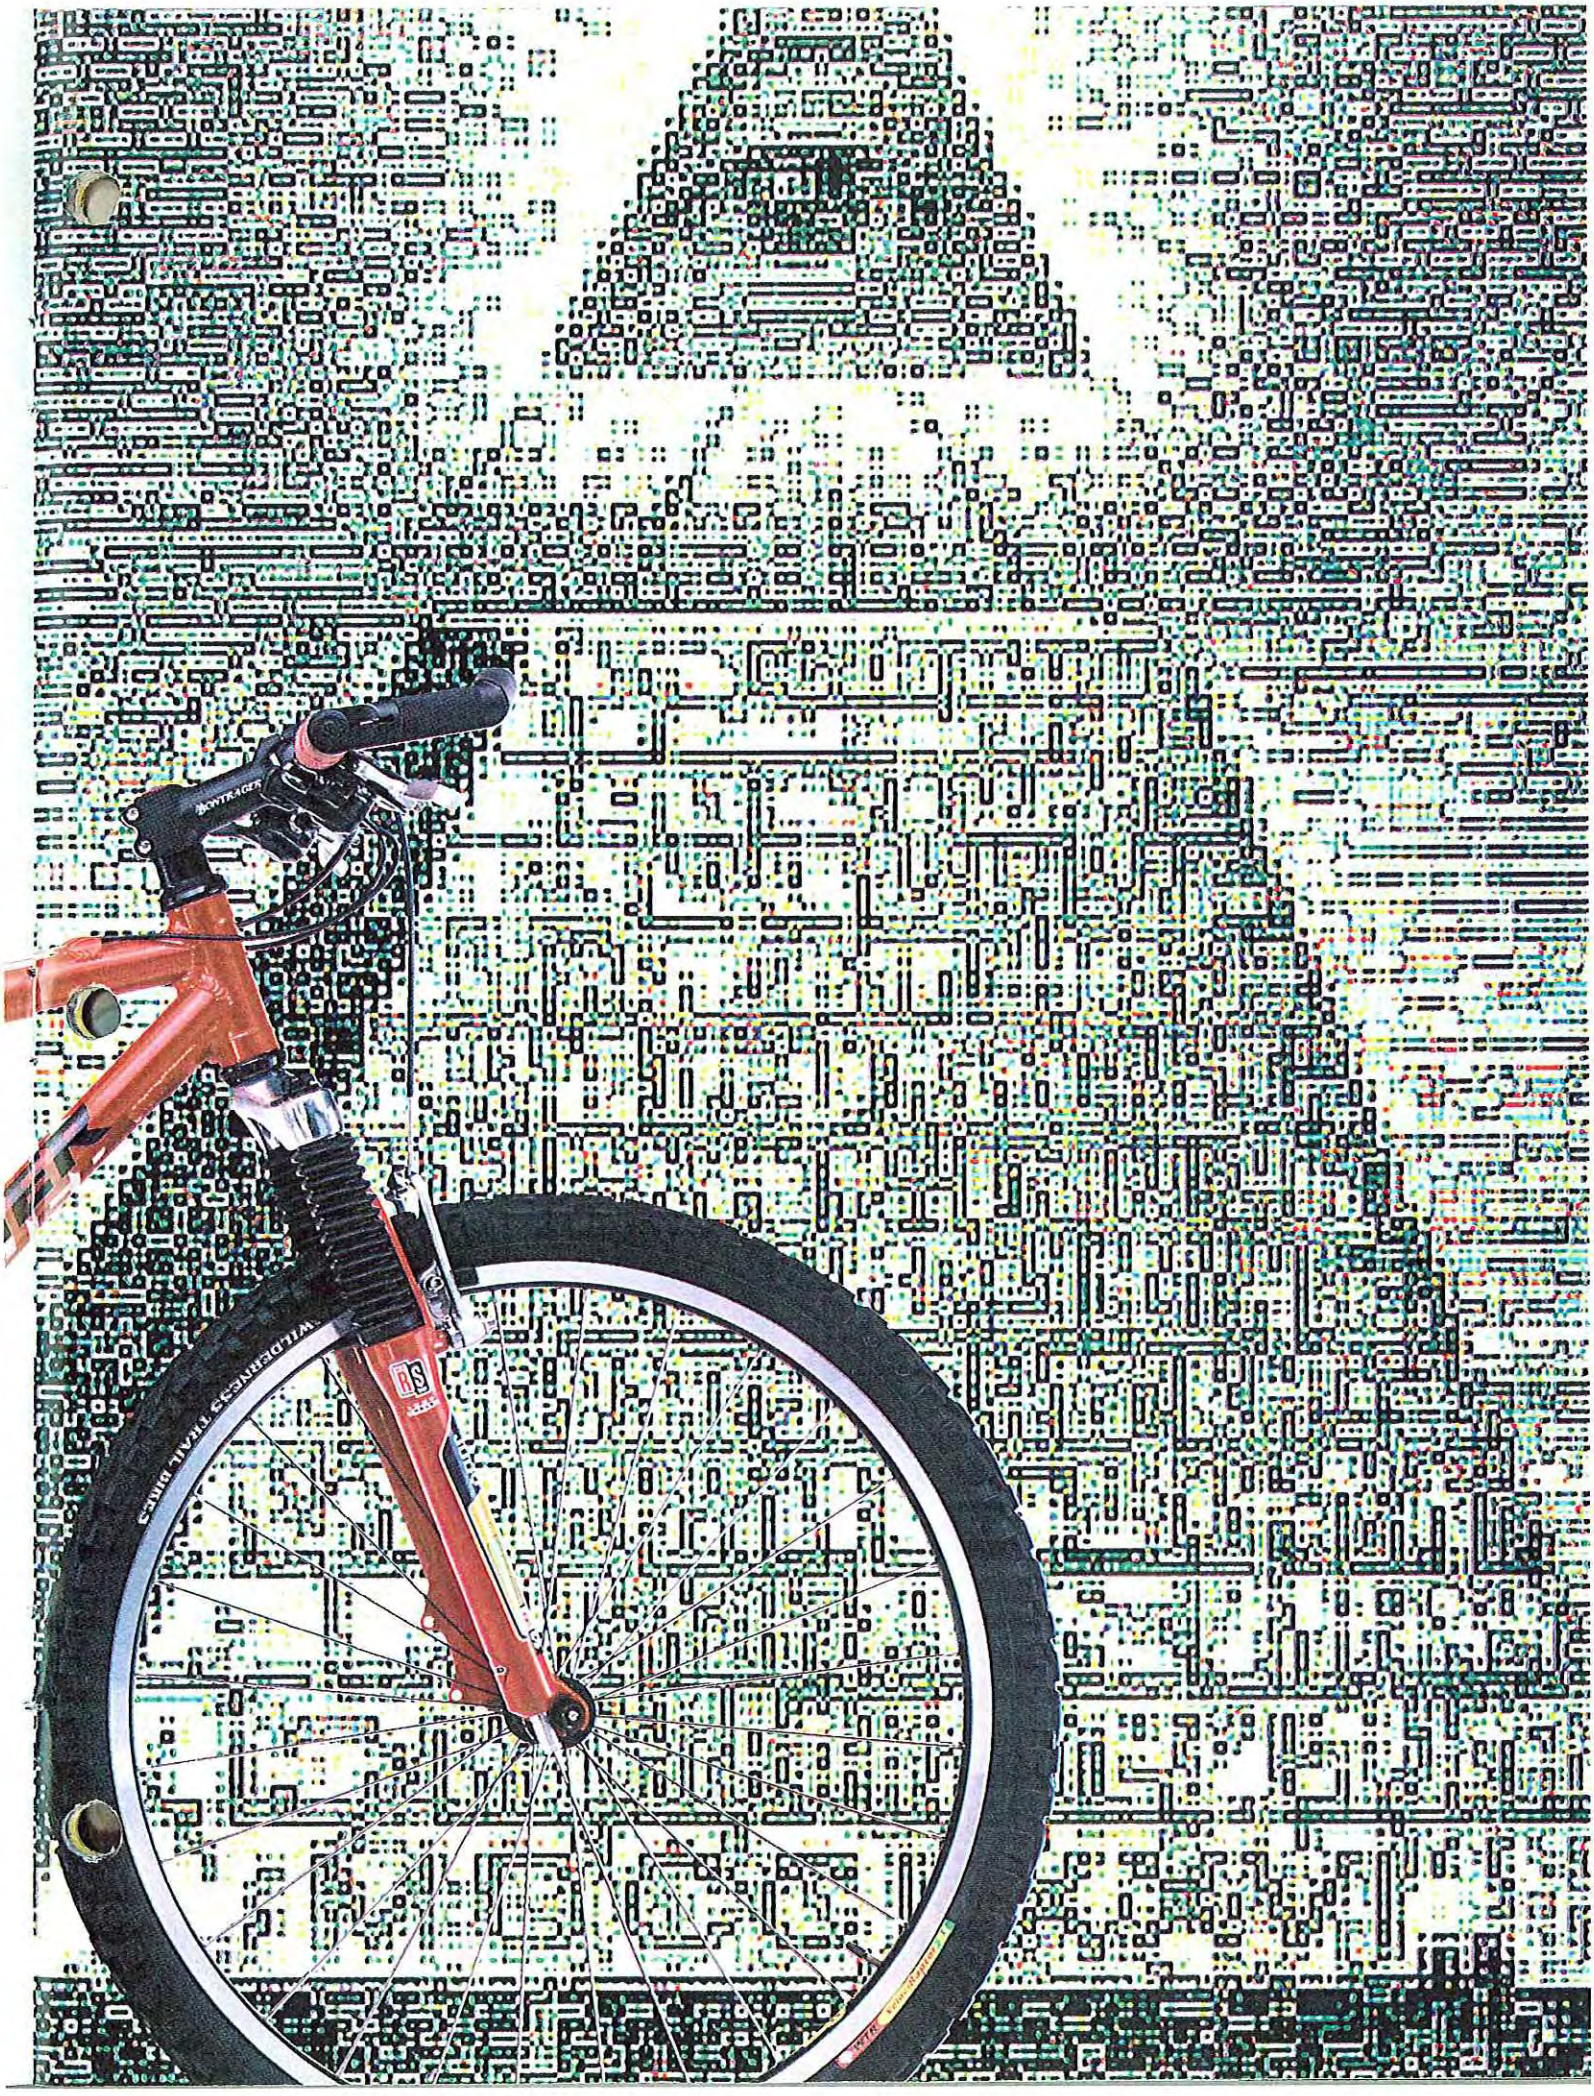

You'll find three complete Bontrager wheelsystems featured in our line: Race Lite; Race; and disc brake-specific Race Disc.Two Bontrager cranks are also spec'd on our bikes this year: Race Lite and Race. Surprisingly, Bontrager's new clipless pedals are called RE-1. Of course, tried and true Bontrager stems, handlebars and seatposts all feature prominently on our 1999 bikes. **Great stuff to hang on great bikes.**

x*country

Join IMBA or Die. The International Mountain Bike Association not only promotes our sport and fights for trail access, they also expound the IMBA Rules of the Trail, like 'Never Spook Animals'. Since we nearly ran into a rattlesnake during this ride, we figure that's a particularly good rule to live by. **Call 1 888 442 IMBA.**

ALUMINUM | COMPETITION | HARDTAIL

kaitai

ride profile	Light, fast, and raceable in any competitive situation
the frame	Genesis 6061 T6 aluminum
the wheels	Bontrager Corvair rims | Comp 1+2 hubs | WTB Velociraptor tires
suspension	Rock Shox Judy C fork (80mm travel)
componentry	Shimano LX SGS rear derailleur | STX-RC Rapidfire 8-speed shifters
	Alivio front derailleur + crank | Linear pull brakes
sizes	XS, SM, MD, LG, XL
color	Amarillo Yellow

COMPETITION SERIES: Starting with laser-mitred 6061 T6 straight gauge aluminum, the Big Sur and Kaitai are hand-welded in the USA using the same frame lay-up tables as our Professional series bikes. The competition aluminum frame features Genesis geometry, a replaceable derailleur hanger, and custom-drawn tubing for a stiff yet forgiving ride. These bikes are as close as you'll get to the Professional series' performance without the professional pricetag.

STEEL | COMPETITION | HARDTAIL

hoo koo e koo

ride profile	Responsive, intuitive, great-handling bikes

componentry	Shimano LX SGS rear derailleur | STX-RC Rapidfire 8-speed shifters Alivio front derailleur + crank | Linear pull brakes
sizes	XS, SM, MD, LG, XL
color	Donner Blue | Range White*

Pledge to our customers... We'll not repeal the 'Feel of Steel is Real' spiel; tests reveal that Vanadium is the real deal.

* FISHER

The new Vanadium Hoo Koo E Koo and Aquila boast: **an 11% increase in fatigue life; 20% increase in impact resistance; and 30% stonger joints than regular cromoly frames.** Combined with Genesis geometry, 'made in the USA' workmanship, and a limited lifetime warranty, the new Competition **steel** series may be the best **deal** in our 1999 collection.

GEOMETRY

	Size		
standover	SO	The vertical distance from the ground to the point on the top tube where you straddle the bike.	you need plenty of clearance to be able to control the bike in all terrain.
effective top tube	TT	The horizontal measure from the center of the headset to the center of the seatpost.	the most important measurement when buying a bike, because it cannot be changed.
cockpit length	CP	The horizontal measure from the center of the handlebar to the center of the seatpost.	this is where you spend your time. (The next two measurements show how it can be adjusted.)
minimum cockpit	MIN CP	The shortest the cockpit can be made by changing the stem to the shortest one available.	
maximum cockpit	MAX CP	The longest the cockpit can be made by changing the stem to one which is 30mm longer than original.	a stem which is 30mm longer than original is the maximum that we reccommend to retain optimum handling.
stem length	SL	The original stem: measured from the center of the steerer tube to the center of the handlebar.	
crank length	CL	The distance from the center of the bottom bracket to the center of the pedal axle.	a rider with long legs can benefit from longer cranks.
headtube length	HTL	The distance between the upper and lower headset.	affects how high your handlebar is relative to your saddle.
head angle	HA	The angle of headtube to the ground.	tailored to optimize steering precision on each frame size.
seattube angle	STA	The angle of seattube to the ground.	tailored to optimize power transmission on each frame size.
chainstay length	CSL	The distance from the center of the bottom bracket to the center on the rear axle.	
bottom bracket height	BBH	The vertical distance from the center of the bottom bracket to the ground.	expresses clearance of the frame over obstacles.
bottom bracket drop	BBD	The vertical distance the bottom bracket is below an imaginary horizontal line drawn through the axles.	the greater the bottom bracket drop, the lower the rider's center of gravity.
wheelbase	WB	The distance between the axles.	tailored to optimize weight distribution on each frame size.
center to top	CT	The distance from the center of the bottom bracket to the top of the seat tube.	because some people still feel they need to know.
inseam range	I	If your inseam is within this range, this size of bike should fit you.	

And now, over to Pythagoras for the Geometry Report...
