GARY FISHER
RIDE BIKES

BULL RIDERS FALL OFF. SUGAR RIDERS STAY ON.

Sugar changed the mountain bike world. Not too long ago, pro racers would never have been caught dead on a full-suspension bike. But nowadays, many who race on Sugars simply aren't caught. Sugar has proven, once and for all, that a comfortable, fun bike can also be a fast bike. And vice versa. So just how fast and efficient is a Sugar? In the past two years it's won more NORBA Nationals than any other bike. What's more, it's available to you, too. You're welcome.

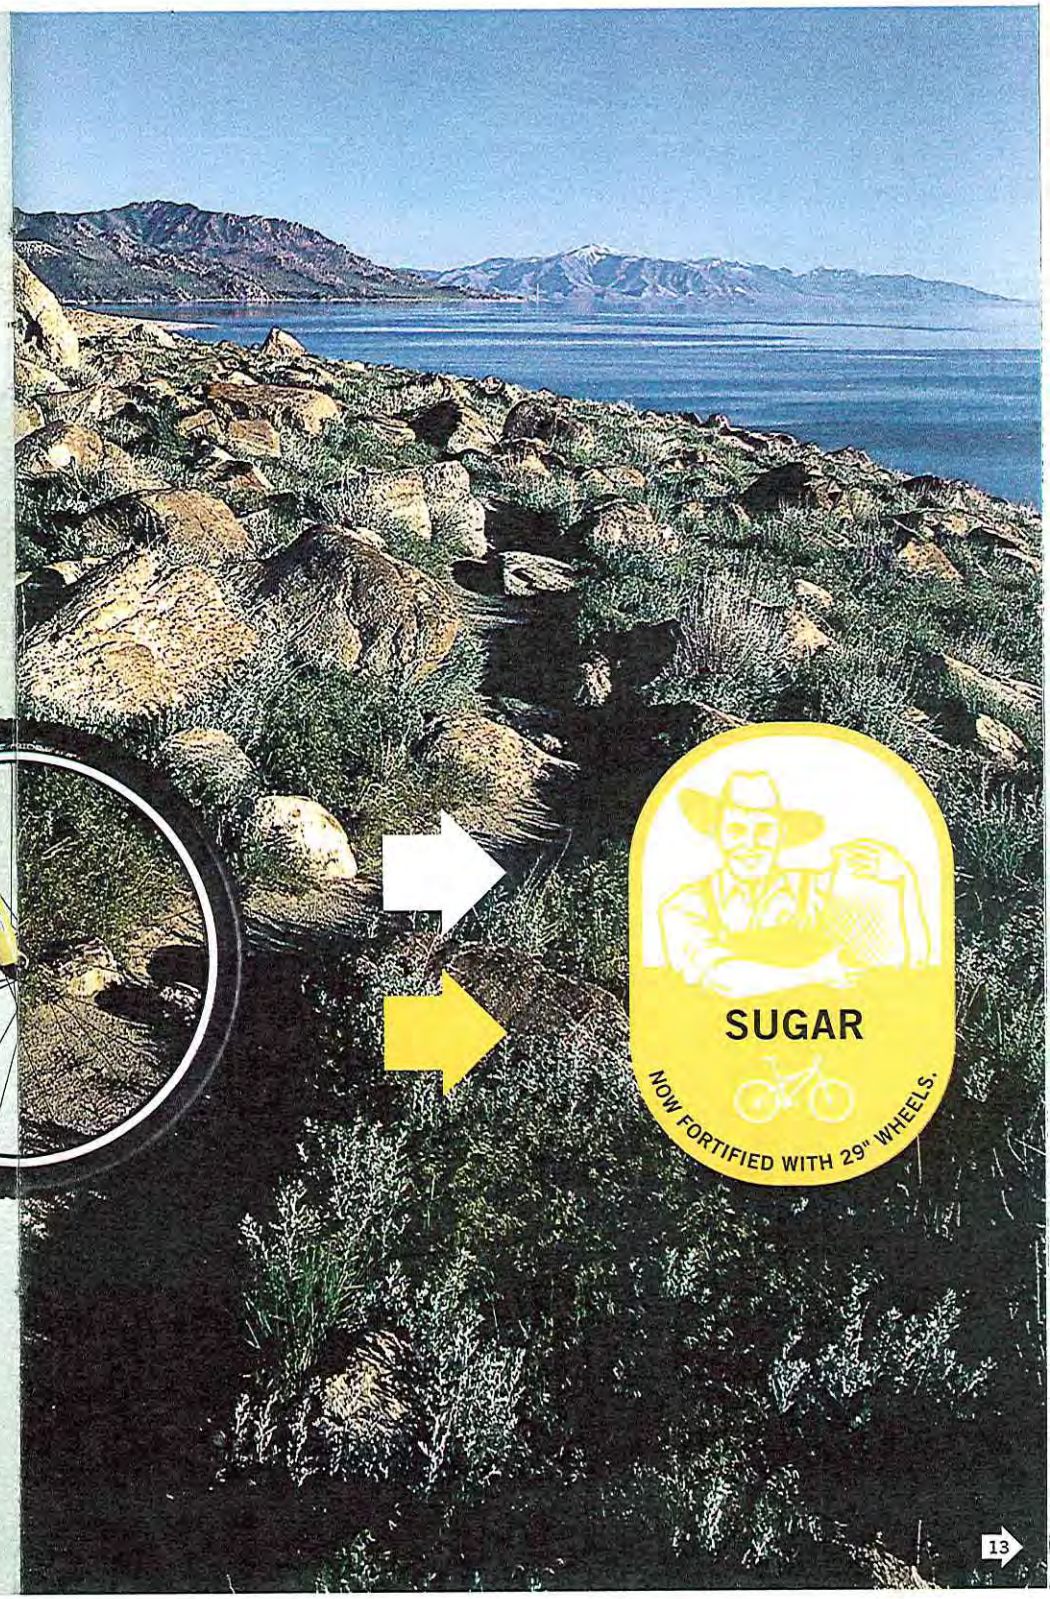

SUGAR TEAM ISSUE™

FRAME Platinum Series ZR9000 double-butted aluminum | Genesis Geometry | b★link suspension | Carbon fiber swingarm | Also available as a frame
WHEELS Bontrager Race X Lite Tubeless wheelsystem w/OSB rear | IRC Serac XC tubeless tires
SUSPENSION Manitou Skareb Super w/anti-bob and TPC damping | 80mm travel | Fox Float RL rear shock w/remote adjustment
COMPONENTRY Shimano XTR SGS rear derailleur + XTR shifters + XTR front derailleur + XTR crank | Avid SD Ultimate brakes
SIZES SM (16") | MD (17.5") | LG (19") | XL (21")
COLOR Yellow Pearl + Blue Metallic

SUGAR 292™

FRAME Platinum Series ZR9000 double-butted aluminum | Genesis 29" Geometry | sybil•link swingarm | Carbon seatstays
WHEELS Bontrager Race Lite 29" disc-compatible OSB wheelsystem | IRC Notos XC tires
SUSPENSION Marzocchi Marathon SL 29 w/Extension Control Cartridge | 80mm travel | Fox Float R rear shock
COMPONENTRY Shimano XTR SGS rear derailleur + Deore XT shifters + Deore XT front derailleur | Bontrager Race Lite 44/32/22 crank | Avid Ultimate brakes | Shimano M515 clipless pedals
SIZES SM (16") | MD (17.5") | LG (19") | XL (21")
COLOR Pearl Yellow + Prime Blue

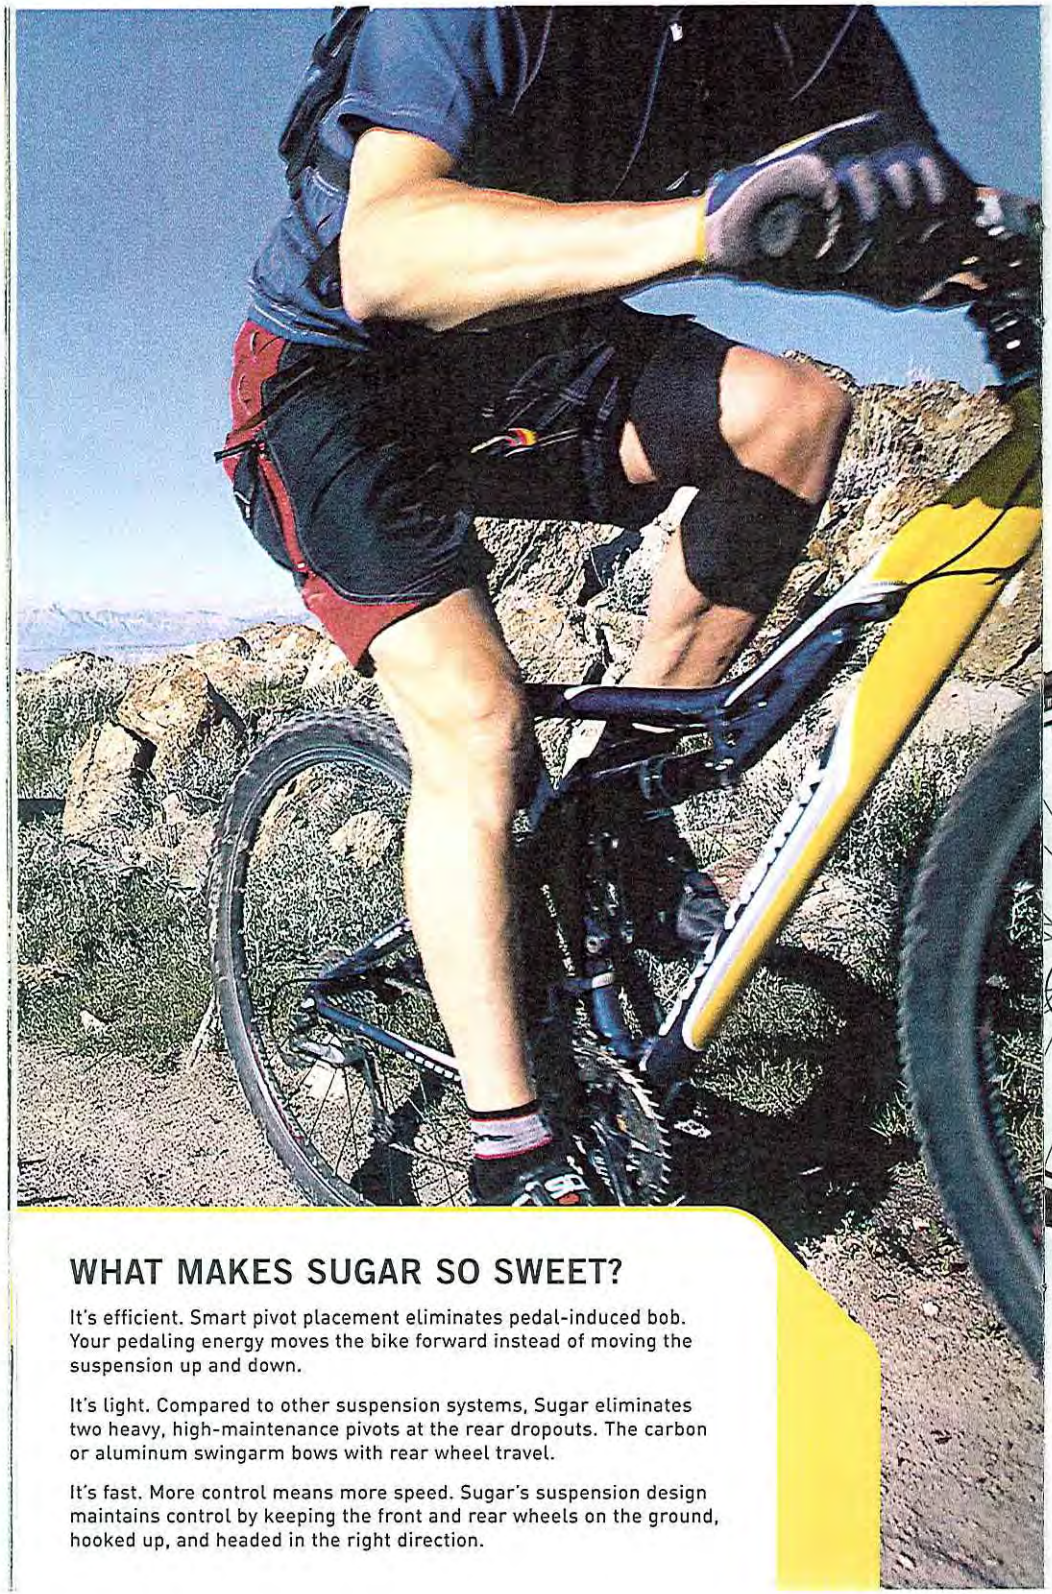

SUGAR+: NO ARTIFICIAL FLAVORING.

All Sugar+ models, including those with 29" wheels, feature adjustable front and rear suspension, giving you the goods to conquer a variety of terrain. It's all possible thanks to our multi-personality sybil•link. The sybil•link boasts the versatility of two travel settings: 2.8" for cross-country conditions, 4.1" for bigger hits.* By varying the front and rear suspension, you can also dial in the bike's geometry—matching the head tube angle and the bottom bracket height to best suit your terrain. More specifically, a higher bottom bracket clears more obstacles while the head tube angle varies the wheelbase, stability, and steering responsiveness. The sybil•link adjustment is also quick. It just takes 30 seconds and a handy Allen wrench to move the pivot from one setting to the next.

*3.1" and 4.6" for models with 29" wheels.

WHAT MAKES SUGAR SO SWEET?

It's efficient. Smart pivot placement eliminates pedal-induced bob. Your pedaling energy moves the bike forward instead of moving the suspension up and down.

It's light. Compared to other suspension systems, Sugar eliminates two heavy, high-maintenance pivots at the rear dropouts. The carbon or aluminum swingarm bows with rear wheel travel.

It's fast. More control means more speed. Sugar's suspension design maintains control by keeping the front and rear wheels on the ground, hooked up, and headed in the right direction.

SUGAR 293™

FRAME Platinum Series ZR9000 double-butted aluminum | Genesis 29" Geometry | sybil•link swingarm | Carbon seatstays
WHEELS Bontrager Race 29" disc-compatible OSB wheelsystem | IRC Mythos II tires
SUSPENSION Marzocchi MX-Pro 29 w/ETA | 80mm travel | Fox Float R rear shock

COMPONENTRY Shimano Deore LX SGS rear derailleur + Deore shifters + Deore LX front derailleur + M440 44/32/22 crank | Alloy linear pull brakes | Alloy platform pedals
SIZES SM (16") | MD (17.5") | LG (19") | XL (21")
COLOR Red + Silver Metallic

IT'S THE RIGHT CHOICE.

Genesis Hardtails begin with, you guessed it, Genesis Geometry. It properly positions your center of gravity above the rear wheel and farther behind the front wheel. This increases your traction while you go up and keeps you safer in the saddle while you go down. What's more, a shorter stem enables precise maneuvering at any speed. And all this good stuff happens while you maintain your normal riding position.

Can it get any better? It just did. That's because more Genesis Hardtails now feature 29" wheels. So big objects are no object. You might also like to know that all 29" models are fully disc ready. So the choice is yours: to disc or not to disc.

SUPERCALIBER®_29

FRAME Platinum Series ZR9000 double-butted aluminum | Genesis 29" Geometry | Also available as a frame
WHEELS Bontrager Race Lite 29" disc-compatible OSB wheelsystem | IRC Notos XC tires

COLORS Black Metallic + Slate Blue Metallic | Black Metallic + Yellow Metallic

A FISHER IS A GIRL'S BEST FRIEND.

- Genesisters frame with shorter reach places the handlebars closer to the rider for reduced shoulder and neck strain
- Narrower handlebars conform to narrower shoulders
- Shorter-reach brake levers better fit women's hands
- A wider saddle more comfortably supports a wider pelvic bone
- Custom-tuned front shocks better suit lighter-weight riders
- Shorter crank arms match shorter legs

SUGAR3+™_GS

FRAME Platinum Series ZR9000 double-butted aluminum | Genesisters Geometry | sybil+link swingarm | 6061 T6 aluminum stays

COLOR Silver Metallic + Bronze Metallic

This, my friend, is a Comfort bike. It comes happily equipped with our Accessories Port. So those handy little things like racks, fenders, and Fisher Freeloaders (our kids' pedal trainers) are always a snap to attach and detach. Snap on. Snap off. It just doesn't get any easier than that.

THE PORT FOR ACCESSORIES!

NAPA™

FRAME Silver Series aluminum comfort | Women's stepthrough available
WHEELS Shimano RM-40 rear hub | Alloy sealed QR front hub | Matrix 750 rims | Hutchinson Acrobat tires w/Stop Puncture protection
SUSPENSION RST Capa TL | 75mm travel

STEM	Alloy direct connect, adjustable rise	Alloy direct connect, adjustable rise	Alloy direct connect, adjustable rise	N/A	Hayseed, clenched between teeth	Sturdy
GRIPS	Fisher dual-density	Fisher dual-density	Fisher dual-density	Black electrical tape	Burlap	Tight
SADDLE	Oasis webspring comfort w/flashing light	Oasis webspring comfort	Oasis webspring comfort	Slotted, adjustable backrest	N/A (ridden while standing)	Cloth and leather
SEATPOST	Suspension, alloy	Suspension, alloy	Suspension, alloy	Round peg, round hole	N/A	Who needs one?
ANYTHING ELSE?	Replaceable derailleur hanger | 2 water bottle mounts	Replaceable derailleur hanger | 2 water bottle mounts	Replaceable derailleur hanger | 2 water bottle mounts	Those were the days	What's a gunny?	Steeps standing up

GEOMETRY TABLES

TERM	ABBREV.	UNIT	GEOMETRY GLOSSARY
STANDOVER	SO	"	The vertical distance from the ground to the point on the top tube where you straddle the bike.
EFFECTIVE TOP TUBE	TT	"	The horizontal measure from the center of the headset to the center of the seatpost. The most important measurement when buying a bike, because it cannot be changed.
COCKPIT LENGTH	CP	"	The horizontal measure from the center of the handlebar to the center of the seatpost. This is where you spend your time. (The next two measurements show how it can be adjusted.)
MINIMUM COCKPIT	minCP	"	The shortest the cockpit can be made by changing the stem to the shortest one available.
MAXIMUM COCKPIT	maxCP	"	The longest the cockpit can be made by changing the stem to one which is 30mm longer than original—the maximum recommended to retain optimum handling.
STEM LENGTH	SL	mm	The original stem: measured from the center of the steerer tube to the center of the handlebar.
CRANK LENGTH	CL	mm	The distance from the center of the bottom bracket to the center of the pedal axle. A rider with long legs can benefit from longer cranks.
HEADTUBE LENGTH	HTL	mm	The distance between the upper and lower headset. Affects how high your handlebar is relative to your saddle.
HEAD ANGLE	HA	°	The angle of headtube to the ground. Tailored to optimize steering precision on each frame size.
SEATTUBE ANGLE	STA	°	The angle of seattube to the ground. Tailored to optimize power transmission on each frame size.
EFFECTIVE CHAINSTAY LENGTH	CSL	mm	The distance from the center of the bottom bracket to the center on the rear axle.
BOTTOM BRACKET HEIGHT	BBH	mm	The vertical distance from the center of the bottom bracket to the ground. Expresses clearance of the frame over obstacles.
BOTTOM BRACKET DROP	BBD	mm	The vertical distance the bottom bracket is below an imaginary horizontal line drawn through the axles. The greater the bottom bracket drop, the lower the rider's center of gravity.
WHEELBASE	WB	mm	The distance between the axles. Tailored to optimize weight distribution on each frame size.
CENTER TO TOP	CT	"	The distance from the center of the bottom bracket to the top of the seat tube. Because some people still feel they need to know.
HEIGHT RANGE		"	If your height is within this range, this size of bike should fit you.

All sizing and geometry specifications are calculated with a standard wheel size and fork axle to race. Larger air volume tires as well as different fork lengths will change the dimensions in these charts.

GARY FISHER LIMITED LIFETIME WARRANTY

Gary Fisher Bicycles provides each original retail purchaser of the bicycle a lifetime warranty against defects in materials and workmapship in the bicycle frame and rigid fork when purchased from an authorized Gary Fisher dealer. Gary Fisher Bicycles likewise warrants all original parts on the bicycle, excluding suspension forks and rear shock absorbers, for a period of one year from the date of purchase. Suspension forks and rear shock absorbers shall be covered by the stated warranty of their original manufacturers. Paint and decals are warranted for one year. This warranty is expressly limited to the repair or replacement of a defective frame, fork, or defective part and is the sole remedy of the warranty. This warranty applies only to the original owner and is not transferable. Claims under this warranty must be made through an authorized Gary Fisher dealer. Proof of purchase is required. A warranty registration card must be completed and received by Gary Fisher Bicycles before a warranty claim may be processed. This warranty covers bicycles and components outside the United States only if purchased through an authorized international Gary Fisher distributor or Gary Fisher dealer within the country of purchase.

The warranty does not cover normal wear and tear, improper assembly or follow-up maintenance, installation of parts or accessories not originally intended or compatible with the bicycle as sold, damage or failure due to accident, misuse, or neglect, or modification of the frame, fork, or components. Gary Fisher Bicycles shall not be responsible for incidental or consequential damages. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives the consumer specific legal rights, and those rights may vary from place to place. This warranty does not affect the statutory rights of the consumer.

All photos, illustrations, colors, weights, and specifications contained in this catalog are based on the latest production information at the time of publication. Gary Fisher reserves the right to make changes at any time, without notice, in colors, materials, equipment, specifications, and models. Any variations in colors shown may be due to the reproductive variations of the printing process. Photos may include non-U.S. equipment. Some models may be shown with optional equipment.

All specifications are subject to change without notice.
