History

In 1954 Paolo and Italo Guerciotti opened a small frame building shop outside Milano. During the early years both brothers raced competitively while learning the retailing trade. Italo, the road racer, represented Italy in the 1959 and 1960 World Championships, while Paolo a cyclocross specialist competed in the Cyclocross World Championships in 1979. Paolo remains a devoted racing patriarch, incorporating competitive cyclocross technology throughout the Guerciotti line. The Carbonio and Record Aluminum models dramatically illustrate top competitive technology resulting in optimum, lightweight racing performance.

Performance

Quality cyclists and triathletes ride Guerciotti with confidence for the reliability, precision and performance of the machine. Guerciotti bicycles have dominated the U.S. road racing circuit for years, winning 8 of 9 U.S. Senior Men's National gold medals since 1985, by the Ten Speed Drive National Road Team. Ric Wells, a world class triathlete, captured the 1987 Nice International Triathlon Championships riding a Guerciotti. In addition, Gervais Rioux won the Canadian National Championships in 1987 on a GLX. World Cyclocross has been dominated by winning performances on Guerciotti throughout the '80's: Four time World Champion and Belgium native Roland Liboton heads a prestigious list of two time World Champions including Italy's Vito Di Tano, West German's Mike Kluge and Czechoslovkia's Radomir Simunek.

Reputation

Guerciotti bicycles have been exclusively distributed by Ten Speed Drive Imports since 1972. Guerciotti's racing heritage and Italian quality are built in every Guerciotti bicycle, meeting the needs of every category of cyclist. In 1980 Guerciotti enjoined master frame builder Alberto Mondonico as a partner. Mondonico serves as Production Manager allowing Paolo to pursue the responsibilities of sales and marketing. Guerciotti frames are trademarked with their custom cut investment cast lugs and bottom bracket. The Guerciotti signature on the seat stay and the "G" within a five pointed star stylize the distinctive look of every Guerciotti bicycle.

Quality

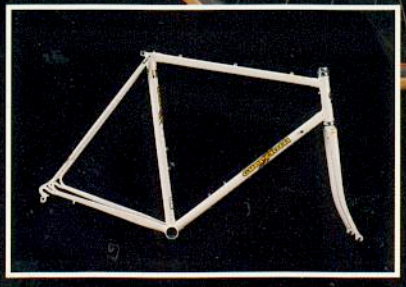

Handcrafted, Guerciotti framesets are sent to the U.S. unpainted where they receive our exclusive multi-step TSDI Frame Prep™ process which results in precision frame alignment within 0.1mm upon the machined surface. The extraordinary paint finish on every Guerciotti is a product of TSDI Frame Paint™, a superior hand detailed finish using DuPont Imron® paint.

Guerciotti bicycles are comprehesive, aggressive and internationally acclaimed.

GL Sante'

Columbus tubing is exclusively used on every Guerciotti steel frame featuring a special brass brazing process. The GLX bicycle is the pride of the Guerciotti line, handcrafted with full investment cast conjunctions and superb chrome work. Columbus SLX super butted tubing stiffens the GLX bottom bracket for a reliable, responsive ride. TSDI's DuPont Imron® paint guarantees a quality finish that will remain radiant and true for years. The Guerciotti GL is Paolo's original professional racing bicycle. Lightweight, handbuilt with Columbus SL tubing and expertly finished by the TSDI Frame Paint™ process, the GL offers the most competitive frame at a no-nonsense value.

GL Component Packages:
Croce D'Aune, Chorus, Super Record, Victory, Sante', 105.

GL Colors:
Red/White, Anthracite/White, Yellow, White, Red. Also available in GLX Color Options.

GC 6925 Carbonio Croce D'Aune

The Carbonio bicycle is the lightest, most responsive frame in the line. A 56cm Carbonio frameset weighs only 4.6 pounds; built with three Carbon tubes in the main triangle and reinforced with internal Aluminum lugs for maximum strength. The Carbonio has been DuPont® clear coated for a brilliant finish and long term frame protection.

Carbonio Component Packages:
Record C, Croce D'Aune, Chorus, Super Record, Sante'.
Carbonio Color:
Black Carbon.

GA 6650 Record Aluminum Chorus

A cycling entrepreneur, Guerciotti was the first master frame builder to use Aluminum tubing during the seventies at international competitions. The Record Aluminum bicycle is built from heat treated, oversized, Ergal Aluminum, with flush internal lugs for maximum efficiency and racing performance.

Record Aluminum Component Packages:
Record C, Croce D'Aune, Chorus, Super Record, Sprint, Sante'.

Record Aluminum Colors:
Anodized Blue, Anodized Red.

GA Aluminum Sprint 105

The superior quality finish on every Guerciotti provides a virtually maintenance free frame that will retain its appearance and value for years. The Sprint Aluminum is a direct descendent of the Record Aluminum with parallel racing geometry. Built with Sprint 5130 Aluminum tubing, cyclists can choose this lightweight performance bicycle at a moderate price.

Aluminum Sprint Component Packages:
Sprint, 105.

Aluminum Sprint Color:
Anodized Red.
