

KLEIN BICYCLE CORPORATION

The Aluminum Klein

Congratulations. In considering Klein, you are not only selecting the world's best-engineered frames, but one of the world's finest riding bicycles as well. And, after all, isn't that what it's all about?

Building aluminum frames isn't difficult. Building them right is. From the custom cutting of Klein Power Tubing to the multi-coat application of Durethane enamel, each Klein is constructed to blend strength, comfort, handling and efficiency of design into a truly superior product.

Dear Fellow Enthusiast

Thank you for your interest in Klein bicycles. We are happy to provide you with information about these bicycles because we feel that once you ride a Klein, you will agree with *Bicycling* magazine that these are "the ultimate, perfect bicycles" for racing and touring, and off-road use.

Each Klein comes equipped with the world's finest components, chosen for their ability to function together in a system that performs efficiently and is easy to handle. At Klein, we believe that a machine should work for you; you should not have to work to operate the machine. We are sure that you will notice the ease and comfort of handling of your Klein.

The staff at Klein also makes sure you have a beautiful, quality finish on your bicycle. In addition to the aesthetic considerations, the Durethane finish is extremely durable. This coating is resistent to scratches and denting, thus protecting the tubing from surface damage. So, your Klein will retain its show-quality finish for many years to come and it will survive daily wear and tear, races and tours, beautifully.

In order to enhance your appreciation of this fine frame, we tailor your Klein to your needs, based upon your body measurements and type of riding. With this information, we will provide you with a beautifully-fitted machine. You will love it the moment you get on.

Once again, we appreciate your interest in our bicycles and we look forward to handcrafting your new Klein. Please call or write if we can be of service.

Sincerely yours,

Gary Klein, *President*
Klein Bicycle Corporation

Framesets

QUANTUM. Frameset only (odd sizes 51-63cm) **$449**
The Quantum represents an incredible value in its category. Only a few years ago you would have paid five times the price to get its performance. From precise alignment to power train efficiency, to superb ride and handling, it incorporates all the characteristics that have made Klein famous. Frameset includes recessed brake mounts. Available in Very Fast Red or Shimmering Burgundy with Chrome fork. *No custom options available.*

QUANTUM ELITE. Frameset only (odd sizes 51-63cm) **$595**
The Quantum Elite has been compared to the Porsche in beauty and performance, yet it is priced like a Volkswagon. Frameset includes recessed brake mounts, color-matched fork and pump, and additional detailing. Available in Sable.

PERFORMANCE. Frameset only (even sizes 52-62cm) **$449**
The Performance delivers Klein's exceptional ride, handling, power train efficiency and frame alignment at an exceptional price. It's an all-purpose bike offering unsurpassed value. Frameset includes front and rear dropout eyelets and rear rack mounts. Available in Shadow Silver or Shimmering Burgundy with Chrome fork. *No custom options avail.*

PERFORMANCE ELITE. Frameset only (even sizes 52-62cm) **$595**
The Performance Elite is a beautiful road machine. Take it racing or high-speed touring. Frameset includes front and rear dropout eyelets, rear rack mounts, color-matched fork and pump, and additional detailing.
Available in Sovereign Blue.

KIRSTEN Frameset only (47 or 50cm) **$495**
The Kirsten's geometry is designed to compliment the woman's anatomy. The precise alignment accommodates 700c front and rear wheels with superb ride and handling capabilities. Available in Sky Blue or Shimmering Burgundy with painted fork. *No custom options available.*

MOUNTAINKLEIN. Frameset only (19, 21 & 23 inch) **$550**
The MountainKlein has become an all-terrain industry benchmark. Its ultra-light weight and superior geometry give it excellent low-speed maneuverability, high-speed tracking, shock absorption, power train efficiency and durability unequalled by any other make. Frameset includes three water bottle mounts, rear rack mounts, front cantilever bosses, fender mounts, shift cables routed through the down tube. Available in Very Fast Red or Sovereign Blue with Chrome fork.

PINNACLE. Frameset only (18, 20 & 22 inch) **$550**
The Pinnacle's geometry is designed to get you there first. Awesome performance with handcrafted beauty and elegance. Frameset includes three water bottle mounts (only two on 18 inch), rear rack mounts, front and rear dropout eyelets, front cantilever bosses, shift cables routed through down tube. Available in Vibrant Flare or Sovereign Blue with Chrome fork.

PINNACLE ELITE. Frameset only (18, 20 & 22 inch) **$749**
The Pinnacle is a thoroughbred. It outclimbs them all. With a skilled rider aboard, it descends faster too. Its more-sensitive handling is also good for touring and general road use. Frameset includes three water bottle mounts (only two on 18 inch), rear rack mounts, front and rear dropout eyelets, cantilever bosses, shift cables routed through down tube, color-matched fork, additional detailing. Available in extremely hot Backfire.™

TOP GUN. Frameset only (18, 20 & 22 inch) **$895**
The ultimate in mountain bike design. The Top Gun incorporates the features demanded by the discriminating rider such as rear cantilever brake mounts, 135mm rear axle spacing and tight angles for unsurpassed climbing and descending. Available in Patriot.

Klein Corporation tries to maintain an inventory of framesets, options, and bicycles so that orders can be shipped immediately. From time to time, demand is so overwhelming that the production is unable to keep up. Your dealer can contact the factory at (206) 262-3305 for availability of any specific items. Prices and specifications subject to change without notice.

Klein's Custom Framesets

ALL CUSTOM-FITTED FRAMESETS INCLUDE AS STANDARD:
Side-mounted down tube shift levers, heavy-duty, precision-sealed bearing bottom bracket assembly, all cable guides, one water bottle mount and custom-fitted color-matched pump. Finished with durable Durethane polyurethane enamel in Sovereign Blue, Shimmering Burgundy, Very Fast Red, Shadow Silver or Sable.

CRITERIUM. Frameset only (51-68cm) **$1,295**
Gary Klein personally supervises the custom-fitting and choice of components for every Criterium built. And, after a meticulous final inspection, his written approval accompanies each completed frame. Body measurements and riding style are analyzed for a perfect fit.

TEAM SUPER. Frameset only (51-68cm) **$1,995**
The Team Super represents the highest quality, custom-fitted frame Klein can produce. Any flaw in the finish is cause for rejection. Nothing is spared in the design and construction of this frame. In addition to all the Criterium features, Boron fiber is used in the chainstays, seat stays and front fork blades for its shock-absorbing characteristics and power-train rigidity. Since Boron composites absorb high frequency shock many times better than conventional materials, the Team Super has an exceptionally smooth ride.

ADVANTAGE. Frameset only (46-70cm) **$1,295**
Gary Klein personally reviews the fitting and choice of components for the Advantage. His final inspection approval accompanies each custom-fitted frame.

STAGE. Frameset only (46-70cm) **$1,995**
The Stage represents the ultimate in comfort and performance. It's the frame for individuals who demand the very best the world has to offer, not only in ride and handling but in aesthetics as well. In addition to all the Advantage features, Boron fiber reinforcements are used in chainstays, seat stays and front fork blades to further enhance the properties of the frame. Boron fiber, per weight, is the strongest, stiffest structural material in the world, absorbing high frequency shock many times better than conventional materials. Truly, the best bicycle available.
