PULSE PRO™

GROUP: Shimano Deore LX/Grip Shift ESP 9.0

FORK: Manitou Pro suspension w/alloy steerer

RIMS: Bontrager Mustang, triple cavity, 32 hole

TIRES: Panaracer Duster II, Kevlar bead, 26 x 2.1"

PEDALS: Shimano SPD M535 clipless

COLOR: Ebony Black

WEIGHT: 23.9 lbs./10.9kg

PRO

RACE

If you think Klein is synonymous with premium bikes at premium prices, the sticker on these Pulse mountain bikes will be a welcome surprise. You might sacrifice less at the cash register, but you won't be sacrificing a bit of the ride that made Klein famous. Pulse frames feature exclusive Klein **POWER TUBING**™, with long butted tapers for high strength and low weight. Framesets are carefully constructed with deep-penetration TIG welding and full heat treatment for high durability. Klein **FULL-ON™ RACE GEOMETRY** gives the Pulse a nimble, aggressive ride with precise handling under the most demanding conditions. Our Gradient™ chainstays deliver a **POWERTRAIN EFFICIENCY** that makes climbs and sprints a pleasure. And because of the extra-wide rear tire clearance, the Pulse won't muck-up in even the worst Northwest mud. Pulse also gives you little Klein niceties, like our Micro Dropouts™ with Re-Entry Ramps™ to make wheel changes a breeze, and our optional patented Chain Control Device to keep evil chainsuck at bay. Even our least expensive Pulse can take you into your first years of serious competition. These Pulse models may be entry level Kleins. But why not enter way ahead of nearly any other bike?

COMP

PULSE RACE™

GROUP: Shimano STX-RC, 8spd

WEIGHT: 22.9 lbs./10.4kg
Attitude RACE
KLEIN
THOMSON
DEORE

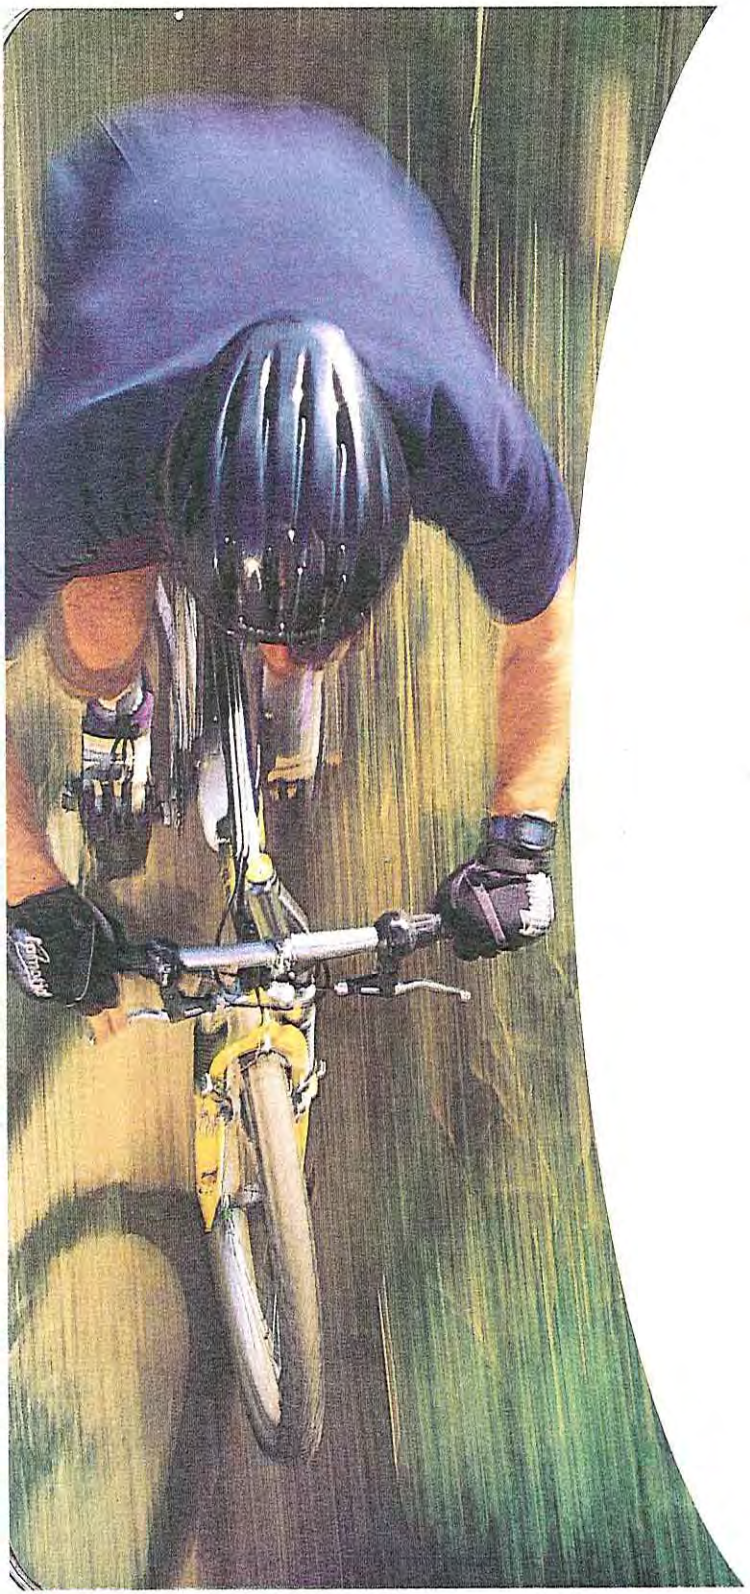

Our Attitude models feature the most advanced frame tubing in the business, **KLEIN GRADIENT™**. It's meticulously drawn and shaped with variable internal and external tapering that evenly distributes frame stresses. The result is an incredibly strong, full competition frame weighing only three pounds. And, **SUPERIOR POWERTRAIN RIGIDITY** is ensured by the most carefully engineered rear triangle configuration in cycling, featuring patented Klein **HIGH PERFORMANCE CHAINSTAYS**. They're asymmetrically shaped for maximum stiffness and strength, delivering legendary climbing

RACE COMP

and sprinting performance. Klein **MICRO DROPOUTS™** position the wheel axle closer to the chainstays than conventional designs, greatly enhancing power transfer. A one-piece **REINFORCED DERAILLEUR HANGER** provides unbeatable durability and precise shifting performance. In addition, our patented Chain Control Device (CCD) has three ramps that gently guide the chain away from chainring teeth while actually keeping the chain clean. Go ahead, test ride the Attitude against any non-Klein mountain bike. It will elevate your expectations well above the competition.

ATTITUDE

ATTITUDE RACE™ FUSELAGE

You won't find another bike as uniquely engineered for triathlons, time trials, or just going fast, as the Klein Aeolus. It starts with **IDEAL AERO FRAME GEOMETRY**, with a 78° seat angle and a 72° head angle, moving the rider forward and down into a stable, aerodynamic, yet comfortable position. The frame is another Klein work of art. **GRADIENT™ TUBING** has gradual tapers that vary by as much as 260% across long sections of the frame to evenly distribute frame stresses. It's the most exacting material manipulation process in cycling, resulting in extremely light, strong frames with amazing lateral rigidity. Patented Klein **HIGH PERFORMANCE CHAINSTAYS** are extra short and individually Gradient™ formed for maximum stiffness and strength. This rear triangle ensures the **BEST POWERTRAIN EFFICIENCY** in cycling, delivering legendary climbing and sprinting performance. At the wheel, rear-facing **MICRO DROPOUTS™** create the most direct axle connection possible, with beveled Re-Entry Ramps™ for fast wheel changes. The Aeolus is not the bike for everybody. On the other hand, for riders serious about speed, there's nothing sweeter.

WARRANTY

Klein Bicycle Corporation warrants each new Klein bicycle frame and rigid fork purchased from an authorized Klein dealer against defects in workmanship and materials for five years of ownership from the date of purchase by the original owner. Klein Bicycles likewise warrants all original parts, excluding suspension forks and rear shock absorbers, for a period of one year from the date of purchase. Suspension forks and rear shock absorbers shall be covered under the stated warranty of their original manufacturers. Paint and decals are warranted for one year. This warranty is expressly limited to the repair or replacement of a defective frame, fork, or defective part and is the sole remedy of the warranty. Labor charges for frame changeovers shall be covered for one year from the date of purchase. This warranty applies only to the original owner and is not transferable.

Claims under this warranty must be made through an authorized Klein dealer. Proof of purchase is required. A warranty registration card must be completed and received by Klein Bicycles before a warranty claim may be processed.

This warranty covers bicycles and components purchased outside the United States only if they are purchased through an authorized international Klein distributor or Klein dealer within the country of purchase.

The warranty does not cover normal wear and tear, improper assembly or follow-up maintenance, installation of parts or accessories not originally intended or compatible with the bicycle as sold, damage or failure due to accident, misuse, abuse or neglect, or modification of the frame, fork or components.

Klein Bicycles shall not be responsible for incidental or consequential damages. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.

This warranty gives the consumer specific legal rights, and those rights may vary from place to place. This warranty does not effect the statutory rights of the consumer.

Alivio, Bassano, Bontrager, Deore, Fox, Grip Shift, Indy, Judy, Kevlar, Manitou, Matrix, Panaracer, Rapidfire, Rock Shox, Selle, Shimano, Sugino, Synthesis, Tange, Thomson and Ultegra are the trademarks of their respective owners.

Aeolus, Aeros, Adroit, Attitude, Gradient, Klein, Mantra, Micro Dropouts, Power Tubing, Pulse, Quantum, Re-Entry Ramps, Spot-On, Stage, Strata and Stratum are registered trademarks of Klein Bicycle Corporation.
