Tete De Course

The goal: A frame that has the ride of Ti, but the weight savings of carbon fiber. The best of both worlds. Introducing the 2003 Tete de Course; a butted, shaped Reynolds titanium spine merged with an OCLV 110 carbon upper. The result? A silky smooth ride and the weight of a feather. Only from LeMond.

"Head of the race" or at the front. It's the top of the LeMond line.

FRAME Mechanically Butted and Shaped 3/2.5 Titanium Spine, 110 OCLV Carbon Upper Frame
SIZES 49,51,53,55,57,59,61 (effective)
FORK Reynolds Ouzo Carbon Pro
BUILD KITS AVAILABLE Dura Ace, Campagnolo Record, and Ultegra

** = stock option*

"The Tete has the best of everything." Compact Style geometry fits exactly the same as every LeMond, yet saves precious weight. The 110 series carbon is the lightest grade you will find, and the new ultralight dropouts are machined from 6/4 grade titanium. Even the headtube is lathe turned to shave off unneeded material. Fitting details for the finest LeMond.

Ti
TITANIUM

Victoire

Handcrafted one at time here in the US, each frame features butted and shaped Reynolds 3/2.5 tubing, mechanically butt as opposed to chemically millec The internal headset, as well as butted and tapered stays, make this one of the most elegant anc technically advanced Ti frames available anywhere, from anyon

With Greg's most famous wins coming in France, Victoire, French for "Victory," is a fitting LeMond model name.

There is beauty in the details, and a LeMond Ti has lots of details. The internal headset looks great and provides improved steering precision. Straight, tapered and butted stays are the finest/lightest in the business. A bead blasted finish adds strength, allowing us to reduce the weight.

FRAME Mechanically Butted and Shaped 3/2.5 Titanium

Ti
TITANIUM

Arrivee

New for 2003. A Ti LeMond with 3/2.5 tubing handcrafted in the US by either John, Pat, Ken or Cheryl. Not many people have passed the stringent standards to become LeMond welders, but that's what makes this bike special. Titanium tubing, LeMond geometry, flawless construction - a true LeMond.

French for
"The Finish Line."
For a racing bike, this is what it's all about.

FRAME LeMond Seamless 3/2.5 Titanium
SIZES 49,51,53,55.57,59,61
FORK Bontrager Race Carbon
BUILD KITS AVAILABLE Ultegra, and Ultegra/105*

** = stock option*

While many builders curve their chainstays under the pretense of absorbing road shock, it's actually because they need to curve heavy oversized tubes to clear the wheel. LeMond chainstays are tapered, a difficult process with Ti, but tapering allows the stays to be straight - the shortest, lightest path.

853
PRO

Maillot Jaune

The Maillot Jaune - it's a classic, elegant steel frame designed and crafted with new cutting edge technology. The 853 Pro down tube is biaxial, ovalized at the ends to resist pedaling force deflection, while the air hardened 853 tubing actually gets stronger when welded. Built according to Greg's geometry, this is the connoisseur's bike.

The "yellow jersey," worn by the current leader of the Tour de France.

Why does the Maillot Jaune have so many fans? The LeMond steel bikes have a mythical quality that allows you to feel the road yet not be abused by it. These are bikes that keep the rider fresher and more comfortable.

PRO

Zurich Men's

For years, the Zurich has been LeMond's best selling model, probably because it provides the best LeMond value. Greg's famous Reynolds 853 pro frame combined with Shimano Ultegra and Bontrager wheels, a masterful mix of ride quality and component performance.

FRAME Reynolds 853 Pro Double Butted Steel Alloy
SIZES 47, 49, 51, 53, 55, 57, 59, 61

853
PRO

Zurich Women's

While it would be hard to improve on the Zurich ride, we were able to add features to allow a better fit for smaller women. We've added a women's specific saddle, reach adjustable brake levers for smaller hands and shorter crank arms for shorter legs. These parts are stock on three women specific frame sizes that offer high performance for smaller riders.

853
SELECT

Buenos Aires

This is a race ready bike at a most reasonable price. The soul of the bike is a LeMond geometry frame, made from Reynolds 853 Select, an artful mix of 853 and 525 tubing, crafted by hand in the United States. Combined with a carefully chosen selection of Shimano Ultegra/105 and Bontrager wheels, the Buenos Aires is a better ride than Greg ever raced way back when.

"Buenos Aires," the city where Greg won his first World Championship as a Junior.

FRAME Reynolds 853 Designer Select Double Butted Steel Alloy

WHEELSET Bontrager Select
GRUPPO Shimano Ultegra/105, 9-speed
CRANK 53/39 or 52/42/30

There is no bike component more important than the wheels. Case in point, the Bontrager Select wheelset. Featuring a front wheel with 20 paired spokes for improved aerodynamics, and a 24 spoke rear wheel with OSB (offset spokebed) technology for maximum durability. Bontrager Selects have all the features that helped the USPS team to countless victories in 2002.

853
SELECT

Alpe D' Huez

The Alpe D' Huez boasts the same race ready frame as the Buenos Aires. Reynolds 853 Select tubing, artfully crafted with LeMond geometry, means the same balanced position, same ride and handling. The new carbon fork and classic 32 hole road wheels with flawless rim construction will make smooth, easy work of those 21 switchbacks when you make your pilgrimage to the bike's namesake.
