

top: Accurate alignment begins with precision assembly techniques.
bottom: Ultra-strong, yet lightweight Shimano track dropouts are used on all track framesets.

At Mark Zeh Cycles, Inc., we specialize in building unique framesets to satisfy the most discriminating customer. Our framesets are constructed using only the finest materials available and each has a geometry which is specific to the individual's requirements. Innovative detailing of the frame components may be ordered to complement the frameset.

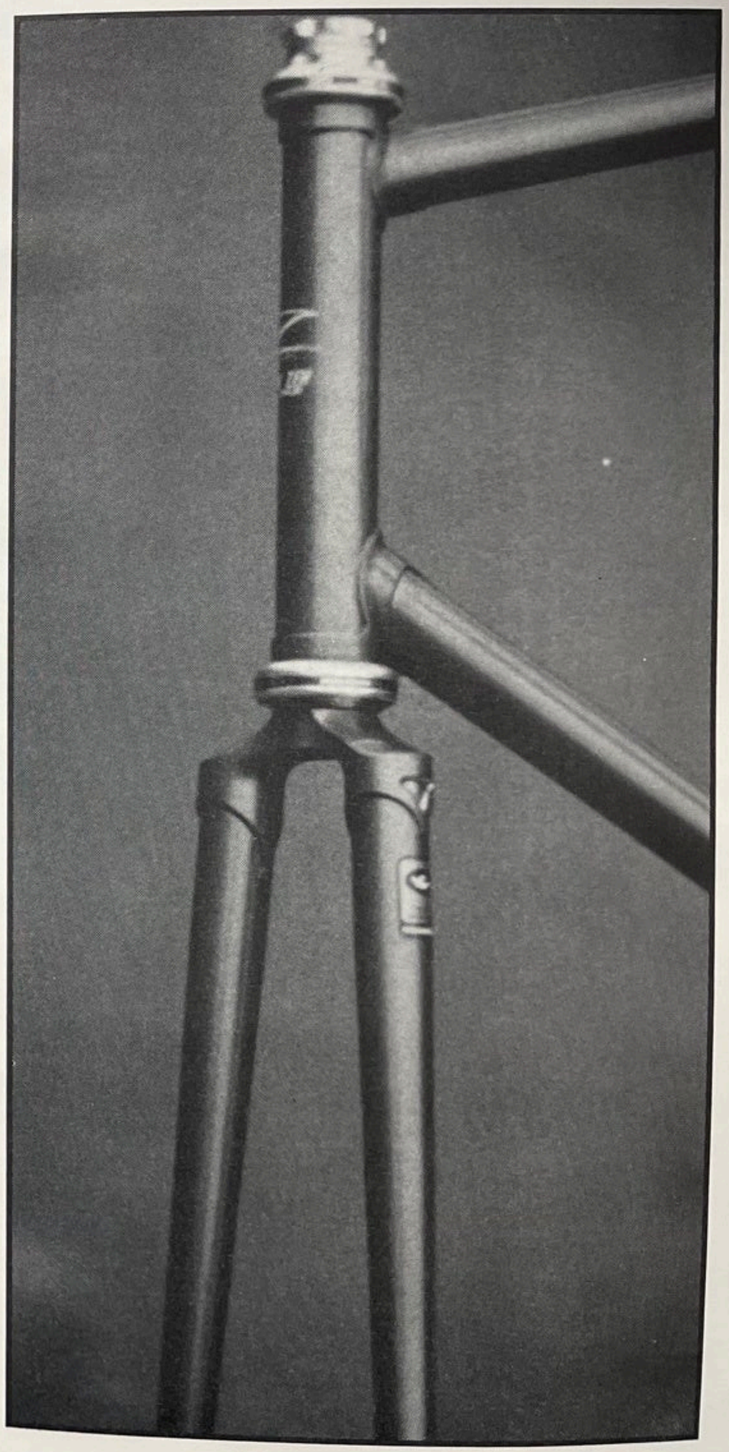

top: Unique, hand-cut and polished stainless steel seat cluster.
bottom: Clean workmanship is evident on this aerodynamic seat cluster.

Mark Zeh Cycles, Inc. is a full service frame shop. We offer road bikes, track bikes, mountain bikes, tandems, triples, mountain tandems, time trial bikes, or we will build a prototype to any supplied blueprint or description. We build custom stems, chromoly racks, and do custom component modification. Repaints, repairs, and braze-on work are also done.

bottom: Fat, 24mm track blades are used in this SLX™ track frame, rather than the less rigid 22mm blades commonly used.

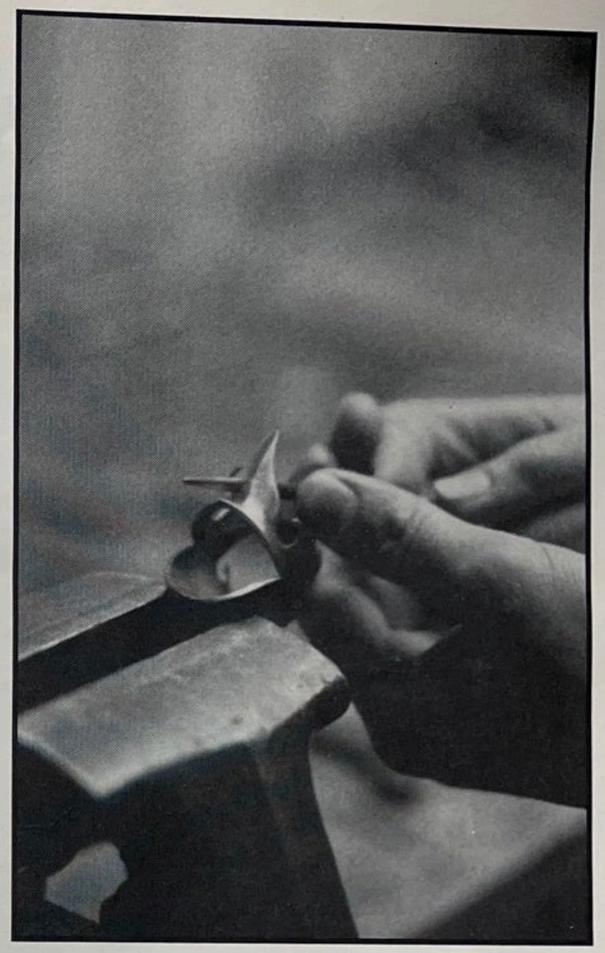

Mark Zeh Cycles was started in 1984 as a builder of competition framesets. Since then our framesets have been used in local, regional, national and world championships.

All Framsets are constructed by Mark Zeh, a Reynolds 753™ approved master framebuilder. All lugged framesets are guaranteed silver-brazed throughout. Frame alignment is held within .005 of an inch. All framesets are thoroughly pickled and rustproofed prior to painting. DuPont Imron™ finishes are used, unless otherwise specified. Select chrome plating is available on a bid basis.

If you desire the advantages of a custom built frame and admire the beauty of a fine American hand built frameset, contact your Mark Zeh Cycles representative.

terms of business

An order for a custom frameset is entered into the schedule when a deposit for 50% and a completed order form is received. The balance is due upon completion of the frameset. Shipping is COD.

Warranty

All custom products of Mark Zeh Cycles, Inc. are guaranteed to be free of defects in workmanship for the life of the product for the original owner. Since all products are custom built, the warranty is not transferrable. A limited warranty will be issued for products of an intentionally limited lifespan.

All products are built to customer spec., so if you don't see something which you want on the price sheet, please ask if we can build it. The price sheet is intended to give an idea of what can be done, it is not the last word.
