TREK USA

2500 COMPOSITE

Trek's foremost example of how to combine materials, technical wizardry, and craftsmanship into the finest racing bike anywhere. Trek's own carbon-fiber main triangle and Matrix™ aluminum tubing formulation creates a totally uncompromising bond of strength, responsiveness, and comfort. So advanced, all we could add is this—Matrix Iso aerodynamic wheels and the new Shimano Dura Ace 14 speed S.I.S. group with aero levers. Weight: 18.9 lbs.

Colors: Graphite & polished aluminum (shown).

ALUMINUM
RACE

2000 ALUMINUM

Since its debut, the Trek 2000 has established itself as the finest example of aluminum racing bike technology in the marketplace. Ridden by America's best, this exotic set of mid-size aluminum alloy tubes and internal investment-cast lugs is equipped with the only component group sophisticated enough to match—Shimano Dura Ace. Naturally, with the finest 32-hole Matrix Iso™ aero tubular wheels. Weight: 19.5 pounds.

Colors: Ecru (bicycle shown). White to red fade.

1500 ALUMINUM

This superbly-detailed racing machine utilizes the same unique design, materials, and construction as Trek models 1200 and 2000, but with Shimano's newest Santé derailleur group providing sure and light-touch S.I.S. shifting precision across all 14 speeds. There's a Biopace™ crankset. Super-rigid Matrix Iso-C clincher wheels. And Vetta Moser Aero leather saddle from which to take it all in. Weight: 20.9 pounds.

Colors: Yellow (bicycle shown). Black to pewter fade.

ALUMINUM
RACE/TRIATHLON

1200
ALUMINUM

Another innovative aluminum design, bonding Trek Matrix™ aluminum into a responsive, yet resilient geometry. Component group is Suntour's top-quality Sprint 9000, with Accushift indexing for perfect gear engagement under pressure. Right at hand there are Dia Compe Royal Compe aero brakes. With Matrix Titan wheels and Matrix™ CD-4 tires. All the performance of an elite racing machine. Weight: 20.9 pounds.

Colors: Orange to red fade (bicycle shown). Race blue.

ALUMINUM
RACE/TRIATHLON

1000 ALUMINUM

At 21 pounds, this Trek packs a unique combination of stiffness, response, and comfort into its bonded TX™ frame. Built with the same fanatical care as our other aluminum models, this Trek comes equipped with Suntour's equally advanced New Cyclone 7000 component group, including their indexed Accushift™ gearing and Alpha II forged brakeset with aero levers. And lightweight Matrix wheels to match. Weight: 21.1 pounds.

Colors: Race red (bicycle shown). Grey metallic to black fade.

REYNOLDS 531
RACE/TRIATHLON

560EX
PRO SERIES

The same purebred Reynolds 531 racing geometry frame as our standard Model 560, but with an upgrade to Shimano's heralded 600EX S.I.S. componentry—anodized for a durable and outstanding finish. Not to mention a pair of highly-responsive Matrix wheels with Matrix's new 125 psi clinchers fitted on. The top choice of triathletes and racers quickly advancing in their category. Weight: 23.2 pounds.

Colors: Ecru (bicycle shown).
Grey metallic to black fade.

REYNOLDS 531
RACE/TRIATHLON

560
PRO SERIES

The first in Trek's line of dedicated racing bikes, this machine transforms Reynolds 531 tubing and Trek investment castings into a tightly-responsive short-wheelbase frame. The performance soars higher with Shimano's new 105 component group, complete with S.I.S. shifting, Biopace crankset, and linear response brake system. Matrix Titan wheelset and Matrix rubber complete this exciting package. Weight: 23.2 pounds.

Colors: Aqua (bicycle shown).
Orange to red fade.

REYNOLDS 531
SPORT/TOURING

520 CIRRUS

A classic Trek touring bike composed of Reynolds 531 tubing and Trek's unique set of investment-cast lugs, dropouts, and shells. Equipped for the long haul with new Shimano Deore wide-range S.I.S. index shifting of all 18 speeds, a Biopace™ 50/44/28 triple crankset, and powerful Deore cantilever brakes. A Blackburn rear rack and multiple braze-ons will suit the needs of the touring cyclist. Weight: 24.9 pounds.

Colors: Cumulus grey (bicycle shown). Burgundy to slate fade.

REYNOLDS 531
SPORT/TOURING

400T
ELANCE

Featuring a Reynolds 531 sport frame for responsive handling with components geared for longer tours. 18 evenly-spaced gears are controlled by Shimano's new Deore wide-range derailleurs with S.I.S. shifting. New S.R. Oval-Tech crankset enhances pedalling efficiency. Black-anodized Matrix Titan wheels built around sealed hubs are also standard equipment on this versatile machine. Weight: 23.6 pounds.

Colors: Dark blue metallic (bicycle shown).
Red to black fade.

REYNOLDS 531
SPORT/TOURING

400D
ELANCE

Built of Reynolds 531 and Trek investment-cast lugs using a combination of advanced robotic technology and precision silver brazing. Extremely reliable Shimano light-action derailleurs with the convenience of their S.I.S. shifting mechanism. Brakes are Shimano's "Z" system. Add a pair of superb Matrix™ wheels with matching Matrix tires and you've got a top-quality bike that's ready for some serious riding. Weight: 23.4 pounds.

Colors: Red to black fade (bicycle shown). Dark blue metallic.

330
ELANCE

A Reynolds 531 frame crafted to perfection using our own precise investment-cast fittings. Features the new Suntour "Alpha 5000" index control transmission for shifts that are right on center every time. Also includes the new Dia Compe Alpha brakeset with hooded levers. Sealed bearing systems throughout. And Vetta's Ultra anatomic saddle atop micro-adjusting seatpost for comfort from the very first mile. Weight: 23.9 pounds.

Colors: Bright red (bicycle shown). Grey.

ALUMINUM
ALL-TERRAIN

8000XT ALUMINUM

The same revolutionary all-terrain frameset as our Model 8000, but this time decked out in the hottest component group this side of Kilamanjaro.

Shimano's Deore XT setup includes the newest version of their S.I.S. indexed thumb shifters, Biopace 48/38/28 triple crankset, new freehub/freewheel system, and chainstay—mounted U-brake. All riding on Araya RM-20 black-anodized wheels and Quad tires. Geronimo! Weight: 27.1 lbs.

Colors: Race Red (bicycle shown). Camouflage.

8000
ALUMINUM

Trek aluminum performance comes to the all-terrain for the first time. What can you expect? Increased lateral rigidity and plenty of shock absorption in a superlight, superstrong frame built with a special set of investment castings. Shimano New Deore componentry, featuring S.I.S. index shifting and their new "U" brake. And SR's latest forged single-clamp stem and bars. 18 speeds of upward mobility. Weight: 27.3 pounds.

Colors: White to blue fade (bicycle shown). Race red.

CHROME MOLY
SPORT/FITNESS

850 ANTELOPE

Mountain-top performance from a durably-crafted set of double-butted oversize chrome-moly tubes and beefy ATB unicrown forks. Lightweight, yet loaded with quality components like Shimano's special New Deore off-road group, including S.I.S. thumb shifters, Biopace 48/38/28 cranks for stomping, and chainstay-mounted U-brake for stopping. And Araya's RM-20 alloy rims to shoulder the load. Weight: 28.1 pounds.

Colors: Red to black fade (bicycle shown). Dark blue metallic.

CHROME MOLY
ALL-TERRAIN

830 ANTELOPE

A bike for those who love the dirt, but still like to act civilized once in a while. A full chrome-moly double-butted frame and unicrown-style fork is the backbone for Shimano's tough componentry. Including new S.I.S. thumb shifters that shift effortlessly. S.R. Oval-Tech triple crankset for torquing up the grades, cantilever brakes for coming down them. Bearings are sealed against the grit throughout. Weight: 28.9 pounds.

Colors: Grey metallic to black fade (shown). Bright red.

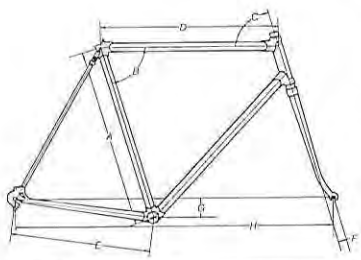

CHROME MOLY
ALL-TERRAIN/SPORT

800 ANTELOPE

The new age of ATB is here, with a machine that performs as well on-the-road as it does in the all-terrain. Features our oversize chrome-moly frame design that's responsive yet stable. With Suntour's new Alpha Accushift to handle all 15 speeds with ease. A reliable sealed SR crankset. And nimble yet sturdy wheels equipped with Trek knobby tires. Step-through mixte frame also available. Weight: 29.3 pounds.

Colors: Yellow (bicycle shown). Slate metallic.

Trek bicycles consist of component parts and materials made by Trek or purchased from sources around the world. Changes in customer demand or availability occasionally necessitate temporary or permanent substitution of parts specified. If substitution is made, the new parts will be of comparable or superior quality and performance to those originally specified. Every Trek bicycle is equipped with safety reflectors required by law. All specifications are subject to change without notice.
