BICYCLES & ACCESSORIES

The TREK 8900, is a revolutionary new approach to mountain bike frame technology. The tubes are created using a unique six layer unidirectional composite construction and finished with a bias braided seventh layer. This frame utilizes the best of composite technology in combination with the proven performance of lightweight aluminum alloys in the fork and stays to carefully balance two critical needs. The need to be exceptionally lightweight for maximum speed and power with the need for substantial strength to endure rugged mountain trails.

The 8900 is handcrafted in the United States to assure you of superb workmanship and quality. This bike will do more than win races, it will win your heart.

Shown as Composite Tubes with Day-Glo Yellow and Green.

TREK's exclusive Cruise Control™ fork uses taper gauge blades to reduce weight, increase durability and provide more resiliency for better shock absorption and steering control.

Investment cast lugs stiffen the frame and provide a uniquely superior bond. They assure the correct geometry and precise alignment and are bonded to the alloy to avoid any weakening and warping associated with the welding of aluminum.

7000

It's one of our best sellers and the reason is simple. Double butted Easton 6061-E9 bonded alloy tubes and exclusive Trek Cruise Control™ Fork make a great frame. Now mount it all on Matrix Mt. Aero rims and you've got great performance and value.

SINGLE

TREK's Single Track series continues its tradition of aggressive performance and all out mountain bike fun.

Built in the United States, our Single Track frames of custom drawn True Temper Cro-moly are low temperature brazed to TREK's exclusive investment cast lugs. This technique allows the use of lighter weight tubes because the structural integrity and strength are not compromised by high heat as with conventional TIG-welding. It simply adds up to a lighter, stronger frame.

The SuperGlide crank set converts your power at the most efficient points, during your pedaling down stroke.

Shimano Rapid Fire shifters are just that! Ergonomically placed for ease of use, just a single touch of your thumb shifts you up or down instantly.

950

Driven by Shimano Deore LX components the 950 is a real pacesetter. A full double butted Cro-moly frame set with TREK's exclusive Cruise Control™ fork.

TREK

Trek's exclusive Cruise Control™ fork uses taper gauge tubing to reduce weight up to 50 grams and provides a blade with more elasticity for better shock absorption and enhanced ride quality.

New Triple Tech™ top tube cable routing significantly reduces the possibility of dirt clogging the gear and brake cables and allows quick and easy maintenance of the cables.

TRACK

For 1990 we're introducing new compact frame sizes. With a shorter top tube and stem, these new sizes deliver more comfort and better weight distribution for cyclists whose body size requires a smaller frame to achieve peak performance. Factor in our 71° head tube and 73° seat tube angles, developed for optimal frame strength and rider performance, and you have a winning combination.

970

A double butted Cro-moly competition frame set with new Cruise Control™ tapered gauge fork and Triple Tech™ cable routing makes the 970 a race bred competitor.

47, 50, 52, 54, 56, 58, 60 and 62 cm
Frame / Fork
Double Butted Aluminum Alloy / Cro-moly, semi sloping crown
Hubs
Sansin 32 hole w/OR
Rims
Matrix Titan II 700C, hard anodized
Tires
Matrix CD-2, 700 x 25C, High pressure skinwall
Drive Train
SunTour Blaze Accushift
Brakeset
Dia Compe Blaze w/aero levers
Freewheel
SunTour Accushift Plus 13-28, 7-speed

520

Dedicated to long distance touring, the 520 has a unique geometry which provides directional stability while loaded and ample clearances for fenders, panniers and other equipment. The mid-size tubeset and Shimano Deore DX group assure you durability and longterm enjoyment of this bike.

Shown in Pearl Silver with Intense Blue.

Sizes	*17, 19, 21 and 23"*
Frame / Fork	*True Temper AT Double Butted Cro-moly / Cro-moly w/unicrown*
Hubs	*Shimano Deore DX, 32 hole w/QR*
Rims	*Matrix Tour Max 700C, hard anodized*
Tires	*Matrix Tour 700 x 30C, Kevlar belted skinwall*
Drive Train	*Shimano Deore DX SIS*
Brakeset	*Shimano Deore DX SLR Cantilevers*
Freewheel	*Shimano Hyperglide 12-28, 7-speed cassette*

New for 1990, Shimano Deore DX 7-speed index shifters are mounted on handlebar ends for quick, easy shifting without removing your hands from the handlebars.

A Blackburn rack is standard equipment and comes mounted to the extended rear triangle.

The Trek designed frame uses our exclusive investment cast seat lug and True Temper tubing to give you a strong, durable frame.

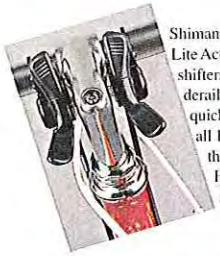

system.

Ideal for sport, fitness, and touring use in areas with rolling terrain, this all Cro-moly frame is outfitted with the Matrix wheel system. A responsive, yet highly controllable sport geometry meets your needs for range and reponsiveness in a bicycle.

TREK

Shown in Glacial Blue with Rose. Also available in Black with Bright Green.

Shimano Lite Action SIS shifters and derailleurs quickly access all 14 gears through the Hyperglide rear cassette.

Concave alloy rims are fitted to Matrix CD-2 tires for a smooth dependable ride.

330

Designed by Trek, using our proven frame geometry, the 330 provides an exceptional sport ride. You get quick, dependable performance mile after mile and all the quality you expect from a Trek.

TREK

TREK BICYCLE CORPORATION LIMITED WARRANTY.

Trek Bicycle Corporation warrants each new Trek bicycle frame and fork against defects in workmanship and materials for the lifetime of the original owner. Trek likewise warrants all original parts for a period of one year from the date of purchase. This warranty is expressly limited to the repair or replacement of a defective frame, fork, or part and is the sole remedy of the warranty.

Claims under this warranty are to be made through an authorized Trek dealer. Proof of purchase is required.

This warranty does not apply to damage or failure due to accident, abuse, neglect, normal wear and tear, improper assembly or maintenance, or installation of parts or accessories not originally intended or incompatible with the bicycle as sold.

Trek shall not be responsible for incidental or consequential damage. The user assumes the risk of any personal injury or damage of the bicycle or other losses if Trek bicycles are used at any time for stunt riding, dirt biking or similar activities, power or motor assist of any kind, competition riding, or anything other than normal use. This warranty gives you specific legal rights and your rights may vary from state to state.
