OCLV CARBON 55

A revolutionary frame material. Since pioneering OCLV Carbon in 1992, we've continually refined the process. Our goal is to see just how light we can make a frame, while still providing the legendary ride that led to seven Tour victories.

The latest breakthrough: OCLV™ 55 Carbon. Optimizing the carbon lay-up produces a super-stiff frame that's our lightest yet. It features just 55 grams of carbon fiber/m^2 – 50% less than our industry-leading OCLV 110 Carbon.

Built for speed

The integrated top tube and head tube construction not only directs air around the frame, but also adds stability during fast descents.

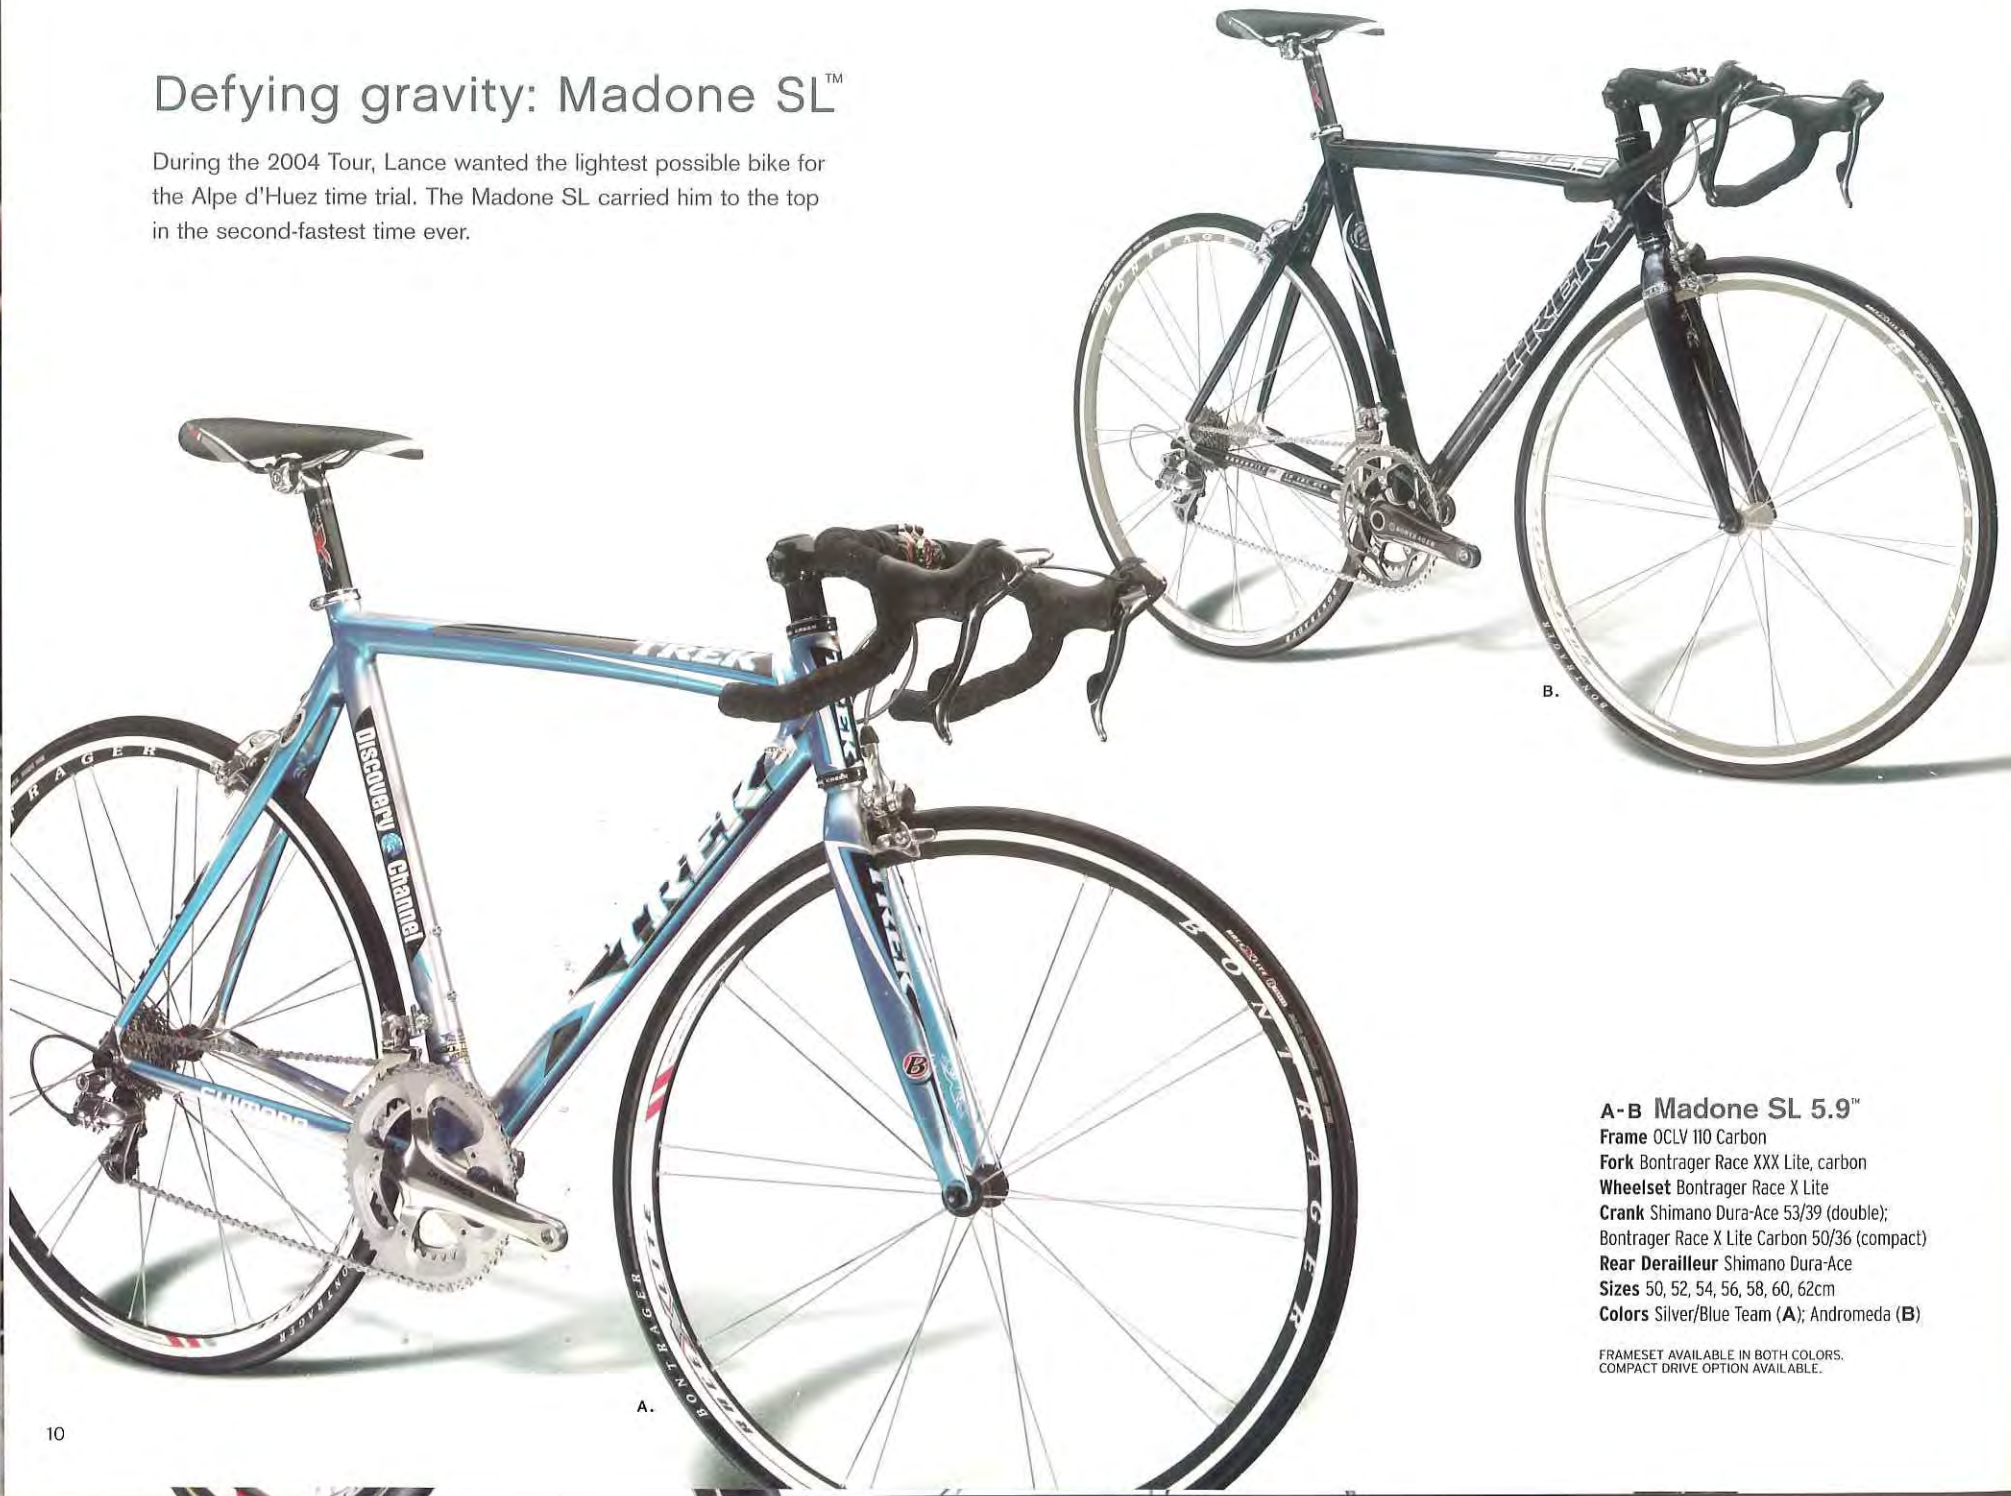

Structural strength

One-piece, bonded dropouts are 50% stiffer than two-piece dropouts – making every pedal stroke more efficient.

Defying gravity: Madone SL™

During the 2004 Tour, Lance wanted the lightest possible bike for the Alpe d'Huez time trial. The Madone SL carried him to the top in the second-fastest time ever.

The secret weapon of the world's best riders.

We specifically engineered OCLV™ 110 Carbon to help Lance Armstrong defend the yellow jersey. Compared to his original Tour winner, the same frame made of OCLV™ 110 Carbon weighs 13% less – yet it's just as strong. There's simply no lighter, stiffer, faster ride to the podium.

Pilot™

When we first set out to design the all-new Pilot™ platform, our mission was to combine the exciting performance and quick handling of the Madone™ with a more comfortable, refined riding experience. Here's how we did it.

The answer to road buzz

Light and responsive, Bontrager forks have steered Lance Armstrong to every Tour victory since 2002.

Aluminum steerer maintains stiffness and durability.

Carbon construction dampens road vibration.

Bontrager BzzzKill™ handlebar inserts (with Mathews Harmonic Dampers™) help reduce upper body fatigue on long rides.

Proprietary elastomer technology cancels high-frequency oscillation.

Our proprietary OCLV™ Carbon uses a hand-laid process designed to take the edge off rough roads.

Rear stays soak up vibration while maintaining lateral stiffness.

C.

D.

Performance and comfort

Pilot combines our race-winning geometry with a more upright riding position and sloping top tube – reducing fatigue without giving up any handling or quickness.

5200

A true original.

The 5200™ forever changed the face of road racing when it made its competitive debut over a decade ago. It features the same light, strong OCLV™ frame that carried Lance to his first Tour victory. That combination of performance and staying power has made the 5200 one of the winningest bikes to ever hit the road.

C.

THIRD DIMENSION TECHNOLOGY™

Two materials. One smooth ride. The lightweight ZR 9000 Alloy™ mainframe resists flex for efficient power transfer. The TCT™ Carbon seat stays keep the rear triangle stiff, and the carbon fork soaks up vibration.

Let nothing hold you back.

Only two factors determine your split for the long course: your training, and your bike. Equinox™ offers the most efficient, wind-defying ride we've ever created. The streamlined design effortlessly channels air around the frame, keeping drag to a minimum. The Bontrager seatpost lets you adjust the effective seat tube angle to create the ideal riding position. Equinox. Now there's nothing standing between you and the perfect day.

FINE-TUNE YOUR RIDE.

Equinox features an adjustable seatpost that lets you change the effective seat tube angle – so you can create an optimal position for generating power.

A new day in pure performance.

Capitalizing on over 15 years of designing our proprietary Alpha Aluminum™ frames, the T1™ was engineered to maximize both stiffness and performance. Like track racing itself, the purpose-built T1 hits the velodrome with the bare minimum of frills. Simple, clean, light and best of all, fast.

When it's time to turn left.

Trek heads into the velodrome with an all new aluminum frame that shares some of the same aerodynamic features of our Tour proven Madone frame. Light and stiff, the proprietary Alpha SL T1™ frame is handmade in Waterloo with track specific geometry. From the aero-shaped tubes to the horizontal dropouts that use stainless steel inserts for maximum bite, the T1 was designed to provide hardcore track riders with the ultimate weapon for elbow to elbow sprinting and turning.

It's always racing season. Muddy singletrack. Steep run-ups. River crossings. Just another day at the races for the XO 1.™ The durable anodized frame is made for extreme environments. Cross-specific geometry puts you in position to respond instantly to changing terrain. Longer chainstays add comfort and plenty of room for larger tires, while the higher bottom bracket clears obstacles with ease. All-season. All-terrain. All performance.

Urban

Cities have a rhythm all their own. Stop. Go. The insistent pulse of downtown traffic. Red. Green. Rush hour comes and goes like the tide.

Our urban bikes are made for the fast pace of city life. Whether you're dodging potholes on the way to work or making a refueling stop at your favorite café – they offer the ideal combination of performance, style and dependability.

SOHO 90
Comfortable, stylish and convenient.

SPORT URBAN 91
Tough, streetwise city bikes.

FOLDING 92
Compact enough to take along anywhere.

City style.

From the burnished finish of the hydroformed aluminum frame to the leather grips and custom handlebars, Soho™ stands apart from the crowd. Other city-friendly features include a convenient travel mug, a unique top tube with a built-in buffer guard and a seat that's designed for all-day commuting comfort. There's no better way to discover all the city has to offer.

Something wicked this way comes.

bmx

When our BMX bikes arrive on the scene, expect anything. Rugged Cro-Moly frames wreak havoc on dirt jumps, loading docks and freestyle ramps. Overbuilt parts like the SST rotor and Trek steel pegs won't back down from the most aggressive stunts. Bring it on.

Trek Limited Lifetime Warranty

Trek Bicycle Corporation provides each original retail purchaser of the bicycle a lifetime warranty against defects in materials and workmanship in the bicycle frame and rigid fork when purchased from an authorized Trek dealer. Trek Bicycle Corporation likewise warrants all original parts on the bicycle, excluding suspension forks and rear shock absorbers, for a period of one year from the date of purchase. Suspension forks and rear shock absorbers shall be covered by the stated warranty of their original manufacturers. Paint and decals are warranted for one year. This warranty is expressly limited to the repair or replacement of a defective frame, fork, or defective part and is the sole remedy of the warranty. This warranty applies only to the original owner and is not transferable. Claims under this warranty must be made through an authorized Trek dealer. Proof of purchase is required. A warranty registration card must be completed and received by the Trek Bicycle Corporation before a warranty claim may be processed.This warranty covers bicycles and components outside the United States only if purchased through an authorized international Trek distributor or Trek dealer within the country of purchase. The warranty does not cover normal wear and tear, improper assembly or follow-up maintenance, installation of parts or accessories not originally intended or compatible with the bicycle as sold, damage or failure due to accident, misuse or neglect, or modification of the frame, fork or components.

Trek Bicycle Corporation shall not be responsible for incidental or consequential damages. Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives the consumer specific legal rights, and those rights may vary from place to place. This warranty does not affect the statutory rights of the consumer.

All photos, illustrations, colors, weights, and specifications contained in this catalog are based on the latest production information at the time of publication. Trek reserves the right to make changes at any time, without notice, in colors, materials, equipment, specifications and models. Any variations in colors shown may be due to the reproductive variations of the printing process. Photos may include non-U.S. equipment. Some models may be shown with optional equipment. Off road bike weights based on medium or 18 inch frame size. Road bike weights based on 56cm frame size.

All Trek bikes are sold exclusively through our network of Authorized Dealers who we entrust with professional assembly and service of your bicycle. Trek extends a Lifetime Warranty on every frame.
