women's specific design.

FITS BETTER FROM THE START.

Women's Specific Design (WSD) bikes are designed to fit women better from the start. You'll find WSD bikes throughout the Town collection. We believe in the value of difference. And because you're designed differently than a man, your bike should be, too.

GARY FISHER COLLECTION

INTRODUCING THE GARY FISHER COLLECTION.

Forward thinking, forward moving. Dreamed by Gary Fisher. And unleashed by Trek. It's a brand within a brand. Now seen by more people, found in more bike shops, ridden in more places. More dreams realized, worldwide. The Gary Fisher Collection from Trek. Fisher dreamed. Trek unleashed.

/ RIDE+

RIDE+. YOUR POWER, PLUS.

Trek Ride+ bikes are the best electric-assist models on the market, with quick, predictable, easy-to-control power and a long-lasting removable battery that recharges at any household outlet.

How it Works.
Ride+ is a bicycle with a motor and battery. When the electric-assist system is engaged, it provides a boost to your own pedal power. That means you can pedal farther, faster, and with less effort. There's no throttle — just engage the Trek Syn Drive, determine the desired level of assistance, and go.

7200+ WSD

1 / QUIET EFFICIENCY
Our high-performance brushless hub motor eliminates friction and wear on internal parts. Its smooth, quiet ride maximizes the battery's energy and provides 350 watts of powerful torque. The regenerative mode allows you to recharge the battery while pedaling or controlling your speed going downhill.

2 / SYN DRIVE
Trek's innovative Syn Drive electronic motor management system constantly adjusts power flow based on pedaling force, resistance, and speed. You control every aspect of the system from and easy-to-use handlebar-mounted computer.

3 / RECHARGEABLE BATTERY
Ride+ lithium ion batteries hold their charge for an exceptionally long time. And when the low battery indicator tells you it's time to recharge, you can remove the battery or leave it on the bike, and plug it in to any standard electrical outlet.

/ UTILITY
BIKES FOR A BETTER WORLD.

We believe bikes can make the world better. Our Utility bikes, built for the daily routine, mean fewer cars on the road. They make it easier to haul, easier to commute, easier to run errands, easier to do just about anything by bike. And easier is the key to getting more bodies on bikes, for more miles, for more reasons. For a better world.

/ ECO
EVERYTHING CONSIDERED.

Eco Design is the result of a commitment Trek has made to ourselves and our customers: to Build Bikes Better. To ensure that our bikes are the best they can be for the people who ride them and the world they ride in, we must consider the impact a bike has throughout its lifespan and beyond.

Our Eco Design bikes are designed and produced for maximum utility and minimum impact through all three stages of its existence: birth, life, and afterlife.

Birth: Our Eco Design bike is produced using responsibly sourced steel, a greener alternative to aluminum frames. We powder-coat each new frame, a less wasteful and less toxic alternative to traditional paint processes.

Life: The best way to keep something out of a landfill is to give it a long useful life. Our Eco Design bikes are designed for longevity and adaptability, with sturdy construction, smart utility features, and timeless styling.

Afterlife: Nothing lasts forever, so we make our Eco Design bikes with easy disassembly and recyclability in mind. An Eco Design bike never dies, it just becomes something new. Maybe even another Eco Design bike.

It's the circle of life, bike style. Ride on.

/ BELLEVILLE

EVERYTHING CONSIDERED.

WHY BELLEVILLE? / This gorgeous early 20th Century French porteur-inspired bike is eco-conscious from headlight to fender.

RIDER PROFILE / The Belleville rider thinks globally, acts locally, and bikes sustainably.

NEW FOR 2011 / How do you improve on an instant classic? A new color and details is how.

Belleville

FRAME Chromoly steel, city design
FORK High tensile steel w/rack mounts
WHEELS Shimano Nexus 3-speed rear hub, dynamo front hub; alloy 36-hole rims
CRANK Alloy 3 piece, steel 44T chainring
REAR DERAILLEUR n/a
SIZES 50, 52, 56, 58, 63cm
COLOR Dark Gray Powder

1 / BUILT RIGHT
Responsibly manufactured from sustainably sourced, easily recycled materials like steel and natural rubber.

2 / LONG LIFE
This bike will last practically forever — and it's designed to be easily disassembled and recycled once its riding life is done.

3 / FULLY EQUIPPED
Steel front and rear racks can handle heavier loads for maximum utility. Bike more, drive less.

4 / FLEXIBLE GEARING
3-speed internal hub is standard, but the Belleville frame can accept multi-speed-derailleur or single speed drivetrains.

TREK

/ COMMUTE

THE CITY LOOKS BETTER FROM A BIKE.

WHY COMMUTE? / It's no secret. Bikes are great for getting around town. You could commute on whatever bike you want, but the Trek Commute bikes offer smart and unique approaches to get you from point A to point B.

RIDER PROFILE / These bikes serve a range of riders, from the practical daily commuter to someone looking for a getaround bike that's also great for fitness rides.

NEW FOR 2011 / The Fast City line of our Fisher Collection gets flip-flop dropouts throughout and an all-new internal-gear Waubesa model. Two Gary Fisher Collection steel commuters join the roster.

/ FITNESS
THE MOST VERSATILE BIKE ON THE PLANET.

This is our most popular bike line, with good reason. FX is the ultimate multi-talented ride. Fitness machine, capable commuter, suburban warrior — FX does it all well, from the daily grind to cul-de-sac spins to short triathlons. When somebody says "I need a bike," we say, "Great! Let me show you an FX."

/ TOWN / FITNESS
FX

/ FX

MOST. VERSATILE. BIKE. EVER.

WHY FX? / Our FX Fitness series is lightweight, agile and fun to ride. Exceptionally versatile, but sporty enough to make your bike workout the best part of the day.

RIDER PROFILE / We call it a fitness bike, but this is Trek's most popular platform for a reason. Roadies, commuters, fitness freaks, errand runners, Sunday riders — everyone loves the FX.

NEW FOR 2011 / More Ride Longer comfort features, like our revolutionary new IsoZone bar and grips.

/ DUAL SPORT

ONE BIKE THAT DOES IT ALL.

GARY'S TAKE / If you're looking for that one perfect go-anywhere bike, make it a Fisher Dual Sport. Road bike fast. Mountain bike durable. The perfect bike for going fast on the road and light-duty mountain biking.

RIDER PROFILE / For the rider who confidently rides both gravel and pavement. The sporty, more aggressive frame geometry and knobby tires make this a true off-road/on-road machine.

NEW FOR 2011 / New Gold Series Aluminum frame, entry-level Bodega, hydraulic disc brakes on Montare.

Montare

FRAME Gold Series Aluminum
FRONT SUSPENSION SR Suntour NRX, preload adjustable w/remote lockout, alloy steerer, 63mm travel
WHEELS Shimano M475 alloy disc hubs; Bontrager Ranger disc, 32-hole rims
CRANK Shimano M443 Octalink, 48/36/26
REAR DERAILLEUR Shimano M662 SLX Shadow
SIZES 15.5, 17.5, 19, 21"
COLOR Matte Lava Black/Titanite Black

LINEUP /
Montare
Utopia
Kaitai
Bodega

1 / ROAD BIKE FAST
700c wheels and lockout suspension make for a fast ride.

2 / MOUNTAIN BIKE DURABLE
Modeled after the Gary Fisher Collection 29er hardtails, these bikes are ready for light-duty mountain biking.

3 / GOLD SERIES FRAME
All Dual Sports feature a new butted Gold Series Aluminum frame based on the 29er hardtail frame. Great for rugged terrain, yet still quick on the pavement.

4 / SUSPENSION LOCKOUT
Montare and Kaitai feature suspension lockout for efficient, fast riding on smooth surfaces.

Utopia

FRAME Gold Series Aluminum

/ RECREATION
THE SOUL OF BIKING.

Trek Recreation bikes are built for what bicycling is really about: the joy of hopping on your bike and pedaling to, well, wherever. They're the grownup versions of that very first bike you were so excited to ride as a kid, and they'll give you just as much pleasure. More, probably, since you're no longer limited to the length of your block. Hop on and enjoy. We'll be right behind you.

Pure

/ HYBRID

THE BEST OF BOTH WORLDS.

WHY HYBRID? / Pavement or path, Hybrid will carry you wherever you want to go.

RIDER PROFILE / Looking for comfortable, smooth-rolling recreation? Prefer an upright ride, and would rather enjoy the scenery than rush past it? This is a path and pavement vacation on wheels.

NEW FOR 2011 / The all-new 700 model, plus the incredibly comfortable Bontrager Boulevard saddle, with three layers of gel, standard foam, and memory foam.

7500

1 / ALPHA ALUMINUM
The perfect hybrid material, for bikes that are road light and mountain tough.

2 / SMOOTH RIDE
Bump-absorbing forks and suspension seatposts smooth out the way ahead.

3 / SPA FORK
The Bontrager SPA fork on the 7500 soaks up bumps and buzz and keeps the front end slim and trim.

4 / ALL-NEW SADDLES
Gel- and foam-cushioned Bontrager Boulevard saddles are a comfy place to enjoy the view.

/ NAVIGATOR

COMFORT ABOVE ALL ELSE.

WHY NAVIGATOR? / Because riding a bike should be easy, fun, and worry free.

RIDER PROFILE / The Navigator rider feels more comfortable lower to the ground, with 26" wheels and confidence-inspiring wide tires. An upright position adds to the feeling of ease and control.

NEW FOR 2011 / The ride is upright but not lazy — perfect for purposeful comfort.

1 / COMFY TOUCHPOINTS
Ergo Grips, supersoft saddles, suspension fork, and seatpost take all the bite from the road or trail.

2 / STABILITY
26" tires provide wider road-to-tire surface for a more stable ride.

3 / EXTRA PADDING
All Navigator saddles come with extra padding in all the right places.

4 / CONTROL
Navigators feature a higher hand position, enhancing the feeling of total control.

/ PURE

PURE BALANCE.

WHY PURE? / Pure is our easiest-to-use geared bike. Easy on, easy off. Stay in the saddle, put your feet down. Ahhhh.

RIDER PROFILE / The Pure rider appreciates the stability and confidence of being low to the ground, and loves being able to stay seated and come to a full stop with a foot on the ground.

NEW FOR 2011 / New colors throughout the line.

Pure Lowstep

1 / BALANCE & CONTROL
Feet First Geometry allows Pure riders to plant their feet firmly on the ground without ever leaving the saddle.

2 / SLEEK FRAME
A slim and sexy Alpha Aluminum frame makes Pure ride light and look great.

3 / COMFORTABLE RIDE
Suspension seatpost smoothes out the bumps and potholes so you can enjoy the ride.

4 / LOWSTEP ON AND OFF
Every Pure offers a lowstep option for easy stepthrough entry.
