ROAD DISC FORK
SPEED RELEASE THRU-AXLE

Building upon nearly a decade of experience making the world's best forks, our latest road disc fork features a modern 32mm of tire clearance, a low axle to crown height of 370mm, internal hose routing, and a light weight one-piece from drop-out to steerer construction developed specifically to handle the demands of disc brakes, rough roads, and large volume tires. The ENVE Road Disc Fork Speed Release Thru-Axle features Mavic's Speed Release technology. Speed Release provides a light weight quick release thru-axle system that allows for quick wheel changes and consistent torque on the thru-axle so disc brake spacing will remain consistent across numerous wheel installations.

Wheelsize	700c
Fork Weight	445g w/SR axle
Rake	43, 50mm
Axle to crown	370mm
Tire clearance	23-32mm
Steerer	1.25"tapered
Steerer length	350mm
Rotor size	140 or 160mm
Axle	12x100mm Speed Release
ENVE Part No.	43mm rake: 200-2005-003 50mm rake: 200-2005-004
MSRP	$599
