Ridden to more US victories than any other brand for five years straight. Fuji's racing history is rich with podium and national championships. All our road bikes are built light and fast with proven geometry for quick cornering and solid handling. Light weight is acheived by pushing the materials envelope through the developement of X-Fusion, a revolutionary material that Fuji manipulates and customizes to craft unbelievable light frames that also ride like no other.

road | mtb | lifestyle | youth | police

Ridden to podiums and world championships the world over and most recently ridden by the Fuji professional MTB team based in Europe. We use the same philosophy as in our road bikes. Make the lightest, best performing MTB's we can by using the same high tech X-Fusion tubing as on our road bikes. Whether you looking for a bike that will carry you to your next victory or to just ride the trails, Fuji has the MTB that fits the purpose perfectly.

From MTB to sidewalk bikes there's a Fuji designed for every kid. Our kid's bikes feature the same high quality standards that our adult bikes are built to plus extra attention to safety and durability. Something you won't find in department store bikes. They're designed and built to last through the growing years and lots of creativity goes into the design so your kids will have fun cruising the neighborhood.
