K2 BIKE 19215 Vashon Highway SW Vashon, Washington 98070-5236 USA
P: 206-463-3631 F: 206-463-8830

Bulletin: TSB-4143

Date: 04/14/02
Subject: Alternate front brake routing
Model: Enemy

To provide more options in brake cable routing for the 2004 Enemy cyclocross bike we have added a fork mount cable hander that can be attached to the pre-drilled hole in the crown for the fork. This can be used as an alternate routing path for the front bake as a substitution for the cable hanger mount on the fork steertube above the head set.

Included are:

1. Alloy Cable hanger
1. 10mm self locking nut
1. Washer
1. Alloy (flat on one side, curved on the other) NOTE: This is not needed with the type of fork used on the Enemy.
