**Bulletin: TSB-091202** **Date: 09/12/02**

**Subject: 03 Zed 2.0 Manitou SIX fork**

**Background:**

An incidence of a noisy top-out on the 2003 Manitou SIX for has been brought to our attention. The noise is detectable when rapidly un-compressing the fork from a bottomed out position. Manitou attributes the noise to a not-to-spec top-out bumper. The noise ranges from a dull thud (acceptable) to a sharp "bonk."

The affected fork is specified as original equipment on the 2003 Zed 2.0 bicycle. The 2003 Zed 3.0 (equipped with the '03 SIX Comp) may also be affected.

**Fix:**

Manitou has requested that they be called directly with any incidents of this issue. Dealers are being directed to Bobby at Manitou USA 1-664-294-4101 (direct line).

International customers are being encouraged to contact their authorized Manitou distributors.
