Model PLE 25/R

Same as Model PLE 45/R but with Comet coaster brake hub.

PEUGEOT = Bicycles which are distributed only through a dealer who carries out a flawless all-round service.

Model D 22/E *New!*

Modern, elegant, for cyclists of all ages. An all-purpose bicycle of internationally recognised styling with outstanding running qualities. Collapsible frame with toggle operated hinge, rear part of frame constructed to serve as carrier, wedge-type bearing with screw-on cap bushing, cogwheel gearing with Comet coaster brake hub, single cable front rim brake, chrome rims, two-colour tyres, LM mud guards, comfortable saddle elegant in design, quick-action height adjustment of saddle tree and handlebars. This bicycle is supplied complete with lights, chain guard and chrome-plated Peugeot side-stand.

This cycle can be easily and quickly adjusted to suit any size of person and broken down into 2 parts almost in a flash thanks to the quick-action toggle-type lock. This makes it very easy to put it into the back of your car. Despite the medium-sized wheels (20"), this model packs very small. It is a really compact design.

The D 22/E is suitable for town-traffic. But because of its medium-sized wheels also suitable for cycle rides away from the traffic on by-roads and country lanes.

PEUGEOT = **Despite foreign origin no problems about spare parts. There are dealers in all countries of the world.**

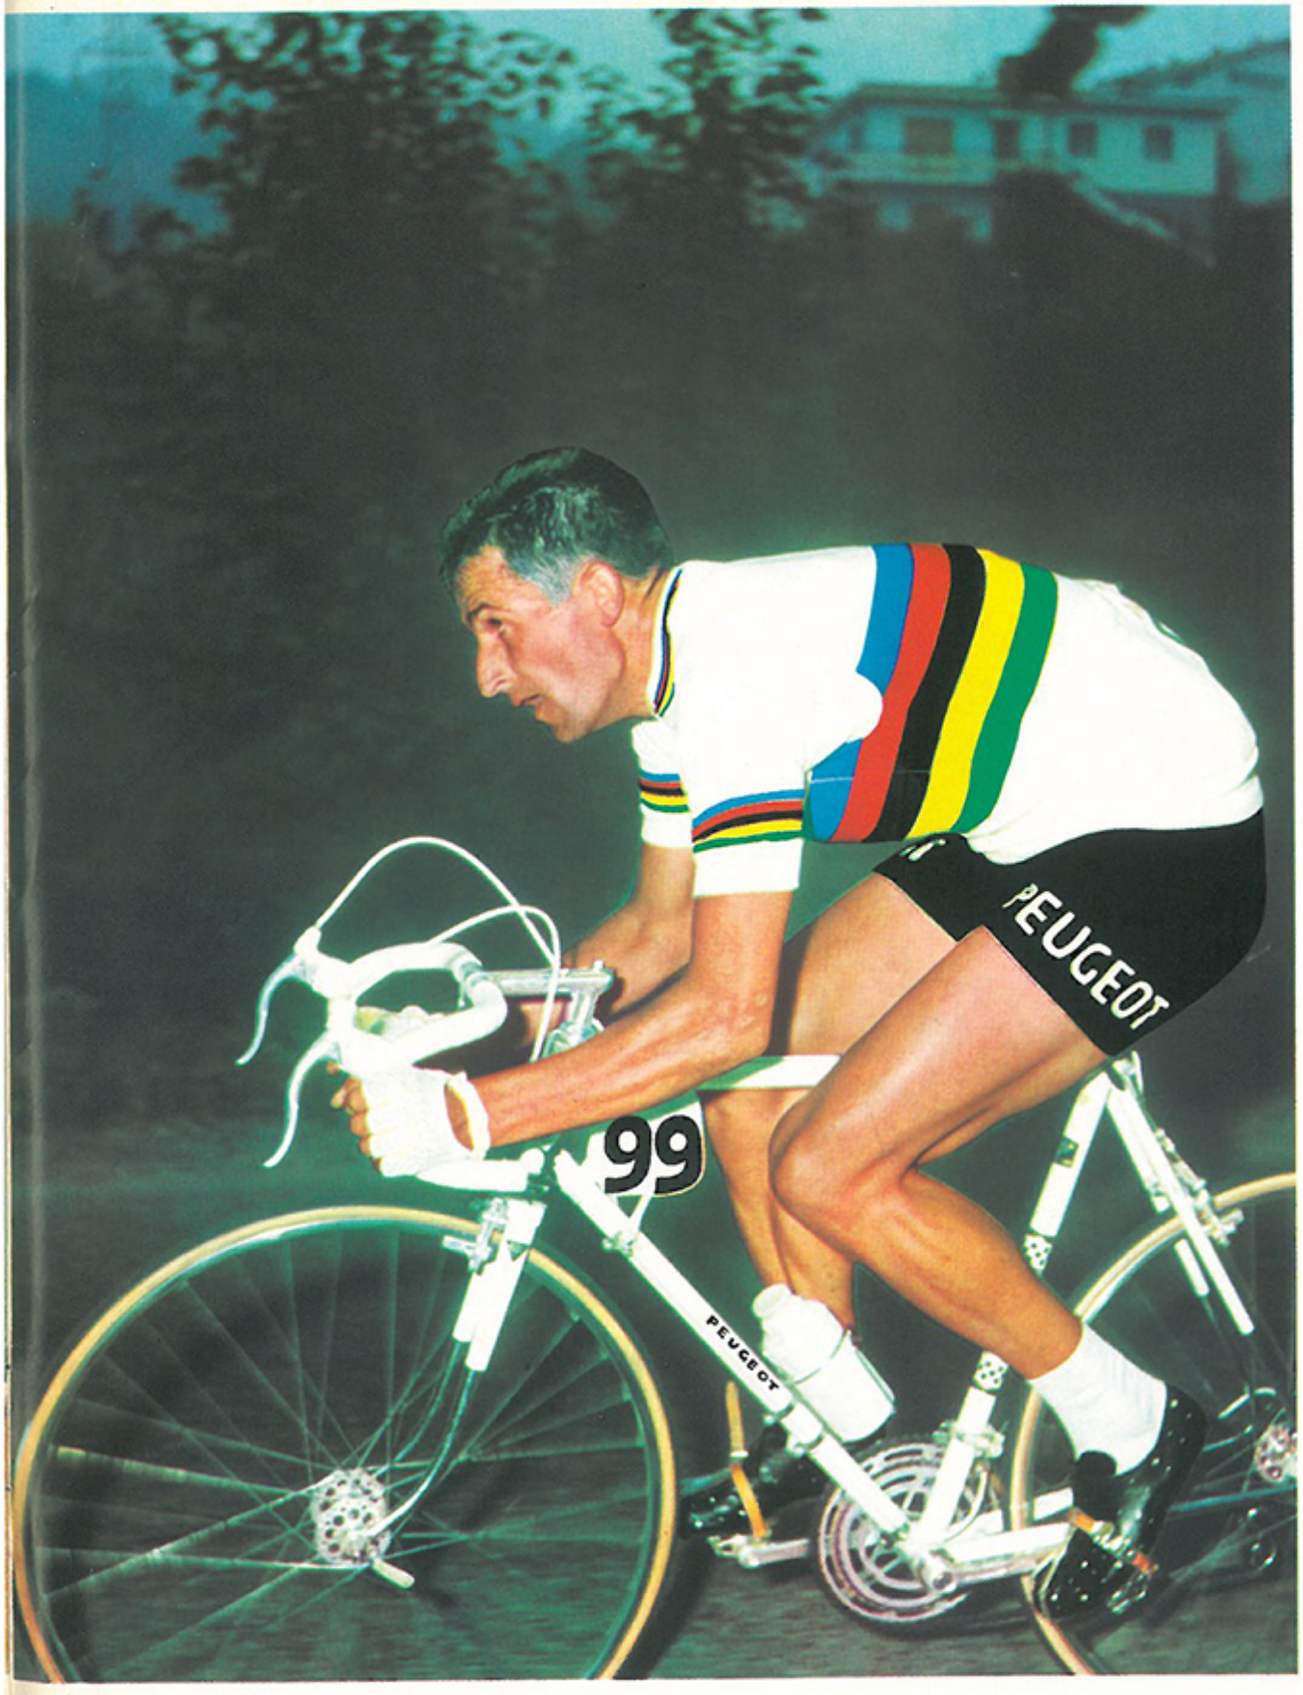

Model G 50/SP

Excellent finish, stylish and sturdy. A boy's cycle in racing style – every boy's dream come true.

Frame from Peugeot tube, wedge-type bearing with screw-on cap bushing, 3 speed chrome plated gearing with Simplex chain-type speed change, rim brakes, Dural hubs, chrome rims, two-colour 24" tyres, LM mud guards, youth's racing saddle, drop handlebars, carrier. This bicycle is supplied complete with rear reflector, chain guard and pump.

On the subject: „Why is Peugeot the leading make for racing cycles?" a consumers' journal wrote: The explanation is relatively simple. The Peugeot racing cycle lives up to youth's expectations and fulfils the demands made on such a bicycle and for all that is extraordinarily good value for money. Furthermore, thanks to a frame design which is cut out for sports riding and its negligible weight, it has unusually good running qualities. Worthy of note, too, is the sturdy structure. Accessories conform to the latest state of engineering.

PEUGEOT = The make of cycle that has gained real fame. Quality at fair market prices. 10 years guarantee on frames and forks.

Model PA 10/E

Very light, tried and tested in the field of sport. An amateur racing cycle for the champion of tomorrow which is good value for money.

Special racing frame from Peugeot tube, with Nervex sleeve joints, built in line with the original professional frame dimensions, wedge-type bearing with screw-on cap bushing, 3-arm crank mounting with Simplex Competition screw-on type double chainwheel, 10 speed cogwheel gearing with Simplex chain-type speed change, Mafac Course rim brakes (as on professional racing cycles), Dural high-flange hubs, Simplex quick-action nuts, special rims for non-tubeless tyres, Dural racing handlebars, bend leather racing saddle with Dural saddle tree. This bicycle is supplied complete with racing pedals, toe clips and straps.

Model PX 10/E

The cycle of world champions of today. This model is being used by international top-class professional cyclists. The professional Peugeot BP team is equipped with cycles manufactured on the assembly line. German cyclists are also giving more and more precedence to the PX 10/E. The frame meets the exacting requirements of the discriminating cyclist. The right frame-size is available for every size of person.

For details about the accessories of the PX 10/E please enquire at your dealer's.

PEUGEOT = The synonym of success in sport. Amateurs and professionals have been winning on road and track in Europe and overseas since 1894.
