**CYCLES PEUGEOT**

## A break from the pack

Over 100 years ago, from the humble origins of an old French mill, Cycles Peugeot began producing machines of the highest calibre. Unique machines that always represented a break from the pack.

Now, as Europe's premier manufacturer, Cycles Peugeot are still striving to push cycle technology to exciting new limits.

With new designs, innovative styling and up-to-the-minute materials. Added to a combination of lightness, strength and rigidity that's born of an impeccable racing pedigree.

One glance at Cycles Peugeot's new line-up for '85 confirms that this is the most dynamic and versatile range yet – from the most advanced racing cycle to the rugged Mountain Bikes, from the elegant Tourers to the exciting children's bikes.

And being as French as the Eiffel Tower, you can be sure of a certain "je ne sais quoi" from each and every Peugeot cycle.
