# The Peufection

Since the Peugeot family introduced the first tube-framed bicycle to France in 1882, the name Cycles Peugeot has become synonymous the world over with the very highest standards of cycle-building excellence.

And today, as you'll see as you browse through our new range of racing, touring, mountain and city-commuting cycles, our commitment to exceptional production expertise and innovation is greater than ever.

So much so that Peugeot Peufection is the name we've given our 1986 collection.

We've called it the Peufection Collection because now the company acclaimed as France's leading cycle manufacturer gives every cyclist – from the most dedicated racing enthusiast to anyone who thrills to the sheer enjoyment of cycling for fun – the chance to benefit from the care and craftsmanship that goes into making every single Peugeot cycle.

This year, Peugeot Peufection means a range of racing machines performance-enhanced with the very latest hi-technology materials and production techniques. Machines test-ridden by the Peugeot professional racing team and improved and modified until they meet the most rigorous, most exacting competitive levels of speed, lightness and strength.

Peufection '86 means the introduction of two Triathlon bikes built to provide the optimum combination of pace, power and portability essential to success in what's surely one of the most demanding and challenging new events devised in recent times.

Peufection means a range of touring cycles superbly equipped to ensure that cycling explorers everywhere can rely on bikes that guarantee real road cruising comfort and manoeuvrability on any cycling safari.

It means mountain bikes more than tough enough to take all the punishment even the most gruelling terrain can mete out.

# Collection

nd, perhaps most important of all, it mea; a choice of ladies, traditional and revol'ionary commuting cycles all offering the sa;e devotion to quality, style and real value r money that comes only from bicycl that bear the proud name of Peugeot.

Ta a look at the 1986 Peugeot Peufeon Collection and decide which of our new cy s suits you and your pocket best. Whicher you pick, you can be sure you'll b making the peufect choice.

# MEN'S RACING AND SPORTS CYCLES

## FIBRE DE CARBONE

Inspired by advanced aviation industry technology, this is the ultimate lightweight, high speed racing machine. Successfully used by the Cycles Peugeot Team in time trials and competitions worldwide. The carbon fibre mesh gives this top of the range cycle incredible all round frame lightness and strength. Superbly equipped with all-European parts, including StrongLight 107 chain set and Weinmann-Carrera brakes. Also available as a frameset.

FIBRE DE CARBONE

"It's only since I began racing Peugeot Pro Team that I've realised how much goes into *all* of Peugeot's racing and sports bikes.

Part of our job as Pro Team members is to test ride the cycles and then give our opinions on how to optimise racing performance and efficiency. And what really impresses us is the fact that they act on what we've got to say.

For instance, when we suggested that Peugeot Pro Racing Frame Geometry would be a real boon to any rider who takes competitive cycling seriously, they made sure it happened.

And it's the same story all along the line – a constant search for the best ways of uprating every Peugeot cycle to give you, the consumer, the best possible deal."

# PEUGEOT TRIATHLON

"There's no need to tell me why thousands of people are getting into what they say is one of the fastest-growing sports both sides of the Atlantic – I was a signed-up Triathlon freak from the day I saw my very first race.

Sure, Triathlon's tough, it's demanding with a long-distance swim, ride and run, it's probably the ultimate test of athlete and machine – but really commit yourself to it and, in my opinion, you won't find another sport that comes close to giving you quite the same buzz and sense of achievement you get when you finally make that finish line.

And Triathlon commitment's the reason I signed on for Cycles Peugeot Team Triathlon. Like me, they've been involved with Triathlon racing from the word go, so they know better than most just what a Triathlete's looking for in a competition bike.

They've taken two, first-rate racing cycles and adapted them to give every Triathlete the combination of speed and strength that's so essential to success in my sport."

# THE PEUGEOT MOUNTAIN RANGE

## SITTING BULL

The top of the Peugeot Mountain Range. A super tough all-terrain machine that's at its best when the going gets rough. Sturdy, robust high-tensile tubular frame built to take the hardest knocks. Power shift gear levers and wide, hi-ratio 15 speed gears. Black, anodised all-terrain handlebars, anatomically-moulded saddle, rugged 'bear trap' pedals, double bottle cage mounts, carry bag and frame-mounted carry strap.

When a few of California's thrill-chasing bikers took to the hills and discovered just how exhilarating and exciting pitting their cycles against the roughest, toughest terrain could be, little did they realise just how incredibly popular mountain cycle riding was destined to become.

But Cycles Peugeot did. Track tested in the States, our two new mountain machines are definitely among the most rugged, best equipped, safest and best looking All-Terrain Bikes a remarkably reasonable amount of money can buy.

# CRAZY HORSE

The powerful number 2 in the Peugeot Mountain Range. A fast, light, super-strong machine that takes both the roughest terrain and the city street with effortless ease. High tensile tubular frame absorbs bumps and jumps. The hard-driving machine that offers heavy duty 15 speed wide ratio gears, hard wearing off-the-road tyres, quick release seat pillar system, positive cantilever brakes, alloy chain set and double bottle cage mounts.

# Peufection Guaranteed

Cycles Peugeot guarantee their bicycles against manufacturing or material defects from the original date of sale as follows:

Frame and Forks for 10 years
Parts for 1 year

This Warranty covers normal use, but not failure resulting from misuse, alteration from original specification, accident damage, neglect, incorrect assembly/maintenance or fair wear and tear.

Under the terms of this Warranty, Cycles Peugeot will bear the cost of replacement parts, for the period stated, and any labour charges incurred up to one year after purchase, provided that an authorised Peugeot Dealer processes the claim.

This guarantee does not seek to diminish any consumer statutory rights.

It is offered to the original purchaser and as such is not transferable.

In the event of any problem, please consult a Peugeot Dealer.

Please Note:

No bicycle can be considered indestructible and therefore this Warranty only applies to normal riding conditions and fair wear and tear.

Except for Mountain Bikes, no bicycle is guaranteed for use 'off the road'. In the case of Mountain Bikes, failure due to lack of regular maintenance, abuse or misuse cannot be guaranteed.

In all cases, we recommend that regular inspection/maintenance is carried out.

The Peugeot policy of continually up-dating and improving their range means that the specifications and appearance of all bicycles in this catalogue may be subject to alteration at any time.
