1988

Cycles PEUGEOT

CYCLES BUILT TO PEUFECTION

Peufection

Peugeot's dedication to the craft of cycle building has made them leaders across Europe and beyond. It's this leadership in technical innovation, style and choice that has produced a range of cycles deserving of one simple description...Peufection.

We're delighted to present our 1988 Peugeot Peufection Collection so you can choose the model that best suits your cycling needs.

Leaders in technical innovation

Continuing proof of Peugeot's unrivalled innovation can be found throughout the Collection, but never is it more strikingly evident than in our new professional racing range. This year sees the introduction of aerodynamic concealed brake cables bringing new levels of aerodynamic efficiency and high speed performance to a sport where the difference between success and failure can be measured in hundredths of a second.

HLE Tubing once again figures highly in our production plans for 1988. High Limit of Elasticity (HLE) is the new generation Mangalloy tubing that combines ultra lightness and geometric design versatility with impressive

frame rigidity and strength. HLE Tubing is featured on more of our machines than ever before, as well as the Peugeot exclusive 'lugless' welding technique, which provides incomparable lightness and high tensile strength.

One of the most exciting and fastest growing trends in cycling is all-terrain biking. Peugeot were pioneers in spreading its popularity and now in 1988 proudly present *Montana* the ultimate super professional ATB. In our ceaseless aim to

Cycles PEUGEOT

www.bikeboompeugeot.com

leads the way

bring the enjoyment of cycling to everybody our ATB range also makes quality easily affordable with the widest choice of the most rugged, best-equipped value-for-money bikes on the market.

Leaders in style

Peugeot have always succeeded in combining care, craftsmanship, sophisticated construction techniques and modern materials with exciting and uninhibited style. The 1988 Peufection Collection marks a new era in design flair. Peugeot's vibrant two-tone frames are seen as the epitome of up-to-the-minute fashion while the exclusive Peugeot corporate graphic design is recognised everywhere as the ultimate symbol of quality.

Leaders in choice

Peugeot peufection is not restricted to a privileged few. We understand the breadth of the market better than any other manufacturer and produce a range of models to meet the requirements of every type of cyclist.

Whether you're after the supreme professional machine, a top-class competition sports cycle, a commuter bicycle to beat the rush hour, a touring or All-Terrain Bike for the great outdoors, or a junior racer for a budding Stephen Roche, you'll find that Peugeot effortlessly lead the way in the race to cycling peufection.

Professional Range

"Jockeys don't win big races without a great horse beneath them and the same is true of a race cyclist and his bike. I'll never forget that when I was struggling to make the grade in my sport it was Peugeot who gave me my first big chance and put me on the road to success. They have always been leaders in cycle building technology and produce superbly constructed and technologically advanced competition cycles that give race riders the performance features they seek.

This year is no exception with the introduction of aerodynamic concealed brakes, a new even better version of the high speed *Comete*, and the magnificently equipped *Perthus Pro*, undoubtedly the finest new racing machine around.

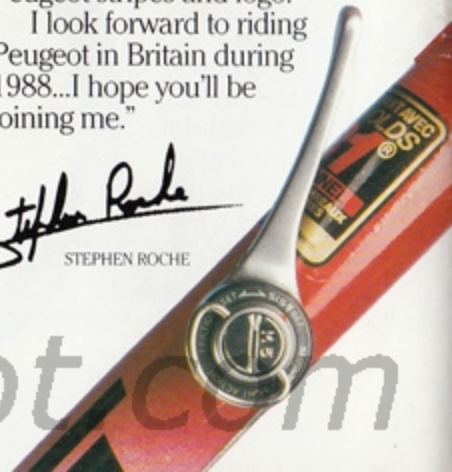

Each cycle comes with the exclusive Peugeot frame racing geometry design and features the ultimate professional index gear systems, as well as alloy wheels, rustless spokes, 12 speeds and fast back stays. And to go on these new superfast machines there's super new updated Peugeot stripes and logo.

I look forward to riding Peugeot in Britain during 1988...I hope you'll be joining me."

COMETE SPRINT

The Comete is the world's finest all-aluminium, track-tested racing cycle. Weighing only 22 lbs it combines incredible lightness with high tensile strength and superb styling. Its innovative frame making process in which mechanical assembly techniques are used to eliminate brazing and glueing represents another Peugeot breakthrough in cycle building. The Comete brings state-of-the-art technology at an affordable price to the cycling competitor on the way up. Refinements in specification and finish have improved it still further this year. Race-bred performance features include Huret Aris index system gears, Weinmann 570 brakes with aerodynamic concealed cables, forged, polished chainset and aerodynamic bottle and cage. Also available as a frameset.

Racing Range

The experience and expertise of Peugeot in world cycle building technology have inspired this super-tough, ultra-light range of high speed racing machines. A range that has been specifically created to give the serious club cyclist the race-bred, super-fast performance features he needs to succeed in top-class competition. Each cycle comes with the same Peugeot racing geometry frame design and exclusive lugless assembly and has been superbly constructed to provide incomparable lightness and performance.

ANETO

This incredibly light, ready to race cycle comes at a surprisingly low, readily affordable price. The unique Peugeot lugless welding technique has been applied to its Reynolds 501 frame and it comes with a list of exceptional fittings that make it a particularly responsive ride. Features include Huret Rival alloy gears, black anodised alloy rims, aerodynamic pedals and all-alloy handlebar, stem and seat pillar, Helicomatic hub and forged chainset. A true pace-setter in style, speed and performance.

Sports Range

Peugeot's sporting pedigree is strikingly evident throughout this stunning range of cycles. As keenly competitive on the road as they are in price, they're for the kind of rider who's looking for phenomenal performance, excellent design and, above all, magnificent value. Peugeot's unrivalled standards of craftsmanship and technology put these cycles, literally,in a class of their own.

HLE PREMIERE

The most sought after bike in the U.K. Superb as a "first time buy" or for the experienced rider who knows exactly what he wants from a sports cycle and finds it in Premiere. New improvements for 1988 have made it even better value than before. These include the introduction of Peugeot HLE tubing to make the frame even lighter and more responsive. Other sophisticated refinements are 12 speed gears, cushioned handlebar tape, gum hoods, chainguard and spoke protector. Available this year in three sensational colourways.

Junior Racers

Cycle racing is one of the fastest growing sports in the U.K. and a new generation of enthusiasts are clamouring to climb into the saddle. Specially for them, Peugeot have produced a wide selection of junior racing machines and, needless to say, have applied the same dedication to design and production for their junior cycles as they do to their top range models. If you're a youngster eager to emulate heroes like Stephen Roche and Joey McLoughlin, these remarkable racing replicas are made for you.

LEADER 24 SPRINT

The ultimate racer for 9-13 year old budding enthusiasts. A real racing machine with top professional features including 10-speed gears, dual-lever alloy brakes and sporty, sleek 18" two-tone frame with 24" wheels. Superb value for money for rising sprint aces who want to go places quickly.

■ **MODEL** "LEADER SPRINT 24" *JUNIOR RACER 10-SPEED* ■ **FRAME SIZES** Cms 47(18½") ■ **FRAME MATERIAL** PEUGEOT "CARBOLITE" tubing, lugless ■ **HEADSET** PEUGEOT, chromed ■ **FORK** PEUGEOT, enamelled, sloping crown ■ **WHEELS** Steel rims, alloy S/F hubs ■ **TYRES** 600 x 25, gumwall ■ **HANDLEBAR** Racing style, white 'Bike Ribbon' cushioned tape, chromed end plugs ■ **STEM** Alloy, recessed bolt ■ **BRAKES** Alloy side-pull, dual levers, with gumhoods, white cables (rear concealed in top tube) ■ **GEARS** HURET ECO ■ **CHAINSET** 40 x 46T ■ **FREEWHEEL** 5-speed 14 x 17 x 19 x 21 x 24T ■ **CHAIN** SEDISPORT, black ■ **PEDALS** LYOTARD, steel, with reflectors ■ **SADDLE** White, junior racing ■ **SEAT PIN** Chromed ■ **EXTRAS** Frame-fitting white pump, spoke protector, BS reflectors, PEUGEOT Pro-team bottle and cage ■ **APPROX. TRIATHLON

In a sport that's as demanding upon man and machine as Triathlon, it's hardly surprising that Peugeot have become the world's number one Triathlon cycle manufacturer. The combination of speed and strength that Peugeot bring to their cycles are the very qualities that a competitor needs in a long distance swim, ride and run that is probably the ultimate test of his athletic prowess. The experience gained by the Peugeot Total Fitness Team in becoming Britain's leading name in Triathlon competition has reaped immediate benefit in the development of a new super Triathlon cycle - the Triathlete. If you enjoy pushing yourself to the limit to achieve success, here is a cycle worthy of your dedication.

All-Terrain Range

One of the most thrilling, exciting and demanding new outdoor sports ever devised, all-terrain biking is the perfect example of man and machine against the elements. And when the going gets tough, only the toughest all-terrain cycles keep going. The 1988 Peufection Collection contains the most exciting, most comprehensive range of ATB's ever produced by a single manufacturer. Each has been strenuously tested and pushed to the limit, so you can be sure they are the most rugged, best equipped and best value-for-money bikes on the market.

Cycles Peugeot guarantee their bicycles against manufacturing or material defects from the original date of sale as follows:–

Frame and Forks for 10 years; Parts for 1 year.

This Warranty covers normal use, but not failure resulting from misuse, alteration from original specification, accidental damage, neglect, incorrect assembly/maintenance of fair wear and tear.

Under the terms of this Warranty, Cycles Peugeot will bear the cost of replacement parts, for the period stated, and any labour charges incurred up to one year after purchase, provided that an authorised Peugeot Dealer processes the claim.

This guarantee does not seek to diminish any consumer statutory rights.

It is offered to the original purchaser and as such is not transferable.

In the event of any problem, please consult a Peugeot Dealer.

Please Note:

No bicycle can be considered indestructible and therefore this Warranty only applies to normal riding conditions and fair wear and tear.

Except for Mountain Bikes, no bicycle is guaranteed for use 'off the road'. In the case of Mountain Bikes, failure due to lack of regular maintenance, abuse or misuse cannot be guaranteed.

In all cases, we recommend that regular inspection/maintenance is carried out.

The Peugeot policy of continually up-dating and improving their range means that the specifications and appearance of all bicycles in this catalogue may be subject to alteration at any time.

All the bicycles featured in the Peufection Collection are available from every authorised Cycles Peugeot dealer nationwide.
