TOTAL MASTERY

For more than a hundred years the name Peugeot has been associated with cycles of the highest quality. Throughout all this time our guiding principle has been to provide Peugeot owners with a cycle of which they can be justifiably proud - at a price which they can afford.

Innovative design, that subtle blend of style and practicality, has always been high on Peugeot's list of priorities, born as it is out of a thorough understanding of the market's requirements and a total mastery of production techniques.

We feel sure the Peugeot '95 collection will provide something new and challenging for mountain track rough riders, casual city cyclists and dedicated road racers.
