BICYCLE

BUYER'S

GUIDE

A MASTERPIECE IS CONTAINED BY ITS´ FRAME

Raleigh has been in the business of building bicycles for over 100 years. Although many things have changed, there's one important thing that has remained the same—our philosophy that the frame is the heart of the bicycle. As componentry improved, we incorporated it into our bikes. We've also led the way in style, graphics and colors. But what sets us apart from other bike brands has always been our ability to design a specific frame to fit the performance level of a wide variety of riders. Our method of achieving this utilizes our patented Technium® process. Some people swear by aluminum frames. Others push chrome-moly, titanium or carbon fiber. Each has its benefits, but no one material is perfect. That's what makes Technium so innovative. The Technium process allows us to bond dissimilar materials, taking advantage of the benefits of each. And this year we're offering our Technium frames on 10 models. So read on. We build a Raleigh that will help you get the most out of your cycling experience.

MTi1000

John Tomac helped develop the MTi1000 frame and then raced with it in Europe. It has the RPD frame system with oversize main tubes for precise response and control.

Our titanium frame features plasma Arc robotic welding, ensuring consistently strong welds

Natural Titanium

MT700

The MT700 also carries John Tomacs' signature on its Technium® T3 Professional frame. It takes advantage of the Tomac-inspired RPD system, has an oversize double-butted, heat-treated 7005 aluminum front end and a Tange Prestige OS seat tube with taper butted chrome-moly stays.

Metallic Blue/
Silver Duotone

MT500

The MT500 has a Technium® T2 Expert frame with the Tomac-inspired RPD system featuring sloping top tube and oversize aluminum main tubes for precise handling. It comes with Shimano's LX group, a Dia-Compe Aheadset, Sun Metal CR-16 rims, and a Rock Shox Mag 10 air/oil suspension fork.

SMOKE/DART tires use a harder density core with a softer tread for better performance in all conditions.

Metallic Purple/ Platinum Duotone

MT400

The MT400 has a Technium® T2 Expert frame featuring sloping top tube and over-size aluminum main tubes for precise handling. It comes with STX Rapid Fire Plus shifters, a Dia-Compe Aheadset, Sun Metal double wall rims, alloy bar ends and a Rock Shox Quadra elastomer suspension fork.

Metallic Forest/ Platinum Duotone

MT300

The MT300 has a Technium® T2 Expert frame featuring sloping top tube and oversize aluminum main tubes for precise handling. It comes with STX Rapid Fire Plus shifters, a Dia-Compe Aheadset, Sun Metal double wall rims, and a Bontrager saddle.

Dia-Compe's innovative headset means less weight, better steering response, and easier adjustment.

Metallic Silver/ Yellow Duotone

MT200

The MT200 has a Technium® T1 Sport frame with the Tomac-inspired RPD system featuring sloping top tube and oversize aluminum main tubes for precise handling and control. It comes with STX Rapid Fire Plus shifters, bolt-on chain rings, and Sun Metal alloy rims.

Black/Red Anodized Duotone

M60

The M60 has a strong and durable chrome-moly frame with the Tomac-inspired RPD system for precise handling and control. It comes with STX Rapid Fire Plus shifters, bar ends, toe clips, triple-top tube cable routing, and Shimano Parallax alloy hubs.

Shimano's new STX derailleur gives high performance shifting at an affordable level.

Metallic Anthracite

Gloss Black

M50

The M50 has a strong chrome-moly fork with oversize blades. It comes with Shimano Alivio 21 speed Rapid Fire Unishift system, Hyperdrive-C chain rings, triple top tube cable routing and quick-release Shimano Parallax hubs.

Candy Red

Candy Blue

Metallic White

M40

The M40 has a strong and durable frame, chrome-moly seat and steerer tube with oversize fork blades. It comes with the C50 18-speed group, stainless steel spokes, an easy-to-use micro-adjust seat post, and quick-release front and rear wheel.

A quick-release rear hub makes the M40 easy to service and transport.

Gloss Black

Metallic Blue/Violet

RALEIGH

M30

The M30 is an excellent entry level bike for both growing kids and adults. Equipped with a strong chrome-moly seat tube, the M30 includes Shimano's C50/TY30 18-speed Hyperglide shifting, alloy rims, Maxxis tires and a quick-release front hub.

Metallic Grape

Metallic Red

Gloss Black

M20

The M20 has a strong and durable TIG-welded frame with a chrome-moly seat tube that is much stronger than those offered at discount stores. It comes with Shimano 15-speed index-shifting, sturdy wheels and a very comfortable price.

The Maxxis tire gives excellent performance in a variety of on and off road conditions.

Metallic Purple

Metallic Electric Teal

RT600

The RT600 features aggressive Raleigh race-proven geometry with a Technium® frame featuring Reynolds 531 manganese-moly main tubes bonded to aluminum lugs and chrome-moly stays. It comes with 105 STI components, Shimano clipless pedals, and Campy rims.

Purple/Black Duotone

Team Pearl White

RT505LE

The RT505LE features aggressive Raleigh race proven geometry with a Technium® aluminum frame bonded to chrome-moly rear stays. It comes with Shimano's new RX100 STI 16-speed components, Michelin Hi-Lite comp tires and Campy rims.

Shimano's new RX100 16-speed STI group brings STI race-level shifting to the RT 505LE.

Metallic Red

Metallic Purple Tritone

RT500/RT300

The RT500 features a Technium® race frame with Easton E9 tubes chrome-moly stays, it is equipped with 105 7-speed, Michelin tires, and Campagnolo rims.

The RT300 features the same Technium® process and a sport performance geometry.

Porsche Red

RT500=Gold/Silver
RT300=Purple/Platinum

R40

The R40 is perfect for the rider wanting a classic Raleigh road bike at a low price. It comes with a 12-speed component group, alloy rims, a micro-adjust seat post, and quick-release front and rear hubs.

Down-tube shifters give sport performance features at a value price.

Metallic Blue

CT400

The CT400 is the ultimate cross bike, equally at home on the road as it is on the trail. It features a special Technium® T1 Sport aluminum cross frame with cro-mo seat tube, and it comes with the 21-speed Shimano 400CX group. It also comes with bar ends and toe clips.

Metallic Silver/ Anthracite Duotone

CT300/CT200

The CT300 is comfortable on road but tough enough to go off-road. It features a special Technium® T1 Sport frame and Rapid Fire Plus shifting.

The CT200 has a Technium® T1 Sport frame, Rapid Fire shifting, and a Gelite saddle.

Shimano's C10 rear derailleur gives quick, accurate shifting performance to the versatile CT200.

CT200= Metallic Forest

CT300=Blue Mist
CT200=Silver/Purple

C40

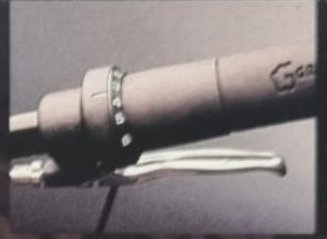

The C40 is a great cross bike with TIG-welded frame and cro-mo seat tube to make it strong and durable. It comes with the C50 18-speed group, SRT-200 GripShift shifters, stainless steel spokes, an easy-to-use micro-adjust seat post and a quick-release front wheel.

Metallic Cinnamon

C30

The C30 has a strong and durable frame which includes chrome-moly seat tube. It's an excellent entry-level cross bike for both kids and adults. It comes with Shimano 18-speed Hyperglide shifting, GripShift shifters, alloy wheels and a quick-release front wheel.

The GripShift shifter offers user friendly "hands on" index shifting.

Metallic Saphire Blue

ER7/ER3

The ER7 is a blend of common sense cycling and easy-to-use shifting technology.

The ER3 has a Shimano 3-speed internal hub system, front and rear hand brakes as well as a coaster brake and a coil-spring saddle.

ER7=Merlot
ER3=Forest Green

Electric Teal

ER6/ER1

The ER6 provides beach-cruiser styling and comes with a GripShift 6-speed index shifting, hand brakes, and a gel saddle.

The ER1 is perfect for everyday transportation and features a convenient coaster brake and comfortable coil-spring saddle.

Metallic Grape

ER6=Gloss Black
ER1=Candy Blue

T H E F

TECHNIUM COMPOSITE

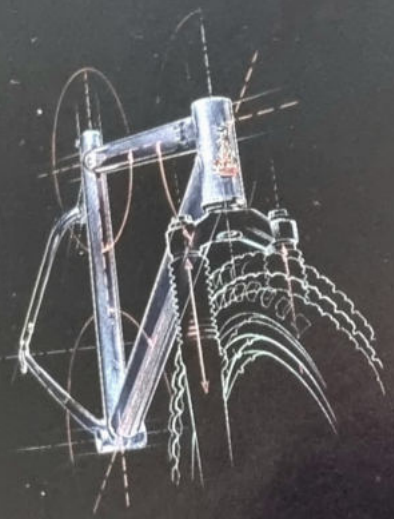

Some people swear by aluminum frames. Others push chrome-moly, titanium or even carbon fiber. Each has its benefits, but no one material is perfect. That's what makes Technium® so innovative. The Technium process allows us to bond dissimilar materials, taking advantage of the benefits of each. It's that simple – and available only from your Raleigh dealer.

MONOSTAY WISHBONE

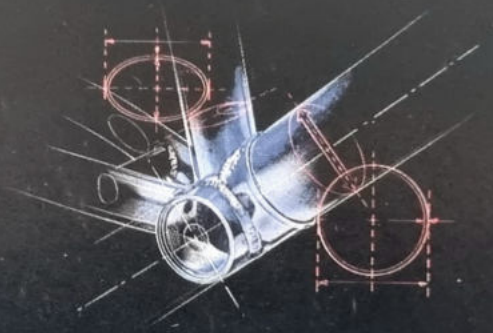

Good braking is a crucial element of going fast. That's why Raleigh invented the Monostay Wishbone™. This design radically reduces brake boss twist, giving a more positive feel to your rear brake and adding another element of control to your riding.

FRAME

RIGID POINT DESIGN

We believe a rigid front end and a resilient rear are the keys to precise handling. That's the foundation for our Rigid Point Design® system, inspired by World Champion John Tomac. The system takes advantage of oversized main tubes and a tighter geometry to give increased steering accuracy and control that you'll feel from your very first ride.

OVALIZED SEAT TUBE

From the MT300 to the MT700, Raleigh takes advantage of an ovalized seat tube. This gives you external butting at the top and ovalizing below, giving you maximum strength and lateral rigidity with minimum weight.

All Raleigh bicycles meet or exceed CPSC Standards. Complete CPSC equipment is included with each Raleigh bicycle but not necessarily shown in all photographs, e.g. reflectors. Raleigh bicycle specifications are subject to change without notice.

All Raleigh bicycles are covered by a limited lifetime warranty, see your Authorized Raleigh Dealer for details. © 1993 Derby Cycle Corporation. All rights reserved. Printed in the U.S.A. on recycled paper. *Available with optional alloy rims.

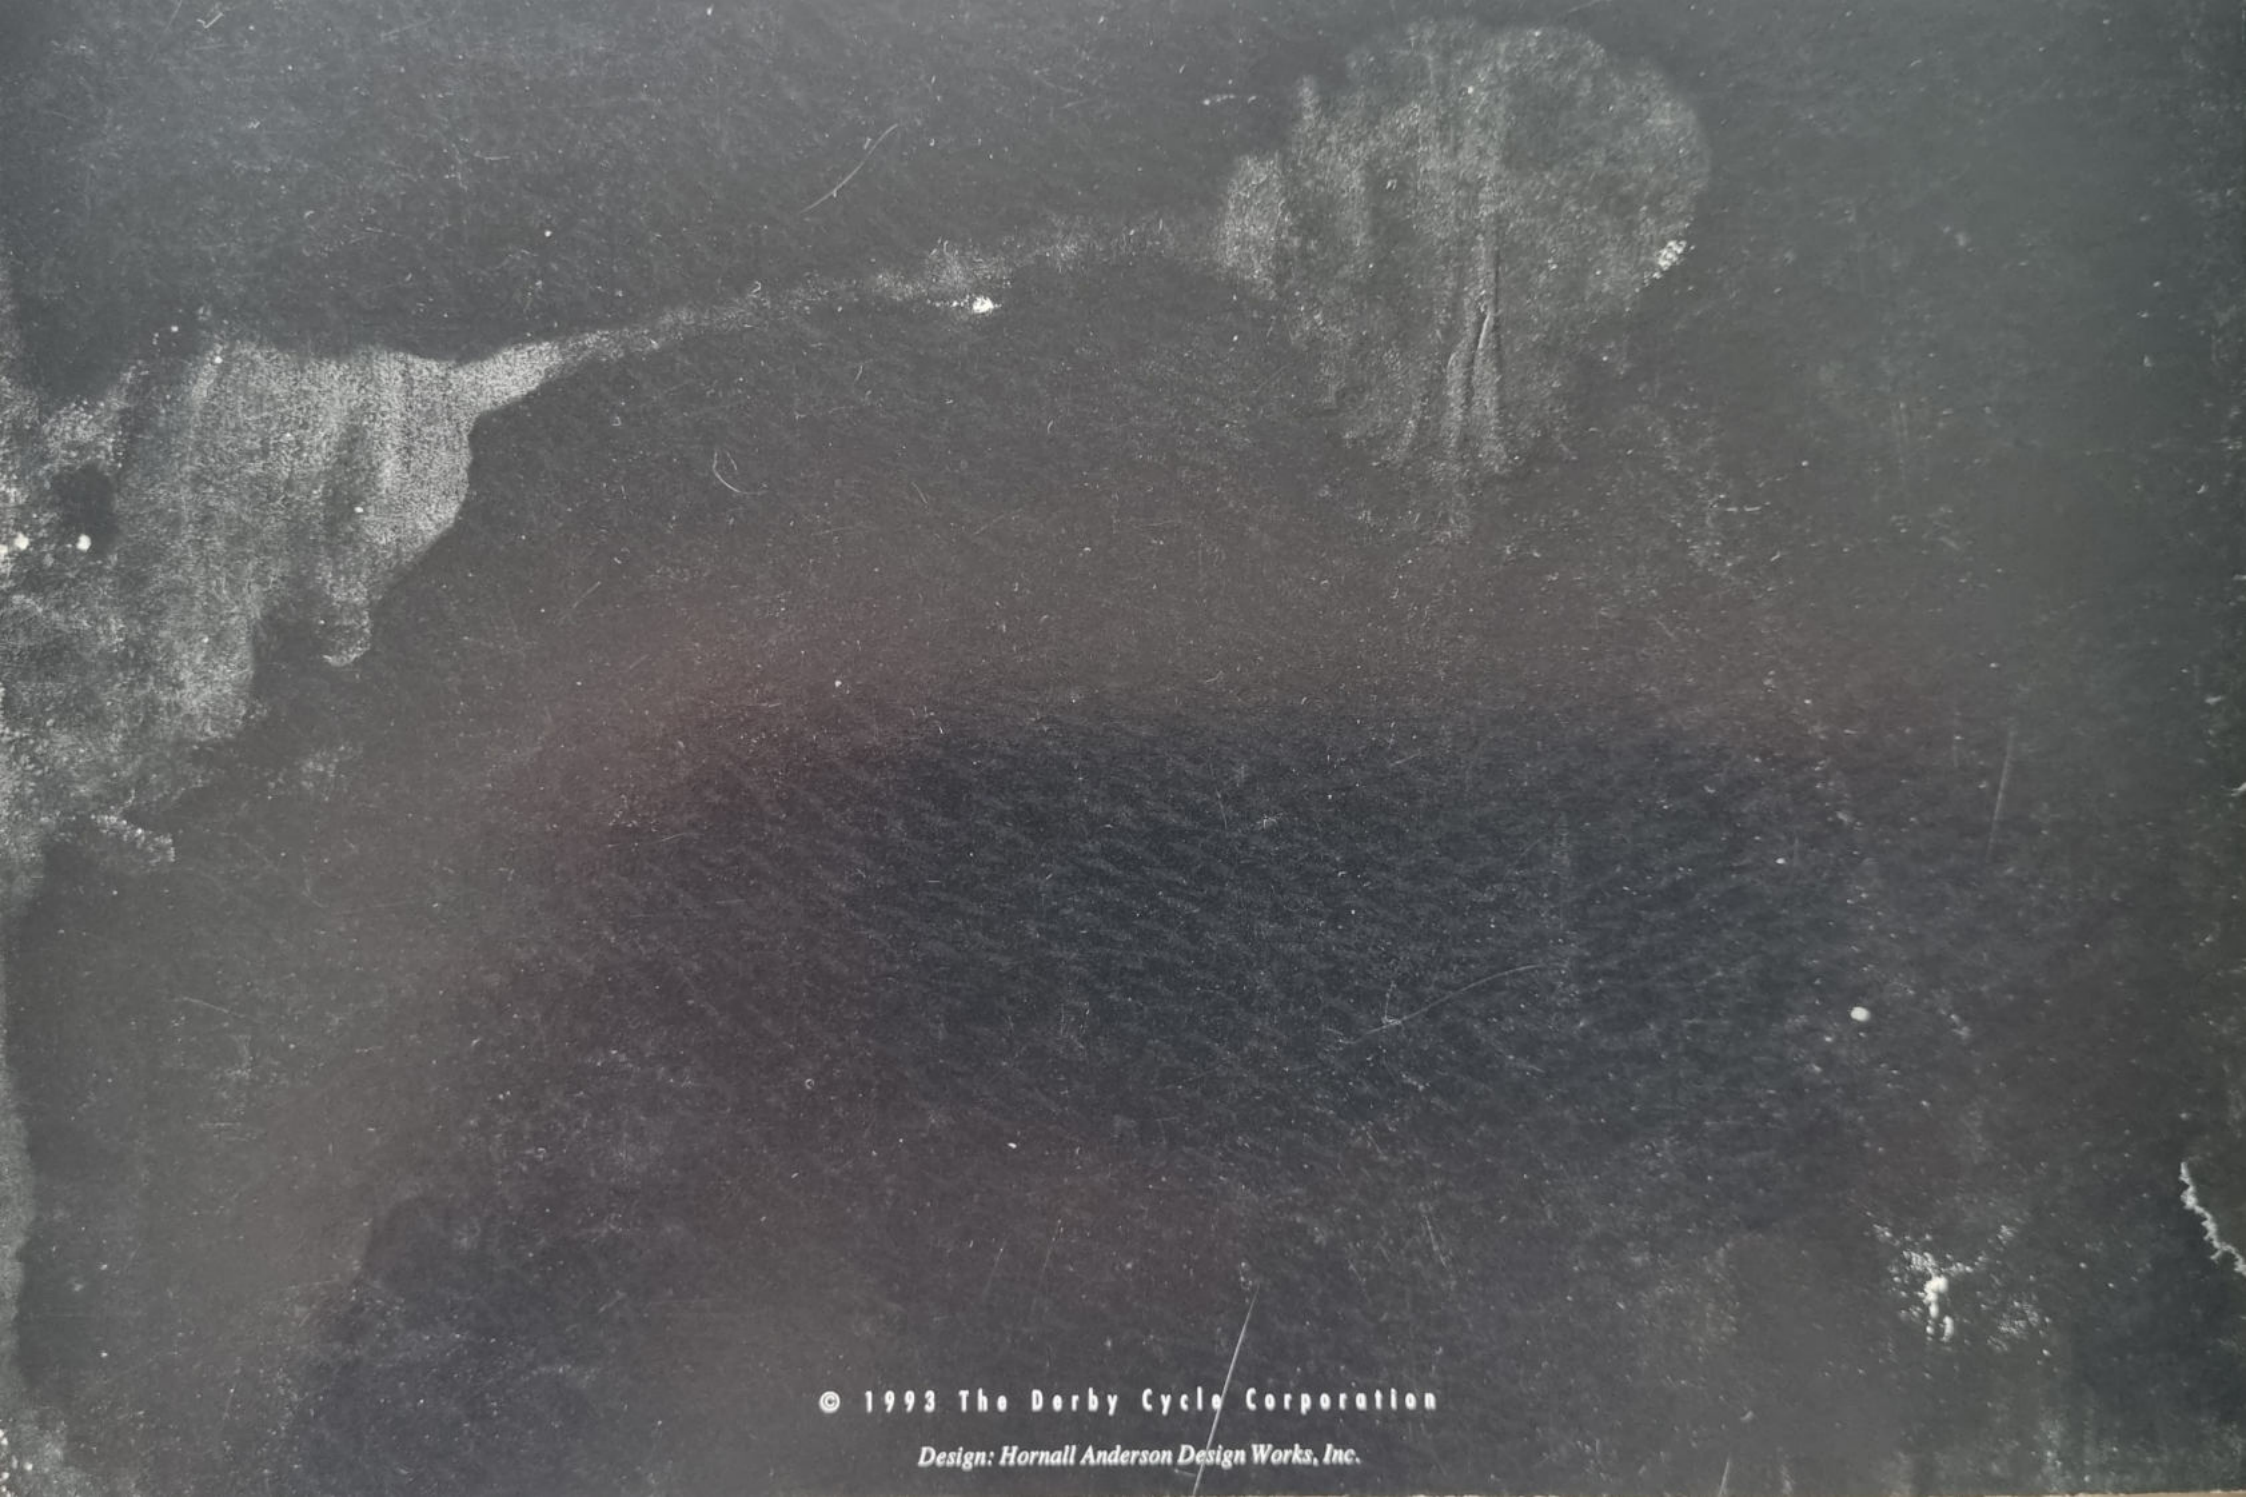

THE RALEIGH LIFETIME WARRANTY

If any of the original parts of your bike break due to a defect or workmanship—we'll fix it for as long as you are the original owner. (We're going to need the sales receipt, though, so hang on to it.) We'll even cover dealer labor and transportation costs for up to a year from purchase on frames and 90 days on parts. **1.** *We designed your bike for regular riding and having fun. We did not design it to withstand abuse from stunting and jumping, install a motor or otherwise modify the bicycle, or ride with more than one person.* • **2.** *This warranty does not cover ordinary wear and tear or anything you break or bend accidentally or deliberately or due to misuse or bad maintenance.* **3.** *It is the purchaser's responsibility to maintain and keep the bike adjusted properly. This warranty does not apply when you haven't done this. For warranty service under the Raleigh Bicycle Limited Warranty, take your bicycle along with original sales receipt with the date of purchase, model number and serial number to your local Authorized Raleigh Dealer. Please read the full warranty policy in your bicycle owners manual. So now that you've read this, you deserve some fun. Go ride your Raleigh! All Raleigh bicycles meet or exceed CPSC standards. Complete CPSC equipment is included with each Raleigh bicycle but not necessarily shown in all photographs, e.g. reflectors. Raleigh bicycle specifications are subject to change without notice.*
