RALEIGH BICYCLES *2013*

WE'RE PROUD OF THE NAME RALEIGH

We never forget where we came from. Raleigh is striving to earn a new place in a history that continues to be written. We want to show that a brand can be reputable and relevant at a personal level and be connected with the rider and their experiences. We've taken a long hard look at what drives us to make bikes. We are inspired by the motivation of the full-time office worker who spends their free time training for a race or event. We enable the passion that drives people to ride the most they've ever ridden a bike for the sake of charity. We are driven by what motivates a former national champion to return to full-form and give younger riders...a run for their money. We are moved by the determinations of a small group of devoted riders to create a movement.
In the end we believe it's all about earning your place. About crossing the finish line knowing it came from hard work and dedication. About exceeding contribution goals and persevering the challenge. About showing a new generation that the spirit of a champion never expires. Raleigh is about the passion to see your dreams through. And knowing you earned everything at the end of the day. This is what we strive for. This is what Raleigh is.

ROAD

RACE / RACE ENDURANCE / ENDURANCE / CYCLOCROSS / STEEL

UNIFIED TAPERED HEADTUBE AND DOWNTUBE

Increases the overall front end stiffness while maintaining the legendary fine-tuned ride.

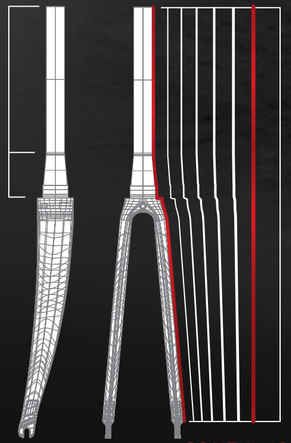

MONOCOQUE CARBON STEER

Reduces flex and twisting for more control in tight situations

TAPERED STEER TUBE

Increases overall stiffness

FULL MONOCOQUE AND ONLY 365G

CONTINUOUS CARBON FIBER

Dampens road vibrations

DIRECT CONNECT
CARBON EVOLUTION

DIRECT CONNECT EVOLUTION

Over five years ago we began producing frames with our Direct Connect Carbon process. Steadily and patiently we have refined, tested and evolved the process to create the lightest, stiffest, most durable race frame available. We used oversized BB and chainstays to minimize flex and increase power transfer, and thinned seatstays that are vertically compliant and absorb road vibrations.

Utilizing T800-grade High Modulus carbon with high tensile strength, never-twisted fiber we reduced the amount of material needed in key areas, combined with a Max Internal Compression process the result is an ultra-thin, stiff, and internally smooth tube surface. Using these combined techniques, we were able to substantially reduce the weight, resulting in a 880g frame that sacrifices nothing & maximizes everything.

EACH MODEL IS BUILT WITH T700 CARBON

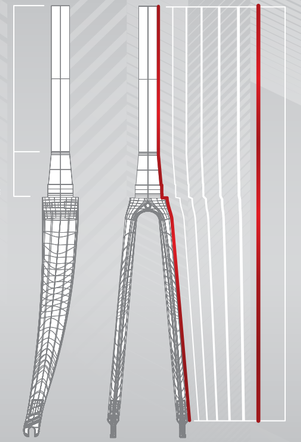

T700 is a high-tensile strength high modulus, never-twisted fiber that offers the best performance for demanding conditions.

MONOCOQUE CARBON STEER

Reduces flex and twisting for more control in tight situations

TAPERED STEER TUBE

Increases overall stiffness

FULL MONOCOQUE AND ONLY 365G

CONTINUOUS CARBON FIBER

Dampens road vibrations

DIRECT CONNECT *CARBON*

DIRECT CONNECT CARBON

Every tube is molded with the highest strength-to-weight ratio in mind, and the tubes are just as smooth on the inside as they are on the outside because of Max Internal compression process that removes all excess material.

Revenio and Capri combine the tapered headtube, attributes of our high-end race bikes, and our proven RE2P (Relaxed Ergonomic Effective Position) geometry, that places the rider in the ultimate riding position for optimal endurance and performance. The frames produce a ride that is stiff, lively, and compliant, While tipping the scales at a mere 980g.

CYCLOCROSS

In the Pacific Northwest, Cyclocross is right in our own backyard. The quality of our Cyclocross is raw and rigorous. Our races are loud, our mud is deep, and our barriers are unmovable. The sport of CX has changed here over the last five years. The races have become faster. The fields have become deeper. This has made the Pacific Northwest a perfect environment for us to develop the best and broadest CX line on the market.

STEEL

Steel is as timeless as the company that started using it 125 years ago. No matter the latest technology, the trending fad, or the passing fancy...steel has proved to be our choice material for the bikes that have helped to define the Raleigh brand. This year we expand our line of steel bikes yet again not based on a trend, but based on steel being the best material for what these bikes can do for you now, and years down the road.

MOUNTAIN

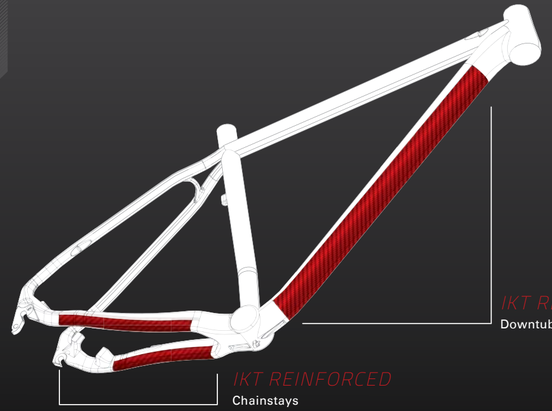

29" HARDTAIL / 26" RECREATION

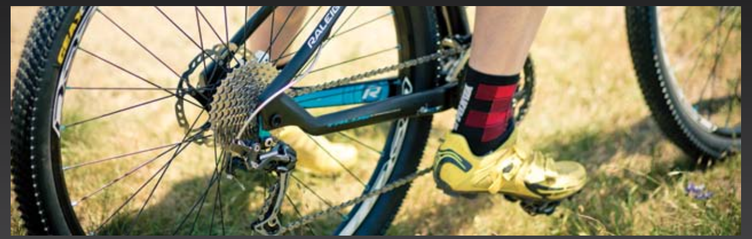

INTEGRATED KEVLAR *TECHNOLOGY*

The Talus 29 Carbon Series uses our new IKT (Integrated Kevlar® Technology) process that blends Kevlar® and High Modulus carbon to protect the frame from debris that the trail throws at it. Combining this technology with a tapered headtube for added steering control, and internal cable routing for protected lines and a clean look, WE CREATED A 1080g XC DREAM FRAME.

In the early days of mountain biking, Raleigh was at the forefront of MTB technology and took it to its limits. With the introduction of our IKT-reinforced Direct Connect frame, WE'RE READY TO TAKE IT THERE AGAIN.

TALUS 29 CARBON PRO

FRAME	Direct Connect Carbon, Kevlar Reinforced Tapered Headtube, E-Thru 142x12, Internal Cable Routing	SHIFTER	SRAM XO Trigger, Shimano SP41 Shift Housing	RIMS	Easton EA90 29er, 15mm F and 142x12 R

CLASSIFICATION

Understand your bike and its intended use. Choosing the wrong bicycle for your purpose can be hazardous. Using your bike the wrong way is dangerous.

No one type of bicycle is suited for all purposes. Your retailer can help you pick the "right tool for the job" and help you understand its limitations. There are many types of bicycles and many variations within each type. There are many types of mountain, road, racing, hybrid, touring, cyclocross and tandem bicycles. There are also bicycles that mix features. For example, there are road/racing bikes with triple crank. These bikes have the low gearing of a touring bike, the quick handling of a racing bike, but are not well suited for carrying heavy loads on a tour. For that purpose you want a touring bike. One can optimize a bicycle for their specific purpose within a classification, so do your homework. Visit your bicycle shop and find someone with expertise in the area that interests you. Seemingly small changes such as the choice of tires can improve or diminish the performance of a bicycle for a certain purpose. On this page, we generally outline the intended uses of various types of bikes. Industry usage conditions are generalized and evolving. Consult your dealer about how you intend to use your bike. For more information, please see the Raleigh Owner's Manual.

HIGH-PERFORMANCE ROAD

CONDITION 1: Bikes designed for riding on a paved surface where the tires do not lose ground contact.

RALEIGH MODELS INCLUDED:
Militis Series, Revenio Series, Capri Series, International, Record Ace, Grand Prix, Clubman, Rush Hour, Cadent Series, Alysa Series

INTENDED: To be ridden on paved roads only.

NOT INTENDED: For off-road, cyclocross, or touring with racks or panniers.

TRADE OFF: Material use is optimized to deliver both light weight and specific performance. You must understand that (1) these types of bikes are intended to give an aggressive racer or competitive cyclist a performance advantage over a relatively short product life, (2) a less aggressive rider will enjoy longer frame life, (3) you are choosing light weight (shorter frame life) over more frame weight and a longer frame life, (4) you are choosing light weight over more dent resistant or rugged frames that weigh more. All frames that are very light need frequent inspection. These frames are likely to be damaged or broken in a crash. They are not designed to take abuse or be a rugged workhorse.

GENERAL PURPOSE RIDING

CONDITION 2: Bikes designed for riding Condition 1, plus smooth gravel roads and improved trails with moderate grades where the tires do not lose ground contact.

RALEIGH MODELS INCLUDED:
Sojourn, Misceo Series, Folding i8, Detour Series, Route Series, Roadster Series, Talus 2.0/3.0/4.0, Eva 2.0/3.0/4.0, Venture Series, Cruiser Series

INTENDED: For paved roads, gravel or dirt roads that are in good condition, and bike paths.

NOT INTENDED: For off-road or mountain bike use, or for any kind of jumping. Some of these bikes have suspension features, but these features are designed to add comfort, not off-road capability. Some come with relatively wide tires that are well suited to gravel or dirt paths. Some come with relatively narrow tires that are best suited to faster riding on pavement. If you ride on gravel or dirt paths, carry heavier loads or want more tire durability talk to your dealer about wider tires.

CYCLO-CROSS

CONDITION 2: Bikes designed for riding Condition 1, plus smooth gravel roads and improved trails with moderate grades where the tires do not lose ground contact.

RALEIGH MODELS INCLUDED:
RX Series, Port Townsend, Furley, Roper, Tripper

INTENDED: For cyclo-cross riding, training and racing. Cyclo-cross involves riding on a variety of terrain and surfaces including dirt or mud surfaces. Cyclo-cross bikes also work well for all weather rough road riding and commuting.

NOT INTENDED: For off road or mountain bike use, or jumping. Cyclo-cross riders and racers dismount before reaching an obstacle, carry their bike over the obstacle and then remount. Cyclo-cross bikes are not intended for mountain bike use. The relatively large road bike size wheels are faster than the smaller mountain bike wheels, but not as strong.

CLASSIFICATION *CONT.*

CROSS-COUNTRY, MARATHON, HARDTAILS

CONDITION 3: Bikes designed for riding Conditions 1 and 2, plus rough trails, small obstacles, and smooth technical areas, including areas where momentary loss of tire contact with the ground may occur. NOT jumping. All mountain bikes without rear suspension are Condition 3, and so are some lightweight rear suspension models.

RALEIGH MODELS INCLUDED: ***XXIX, XXIX+G, Talus 29 Series, Talus 5.0/8.0, Eva 8.0***

INTENDED: For cross-country riding and racing which ranges from mild to aggressive over intermediate terrain (e.g., hilly with small obstacles like roots, rocks, loose surfaces and hard pack and depressions). Cross-country and marathon equipment (tires, shocks, frames, drive trains) are light-weight, favoring nimble speed over brute force. Suspension travel is relatively short since the bike is intended to move quickly on the ground.

NOT INTENDED: For Hard-core Freeriding, Extreme Downhill, Dirt Jumping, Slopestyle, or very aggressive or extreme riding. No spending time in the air landing hard and hammering through obstacles.

TRADE OFF: Cross-Country bikes are lighter, faster to ride uphill, and more nimble than All-Mountain bikes. Cross-Country and Marathon bikes trade off some ruggedness for pedaling efficiency and uphill speed.

ROAD TANDEMS

CONDITION 1: Bikes designed for riding on a paved surface where the tires do not lose ground contact.

RALEIGH MODELS INCLUDED: ***Companion***

INTENDED: Are designed to be ridden on paved roads only. They are not designed for mountain biking or off-road use.

NOT INTENDED: Road tandem should not be taken off-road or used as a mountain tandem.

YOUTH SIDEWALK

Bikes designed for riding on a paved surface with adult supervision, and no traffic present.

RALEIGH MODELS INCLUDED:
Retro 20, Retro 16, all Youth models

INFORMATION *WARRANTY*

WARRANTY

It is the owner's responsibility to thoroughly read and understand the owner's manual and regularly examine the product to determine the need for professional, authorized service or replacement. Please consult an authorized Raleigh America, Inc., bicycle dealership with any questions on use and maintenance. Regardless of the length of the warranty, Raleigh America, Inc., does not infer that the bicycle will last forever or cannot be broken. All Raleigh framesets and bicycles have a finite, limited useful product life cycle. The length of this useful life cycle will vary by environment, riding conditions, frame material and construction, riding style, maintenance, and the amount as well as type of use the bicycle or frame is subjected to. A worn out bicycle does not indicate it is warrantable, rather that the bicycle has outlived (exceeded) its useful product cycle.

Raleigh America, Inc., warrants this new Raleigh America, Inc., bicycle frame against defects in material and workmanship, subject to the following limitations, terms, and conditions:

ITEM	WARRANTY TERM LENGTH
Steel bicycle frames with wheel size less than 20"	Lifetime, for as long as the original retail purchaser owns the bicycle*
Steel bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Alloy bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Full Carbon Fiber or Carbon fiber/alloy bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Full Suspension bicycle frames	Five years from the date of original retail purchase to the original purchaser*
Forks, Non-branded	One year from the date of original retail purchase
Forks, Branded	Covered under the fork manufacturer's warranty. Consult dealer for details.
Components, Non-branded	One year from the date of original retail purchase
Components, Branded	Covered under the component manufacturer's warranty. Consult dealer for details.
Finish and decals	One year from the date of original retail purchase
Suspension parts including but not limited to bushings, pivot bearings, link plates, bolts, fasteners, chain stays, seat stays, and shock units	One year from the date of original retail purchase under the condition that the bicycle is regularly maintained as well as operated under normal riding conditions
Labor, frame replacement	One year from the date of original retail purchase
Labor, parts replacement (Including Swingarm)	Thirty days from the date of original retail purchase

1. This warranty only applies to the original retail purchaser and is not transferable.
2. Specific model exceptions to this warranty are noted with the bicycle documentation.
3. Raleigh America, Inc.'s sole obligation during the acceptable duration of this warranty is, AT RALEIGH AMERICA, INC.'S OPTION, to repair or replace the product with a current item that is equivalent in construction, design, or value.
4. Raleigh America, Inc.'s liability under this limited warranty shall never exceed the amount of the original purchase.

To obtain service under this warranty, you must:

1. Return your fully assembled Raleigh America, Inc., bicycle to an authorized Raleigh America, Inc., bicycle dealer within the United States of America. A bicycle that has had the components removed cannot be evaluated or warranted.
2. Provide proof of purchase, including but not limited to the retail bill of sale, your credit or debit card receipt, or other satisfactory proof of the date of purchase.
3. The proof of purchase must indicate the bicycle was sold fully assembled and adjusted by an authorized Raleigh America, Inc. dealer within the United States of America. Sales where the bicycle was delivered in a carton to the end user (e.g., mail order or Internet sales) void the warranty. **This warranty does not apply to damage or failure due to:**
1. Accidents, alteration, abuse, neglect.
2. Material fatigue, normal wear and tear.
3. Improper assembly, maintenance, or installation of parts or accessories not originally intended to be compatible with the bicycle as sold, including but not limited to power assist accessories, forks, brakes, or tires different from original specification.
4. Improper assembly by non-authorized dealers inclusive of bicycles sold in a carton to the end user.

This warranty also excludes:

1. Commercial use (such as rental or security fleets), racing or competition, stunting, jumping, trick riding, ramp riding, aggressive riding, riding with excessive loads, lack of technical skill, competence, or experience of the user.
2. Bicycle frames, which have been repaired (e.g. welded or bonded), repainted, or had the original decals removed.
3. Frames, forks, wheels, axles, handlebars, and stems, which are bent from just riding along, can be a sign of misuse or abuse and are not covered under this warranty.
4. Personal transportation costs or product freight costs to or from an authorized Raleigh America, Inc., bicycle dealer.
5. Any additional costs associated with the incompatibility of existing parts and the replacement frame or fork. These costs are the responsibility of the consumer.

Warranty replacement frames must be fully assembled by an authorized dealer to maintain the warranty coverage.
The warranty for the replacement frame shall be the warranty offered for the equivalent bicycle's frame of that model year. If not assembled by the dealer, replacement frames are considered aftermarket frames.
Aftermarket frames are only warranted for one year from the date of purchase for the original purchaser. This one-year warranty excludes any issues that can be traced to assembly or component incompatibility.

This warranty is expressly in lieu of all other warranties, and any implied warranties of merchantability or fitness for a particular purpose created hereby, are limited to the same duration as the express warranty herein. Raleigh America, Inc. shall not be liable for any incidental or consequential damages. Some states do not allow the exclusion or limitations of implied warranties, incidental or consequential, so the above limitations and exclusions may not apply to you. Retailers and wholesale outlets for Raleigh America, Inc., products are not authorized to modify this warranty in any way. This warranty gives the original owner specific legal rights. Other additional rights may vary from state to state.

All Raleigh bicycles meet or exceed CPSC standards. Complete equipment is included with each Raleigh bicycle but not necessarily shown in photographs, e.g. reflectors. All Raleigh bicycles are covered under warranty. See your authorized Raleigh dealer for complete details. Raleigh specifications are subject to change without prior notice. Raleigh is a registered trademark of the Raleigh Cycle Limited. Raleigh bicycles are distributed by Raleigh America, Inc.

WARNING: ALWAYS WEAR A HELMET!
All riders depicted in this catalog are professionals. Do not attempt to duplicate any actions that are beyond your abilities.
