CYCLOCROSS 2016

RALEIGH

OUR CYCLOCROSS PEDIGREE

Raleigh have supported World Champions for over 80 years. In the 2015 season, a Raleigh once again attained the rainbow stripes with rider Phil Roach in the saddle.

For 2016, we have refined our men's range updating both frames and tech while our new comprehensive women's range is tailored specifically to female cyclocross racers.

These bikes aren't just tarted up commuter bikes, they are race ready thoroughbreds. Equipped to tackle any single track, mud field, sand pit, staircase, hurdle or inclement weather between your front door and the finish line, no terrain is impassable.

It's time to get muddy.

RXW

We’re proud to be one of the few brands that has a dedicated women’s cyclocross range.

We’ve combined our years of heritage making bikes for British women with our race proven cyclocross experience. The results are comfortable, smooth handling and fast bikes that are as at home on cyclocross race day as they are down the local canal paths or forest tracks with friends.

With our women’s specific geometry including shorter top tubes, narrower handlebars, easy reach levers and comfortable women’s saddles, this bike is ready to ride.

No matter what conditions the UK weather throws at you, our bikes are as ready to race as you are!
