## NUMBERS OF A SUCCESSFUL HISTORY

The most conspicuous achievements

### ROAD

12 Giro d'Italia
3 Tour de France
2 Vuelta a España
19 Milan - SanRemo
16 Tour of Lombardy
7 Paris-Roubaix
4 Liège-Bastogne-Liège
5 Flèche Wallonne
4 Amstel Gold Race
4 Road World Championship
6 Track World Championship: sprint, pursuit and points race
1 UCI Pro Tour

### MTB

1 Olympic Gold Medal - Athens 2004
10 World Championship
6 World Cup
12 European Championship
28 National Championship

# BIKE TRACE

**TO OWN A BIANCHI BIKE MEANS TO BELONG TO A BIG FAMILY. WITH THE BIKE TRACE PROJECT, FANS AND OWNERS CAN COUNT ON AN EXCLUSIVE TOOL WHICH ENSURES, AT ANY TIME, THE FULL TRACEABILITY AND IDENTIFICATION OF ANY BIANCHI RC (REPARTO CORSE) BICYCLE.**

You just need to log on the www.bianchi.com Website, click on the Bike Owners section and register your bicycle by filling in the Trace Form with your personal data and those of the frame. The recording of this data will make it possible to trace back the history of any bike by monitoring the history of the text and also its 'sporting life'. The Quality Control Report coupon, which can be found in each packaging and includes all the necessary information for the product registration, is fundamental. In the event of loss of the coupon, it is however possible to find the necessary data directly on the frame itself. The frame code is marked on the bottom bracket of all the models, exept for the carbon ones. For these last ones the frame code is on the internal parts of the left rear vertical drop out. This service guarantees the total traceability of the bicycle providing a precious support in case of theft and loss.

**THANKS TO BIKE TRACE YOUR BIANCHI IS YOURS EVEN MORE.**

All information and all technical specifications are correct at time to going press. Bianchi reserves the right to change them without prior warning. For further information, please see our Website www.bianchi.com that is always updated. Bianchi recommends all cyclist to wear a helmet and to abide by the high way code.

# **A LONG** LINE OF **RECORDS**

Bianchi's history of supremacy began long ago. In 1885 Edoardo Bianchi produced the first bicycle in his workshop in Milan, and in 1888 he was the first in Italy to use air-chamber tyres instead of hard tyred ones. From here on, his activity always featured steady research and more and more sophisticated technologies, in order to create the perfect bicycle either for everyday's use and hyper-competitive machines capable to dominate the roads all over the world. Thus the Bianchi legend was born, boosted by unforgettable champions such as Costante Girardengo, Tano Belloni and Fausto Coppi, untamed fighters such as Felice Gimondi, climb artists like Marco Pantani. And several World Champions as well, such as Moreno Argentin and Gianni Bugno on road, Bruno Zanchi, Dario Acquaroli, Josè Hermida in the MTB. An impressive prize-records, also enriched by Julien Absalon's five victories in the World Cup and Olympic gold medal, Leonardo Paez's Marathon World Cup win and Cristian Cominelli's recent success in the Team Relay World Championship.
This long list of records does not outshine the prime of all victories: to offer cyclists all over the world a bicycle with a priceless added value, the soul.

**Fausto Coppi**
Il Campionissimo

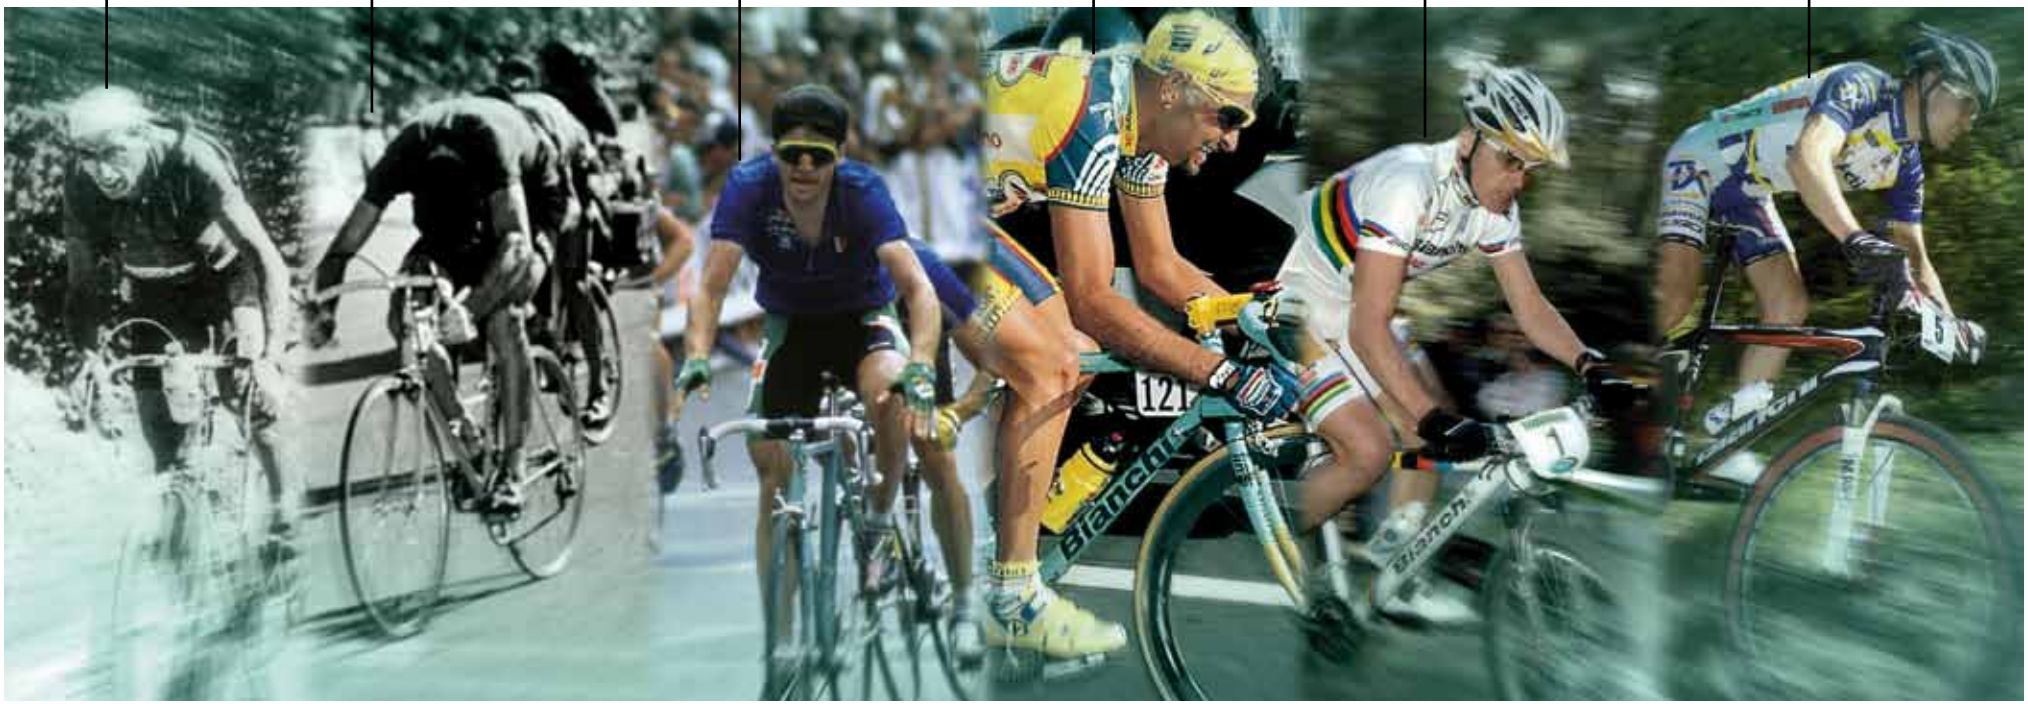

**Felice Gimondi**
World Champion, Barcelona 1973

**Gianni Bugno**
World Champion, Benidorm 1992

**Marco Pantani**
Il Pirata

**Julien Absalon**
World and Olympic Champion, Athene 2004

**Leonardo Paez**
Marathon World Cup Winner

# LATEST TECHNOLOGY IN BIANCHI

**X-TeX – Cross Texture**
Our unique process to internally mold X-weaved structural carbon provides exceptional torsional rigidity. We imbed X-shaped carbon into the layup and then it is internally molded into the carbon structure.

**CNT – Carbon Nano Tube**
The ultimate evolution of nano-technology. Carbon nano tubes are allotropes of carbon with a cylindrical nanostructure. They exhibit extraordinary strength, and combined with epoxy resin and nano-powder (the base of nanotechnology) provide an increase of fracture toughness by 49% compare to standard resin, 20% higher than nanotechnology.

**Nano Power Technology**
- Nano material has the character of nano-scale size and high superficial content
- Adding Nano technology into the matrix system enhances cohesion superficial content between fiber and matrix.
- Micro cracks in the interlayer will decrease and further reduce the extension of cracks.
- Extends anti-fatigue and enhance anti-impact of resin.

**WMP – Wrinkleless Molding Process**
- Wrinkles in the material add more weight.
- We detect formation of wrinkles during the curing process to determine the actual characteristics of each frame and the location wrinkles may occur.
- We avoid wrinkles in the material by pre-tuning the thickness of the laminate and the weight of each frame.

**UTSS – Ultra Thin Seat Stay**
The seatstays function is to harmonize the load's distribution. This technology (CNT) allows us to reduce the seatstay sections without compromise to the structural rigidity.

**BAT and K-VID**
Usually a Road racing bike is stiff in all directions. High performance but not comfortable.
The objective with these technologies is to obtain different stiffness behaviour under different loads/forces which improves comfort without any compromises of performance.

**BB30**
BB30 is a new industrial standard for bottom brackets that is stiffer than standard bottom brackets and lighther. The weight of the crank is reduced by eliminating the BB cups and using an alloy oversize spindle that increases the stiffness of the crankset. The BB30 bearings are larger than those used in other systems and it extends the bearings life.

**TWT - Triple Wall Tube**
- TWT construction allows us to lay-up the composite material plies to form 3 thin walls which are then molded together to form a bond-less monocoque laminate tube.
- We apply TWT construction to the tubes which are the most critical areas for stiffness and ride control
- TWT allows the frame to be more efficient, lightweight and stiff.

**ERC - Embedded Reinforcement Construction**
- This exclusive design feature molds and embeds reinforcement ribs along the nodes of whole frame structure.
- These reinforcements reduce frame twisting and contribute to frame stiffness and ride handling in the areas of the: head-set bearings, the Head Tube and the Bottom Bracket interface.

**SAS - Shock Assorbing Stays**
- Special designed stays with "S" shape and laminated with carbon and glass fibers, enhance the absorption of the vertical shocks on the rear Drop Outs without weakening the lateral and the torsional stiffness of the frame.
- The benefit of SAS is increased comfort without reducing power delivered to the rear wheel.

**DFIS - Dual Function Integrated Seatpost**
Dual function fully integrated seat post. Includes the possibility to cut the seat post and instead insert a traditional seat post.

# 2011 **BIANCHI** RANGE

| | XTREME PERFORMANCE | HIGH PERFORMANCE | ALL PERFORMANCE | TOURING | STREET | SPECIAL | |
|---|---|---|---|---|---|---|---|
| **ROAD** | HOC | B4P | C2C - DAMABIANCA | | | D\|2 URBAN FIXED GEAR | pag. 6 |

Exactly as there are different riders, there are also different ways to achieve your goals in cycling. And the Bianchi Road Range is ready to perform, meeting all your needs, with the attention and care, that is its distinctive feature ever since Edoardo Bianchi opened his doors many years ago.

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| **MTB** | RACING | PERFORMANCE | OFF-ROAD | | | | pag. 36 |

The other road of Bianchi. Both the dirtiest and newest, but already rich in international success. Olympic and World Championships, to mark a technological supremacy which doesn't change when the terrain does. The best for cross country and marathon riding.

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| **SPORT** | | | CAMALEONTE | | | | pag. 52 |

If cleverness is the art of adaptation, then the bicycles of the Camaleonte range are clever. Like the animal bearing their name, they find their natural habitat in the city, but also on the week-end roads. For those who believe that two-wheels without an engine are a philosophy of life.

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| **CITY** | | | | T-ROAD S-ROAD VIAGGIO | | | pag. 56 |

The most ecological means to move throughout the city, without polluting the environment, without using up fuel. A lifestyle, an idea of individual mobility which Bianchi has been capable to realize, with a range conceived for commuting into the city and for leisure. With all Bianchi comfort and technology, dedicated to the urban rider.

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| **JUNIOR** | | | JUNIOR 24" | | YARD - DRAGON - EAGLE - MOMOCIACIÀ | | pag. 68 |

A little rider has to enjoy a great bike. Growing, kilometre after kilometre, together with the bicycle. The Bianchi Junior range will accompany them from the age of 3 onwards, both on and off-road.

BORN FOR PERFORMANCE

"Race Ready"

# ROAD

**Born for Performance.** These bikes are very rigid yet light, they feature a racing geometry and are available with either carbon or alu-carbon frames. A versatility which reflects the personality of those who choose them.

## Technologies

CARBON MONOCOQUE

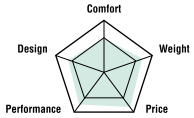

CARBON NANO TECH

UT55

BB30

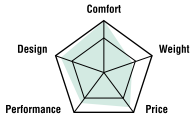

## sempre

Stiff frame, extremely reduced weight, competitive geometry: Sempre ("Always") is the perfect bicycle for versatile cyclists. Thanks to its monocoque carbon frame and the increased sections near the steering and the bb-set, it's precise and reactive to drive. Always.

## 1885

The year that "Edoardo Bianchi" created his workshop and a legacy. It is the name given to a model reflecting the spirit of it's origins but with up-to-date through advanced technology.

## Dolomiti

This word is enough to recall heroic feats, facing and overcoming impossible climbs. Feats to be repeated, maybe in the saddle of this model, with a steel frame using triple butted tubing, chromed lugs and a steel fork with a lugged fork crown and dropouts.

**The best on all roads**, whether tarmac, dirt or track. All the D2 bikes have select frames, special products for the specialists of cycle racing. From triathlon and time trials to the mud of cyclo-cross, up to the breathtaking thrills of the track. For true men, women and riders.

**Technology**

CARBON NANOTECH

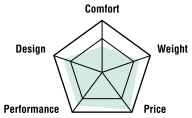

## PICO CRONO TRIATHLON CARBON

Carbon monocoque frame with Nano technology. A super rigid model, lightweight and aerodynamic, performing in all its' details. From the Super Aero full carbon fork weighing 450g to the oversized and perforated chain stays, up to the horizontal rear drop outs.

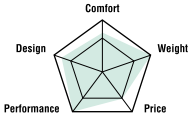

## CRONO TRIATHLON ALU

For fighting, and winning against the clock, in the saddle of an aerodynamic model with the frame made fully in aluminum alloy, with aero shaped tubing, featuring triathlon specific geometry.

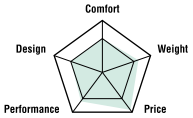

## CAVARIA CROSS CONCEPT CARBON

Specifically designed for cyclo-cross, it matches lightness and resistance. The frame is in carbon monocoque.

## ZURIGO CICLOCROSS AXIS ALU

An aluminium frame with butted tubing and specific tube profiles for cyclo-cross. Conceived to control vibrations and tame rough ground.

# OFF-ROAD MTB

**The latest in technology** as well as a geometry especially conceived to get a more comfortable position in the saddle, less extreme and more relaxed. Bicycles for those who are approaching the MTB world and want to do it in the right way.

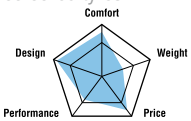

## KUMA

A triple butted aluminium frame with a geometry designed to feel immediately at ease in the saddle. No compromises, is fast and full of fun.

## Like Motard

A new bike concept, inspired from the Supermotard world. Great personality in every detail. A special frame with aggressive geometry for outmost fun, 2.35" coloured tyres.

## Duel 26"

Comfortable and elegant, a model for those who love to pedal without the obsession of competition, only chasing a pace, your own pace.

# T-ROAD

## CITY

**Practicality** with matching elegance. These are the main features of the T-Road models, with dedicated frames characterized by both classic and sports designs. But if you use a T-Road you will appreciate above all the reliability.

### VIALE ABRUZZI

The name recalls the first, historical Bianchi seat in Milan. Tradition and innovation, in a comfortable and versatile fully equipped bicycle, suitable for moving around in the city.

# S-ROAD

## CITY

**Nimbleness**, comfort and safety, with different geometries for both male and females, triple chainsets for easy pedalling and fully equipped with practical carriers and stands. For those who ride every day, and want to ride with style.

### SPILLO

In the Spillo range, we have the Diamante, Topazio, Brillante, Onice and Rubino versions which are not just a city bike, they are "the" city bike, a concept created by Bianchi in 1990. The idea is simple and brilliant: to put at an urban rider's disposal all the technology involved in the sport, with aluminium frame and with the infinite possibilities to change speed. And this is not all, the bike is fully equipped for daily use: a large carrier, protecting mudguards and lights for riding the bicycle at night in total safety.

### YARD 26"

Looks like the adult models but with geometry specifically for younger people. Design and colour with attention to new trends for the younger generations. All our bikes are tested to ensure quality and safety according to all norms within the industry.

# JUNIOR

**A little rider** has to enjoy a great bike. Growing, kilometre after kilometre, together with the bicycle. The Bianchi Junior range will accompany them from the age of 3 onwards, both on and off-road.

## JUNIOR 24" ALU

A champion's bicycle small in scale, with an aluminium frame and all Bianchi technology, for the first experiences on road.

## DUEL 24"/20"

A super sloping frame in aluminium with square section tubes, because little riders are not that little.

## YARD 24"/20"

Frames with the correct geometry and components developed specifically for the younger rider. Attention about safety, quality but, overall on design and colour.

## DRAGON 2/EAGLE 1

An indistructible frame, manoeuvrable and with a lot of fun in its DNA. For a game which has just only started.

## MOMO CIACIÀ 16"/12"

Special aluminium frames, dedicated components, total safety, because these bicycles are produced in compliance with strict regulations, and the greatest fun!
