

MCU Springs
(Available in 10 to 160 weight)

Thermoplastic Carbon Fiber Legs
(Ultra-light, Ultra-stiff, just plain Black!)

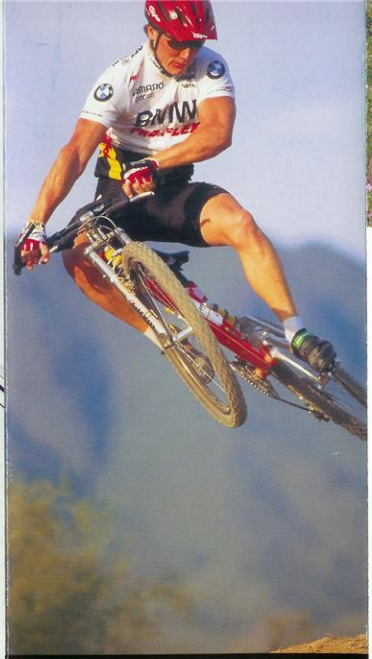

Upper Link Adapter
(Use any stem with your Vector 2)

Oil Damping System (ODS) Unit
(Available for 955, Animal, 855, 756 & Vector 2 Fork)

Forged Stem
(Anodized Silver, Blue, Red, 172g, Reach 115mm, 130mm, 145mm, Reversible Rise 10°/-10°)

PRO•FLEX®

 # 1 IN FULL SUSPENSION BIKES

Pro•Flex inventor and former Aerospace Engineer Bob Girvin knows the value of suspension. During the '80s, Bob rode his first mountain bike through the rocks, roots, and glacial debris of New England. Like many riders, he felt something was missing. An off-road motorcyclist and vintage automobile racer, Bob had experienced the benefits of suspension. He reasoned that a well designed suspension system would revolutionize mountain biking. The result of Bob's vision was born in 1990—the world's first mass produced full suspension bike.

At first, critics claimed full suspension mountain bikes were just a fad. No longer. This year people have tried Pro•Flex full suspension and become believers. In fact, *Popular Science* named the Pro•Flex 855 "The best new recreational product of the year." (December 1994), while *Mountain Biking Magazine* awarded the Pro•Flex 855 its "Suspension Bike of the Year" award.

Pro•Flex is the only active suspension design with Dig-In™. It's exclusive patented pivot location places the swingarm pivot on the chain line. A Pro•Flex stays plush and fully active in the middle and big rings, but will outclimb rigid and suspension bikes alike. What makes the difference? Patented Dig-In™ technology that pulls the rear wheel into the ground when climbing in granny gear.

Everyone is realizing what Bob Girvin believed all along—suspension is here to stay. Whether you're a racer or a part-time enthusiast, you'll have more fun on a Pro•Flex. Experience the difference for yourself. Test ride a Pro•Flex today and become a believer. Then the next time you float down a nasty trail in your neck of the woods, point your nose toward the East and give Bob a nod.

956LE

Front Suspension: GRIVEN €L fork with 2.5" ODS damped dual stage MCU travel, thermoplastic composite legs.
Rear Suspension: World Cup Series with 3.5" ODS damped dual stage MCU travel, External preload adjustment.
Frameset: Double butted Easton™ Varilite 7005 aluminum triangle, thermoplastic swingarm.
Wheels: HERSHEY 28/32 staked rod rims, MAVIC 217 Sunset rims, DT Revolution butted spokes, Nik anodized alloy nipples, CONTINENTAL Leader Pro Cross Country Ncelar tires.
Drivetrain: RITCHEY chpless Ti pedals, TOPLINE crank, 42/32/22 front—11/28 rear, 8-speed XT front, SRAM ESP rear derailleurs, Grip Shift SRT-900, SACHS chain, Action Tec Ti Attach Bracket.
Brakes: HERSHEY brake, FIXI, Love Levers
Saddle/Seatpost: SAN MARCO Concour Titanium rail, TAMER Carbon.
Handlebar/Stem: AVALON carbon bar, DIA COMPE Kontak carbitge headset, CONTROL TECH stem, GRIVIN forged alloy bar ends.
Color: Hand-polished finish, red and black highlights.
Sizes: 12-14, 16, 18, 20"

956

Front Suspension: GRIVIN AL fork with 2.5" ODS damped dual stage MCU (Nicrocellular Urethane) travel, Easton™ aluminum legs.
Rear Suspension: World Cup Series with 3.5" ODS damped dual stage MCU travel, External preload adjustment.
Frameset: Double butted Easton™ Varilite 7005 aluminum triangle, thermoplastic swingarm.
Wheels: SHIMANO XT 32 hole hubs, MAVIC 220 steel gray anodized rims, DT Revolution butted spokes, Black anodized alloy nipples, WTB Velocirapior kevlar tire.
Drivetrain: SHIMANO M505 clipless pedals, XT crank arms, 42/32/22 front—11/28 rear, 8-speed XT derailleurs, XT Rapidfire Plus, SACHS chain, Action-Tec XT cartridge bottom bracket.
Brakes: SHIMANO XT V-Brake.
Saddle/Seatpost: SAN MARCO Concour SYNCROS Aluminum.
Handlebar/Stem: Easton™ aluminum bar, DIA COMPE Kontak cartridge headset, CONTROL TECH stem, GRIVIN forged alloy bar ends.
Color: Hand-polished finish, red and black highlights.
Sizes: 12-14, 16, 18, 20"

Animal

Front Suspension: GRIVIN AL fork with 2.5" ODS damped dual stage MCU travel, aluminum legs.
Rear Suspension: World Cup Series with 3.5" ODS damped dual stage MCU travel, External preload adjustment.
Frameset: Double butted 7005 aluminum triangle, aluminum swingarm.
Wheels: SHIMANO LX 32 hole hubs, MAVIC 221 rims (HED wheels optional), DT Swiss stainless spokes, alloy nipples, WTB Velocirapior kevlar tire.
Drivetrain: RITCHEY clipless pedals, SUGINO Impul 500 crank arms, 42/32/22 front—11/28 rear, 8-speed XT derailleurs, GRIP SHIFT SRT-900 X-ray, SACHS chain, SHIMANO cartridge BB.
Brakes: MAGURA HS-22.
Saddle/Seatpost: SELLE SAN MARCO Concour, KALLOY aluminum
Handlebar/Stem: Aluminum bar, DIA-COMPE Kontak headset, GRIVEN forged stem, GRIVIN forged bar ends.
Color: Yellow to Blue Fade.
Sizes: 12-14, 16, 18, 20"

Beast

Front Suspension: GRIVEN AL fork with 2.5" ODS damped dual stage MCU travel, aluminum legs.
Rear Suspension: World Cup Series with 3.5" ODS damped dual stage MCU travel, External preload adjustment.
Frameset: Double butted 7005 aluminum triangle, aluminum swingarm.
Wheels: SHIMANO LX 32 hole hubs, MAVIC 221 rims, DT Swiss stainless spokes, WTB Primal Raptor tire.
Drivetrain: Tse clip pedals, SUGINO Impul 500 crank arms, 42/32/22 front—11/28 rear, 8-speed LX/XT derailleurs, GRIP SHIFT SRT-900, SACHS chain, SHIMANO cartridge bottom bracket.
Brakes: Magura Hydraulic.
Saddle/Seatpost: VITTA Torino mangsaner, KALLOY aluminum
Handlebar/Stem: Aluminum bar, DIA-COMPE headset, GRIVIN 2-position stem, GRIVIN forged bar ends.
Color: Blue Green Fade.
Sizes: 12-14, 16, 18, 20"

856

Front Suspension: GRIVIN AL fork with 2.5" ODS damped dual stage MCU travel, aluminum legs.
Rear Suspension: World Cup Series with 3.5" ODS damped dual stage MCU travel, External preload adjustment.
Frameset: Double butted 7005 aluminum triangle, aluminum swingarm.
Wheels: SHIMANO LX 32 hole hubs, MAVIC 220 rims, DT butted spokes, alloy nipples, WTB Velocirapior kevlar tire.
Drivetrain: RITCHEY clipless pedals, SUGINO Impul 500 crank arms, 42/32/22 front—11/28 rear, 8-speed XT derailleurs GORE-RIDE-ON shifter cables, GRIP SHIFT SRT-900 X-Ray, SACHS chain, SHIMANO cartridge BB.
Brakes: SHIMANO LX, DIA-COMPE Power Cam lever.
Saddle/Seatpost: SAN MARCO Concour, POLYGON aluminum
Handlebar/Stem: Aluminum bar, DIA-COMPE Kontak cartridge headset, GRIVIN forged 2-position stem, GRIVIN forged bar ends.
Color: Race Red or Titanium.
Sizes: 12-14, 16, 18, 20"
