AUSTRO-DAIMLER

A philosophy of dedication to engineering

AUSTRO-DAIMLER is the cycle marque dedicated to developing the ultimate in super-performance racing bicycles.

This is more than a manufacturing policy, it is an engineering philosophy which has grown and matured over more than 75 years.

In 1899 the ÖSTERREICHISCHE DAIMLER MOTOREN GESELLSCHAFT was founded in Vienna, capital city of the Austro-Habsburg monarchy and focal point of continental Europe.

Under the direction of Paul Daimler began the building of high performance luxury autos, the group's first products to carry the famous AUSTRO-DAIMLER marque of the golden bow and arrow. Many of Europe's glittering nobility were among the company's first customers.

In 1912 a brilliant young Austrian designer named Ferdinand Porsche joined the team at AUSTRO-DAIMLER as Chief Designer. This was the same engineering genius who later went on to create the Volkswagen Beetle and the Porsche sports car.

Under Porsche's design leadership AUSTRO-DAIMLER grew to international significance as a builder of high performance cars. In 1922 Porsche's AUSTRO-DAIMLER racing car Sascha won a sensational double victory in the gruelling seven day Targa Florio.

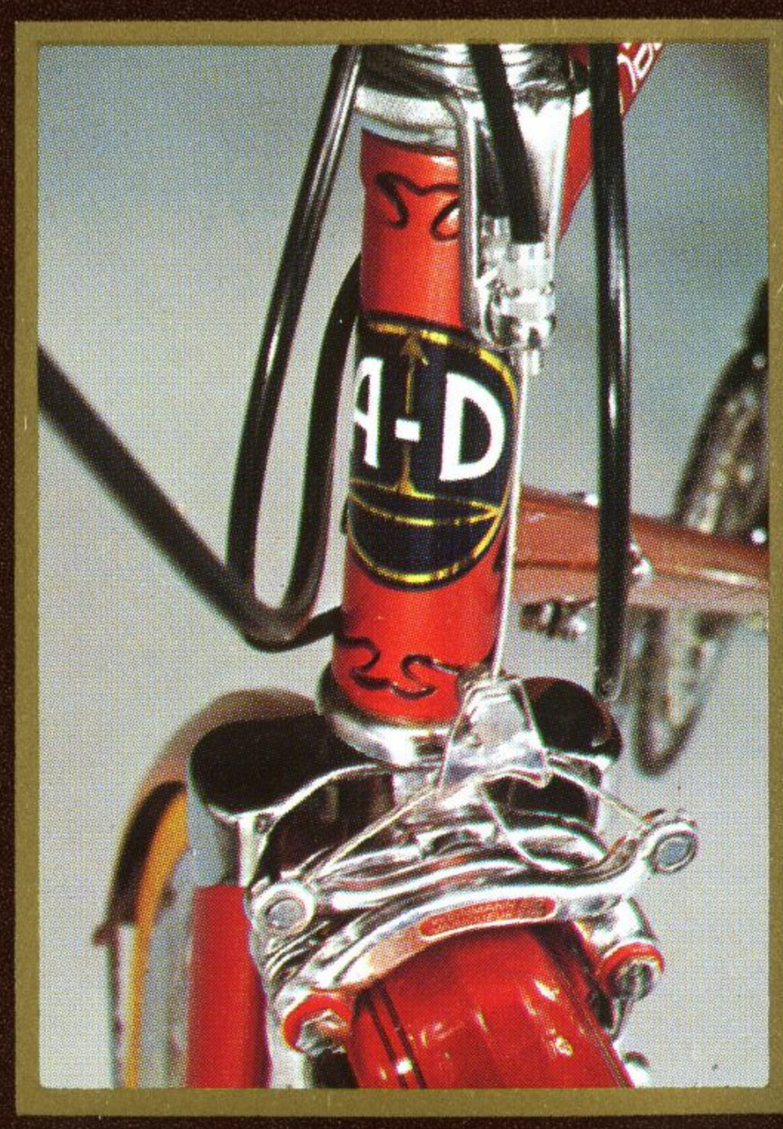

It was during this time that the young group developed the philosophy of dedication to engineering that has never varied:
The AUSTRO-DAIMLER philosophy.

AUSTRO-DAIMLER

A-D S

Frame: 21", 23", 25"
special A-D steel tubing
Fork: Sport
Crank set: Shimano light alloy
chain wheel: 39/52 T
pedals: Sheffield 656
Derailleur: Shimano Tourney GS
Brakes: Diacompe center-pull
Wheels: gum wall tires 27 x 1 1/4"
Handlebar: racing bar
Saddle: San Marco
Color: red
Also available in mixte frame version.
Color: red

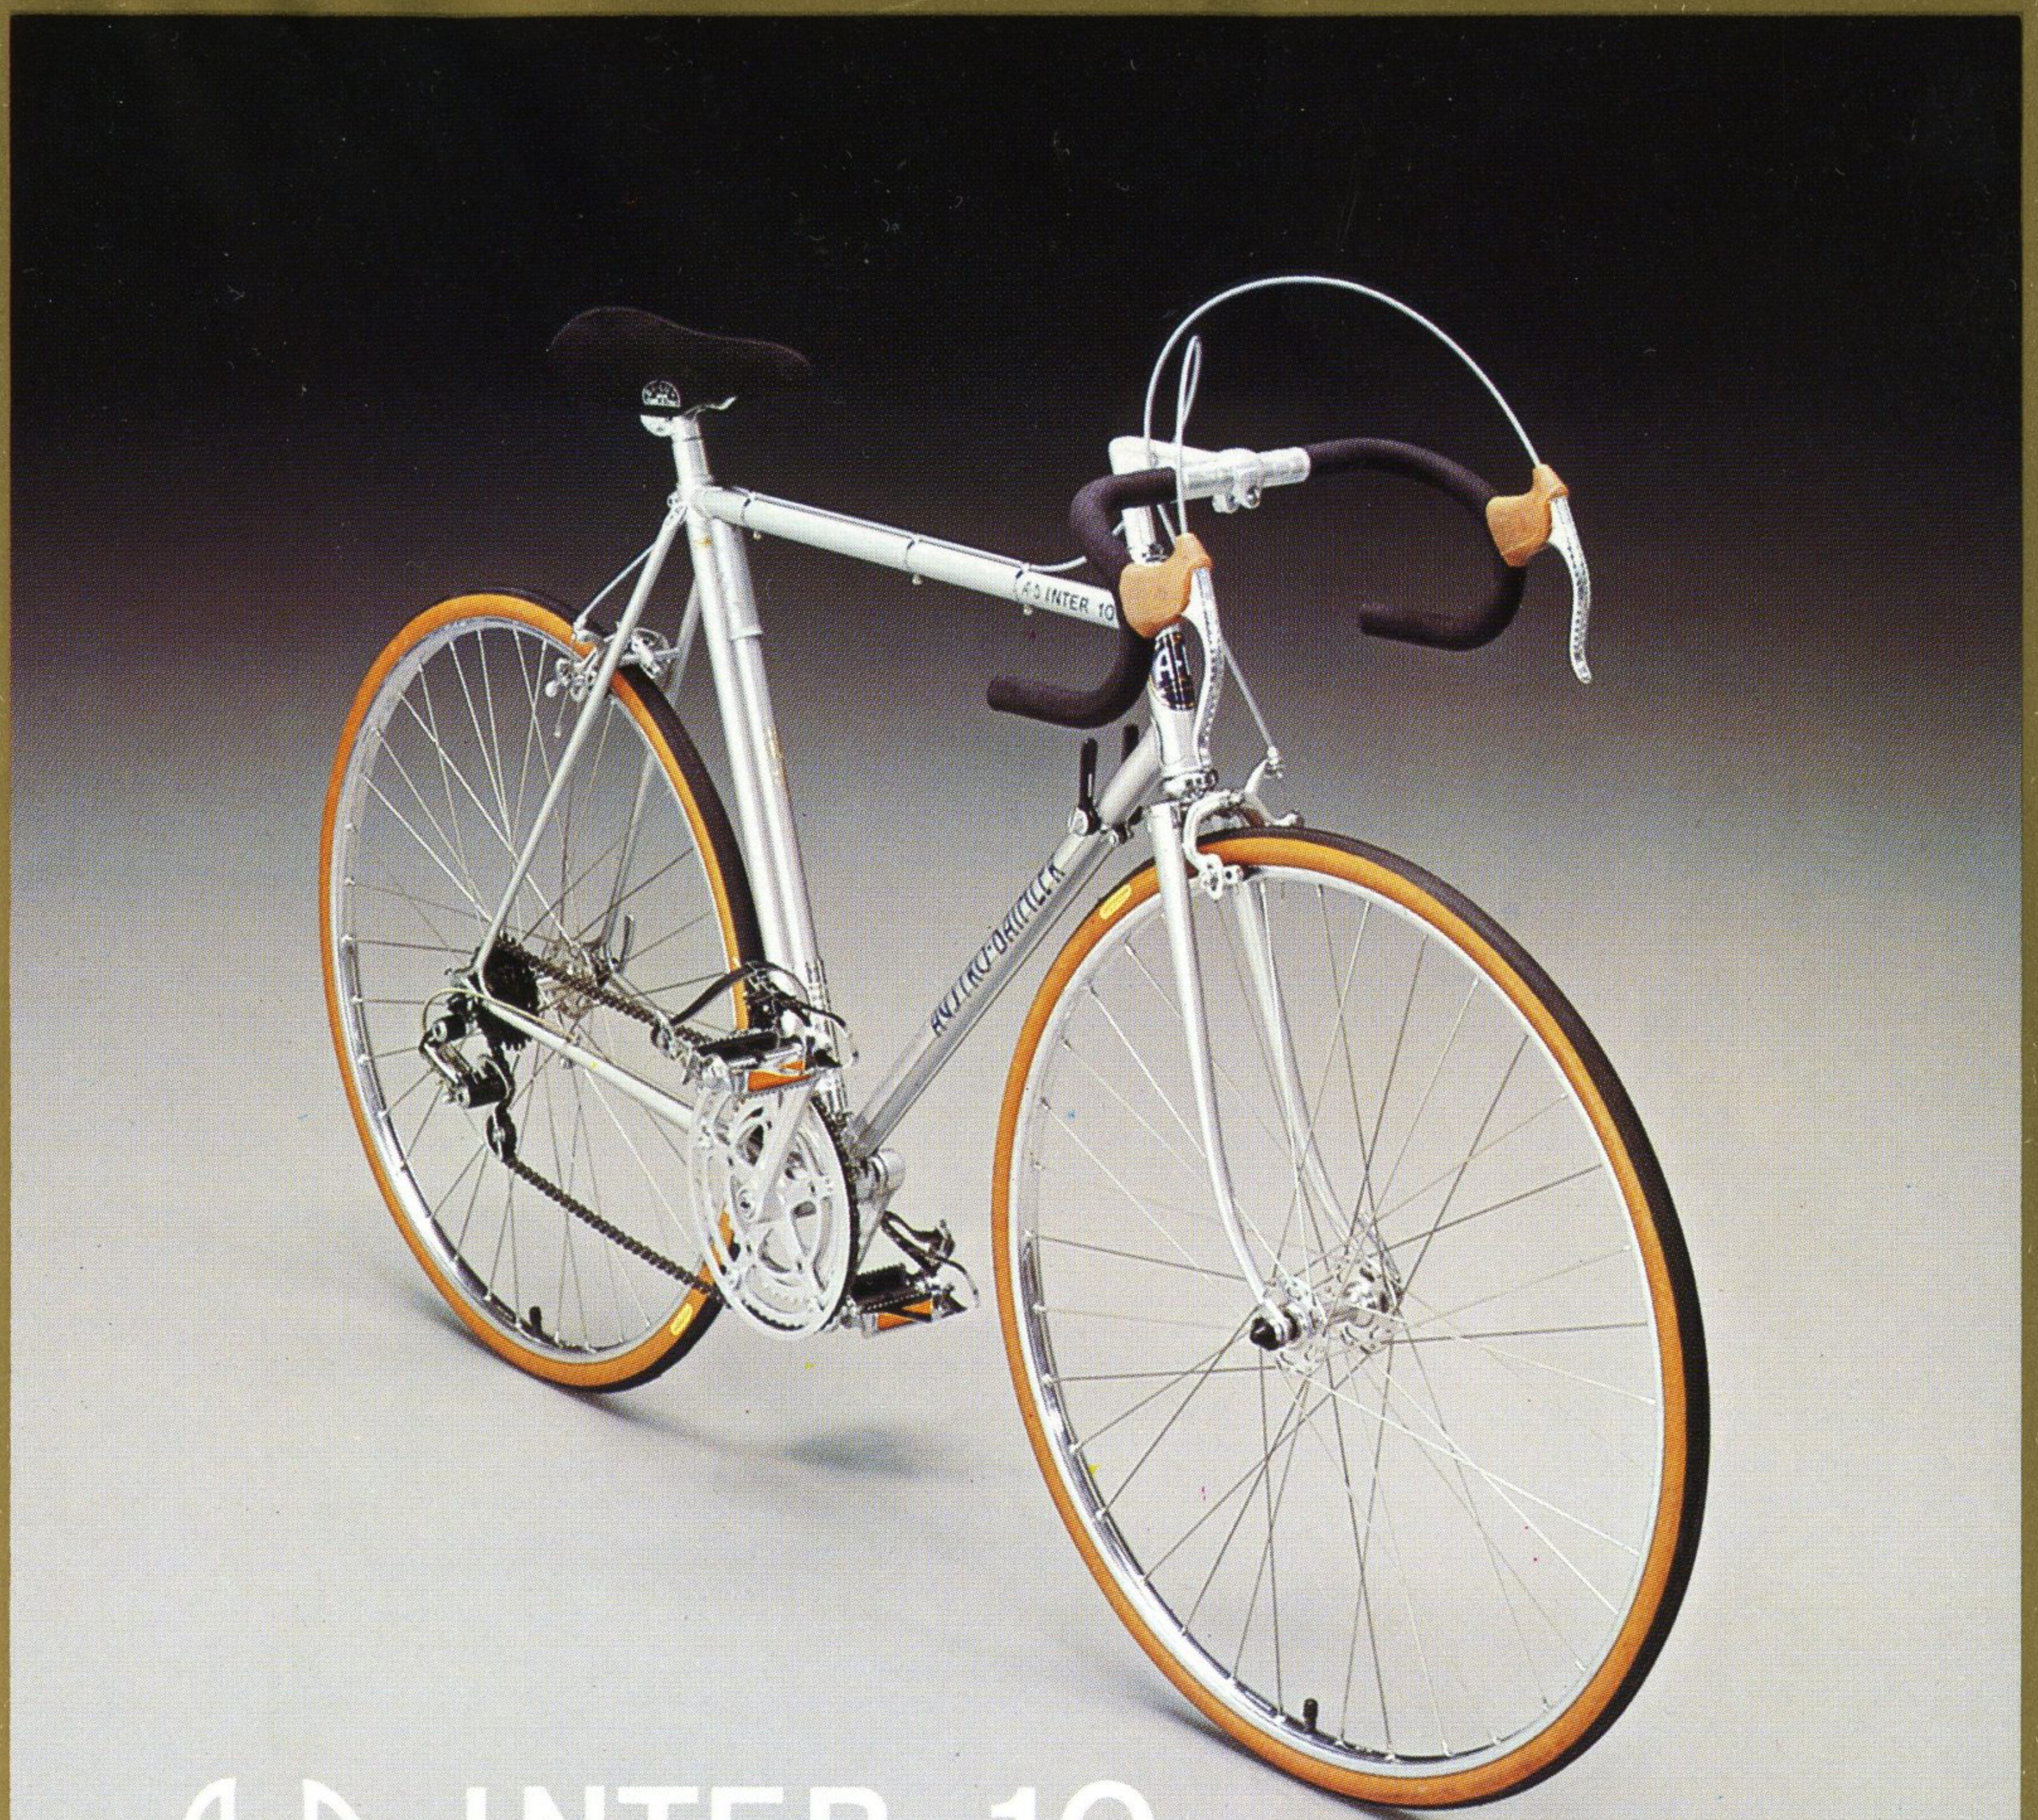

A·D SL

Frame:	21", 23", 25" special A-D steel tubing
Fork:	Sport, chromed ends
Crank set:	SR Apex 5 Racing chain wheel: 42/52 T pedals: Sheffield with clips and straps
