SPECIALIZED

SMART PRODUCTS 1997

Shimano XTR Rear Derailleur – ultimate shifting performance.

Manitou FS Ti Fork – stiff, light and very plush.

S-WORKS C3 FSR

The modular mix of high-strength Resin Transfer Molding (RTM) carbon and premier-grade A1 aluminum handle the unique stresses of full suspension with strength to spare. Internal baffling in the carbon boom increases torsional rigidity, beefed up attachment points increase stiffness and durability.

Resin Transfer Molding Carbon Fiber/Aluminum frame with FSR fully active suspension • Fox Shox Vanilla R-1 piggyback rear shock • Manitou FS Ti fork and Specialized STOUT front suspension hub • Shimano Deore XT/SL shifter/brake levers, XT/XTR derailleurs and XT V brakes • Team Control and Team Master Team Edition tires • Mavic 217 Sunset rims and Ritchey WCS spokes • Made in U.S.A. • Carbon

Hollow Bi-Conical Bridge – a few grams lighter, and stiffer.

Spear Gusset – for improved frame durability and dispersion of tension loads.

S-WORKS M2 TEAM FRAMESET

To create a bike that's a living extension of your body, you need to start with a strong genetic base. Combine this race-proven M2 XX Metal Matrix Composite tubeset and top-notch components with your favorite parts suite to create the fittest machine on the planet. Exclusively from Specialized

Legendary M2 XX Metal Matrix Composite frame construction • New team-approved Pro-Fit Elite geometry for increased front weight bias and quicker handling • Comes with an Aheadset, new M2 AheadStem and Ritchey seatpost • Made in the U.S.A. • Team Red or Dew Green

Team Red

Shimano XTR V Brake – ultimate brake technology, cold-forged with smooth ball bearing pivots.

Metal Matrix Stem – stiff positive connection for precise control, 20 percent stiffer, 8 percent stronger than conventional aluminum stems.

S-WORKS M2

The ultimate in cross-country bikes has just been redefined. The first complete S-Works machine combines the legendary stiffness and strength of our M2 XX frameset with a geometry designed for legendary riders.

M2 XX frameset with new Pro-Fit Elite geometry • New M2 AheadStem • Manitou SX Ti fork and Specialized STOUT front suspension hub • Shimano Deore XT/SL shifter/brake levers, XT/XTR derailleurs and XTR V brakes • Team Control and Team Master Team Edition tires • Mavic 217 Sunset rims and Ritchey WCS spokes • Ritchey Logic clipless pedals • Made in U.S.A. • Mango or Dew Green

Dew Green

Shimano XTR Rear Derailleur – ultimate shifting performance.

Specialized A-Link – allows independent function of drive train and suspension.

GROUND CONTROL FSR COMP

The FSR Comp has all the cool benefits of our M.A.X. BackBone extruded frame design, including 4.5 inches of plush, bump-eating rear wheel travel. It's wrapped up in a package chock-full of awesome components that define the state-of-the-art in off-road performance.

Rock Shox Judy XC with Long Travel internals • Custom FOX piggyback rear shock with adjustable damping • Shimano Deore XT/SL shifter/brake levers control the XT (front) and XTR (rear) derailleur • Deore XT V brakes • New M2 AheadStem • Specialized STOUT front suspension hub with integrated Skraxle (Skewer/Axle) • Specialized Team Control/Team Master Kevlar bead tires • New forged Son of StrongArm crank • Made in U.S.A. • Cosmic/Ano

GROUND CONTROL FSR

High speed and hard hits are what bring out this bike's true colors. Full M.A.X. BackBone extruded FSR design, over 4 inches of plush rear travel, and tons of top-line components make it a perfect choice for serious all-around riding on rough terrain. All conditions nirvana. Also available as a frame kit.

Rock Shox XC LT fork (85mm travel) • Custom FOX piggyback rear shock with adjustable damping • Shimano LX/SL shifter and Deore LX/XT derailleurs • Avid Single Digit brakes and levers • Specialized STOUT front suspension hub with integrated Skraxle (Skewer/Axle) • Specialized Team Control/Team Master Kevlar bead tires • New forged Son of StrongArm crank • Made in U.S.A. • Red/Ano

Reinforced Head Tube – adds amazing stiffness and strength.

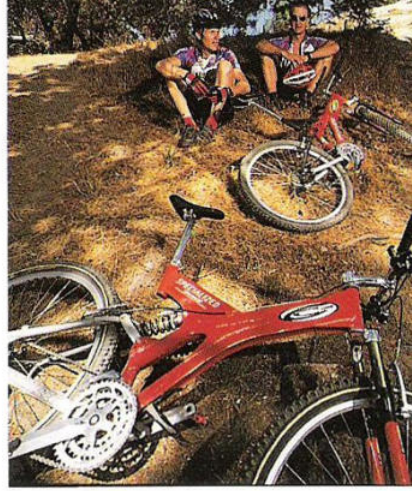

Rock Shox Delux adjustable, rebui able, very cool.

GROUND CONTROL FSR DHO FRAME KIT

For those of you who get a rush from riding with the assistance of gravity, the Ground Control FSR DHO frameset comes with all the essentials for pure downslope adrenaline.

Cutting-edge M.A.X. BackBone extrusion construction • Specially-tuned rear-end for the limited-edition Rock Shox DHO (Downhill Only) triple-clamp fork • Custom FOX piggyback rear shock with adjustable compression and rebound damping • M2 AheadStem and Aheadset • Specialized STOUT Hub with 20mm oversized axle • Specialized Fear Control and Fear Master downhill-specific tires • Made in U.S.A. • Red/Ano

GROUND CONTROL AIM A1 PRO

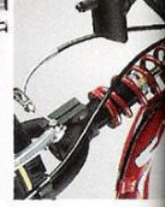

No fat here. Every component on this cross-country specialist is thoughtfully chosen for high performance training or competition riding. Specialized A1 Premium Aluminum frame and rear linkage team up with front and rear Rock Shox make this rig a winner.

Rock Shox Indy SL fork with superlight alloy stanchions and steerer • Shimano Deore LX/XT derailleurs and 24-speed drivetrain • Shimano Deore LX SL Rapidfire shifting and V brakes • Mavic 220 alloy rims with stainless butted spokes and alloy nipples • Specialized Team Control/Team Master Kevlar bead tires • New forged Son of StrongArm crank • Yellow/Black

Reinforced Head Tube – adds amazing stiffness and strength.

Rock Shox Delu adjustable, rebu able, very cool.

GROUND CONTROL AIM COMP

The Ground Control AIM COMP is an A1 Premium Aluminum chassis covered with comp-level components for a first-place feel and ride. Every part specifically chosen to match performance with your pocketbook and deliver no-compromise all conditions performance.

Rock Shox Indy XC fork • Shimano STX/Deore LX 24-speed drivetrain • Gripshift SRT-600 shifters • Ritchey clipless pedals • Dia-Compe VC-727 linear pull brakes with alloy DP-7 levers • Specialized Team Control/Team Master Kevlar bead tires • New forged Son of StrongArm crank • Red/Black

Shimano XTR Rear Derailleur – ultimate shifting performance.

Ritchey Spokes – 1.8|1.5|1.8mm spokes with gold alloy nipples.

STUMPJUMPER M2 PRO

One of the best bikes you can build without building it yourself. The StumpJumper M2 Pro. Designed around our team proven M2 Metal Matrix Ceramic Composite frame, the M2 Pro is fitted with components specifically chosen to for their weight, strength and performance. You couldn't build this bike for this price.

Microscopic view of M2 Metal Matrix Composite.

M2 X butted Metal Matrix Ceramic Composite chassis • Rock Shox Judy XC suspension fork with Specialized STOUT front hub • Shimano XT SL shifter|brake levers, XT|XTR derailleurs and XT V brakes • New forged Son of StrongArm crank and Ritchey Logic clipless pedals • ProLong Evolution hollow chromo leather|Kevlar saddle • Ritchey WCS 1.8|1.5|1.8 mm spokes with gold alloy nipples • Mavic 220 rims • Made in U.S.A. • Big Green

Avid Levers = excellent finger tip control = good modulation and comfort on long descents.

Rock Shox Judy XC Fork = terrain gobbling suspension.

STUMPJUMPER M2 COMP

Superlight, superstrong. This machine comes with all the components you ever dreamed of on a frame that can handle the punishment of thousands of waking hours on the trail.

M2 X butted Metal Matrix Ceramic Composite chassis • Rock Shox Judy XC suspension fork with Specialized STOUT front hub • Shimano Deore XT SL shifter, XT front and rear derailleurs • New forged Son of StrongArm crank and Ritchey Logic clipless pedals • Mavic 221 rims and Ritchey spokes • Avid cold-forged linear pull brakes with on-the-fly adjustable leverage levers • Made in U.S.A. • Black Eye

Specialized Stout Hub – huge increase in torsional rigidity improves steering response.

Manitou Pro Fork – new coil and MCU springs with Posi-Link one piece lower assembly. Extra stiff 28.6mm aluminum stantions.

STUMPJUMPER M2

This bike gets you race-ready with cash to spare. From tip to tail, the Stumpjumper M2 is fitted with carefully-chosen components, and like all the competition-bred Stumpjumpers, includes our 20% stiffer, 8% stronger M2 composite frame.

M2 X butted Metal Matrix Ceramic Composite chassis • Manitou Pro fork with coil/MCU-sprung suspension with Specialized STOUT front hub • Shimano Deore XT/Deore LX derailleurs and LX SL Rapidfire shifters • New forged Son of StrongArm crank • Avid "Single Digit" cold-forged linear pull brakes with Speed Dial brake levers • Specialized Team Control/Team Master Kevlar bead tires, Mavic 238 rims and Ritchey spokes • Made in U.S.A. • Red Eye or 2 Blue

2 Blue

STUMPJUMPER FS

One of the best bikes you can build without building it yourself. The StumpJumper M2 Pro. Designed around our team proven M2 Metal Matrix Ceramic Composite frame, the M2 Pro is fitted with components specifically chosen to for their weight, strength and performance. You couldn't build this bike for this price.

M2 X butted Metal Matrix Ceramic Composite chassis • Rock Shox Judy XC suspension fork with Specialized STOUT front hub • Shimano XT SL shifter/brake levers, XT/XTR derailleurs and XT V brakes • New forged Son of StrongArm crank and Ritchey Logic clipless pedals • ProLong Evolution hollow chromo leather/Kevlar saddle • Ritchey WCS 1.8/1.5/1.8 mm spokes with gold alloy nipples • Mavic 220 rims • Made in U.S.A. • Big Green

STUMPJUMPER

This bike gets you race-ready with cash to spare. From tip to tail, the Stumpjumper M2 is fitted with carefully-chosen components, and like all the competition-bred Stumpjumpers, includes our 20% stiffer, 8% stronger M2 composite frame.

M2 X butted Metal Matrix Ceramic Composite chassis • Manitou Pro fork with coil/MCU-sprung suspension with Specialized STOUT front hub • Shimano Deore XT/Deore LX derailleurs and LX SL Rapidfire shifters • New forged Son of StrongArm crank • Avid "Single Digit" cold-forged linear pull brakes with Speed Dial brake levers • Specialized Team Control/Team Master Kevlar bead tires, Mavic 238 rims and Ritchey spokes • Made in U.S.A. • Red Eye or 2 Blue

2 Blue

Shimano Deore LX Rear Derailleur – smooth shifting 8-speed performance.

Ritchey OCR Rim – new "off center" rear rim equals reduced dish for a stronger rear wheel.

ROCKHOPPER A1 COMP FS

Tops on the RockHopper hill, the A1 COMP FS comes with competition-quality components and an A1 Premium Aluminum framework. It's everything you'd expect from a top-of-the-line RockHopper.

Rock Shox Indy XC suspension fork • Gripshift SRT-600 24-speed shifters • Shimano STX/Deore LX 24-speed drivetrain with LX V brakes • Ritchey SCX box-section front rim, OCR "off-center" rear rim, Ritchey spokes and Specialized Team Control/Team Master Kevlar-beaded tires • Ritchey Force Lite 170g handlebar, Specialized forged alloy 10° stem • Polished

Polished

Shimano STX Rear Derailleur – great performance, easy shifting.

Dia-Compe VC-727 Brakes – linear pull for strong stopping power. Custom designed for Specialized.

ROCKHOPPER A1 FS

If you want suspension, but you're not quite sure how you want your racing career to proceed, you couldn't ask for a better bike to decide on. This bike comes with great componentry and an all-aluminum frame that's just aching to be ridden hard.

Specialized A1 Premium Aluminum frame with replaceable derailleur hanger • Rock Shox Indy C suspension fork • Gripshift SRT-400 shifters • Dia-Compe VC-727 linear pull brakes and DP-7 levers • Ritchey SCX severe condition double-wall alloy rims • Shimano STX/Alivio drivetrain • White or Dark Teal Satin

☐ White

Race tested gussetts same as found on our S-Works bikes add superior frame strength.

ROCKHOPPER A1

The same basic component setup as the base-model RockHopper, but with our great A1 Premium Aluminum frame. You get lots of cool components now, and a perfect opportunity to upgrade them as your skills improve.

Specialized A1 Premium Aluminum frame with replaceable derailleur hanger • Gripshift SRT-400 shifters • Shimano STX/Alivio 21-speed gearing • Dia-Compe VC-727 linear pull brakes and DP-7 levers • Ritchey SCX severe condition double-wall alloy rims • Specialized 17° rise forged alloy stem • Bright Blue or Cinnamon

Blue

ROCKHOPPER COMP FS

Steel is real and this rig delivers the unmistakeable fine tuned ride that few custom steel frames deliver. The 100% double-butted (.9/.6/.9) chromoly Direct Drive frame of the COMP FS is incredibly smooth and durable.

Rock Shox Indy XC suspension fork • Shimano STX/Deore LX 24-speed drivetrain with LX Rapidfire shift levers and V brakes • Ritchey SCX box-section front rim, OCR "off-center" rear rim, Ritchey forged dropouts, forged Son of StrongArm cranks, Specialized forged alloy 10° stem • Very Blue

"To have fun in the dirt, just like I did when I was a little squirt!"

Greg Sizemore

WHY DO YOU RIDE?

ROCKHOPPER COMP DirectDrive double-butted chromoly toughness. A great ride now and for years down the line.

Specialized DirectDrive "Light" double-butted chromoly frame with Ritchey forged offset dropouts
• Ritchey SCX severe condition box-section alloy rims • Shimano STX/Deore LX
• Specialized 10° rise forged alloy stem • Candy Red

Dia-Compe linear pull brakes for strong stopping power. Mounted on double taper stays.

Specialized Fast Fit forged alloy stem – a durable connection for positive steering control.

ROCKHOPPER

There's nothing stripped-down about this trail-eater. In fact, no matter what your level (income or riding experience) this bike is a great choice as you improve your skills in the hills.

Specialized DirectDrive "Light" double-butted chromoly frame with Ritchey forged offset dropouts • Gripshift SRT-400 shifters • Dia-Compe VC-727 linear pull brakes and DP-7 levers • Ritchey SCX severe condition double-wall alloy rims • Shimano STX/Alivio 21-speed gearing • Specialized 17° rise forged alloy stem • Team Red or Dark Blue

Dark Blue

Spear Gusset – for improved frame durability and dispersion of tension loads.

HARDROCK AX

When you jump from the steel-framed Hardrocks to the heat-treated 7005 aluminum frameset, you leave a lot of weight behind. The spear and butterfly gussets used on this frame come from technology developed for our high-end M2 composite frames to give you strength and stiffness that's quietly amazing.

Specialized heat-treated 7005 alloy frame • Shimano Alivio drivetrain • Specialized alloy handlebars • Specialized comfort performance saddle with embroidered logo • Specialized Fast Fit 24° rise stem • Araya GP-710 alloy rims with stainless spokes • Forged StrongArm Sport crank • Yellow or Team Red

Team Red

TopGun Elastomer Fork – 55mm of plush travel.

HARDROCK GX FS

Notice the "FS" in the name? It means "front suspension" and we're sure you'll notice it on any bike path you ride. With over 2" of travel on the front end, the HardRock GX FS will smooth out the bumps without sucking the energy from your legs.

Chromoly frame • Elastomer suspension fork with alloy preload adjustment • Gripshift SRX-170 • Shimano Acera-X/Alivio drivetrain • Weinmann alloy rims with stainless spokes • Specialized performance comfort saddle • Specialized Fast Fit 24° rise stem • Forged StrongArm Sport crank • Very Dark Blue or Dew Green

Dew Green

HARDROCK GX SPORT

The Hardrock line is all about choice, and there are a lot of reasons to choose this one. Great "sport" ride, high-quality parts, and legendary Specialized quality... It's almost selfish to want more.

Specialized DirectDrive Light Chromoly frame and fork • GripShift SRX-170 • Shimano Alivio drivetrain • Forged StrongArm Sport crank • Araya VP-20 alloy rims with stainless spokes • Specialized performance comfort saddle • Black or Green

[redacted] Green

Fast Fit Stem – a simple way to achieve perfect fit.

Specialized Strong Arm Crank – lightweight crank with removable chainrings.

HARDROCK GX

Pro-Fit Sport Geometry gives you a comfortable trail position. With our Direct Drive chromoly frame and fork, the GX is perfect for riders looking for a step up in performance, but just a baby-step up in price.

Specialized DirectDrive Light Chromoly frame and fork • GripShift SRX-170 • Shimano Acera-X/Alivio drivetrain • Specialized StrongArm Sport crankset with Shimano cartridge Bottom Bracket • Specialized lightweight alloy handlebar • Specialized Hardrock'R tires • Bright Blue Satin or Team Red

Team Red

"There's no bench
and I always have the ball."

J. Matthews

WHY DO YOU RIDE?

HARDROCK

To put it simply, there just isn't a better bike to help you discover the fun of cycling. Tough and sporty, it's a great bike for riders of all ages. Men's and Woman's frame styles available.

Gripshift MRX-170 shifters • Shimano Altus 21-speed drivetrain • Weinmann alloy rims • Specialized Soft Comfort saddle • Shimano brakes • Specialized Crossroads III tires • 24/34/42 alloy crankset with 11-28 Shimano cassette • Black, Yellow or Candy Red

Yellow Black

S-WORKS STRONGARM CRANK

This is the top – Both in construction and in looks. The Strongarm Crank is a lightweight, cold – forged crankset with a diamond section design. But looks aren't everything, performance is.

Diamond section shape and low Q factor for increased stiffness for direct power transmission • Cold-forged construction provides extremely high strength and low weight • 58/94 bolt circle works with HyperDrive C and other compact compatibility • 170 and 175 mm lengths, and high luster polish for a great, long-lasting finish • Rings not included

SON OF STRONGARM CRANKSET

The Son of StrongArm now incorporates forging in its manufacturing process, to further increase strength. Just like the original, but at a lower cost.

The same "Diamond Section" crank arm and webbed spider make it a super-stiff, efficient, and cool-looking • Forged aluminum construction • HyperDrive C compatible 58/94 bolt pattern • 170 and 175 mm crank arm lengths

SPECIALIZED STOUT FRONT SUSPENSION HUB

It's amazing how much we've learned about suspension forks and steering precision. No matter what your suspension set-up, the Stout Front Suspension Hub helps increase torsional rigidity for better steering.

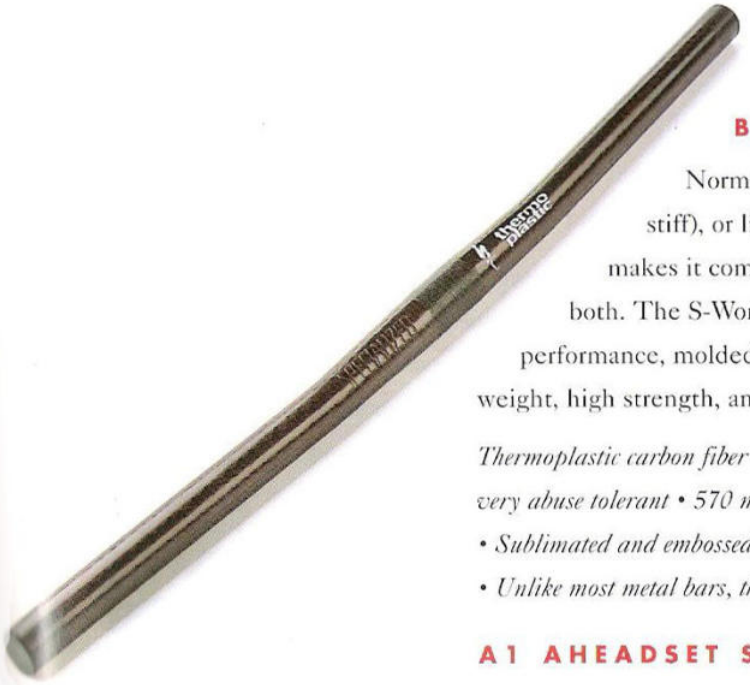

Integrated axle/QR (hollow 9 mm chromoly) for increased clamping force and torsional rigidity • Bomber 32 mm bearings-super long life, and smooth-rolling • Hard anodized-durable good looks • Laser-etched graphics

STRONGARM CHAINRINGS

Designed for riders who need rings for their StrongArm crank, or who need to replace 58 mm or 94 mm bolt circle rings. Our stainless inner rings are long-lasting, and all our rings are designed to reliably transfer power, and shift smoothly.

Available in 20, 22, 32, 42 and 44 tooth models • Stainless steel inner rings, hard ano middle rings.

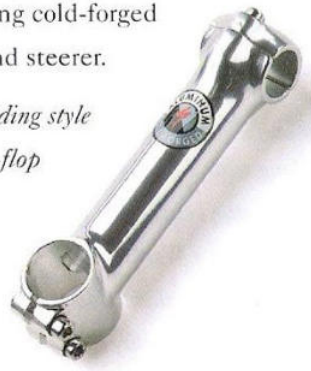

S-WORKS THERMO BAR

Normally, a bar is either strong (meaning stiff), or light (with controlled flex that makes it comfortable). This one has the best of both. The S-Works Thermo Bar is a high-performance, molded thermoplastic bar with low weight, high strength, and high abuse tolerance.

Thermoplastic carbon fiber construction – very light, very strong, very abuse tolerant • 570 mm length, 4° bend, great ergonomics
• Sublimated and embossed graphics for durable good-looks
• Unlike most metal bars, this thing loves bar ends (like Dirt Rodz)

A1 AHEADSET STEM

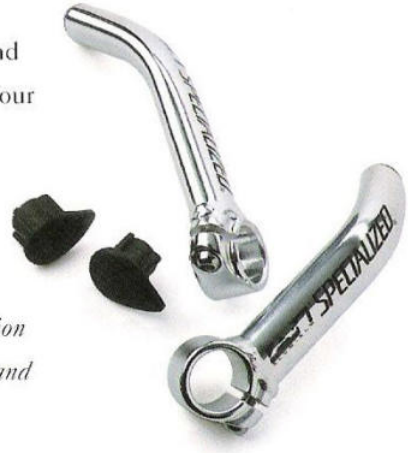

Stem length can make an incredible difference in how a bike fits. From beginners to racers, fine-tuning stem length is one of the best upgrades you can make. Our 1-1/8" Aheadset stems provide a stiff, strong cold-forged aluminum link between the bars and steerer.

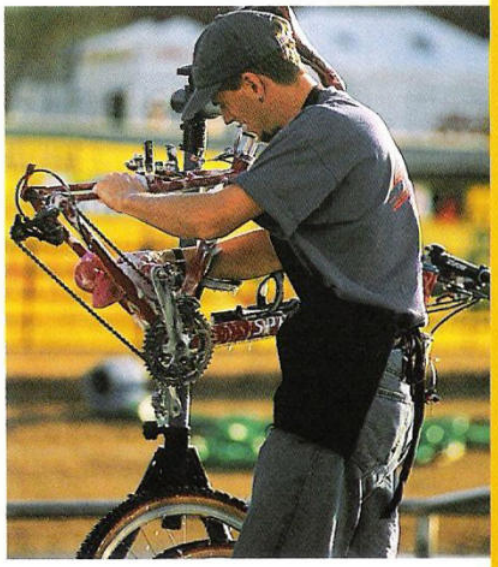

Multiple lengths and rises to fit your riding style
• Cold-forged, light, and strong • Flip-flop cable-two stems in one • Double bolt cap for easy bar/stem changes
• High polish finish

A1 DIRT RODZ

These are everything a bar end should be – function-first, lightweight, and ergonomic. They've got a cool teardrop shape that's comfortable, even during long rides, and they'll definitely add to your climbing performance.

Ergonomic teardrop shape for maximum comfort and minimum weight
• Light aluminum construction
• Colors: Black, Blue, Red and Silver Anodized
