Fatboy

FATBOY EXPERT

Built for the long haul, the Fatboy Expert is crafted from 100% chromoly; frame, fork, bars and cranks. Full performance, with the added assurance of durable chromoly steel for the ham-fisted times of too much air in the early part of a learning curve.

FATBOY

BMX 101. The ultimate starter bike, TIG welded chromoly main frame, the Fatboy comes ready for trails or track. Decked out with Tektro brakes front and rear, with alloy wheels and a real tough seat and alloy seatpost, it's a first bike that might well outlast your next two or three.

CHROMOLY CRANKSET

BMX

Think of it as concentrated bicycling. In the space of about a minute, a good BMXer can pull more moves and do more damage than most any allegedly hardcore mountain biker could expect to do in a hard three hour ride. We utilize all the knowledge gleaned from over two decades in the bike building game and combine it with some awesome manufacturing and technological prowess.

SPECIALIZED

FATBOY A1 PRO

Fatboy

Make it Strong. Make it Fast. Make it Stiff. Make it Light. Not an easy combination of ingredients to pull off, but we did it. A full pro-quality bike with an alloy frame and chromoly fork, direct pull brake, sealed bearing hubs, three piece chromoly cranks, and lots of flames. All it needs is a pair of legs.

FATBOY A1

Our A1 aluminum frame and a pair of alloy wheels make for a quick and nimble bike which might be one of the quickest ways between points A and B. Faster, you might say, than the speed of light.

FATBOY A1 CRUISER

Big, tough, and crafted from an expanse of aluminum, our cruiser is anything but laid back. With 24" wheels, good for railing berms and trail

FLYBOY

Built just for those whose adrenal glands don't function normally, the Flyboy is made to do just what its name implies. Big Air. Dirt. Loong Grinds. A chromoly frame that's overbuilt, to say the least, is bedecked with 48 hole alloy wheels and Chubby hubs, a stubby saddle, an SST detangler for bar spinning fun, flatland tires, knobby tires, and big, chromed, axle pegs. Not for the weak-armed or fainthearted.
