**CHAPARRAL JR.**

**CHAPARRAL**

Hold on, the Chaparral will move like no other bicycle in its class. Available in both 26" and 24" wheel sizes.

Sport riding goes one step further with the Puch Criterium. Fast touring and club racing are just some of your options.

At 10,000 feet or sea level, this bicycle will perform. The Durango features Suntour Accu-Shift derailleurs, pully stem and rear U-brake.

## WORLD CLASS WHEELS

Introducing the 1988 line of Puch bicycles. These models are examples of our unrelenting committment to bring you the best any bicycle has to offer, at a price no one can match. Everyone from road racers to off-road warriors will appreciate the skill and dedication brought together to produce these remarkable bicycles. Our competition bicycles are bred with the souls of champions. Each one crafted to perform at maximum capacity. For those of you who take sport cycling seriously, try one of our performance models. Everything you need rolled into one agile machine. Our mountain bicycles give any cyclist the ability to soar over canyons, climb cliffs and snub pot holes. Test ride a Puch today, see for yourself what a well engineered machine can do for you. But be careful, you may just have to take one home.

## FORCE II

Choose your race! The toughest course is no problem with the triple butted, chrome-moly frame and Shimano 105 components featured on the Force II.

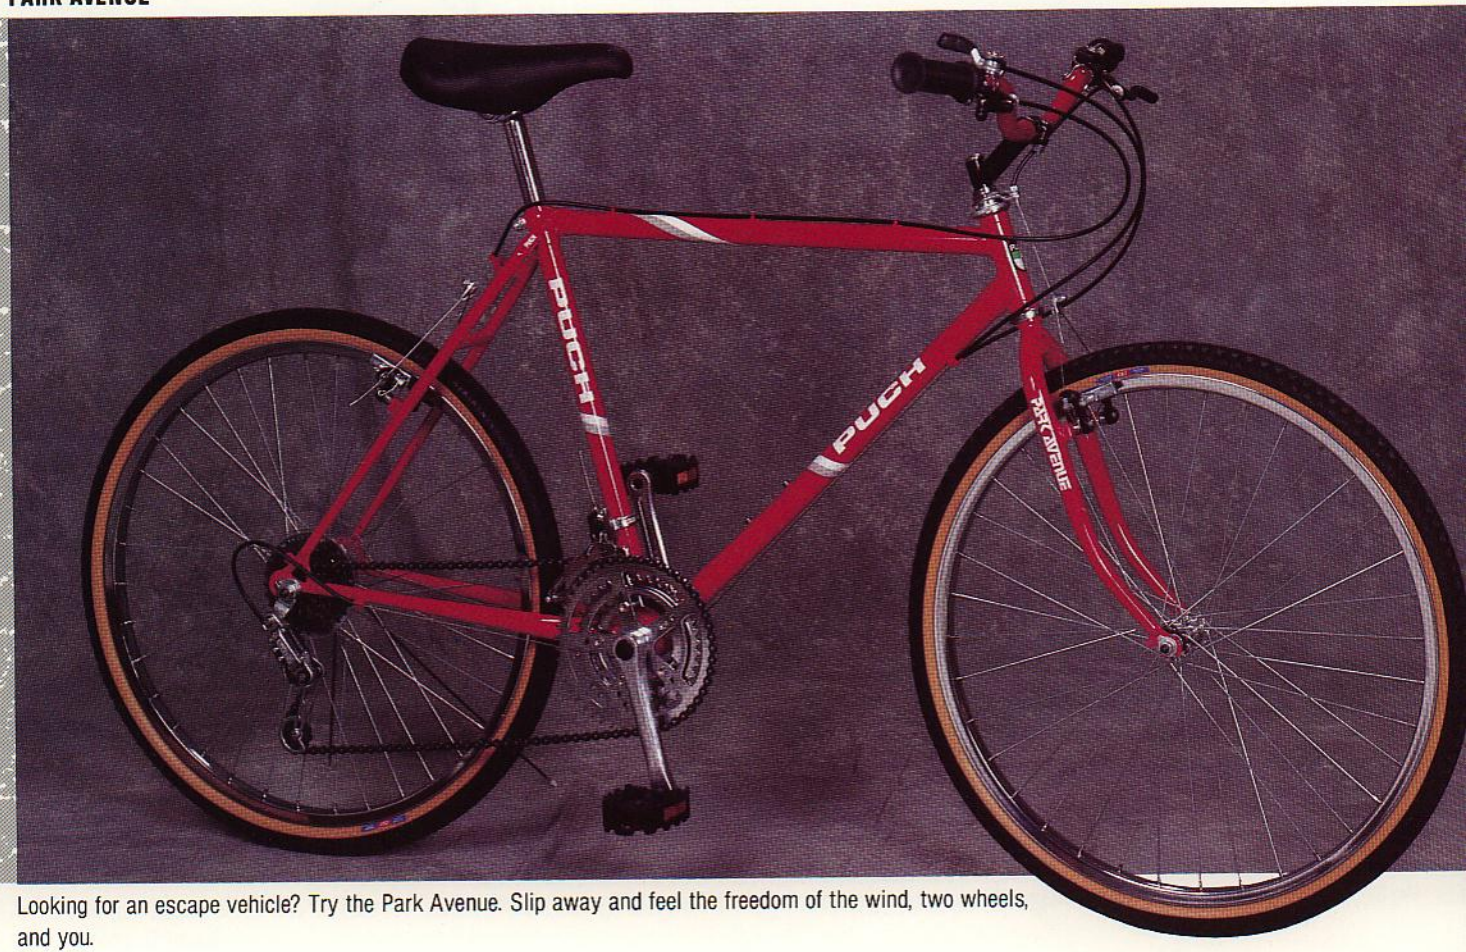

Simply an excellent bicycle at an excellent price. The race proven frame geometry and Shimano A-450 components make the Laser fly.

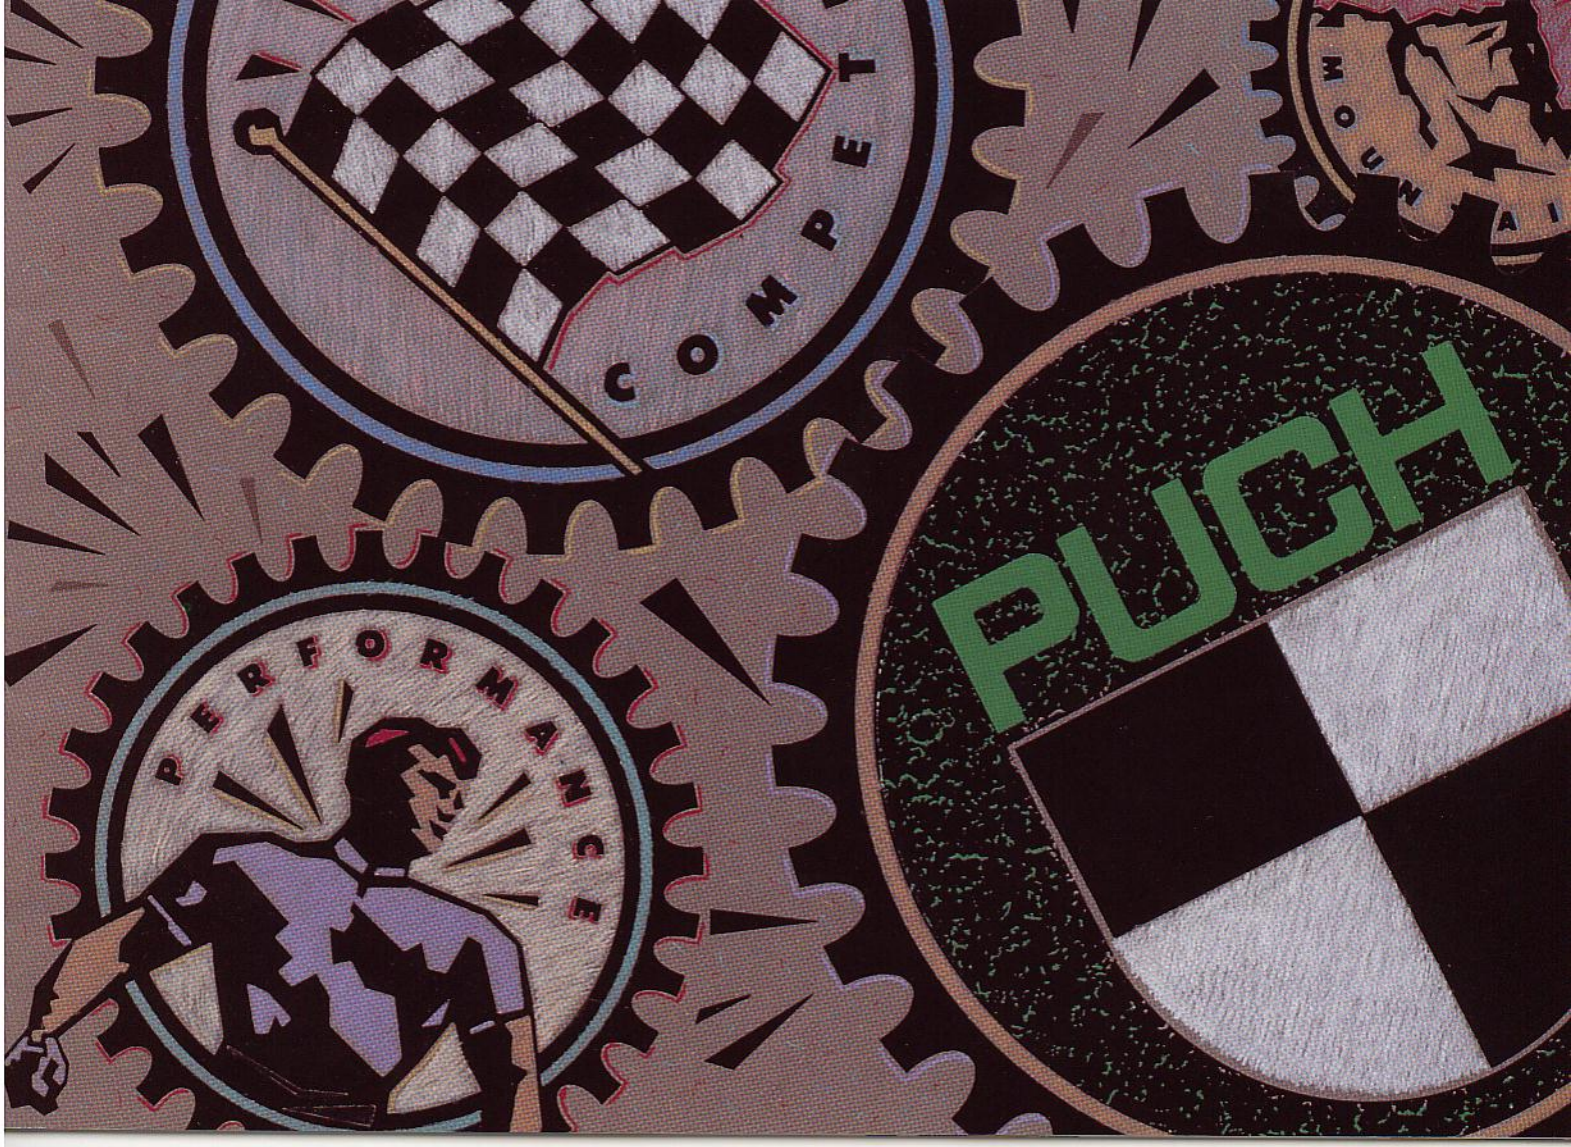

**ODYSSEY** **CENTURY**

Sophisticated features like front quick release hub, anatomic saddle and cushion grips set these bicycles apart from the imitations.

Looking for an escape vehicle? Try the Park Avenue. Slip away and feel the freedom of the wind, two wheels, and you.
