Dear Shop Owners and Clients,

I am very proud of Ten Speed Drive Imports new catalog and know you will find it informative and exciting. Cycling has come a long way since I entered the business in 1971. Many more serious athletes are riding bicycles than ever before. Competitive cycling events are gaining national recognition and television coverage. A professional class is developing in the U.S. as well as our amateurs becoming internationally competitive.

Ever since I attended my first Milan Bicycle Exhibition I have been committed to importing and distributing the finest cycling equipment in the world today. This equipment is undisputably Italian.

Ten Speed Drive Imports sells quality products - Campagnolo, Cinelli, Columbus, Guerciotti, Vittoria, Ambrosio, CIÖCC and others - the most respected names in the cycling industry. Working closely with these firms for many years I have developed a strong business relationship insuring availability at the most competitive prices.

Our frames and bicycles are always professionally prepared by our full time mechanic – a service offered only by our company. This allows you to customize your bicycle orders as well as feel 100% confident of every frame or bicycle you buy from Ten Speed Drive Imports.

I hope you will enjoy your "giro" through the catalog and use it as an aide in promoting competitive cycling in our country.

I remain Yours in cycling,

Thomas Eason Jr.

Thomas A. Eason, Jr. President

GUERCIOTTI BICYCLES

Ten Speed Drive Imports has designed the new Guerciotti line with performance, function and elegance as our uncompromising goal. We are proud to be the exclusive Importer and Distributor of the bicycles America and the world has looked to as "the epitome of the all around road racing bicycle." (Bicycling Magazine, July 1982.)

VIP Combinations
A beautiful, functional Handlebar, Stem, Saddle and Spare Tire Bag Group. Cinelli selects garment quality water buffalo hide to cover the model 64 handlebar giving maximum comfort and luxury and attaches the 1/R Record Stem. Then using the same pelt to insure an exact match, Cinelli covers the patented mod L Ultra Light Saddle and completes the decor with a Spare Tubular Tire Carrier. Available from Ten Speed Drive Imports in Royal Blue, Black (Grigio Topo), and Beige (Sabbia).

Cinelli Home Rollers –
Precision bearings allow a silence expected from the "state of the art" home roller. The barrels are machined for perfect stability. A true winter training tool to help those needed bike handling skills.

CINELLI S.P.A.

The state of the art designers and manufacturers of bicycles, component parts and accessories used by World Champions such as Eddie Merckx and Bernard Hinault.

Handlebars
The ultimate design and quality production. Made of durable aluminum alloy. Available in four road models including the new model 65 anatomic and one track model.

Stems
The finest stems in the world today.
MODEL 1/A - Road alloy stem available in 22.2Ø and 22.Ø (French) in sizes from 70mm - 140mm with half sizes from 90mm - 120mm.
MODEL 1/R Record - The state of the industry stem. Available in both 22.2Ø and 22.Ø with a choice of a Satin Silver or Black Anodized finish. (22.Ø in Silver only.)
MODEL 2/A Track - A shallower angle alloy stem than the 1/A. Designed for maximum leverage and efficiency on the track. Available in 22.2Ø in Black and Silver.

Handlebar Accessories
CINELLI HANDLEBAR PLUGS - Plastic flexible caps. They look great on the bike. Available in Red, Blue, Black and White.
SILCA HANDLEBAR PLUGS - Chrome plated plastic end plugs.
BIKE RIBBON - A classy handlebar wrap with a perforated, lightly padded and glued backing for easy installation. One bag covers a complete bar. Available in Pearl White, Metallic Blue, Anthracite, Pearl Red, Metallic Silver, Black and Metallic Gold.

Saddles
The first saddle manufacturer to use RILSAN™ material for the shell and a variable thickness for the correct stiffness and comfort.
#3 NITOR TOUR de FRANCE - A classic saddle made of only the finest materials including the highest quality buffalo hide covering. Now available with sculptured styling in Black, Royal Blue, and Beige.
#4 NITOR TOUR de FRANCE - The same styling and design as the #3 but covered with a smooth leather hide instead of buffalo.
MOD L ULTRALIGHT - Featuring Cinelli's newly patented cage support system. Superb quality materials and craftsmanship make this Cinelli's top of the line saddle. Available with all VIP units as well as individually in Black buffalo hide.
MOD 55 TRACK SADDLE - A perfectly designed shell made of RILSAN™. Available in Blue and Yellow. (Not pictured.)

VITTORIA TUBULAR TIRES

A prestigious line of tubulars selected by professional and amateur teams in the United States and throughout the world including 22 out of 33 European professional teams.

Tubular Tires
MONDIALE - 290 gm Cotton Training Tire. Mixed tread offers wet road adherence. The butyl inner tube holds air pressure and prevents flats. Economically priced.
NEW SPECIAL PRO - 230 gm Cotton Racing/ Training Tubular. Special rubber insures great road adherence. The latex inner tube lightens the tire to a race weight. Priced like a training tire.
CORSA CX - 240gm Cotton Handmade Racing Tubular. Special mixed tread offers low rolling resistance, yet perfect, road adherence in all conditions. The competitor's choice.
CORSA CG - 240gm Cotton Handmade Racing Tubular. Mixed herringbone/rib tread allows super wear and road grip.
PAVE CG - 290gm Cotton Handmade Racing and Training Tubular. An extremely strong tire recommended for uneven, difficult roads. The wider cross section gives greater comfort and durability.
PISTA CS - 150gm Cotton Handmade Track Racing Tubular. A special, smooth tread gives excellent adhesion and low rolling resistance for those incredible sprints and pursuits. Designed for hard tracks.

Vittoria Wheel Covers
An attractive wheel cover necessary for the protection of special wheels.

Vittoria Valve Assembly
Spare valve assemblies are available.

CLEMENT TUBULAR TIRES

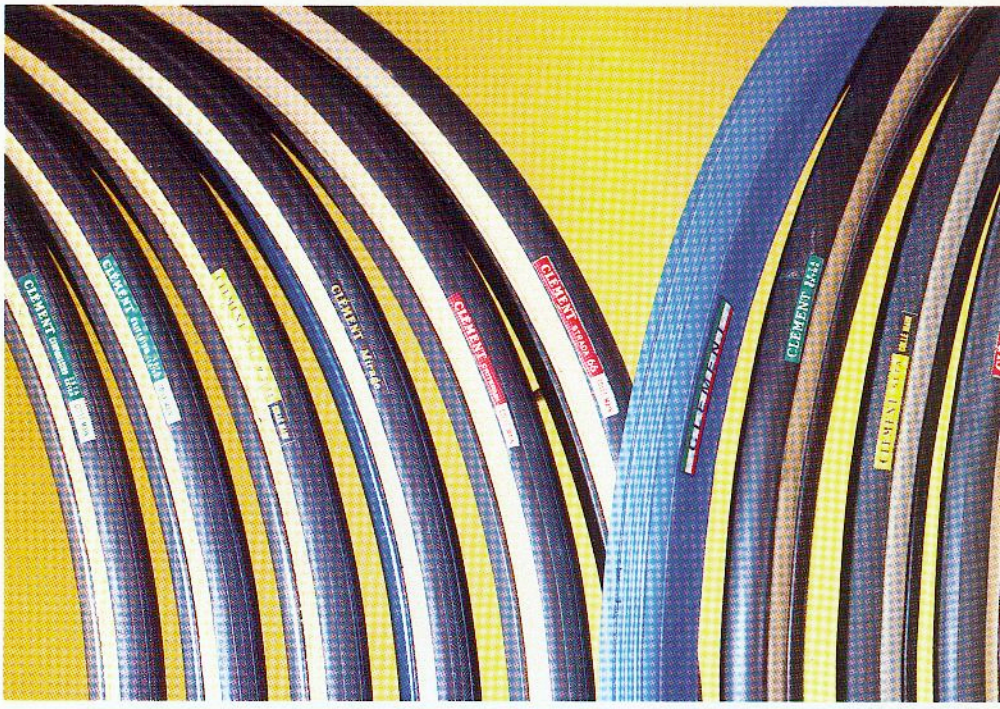

Chosen by World Champions since 1911 with a current production based on the highest technology due to continuous testing and field experience by the most prestigious racing teams in Europe and the United States.

Training Road Tubulars
Economically priced with Excellent Characteristics.
2001 CF - Clement's newest model. 250gm Cotton with a revolutionary seamless design. A special tread insures extra durability. A very true tire with a mixed tread pattern.
CONDOR - 300gm Cotton with a narrow section and a casing made of special durable material and a butyl inner tube.
SUPER CONDOR - 270gm Cotton with the same characteristics as the Condor but with a latex butyl inner tube that gives the comfort of natural latex and the air tightness of the butyl tube.
RITMO - 255gm Cotton. Mixed tread for reduced rolling resistance and the latex butyl tube for the comfortable, air tight characteristic desired by cyclists throughout the world.

Handmade Road Racing Tubulars
Cotton and Silk.
#1 BIS CRITERIUM SETA EXTRA - 190gm Silk tire with beesnest tread. Designed for very special time trials or road races where every advantage is important. Silk allows high air pressure but still insures the flexibility needed for cornering. Also available in 210gm with mixed tread more suitable for road racing.
GRINTA - 260gm Special Rain Tire made of the new Clemetex™ and a sculptured tread pattern designed to hold the road during the worst conditions.
#6 CRITERIUM SETA - 240gm Silk handmade with mixed tread. Clement's most popular silk racing tire used for all types of road racing.
#13 CAMPIONATO del MONDO SET - 280gm Silk handmade with a ribbed tread designed for the most difficult road surfaces. The section is wider and the tread is large enough to cover part of the casing to prevent damage.
#12 BIS STRADA 66 - 245gm Cotton handmade with a beesnest tread designed for smooth, dry roads. A great criterium tire.
#12 BIS CRITERIUM COTTON - 250gm Cotton handmade with a mixed tread. This is the best cotton tubular for road races in all conditions including wet roads.
MIRAGE - 240gm Cotton handmade with a mixed tread but with the new Clemetex™ rubber for lower rolling resistance.

Special Track Tubulars
140psi - 160psi
#1 PISTA SETA EXTRA - 145gm Silk handmade with a fine point tread for cement and board tracks. The inner tube is the finest latex.
#3 PISTA SETA - 175gm Silk handmade with a fine point tread great for cement tracks. America's most popular track tubular.
#8 SIX DAY - 190gm Cotton handmade with a fine point tread designed for six-day races. A great all around track tire.

Clement Glues and Solutions
TRACK GLUE - Box of 12 tubes insuring perfect rim tire adherence.
ROAD GLUE - Box of 12 tubes, 100gm tin and 500gm shop tin. The best road glue available.
SPECIAL PATCHING SOLUTION - Box of 12 tubes specially made to patch tubular tires.

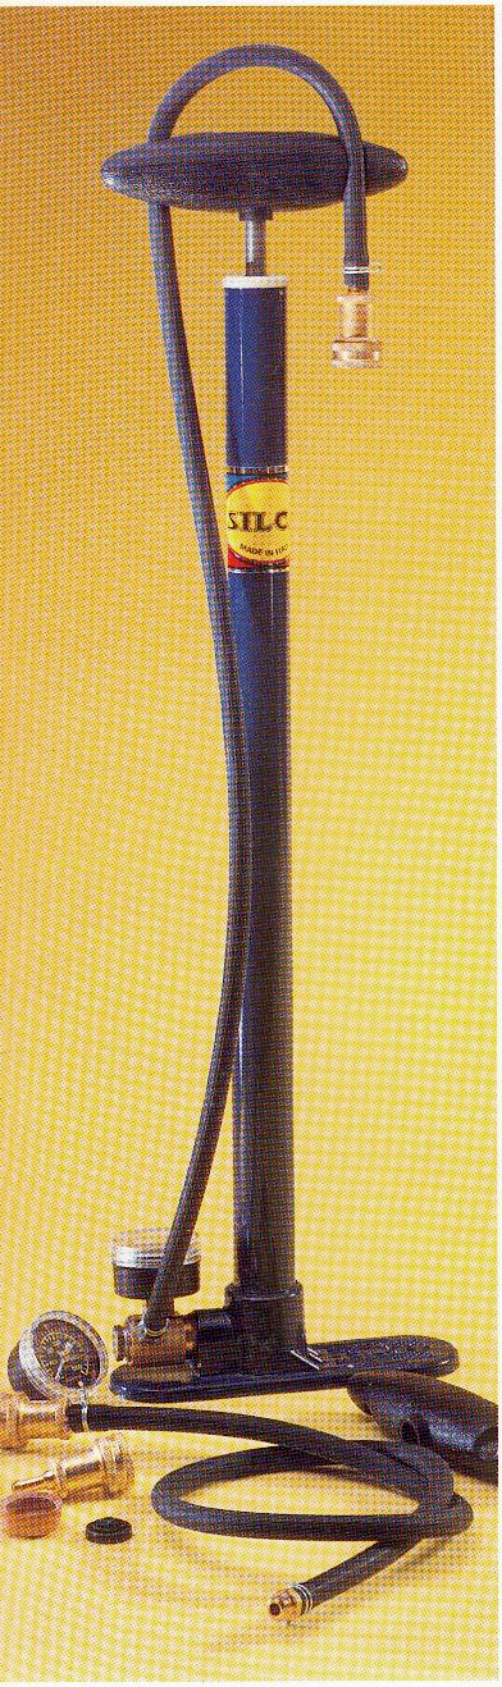

Clement Wheel Covers
VULCANIZED WHEEL COVER - The very popular blue wheel covers necessary to protect your wheels.

Clincher Tires
GENTLEMAN CLINCHER has a limited production of top quality cotton clincher tires with a vulcanized herringbone tread pattern. Available in 27x1 1/8, 700c and 24x1 1/8 for the midget racer.

Valve Assembly
Spare valves are available in cards.

Pumps

ART 72.11 FRAME FIT PUMPS - The most popular presta valve pump in the market. Ten Speed Drive Imports stocks a complete selection of colors and pump sizes from 400mm-560mm. Our color selection includes Black, White, Red, Blue, Yellow, Silver and Champagne. The pumps are also available in a special Chrome finish in sizes 460mm - 560mm.

ART 73 SILCA HIGH PRESSURE FLOOR PUMP - The famous floor pump seen at every major cycling event throughout the world. Able to attain pressures in excess of 200 psi along with their oversize brass air chuck. Completely rebuildable. Available in Black, Dark Blue, and Orange.

Ten Speed Drive Imports has a complete selection of replacement parts to rebuild both the frame pumps and floor pumps.

Pump Heads and Replacement Parts

ART 323	- The fine plastic presta valve head for frame fit pumps.
ART 330	- A new plastic schraeder valve head.
ART 323/1	- Rubber washer for art 323.
ART 323/2	- Plastic nut for 323.
ART 500/1	- Leather washer for frame fit pump.
ART 24	- The famous brass chuck for art 73.
ART 24/1	- Rubber washer for art 24.
ART 24/2	- Pump hose with brass chuck for art 73.
ART 73/1	- Leather washer for art 73.
ART 73/2	- Pump handle for art 73.
ART 73/3	- Nylon plunger guide for art 73.
ART 73/4	- Pressure gauge.
ART 73/5	- Gauge glass cover.

AMBROSIO RIMS

America's most popular rim known for quality and reliability. Chosen by Lon Haldeman for his '81, '82 and '83 Trans America Records.

Clincher Rims

MOD ELITE DUREX - 420gm Heat Treated grey clincher rim. The industry's first Heat Treated clincher and our most popular rim. Very strong. Great for training, touring, sport riding and tandem riding. Available in 27" 36° and 48°, 700c 32°, 36° and 48° and now the new 24" Elite DUREX midget racer in 36°.

MOD ELITE - The same tubular sectioned clincher rim as the DUREX Elite but in an anodized finish only in Black and Silver. Available 27", 700c, and 24" in 36° only.

MOD OFF ROAD DUREX - Our new 26 x 1.75 Heat Treated off road clincher. Available in 36° only in Grey. Incredibly strong!

MOD ELITE AERO DUREX - 420gm Heat Treated grey aerodynamic clincher rim designed for sport riding and training. The aero shape adds extra strength to the clincher and allows less air resistance. An extended valve and a spoke nipple tool are supplied. Available in 27" and 700c in 36° and 32°.

Special Road Racing Rims

MOD MONTREAL DUREX - 400gm Heat Treated grey rim. New 21.5mm wide box construction adding extra strength to this already durable rim. Available in 28°, 32°, 36°.

MOD CRONO DUREX - 320gm Heated Treated grey rim designed for road racing and time trailing on good surfaces. The same shape as the Montreal but with the metallurgy of the incredibly strong Metamorphosis. Available in 28°, 32° and 36°.

MOD SYNTHESIS DUREX PRO - 400gm Heat Treated grey rim especially designed for road racing in all types of surfaces. 22mm wide with specially threaded ferrules selected by many top professional and amateur teams. Available in 28°, 32°, 36°.

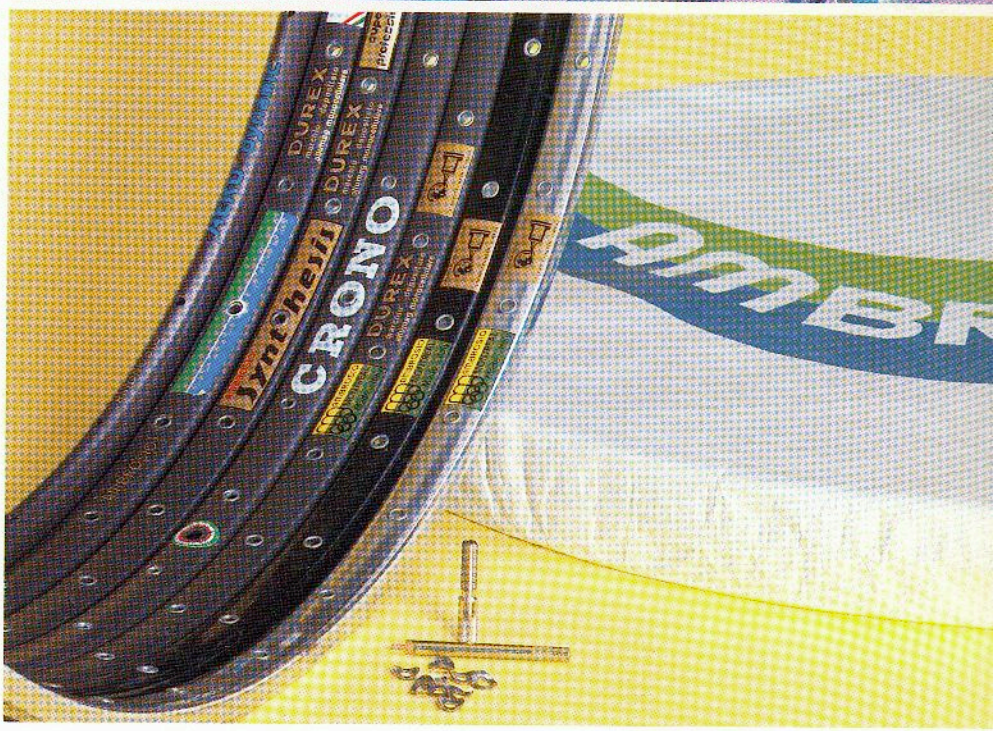

MOD METAMORPHOSIS DUREX - 400gm Heat Treated grey rim. The state of the art in tubular road racing rims. The same shape as the Synthesis but with an exotic metallurgy designed as a fail safe rim on all road conditions. Considering the strength of the rim, it is available in 28° and 32° only and comes with an attractive rim bag.

MOD AERODYNAMIC - 390gm Heat Treated state of the art aerodynamic rim. The only seamless, cold drawn rim in the industry places this rim in a technically superior position to all other aero rims. Available in 28° and 32° only. Ambrosio also provides an extended valve and spoke nipple tool as well as an attractive rim bag with these rims.

MOD HYPOTHESIS - 380gm aerodynamic tubular rim similar in shape to the aerodynamic but the construction characteristics of all the other aero rims. This is a new rim for Ambrosio available in mid 1983 designed for track and road time trials and available in the moderate price range. Available in 28°, 32° and 36°.

MOD MONTREAL - 400gm alloy tubular rim designed for road and track racing and training. A great rim at a very reasonable price. Available anodized Black and Silver in 32° and 36°.

MAVIC RIMS

A great complement to Ten Speed Drive Imports 1983 presentation of the finest cycling components.

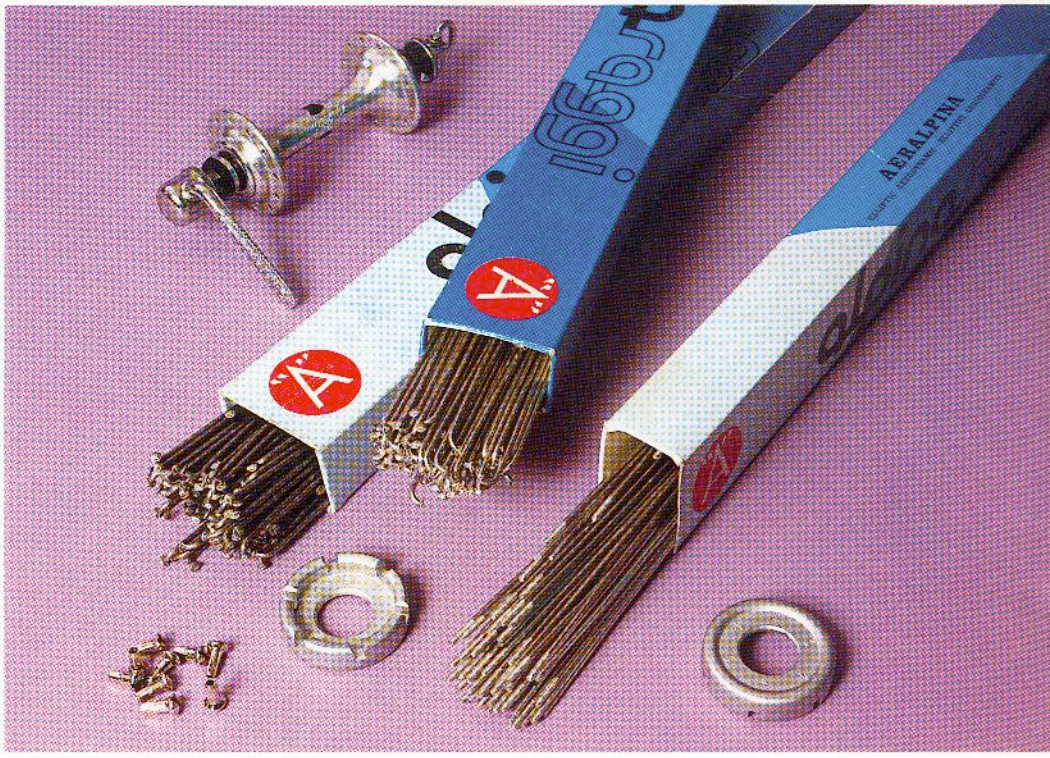

Clincher Rims
G40 - 430gm Heat Treated grey clincher rim designed for sport riding, training and touring characterized by strength and reliability. Available in 27"x1 ¼" and 700c in 36°.
E2 - 400gm anodized clincher rim. Available in 27"x1 ¼" and 700c in 36°.

Tubular Rims
Designed for and raced by many top professional riders.
GP4 - 395gm Heat Treated grey rim designed for road racing, sport riding, and training. 20mm width allows better road contact for cornering and winding descents. Available in 32° and 36°.
BLEU SSC - 395gm very special rim designed for road racing when reliability is an absolute necessity. A direct descendant of the infamous Grise SSC Paris Roubaix. Available in 28°, 32° and 36°.
GRISE SSC - 400gm very special rim designed for the professional road racer. Perfect for all conditions 21.5mm width. Available in 28°, 32° and 36°.

ALPINA SPOKES

Italy's finest spokes known for reliability and high quality using only the finest 18/8 stainless steel.

All spokes are packaged 144 spokes per box with brass nipples.
14G STAINLESS STRAIGHT GAUGE. 258mm, 266, 274, 293, 295, 296, 298, 300, 302, 305, 307mm
14GX16G STAINLESS DOUBLE BUTTED. 292mm, 293, 295, 298, 300, 302, 303, 305, 310mm.
15GX17G STAINLESS DOUBLE BUTTED. 292mm, 293, 295, 298, 300, 302, 303, 305, 307mm.
15G ELIPTICAL STAINLESS SPOKES. 283mm, 285, 288, 290, 292, 293, 295, 298, 300, 302, 305, 307mm.

SAN MARCO CONCOR SADDLES

The CONCOR is the finest quality saddle of this new breed and is still the most popular racing saddle in the world today. Used by many World Champions, including 1982 World Champion Bepe Sarroni and Tour de France star Bernard Hinault.

Concor SL and SC
305gm SL ergal wire model and a 340gm SC steel wire model. Both supporting an anatomically designed racing shell made of the finest materials including a RILSAN shell, a dense foam mid padding, and top quality suede leather. Available in Black or colors including Blue, Red, Brown, and Beige.

Concor Profile
San Marco has constructed this recently designed aero saddle using the original CONCOR design and adding a special nylon insert beneath the nose directing the air more evenly to the outside, therefore reducing air drag. The Profile is available in both SL ergal and SC steel models and in the same colors as the CONCOR.

Concor Junior
The same CONCOR shape and quality of materials but designed specifically for the younger racer's anatomy in mind. The saddle is available in Black suede only and is approximately ⅔ the size of the normal CONCOR.

Concor Maxi
A wider designed CONCOR saddle with extra thick, dense foam for the rider interested in more saddle area and comfort. (Not pictured)

Concor Saddle Cover
A great accessory for anyone's pro bike. Very stylish and functional. Available in White, Red, Blue, Black, Silver and Gold.
