The following options are available on any GLX or GL frame: Pastel Aqua & Gray Phase Paint, Solid Red, Solid Yellow and Solid White.

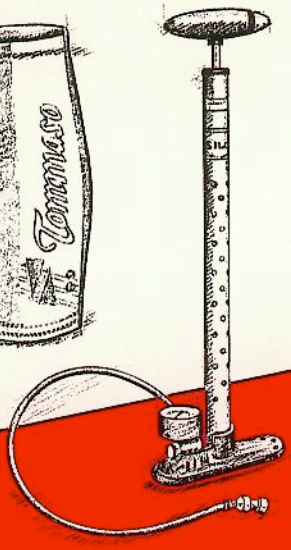

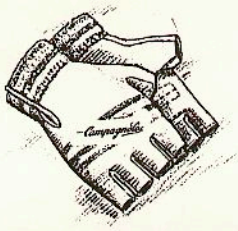

Red, White & Blue Phase Paint

TSDI Frame Prep™ is an unequalled quality control preparation system that ensures precision set-ups. Every TSDI bicycle and frameset must pass exacting standards in milling, bearing alignment and surface wear. We exclusively use Marchetti-Lange frame and fork alignment tables, which verify alignment tolerances of 0.1 mm upon the machined surfaces of the frame. The TSDI Frame Prep™ process guarantees you are receiving the most efficient, durable and professionally prepared bicycle and frameset in the industry.

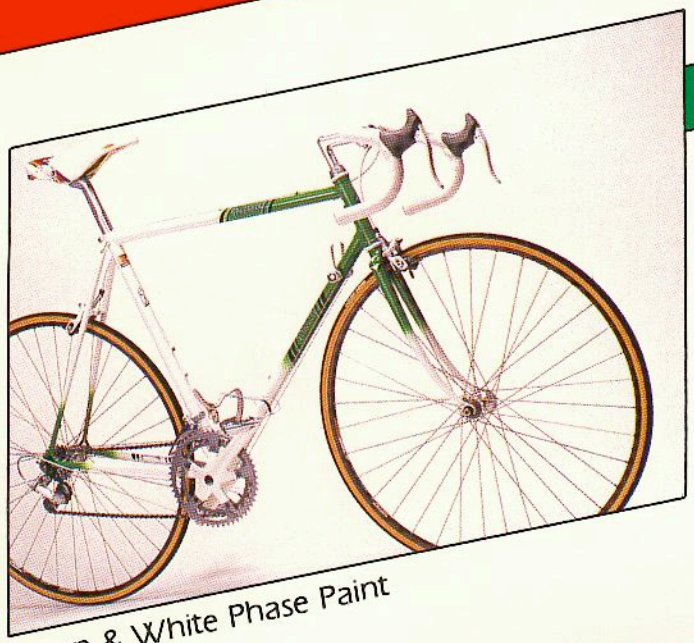

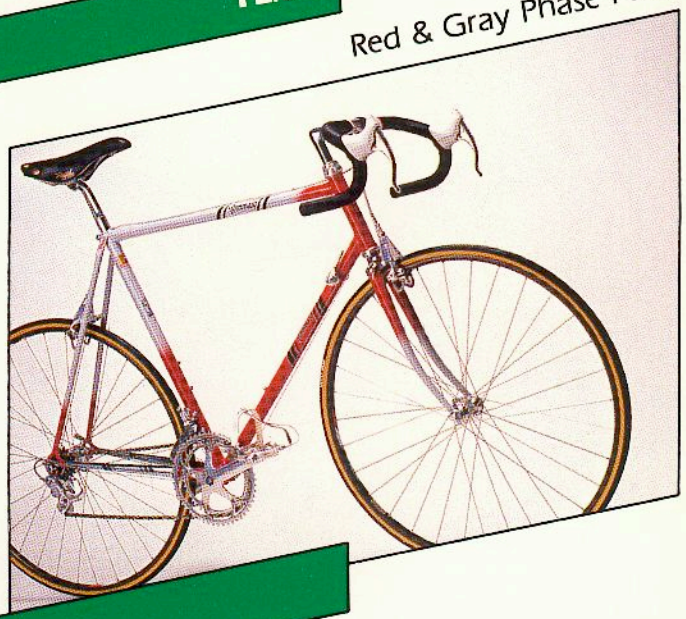

Tommaso®

TL/SL

TSDI Frame Paint™

Tommaso bicycles are specially designed for the most demanding competitors as well as avid cyclists. The Tommaso line features Italian styling with a proven performance record. The Celestial Seasonings Women's Team depends on Tommaso racing bicycles.

RECORD ALUMINUM

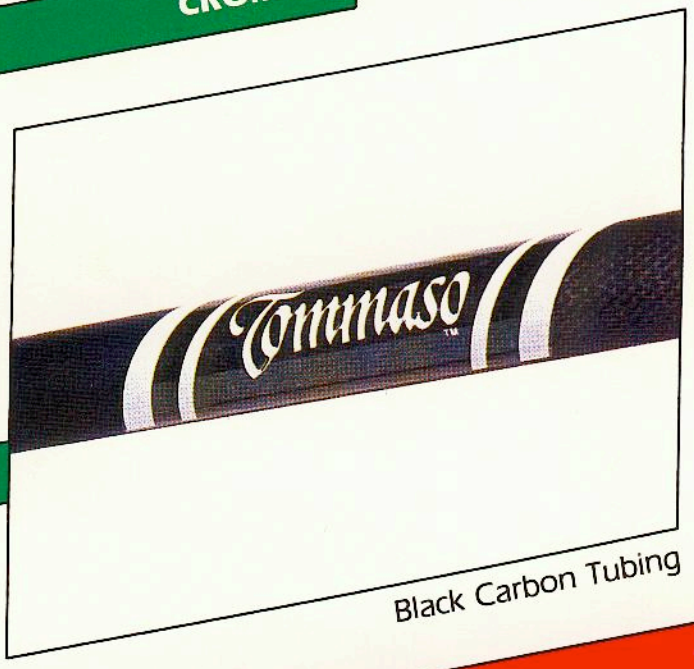

Anodized Matt Black

CROMOR

Solid Red & Solid Blue

CARBON

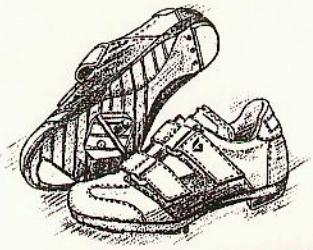

Black Carbon Tubing

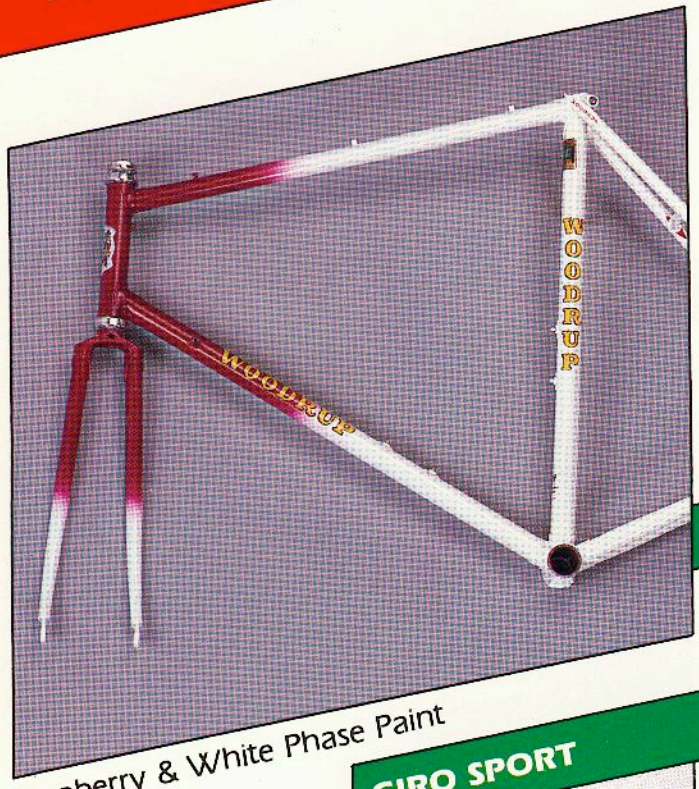

Once a frame has completed the Frame Prep™ process it then receives TSDI Frame Paint™. We have developed state-of-the-art painting facilities at both our east and west coast warehouses, creating a durable and spectacular array of paint finishes. Frame Paint™ begins by degreasing, deburring and brazing shut all the builder's vent holes. The frame is then bead blasted with glass beads to clean and stress relieve the surface of the tubing.

WOODRUP

Woodrup is TSDI's only premier English line. Two generations of precision craftsmanship stand behind every Woodrup bicycle and frameset. Only 150 framesets are annually distributed in the U.S. Woodrup bicycles are the imperial choice for the serious racing contender, as well as the occasional touring cyclist.

Champagne

TSDI Frame Paint™ continues with an initial application of DuPont® Red Colar Epoxy Primer, and followed by a thorough sanding to achieve a smooth uniform finish. The frame is then color coated with DuPont Imron®, a two-part polyurethane paint. The decals and accenting color to the cutouts are hand detailed. Finally the entire frame and fork, including chrome, receives a clear coat of 500S Imron®. The frame is then baked to a full cure. Every TSDI Frame Paint™ bicycle is virtually maintenance free and showcases the industry's finest paint process.

Rossin

The Rossin line portrays an Italian heritage of championship bicycles chosen by pro teams Hitachi and Magniflex. Rossin bicycles are demanded for their premiere racing geometries by serious cyclists. The Rossin Mountain bike offers the ultimate cycling alternative. Rossin bicycles are for winning!
