

Tommaso

Tommaso TLX 9650 Croce D'Aune

Tommaso bicycles are the world's finest racing machines, built from years of research and racing experience. Designed in conjunction with Italy's top frame builders, each Tommaso is built with Columbus tubing, Investment Cast Conjunctions and superior chrome. Ten Speed Drive Imports perfects the Italian frame design with our multi-step TSDI Frame Prep™ process and a superior paint finish only TSDI and DuPont® can provide. The construction of each TLX is a laborious process of hand work including Columbus SLX tubing, full Investment Cast Conjunctions and chrome forks. The TLX model is a professionally ranked racing bicycle, beautifully finished and hand detailed with DuPont Imron® paint. The combination of craftsmanship, quality materials and a hand finish substantiate the expenditure for a quality racing bicycle. Tommaso TLX frames have been chosen by many of the world's top cyclists including Rebecca Twigg and her Celestial Seasonings Women's Team.

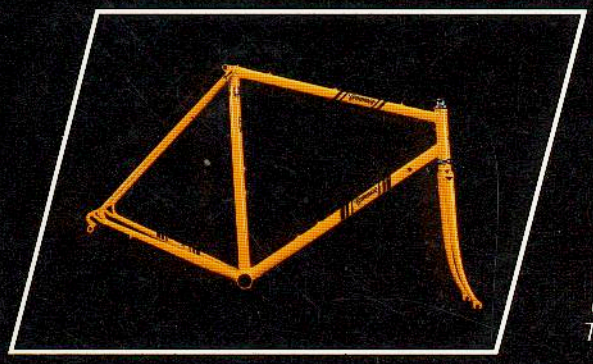

TLX Component Packages:

Record C, Croce D'Aune, Chorus, Super Record, Sante'.

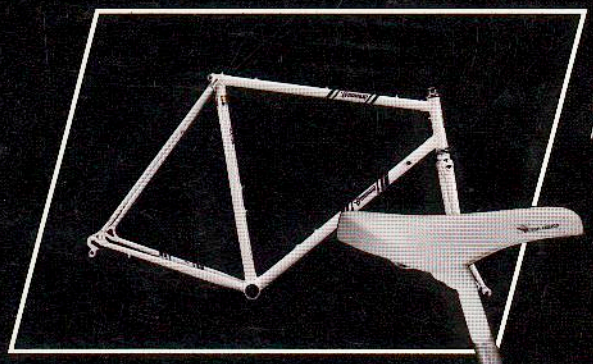

TLX Color Options:

Red/Gray/Yellow/Blue, Red/Gray, Blue, Red, White (see TL), Yellow (see TL); Blue/Yellow, Fuchsia/White.

Tommaso TL Sante'

The Tommaso mystique begins in Veneto, Italy where frame building is a legacy handed down over generations. Fulfilling the market demand for an affordable quality racing bicycle, the Tommaso TL offers cyclists performance geometries on a lightweight Columbus SL frameset, at a moderate price. The Tommaso line is designed for optimum rider efficiency.

Tommaso is committed to producing a quality racing line with a spectrum of competition and sport bicycles. Built upon an Italian heritage of racing performance. Tommaso bicycles are brought to perfection with the TSDI Frame Paint™ process using DuPont Imron® paint for a long lasting quality finish.

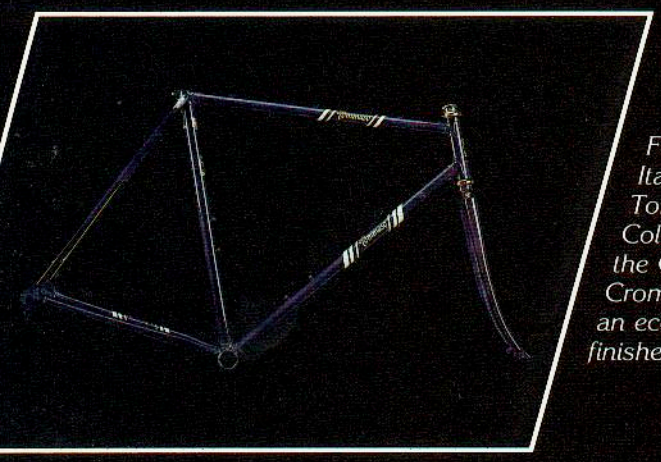

TL Component Packages:

Croce D'Aune, Chorus, Super Record, Sprint, Sante', 105.

TL Color Options:

Green/White, Yellow, White, Blue (see TLX), Red (see TLX), Blue/White.

Tommaso TC Cromor 105 Sprint

For fifteen years Ten Speed Drive Imports has been the leading professional Italian specialist in North America. Serious trainers and triathletes ride the Tommaso Cromor for its reliability and proven performance record. Built with Columbus Chrome-Molybden steel alloy tubing for a light weight frame design, the Cromor will retain its appearance and value for years to come. Tommaso Cromor's are built with competition specifications and are Tommaso's answer to an economically priced competition/training bicycle. Of course it is beautifully finished by the TSDI Frame Paint™ process.

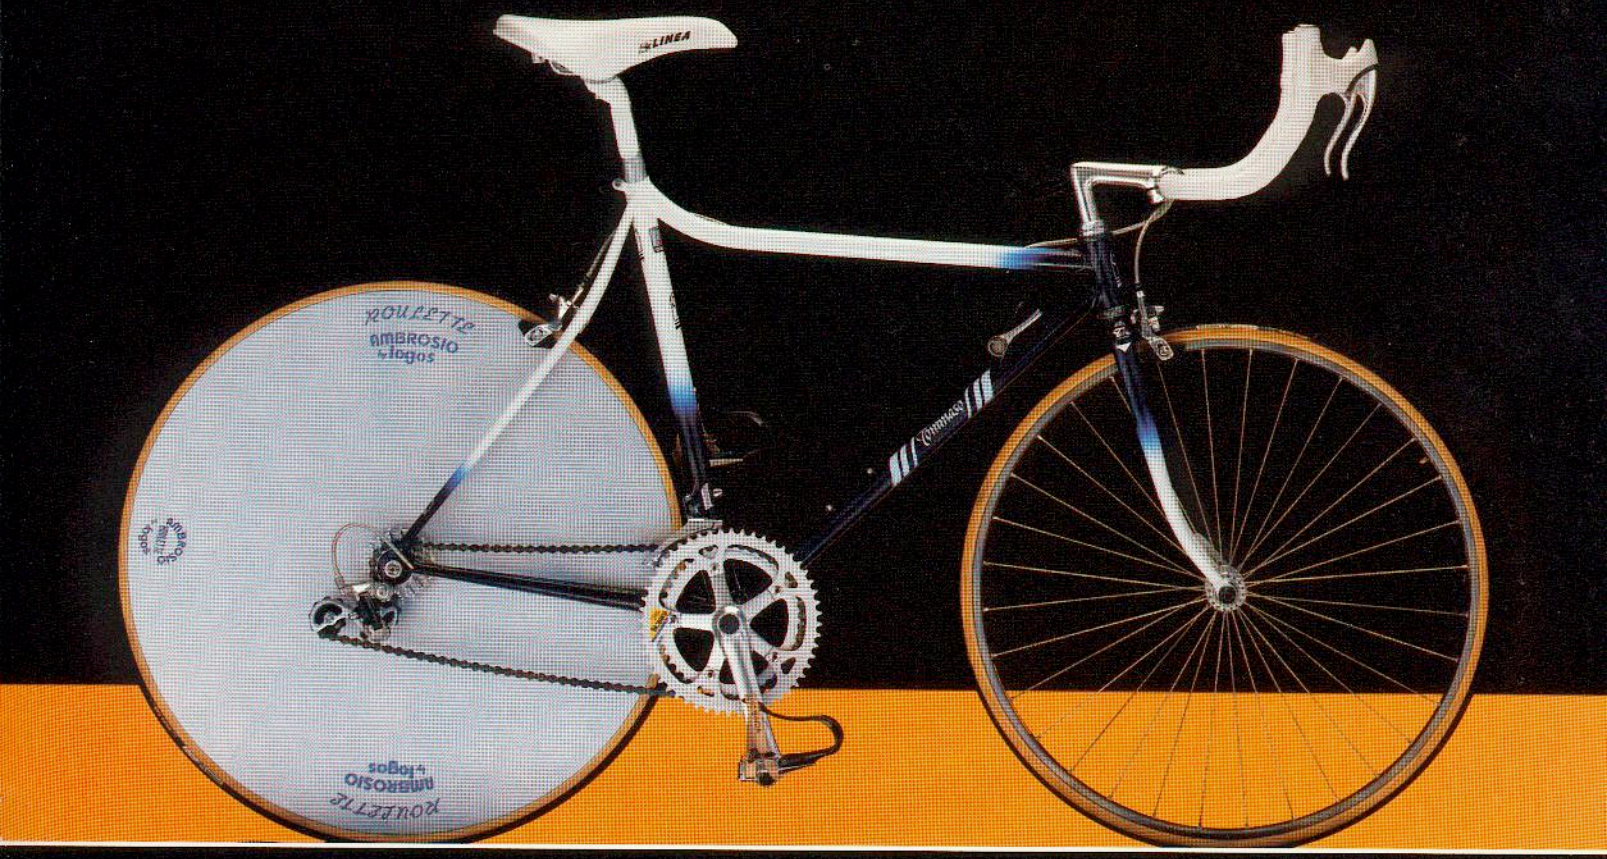

Cromor Component Packages:
Chorus, Sprint, 105.

Cromor Color Options:
Red, Blue.

Tommaso TC Crono Cromor 105

Realizing the need for speed, Tommaso has two Crono models available, depending upon your design specifications. The Crono SLX is a superior, hand built bicycle with internally ribbed Columbus SLX tubing, offering greater rigidity when those final seconds really count. Built with the same performance geometries is the Crono Cromor, a moderately priced, hand painted time trial machine. The Crono Cromor features Columbus Chrome-Molybden tubing and a DuPont Imron® TSDI phase paint finish. All Tommaso Crono bicycles are designed to provide superior stability and precision handling not usually found on Crono frame designs.

TOMMASO CRONO BICYCLES

Crono SLX Component Packages:
Record C, Croce D'Aune

Crono SLX Color:
Blue/White

Crono Cromor Component Packages:
Chorus, Sprint, 105.

Crono Cromor Color Option:
Blue/White.

Tommaso TA 5000
Record Sprint Aluminum

The Record Aluminum is a performance racing frame with a virtually maintenance free anodized black and silver finish. Built with lightweight 5130 Aluminum tubing, the Record Aluminum offers a stiff frame design which cushions the rider from road shock.

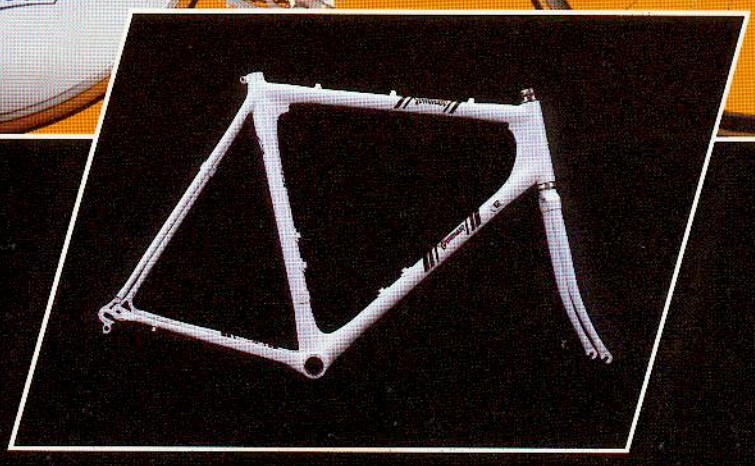

Record Aluminum Component Packages:
Chorus, Sprint, Sante', 105.

Record Aluminum Color Option:
Matt Black.

The Future of Tommaso

Tommaso bicycles have achieved international and national recognition, including a Gold Medal at the 1987 Pan American Games. The future technology of Tommaso is already becoming a reality today. Ten Speed Drive Imports and Colorado's Advanced Composite Technology are jointly developing a new, superior composite frame. The frame is designed with Advanced Composite Technology's space-age proprietary technology using carbon tubing and a wet wrap lugging system. The U.S. Olympic Cycling Team will compete in Seoul on bicycles built with tubing produced by ACT. Tommaso is also developing a specialized competition frame using the revolutionary new Columbus Max tubing. The Max tubing features an oval profile for a sleek racing frame.
